# 20mm Porcelain Paving

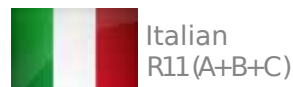

Garden Paving

# The benefits of our 2CM Collection

- ✓ True 20mm
- ✓ Inside 10mm available in most ranges
- ✓ Special pieces available in most ranges
- ✓ High resistance to staining
- ✓ Greater breaking strength
- ✓ Multi functional
- ✓ Easy to jet wash
- ✓ Can be used with Pedestals
- ✓ Superior quality

## Symbols Key

# Slip Ratings Defined

## R11

The 'R' rating is given as what is called a SHOD Test. When wearing Boots, it is the point at which it is likely to cause slip.

'R11' is somewhere between 19-26 degrees

An R11 will achieve between 34-51 on a PTV Test

## A+B+C

This is a BAREFOOT TEST

e.g. in wet areas, swimming pool areas, patios etc.

A = 12-17 degrees

B = 18-23 degrees

C = 24+ degrees

Again the above ratings are the degrees at which point it is likely to cause slip.

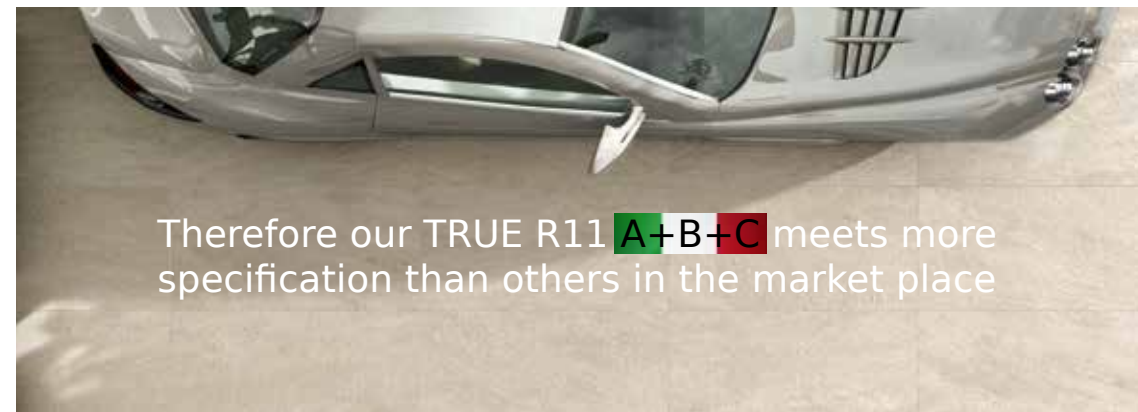

A 12-17°

B 18-23°

C 24° plus

Therefore our TRUE R11 **A+B+C** meets more specification than others in the market place
