FLAMELIGHTS, ASIA WOVEN	15 - 16

◀ Sparklers - Deer Park

A sophisticated diffuser film inside the lamp splits up the light from the dozen internal warm white LEDs into a myriad points of light which then frame a Winter scene of deer and fir trees, giving a bright glistening frost effect to the entire scene. The high quality moulded glass has a thin coating of iridescent film and this discrete rainbow sheen is enhanced by the two-tone light from the LEDs which display gentle shades of rose and gold throughout the sparkling frosted landscape.

PRICES		1+	8+	16+	24+

◀ Pyramid Lamps

These wonderful lamps with their amazing 3-D holographic windows use 16 LEDs bound to a rotating spindle to display a mass of stars or exploding starbursts swirling around inside them - either in warm white or rainbow colours. These come in two sizes, 60cm and 45cm, and are housed in a highly polished stainless steel frame. The Pyramids are for indoor use only and are supplied with a low voltage mains transformer.

PRICES		I+	4+	8+	RRP

## ◀ Shadow Lamps

Shadow Lamps by Luxa are a highly unusual and attractive LED lamp with hidden images that only come to light when the lamp is turned on. The thick laminated card shade is printed both inside and out to show a gentle, peaceful design when the lamp is off, but something rather more interesting and active when turned on. The Shadow Lamps have an option of three lighting modes – continuous, gentle pulse or a tea light flicker. The Shadow Lamps can be run off the mains with the 2m USB cable supplied or with 3 x 'AA' batteries (not supplied).

- 210g
- Card,ABS

## ▲ Frosties

The Frosties variation contain a set of sequentially flashing warm white LEDs whose light is diffused through a sophisticated textured film to give a bright, sparkling frosted effect to the acid-etched designs.

**3 designs: City, Winter and Fantasia.**

## ▲ Frosty Twinklers

A hybrid of the Frosties and the Twinklers, the Frosty Twinklers use the same frosted diffuser foil of the Frosties together with the colourful Twinkler LED format. The effect is a bright and sparkling ever-changing multi-coloured display shining through the cut-out patterns of the lamps.

**3 designs: City, Winter and Fantasia.**

## ◀ Twinklers

The Twinklers are a really cute and colourful flickering lamp by daylight, but in a dark environment they turn into something really rather special. There are 4 different colours in each LED and these blend into many more shades, and the polished interior multiplies the number points of light many times over to give a very busy and colourful effect indeed. The ever-changing patterns and colours thrown onto nearby surfaces is quite entrancing.

**3 designs: Flower, Fantasia and Forest.**

PRICES	1+	4+	8+	16+
Frosties	7.70	7.35	7.05	6.80
Frosty Twinklers	7.70	7.35	7.05	6.80
