DEAR PLANT LOVERS PARTNERS FRIENDS

Wonach wir eigentlich streben: Ausgewogenheit. Balance. Nach dem Mittelweg zwischen einem „Zuviel“ (zum Beispiel Stress) und „Zuwenig“ (zum Beispiel Zeit).

Wie wir darauf kommen? Ihre Kunden, die Verbraucher, beschäftigen sich damit, vor allem, wenn es um ihr Zuhause geht - der Ort, an dem sie diesen Ausgleich genießen wollen. Die Schweden sagen dazu „**LAGOM**“ und meinen „**GERADE RICHTIG**“.

Dieses Prinzip lebt vor allem in einer unserer vielen neuen Übertopf-Serien, die (wie sollte es anders sein) auch Lagom heißt: die natürlichen Farben wirken auf der faszinierenden Oberfläche je nach Lichteinfall und Wohnambiente immer wieder aufregend anders und entspannt zugleich. Eben gerade richtig, wie Sie auf S. 40 sehen können.

NACHHALTIGKEIT. Wir nutzen nachhaltige Materialien und produzieren langlebige, 100 % wasserdichte Produkte in bester Qualität – **GARANTIERT!** Und daher gerade richtig, entspricht dies doch den Bedürfnissen und den Erwartungen vieler Verbraucher.

DESIGN. Zwischen kurzweiligen Trends und langlebigen Dauerklassikern treffen wir den Ton, der gerade richtig passt – vor allem in die verschiedenen Wohnräume Ihrer Kunden: Alle unsere Übertopf-Serien sind immer gerade richtig, denn sie sind echte Highlights, sowohl in entspannt-natürlichen als auch in lässig-schlichten Wohnstyles.

IMMER MODERN, TRENDBEWUSST, ABER NIEMALS LANGWEILIG. Lassen Sie uns „**LAGOM**“, den Mittelweg, gehen, zusammenarbeiten, gemeinsam Umsatz-Erfolge feiern – **GERADE RICHTIG IN DIESER UNRUHIGEN ZEIT.**

What do we really strive for: Maybe balance? The middle ground between “too much” (for example stress) and “too little” (for example time).

How do we arrive at this? Your customers, the consumers, are concerned with this, especially when it comes to their home - the place where they want to enjoy this balance. The Swedes say “**LAGOM**” and mean “**JUST RIGHT**”.

This principle lives above all in one of our many new pot ranges, which (how could it be otherwise) is also called Lagom: the natural colours look, at the same time, depending on the effect of light and living ambience excitingly different and relaxing on the fascinating surface structure. Just right, as you can see on page 40.

SUSTAINABILITY. We use sustainable materials and produce durable, 100% waterproof pots of the best quality – **GUARANTEED!** And therefore this meets the needs and expectations of many consumers.

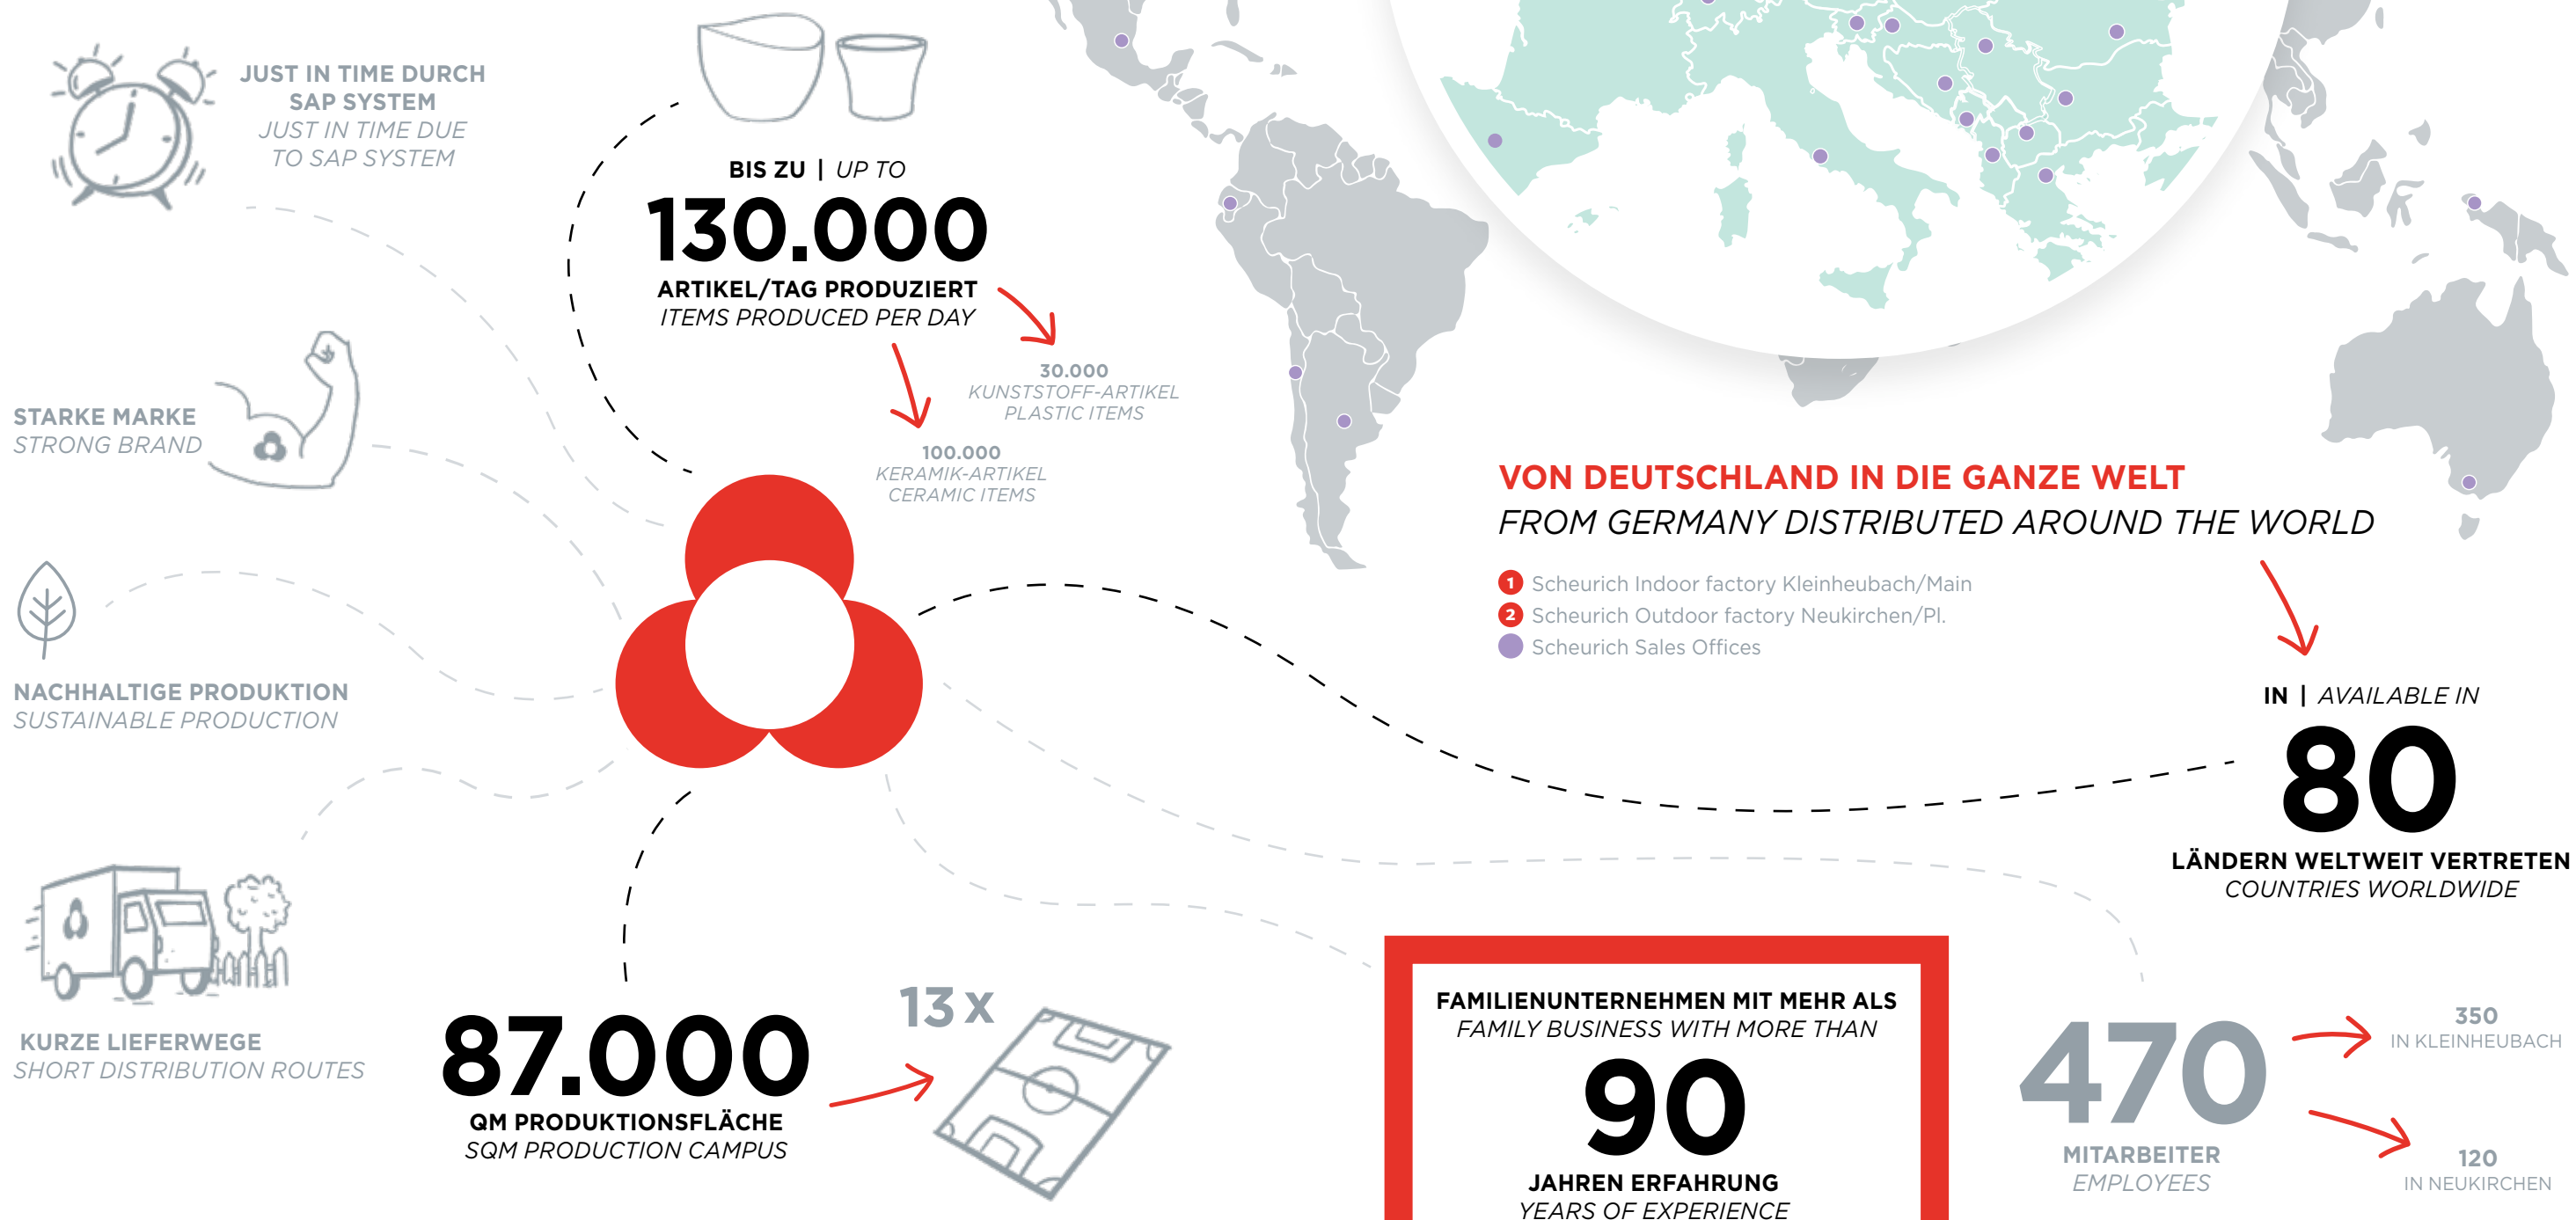

DESIGN. Between pop-up trends and long-lasting classics, we focus on striking the right note - especially for the different living spaces your customers have. All of our pot series are always just right, because they are individually real highlights, suitable for the relaxed natural as well as casually simple living styles.

ALWAYS MODERN, TREND-CONSCIOUS, BUT NEVER BORING. Let us go “**LAGOM**”, the middle way, work closely together and celebrate sales successes together – **JUST RIGHT IN THESE TURBULENT TIMES.**

DESIGN STORY

Woher kommen die Ideen?

AUFMERKSAM SEIN – ENTSPANNT BLEIBEN – UND DIE IDEEN FLIESSSEN LASSEN: Neben ausprobieren, verwerfen, erneut ausprobieren ein guter Weg, um neue Produkte zu entwickeln. Und natürlich setzen wir auf unsere umfassende handwerkliche Erfahrung, unsere geschulten Augen und moderne Technik. So entstehen innovative Keramik-Übertöpfe, wie Stone Look, die auf ganzer Linie faszinieren.

Where do ideas come from?

BE ATTENTIVE - STAY RELAXED - AND LET THE IDEAS FLOW: Aside of trying out, discarding, trying again – this is a good way to develop new products. And, of course, we rely on our extensive experience in craftsmanship, our trained eyes and modern technology. This mix is how we come to create innovative ceramic pots like Stone Look, which fascinate in every aspect of its design.

WE CREATE YOUR **SUCCESS**

Sind wir überzeugt von den neuen Formen und Dekoren, erstellt unser Modellbau Muster. Die verschiedenen Topf-Größen sind immer auf gängige Pflanzcontainer abgestimmt. Steht das Konzept, testen wir die neuen Produkte im Markt und digital via Umfragen: Nehmen die Kunden die Form, die Designs, die Farben an? Welche gefallen am besten? Nach letzten Anpassungen kommt die Produktserie ins Sortiment.

Once we're convinced of the new shapes and decors, our model making team creates samples. The different pot sizes are designed to allow common plant containers fit. When the concept has been finalised, we test the new products on the market and digitally via surveys: Do consumers like the shape, patterns, colours? Which ones do they like best? Final adjustments are made – and then the new product line is added to our product range.
