

CORONA®

SEASON AFTER SEASON

AMERICAN ENGINEERING SINCE 1928
BUILT FOR PERFORMANCE

AN INTRODUCTION TO CORONA® TOOLS

Corona® is America's leading tool innovator, offering tools with outstanding strength and lasting durability, based on a need for reliability.

The story starts in 1928, in California's expanding citrus industry, which came to be known as the state's second Gold Rush. Back then, transporting the fresh fruit to the east coast by rail could take 15 days, and it often arrived in poor condition. Growers needed a solution to help deliver the fruit in prime condition so they could command a premium price.

At the time, the fruit was simply pulled from the tree, leading to spoilage during transport. Longer, broken stems would also pierce and damage the rinds of neighbouring fruit. Realising the issue, a local school teacher noted that harvesting by cutting would be less damaging, and that a precision cutting tool would sever the stem cleanly and smoothly, leaving each orange intact for its long journey.

Inspired, the school teacher designed a hand tool, and asked a local blacksmith to forge it. Following the teacher's specification, the smith used his traditional metalworking skills to produce a small, precise and durable orange shear, which proved to be an ideal solution. Thanks to this innovation in the harvesting process, the world could enjoy beautiful citrus fruit from the Golden State. The blacksmith, meanwhile, went on to become a supplier to the California citrus industry - and Corona® was born.

Ninety years later, Corona® still produces this shear and continues to excel at combining the best of American engineering with innovation, to solve real problems for professionals and keen gardeners. It develops tools that can tackle the toughest and most extreme conditions, while achieving the professional results its users demand. A Corona® tool is the promise of superior quality with lasting performance, season after season.

PRODUCT INTRODUCTION

Corona® tools are designed for gardeners and landscaping enthusiasts who demand a feature-rich tool for their gardening projects. Corona® tools and accessories combine lightweight control and comfort with trusted reliability, value and performance, season after season.

For jobs where only superlative specification and durability will do, the **MAX** and **MAX FORGED** ranges offer best-in-class performance. The choice of professional gardeners across America, these ranges provide the ultimate assurance of quality. And if a tool does eventually wear down, there are replacement parts available, to get back up and running quickly and easily.

MAX FORGED
SHARPNESS & DURABILITY™

Created from the hardest, most durable steel, **MAX FORGED** tools are designed to stay sharper, for longer. High-grade, heavy duty steel is heated and hammered to create exceptionally strong and durable professional grade tools, to give many years of superior performance. Offered primarily in tool ranges for cutting (pruners, loppers, hedge shears) and for striking tools (picks/axes), as well as some spades.

MAX
SHARPNESS & DURABILITY™

Careful selection of the right material for the job and a host of thoughtful design features make **MAX** tools the right choice for professionals, meeting and exceeding the rigorous demands of the job at hand. These tools offer heavy-duty durability and lasting performance, season after season. **MAX** tools offer a best-in-class performance for many products where forging isn't appropriate - for example, saw blades.

THE DROP FORGED DIFFERENCE

MAX FORGED
SHARPNESS & DURABILITY™

Corona® **MAX FORGED** tools are produced using the Drop Forging manufacturing process.

Drop forging involves heating the metal and hammering it in to a special die to produce a tool. As the metal is shaped during the forging process, voids are removed and its internal grain structure is altered and aligned to follow the general shape of the tool.

This resulting continuous grain gives rise to a piece with significantly improved strength characteristics. A drop forged tool delivers the ultimate in terms of strength, durability and crucially, in the case of cutting tools, it results in a blade that will hold its edge for the longest time - an invaluable product benefit for keen gardeners and professional users.

TECHNICAL FEATURE GUIDE

MAXFORGED
SHARPNESS & DURABILITY™

ClassicCUT®

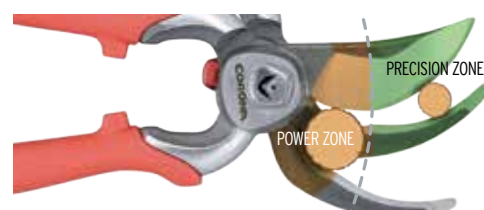

Exceptional hand pruners with designs that have stood the test of time. Simplicity of design, proven strength and lasting sharpness are their hallmarks. The **ClassicCUT®** family is favoured by landscaping professionals and gardeners who are seeking outstanding cutting performance with the longest lasting sharpness.

ClassicCUT® Pruners are fully drop forged, giving optimal strength in both the blade and the handle. **ClassicCUT®** tools have a further benefit in that the ends of the forged steel handles are left exposed to give them greater resistance to tough use - including contact with hard ground surfaces. Replacements are available for most of the key parts in the **ClassicCUT®** range, giving confidence and convenience to the demanding user.

MAXFORGED
SHARPNESS & DURABILITY™

DualCUT™

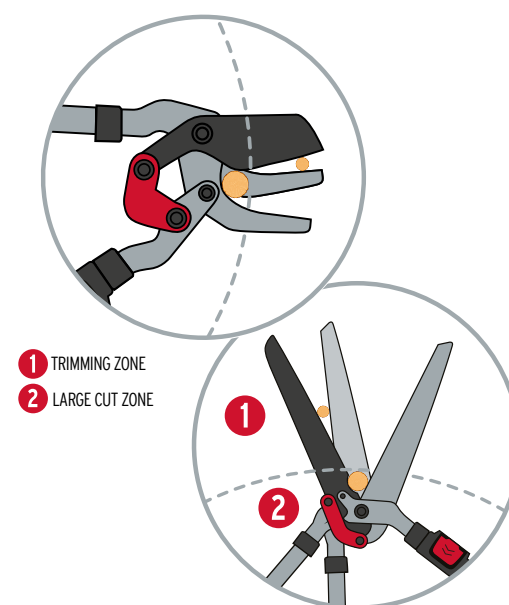

Developed in 2011, **DualCUT™** is a patented and revolutionary design of cutting blade with a pronounced hook (or cutting block), allowing gardeners to efficiently cut smaller stems without having to open the blades to the extent that would be required with regular pattern blades. The benefits of this reduction in wrist movement become quickly apparent when used for repeated prunings. This energy-saving feature is delivered in the upper half of the blade and hook and is known as the 'precision zone'. The lower half adjacent to the pivot forms the 'power zone', a key feature that keeps the limb in place for maximum cutting power.

The **DualCUT™** design is only available on drop forged blades and can be found on hand pruners, loppers and hedge shears. **DualCUT™** tools have a further benefit in that the ends of the forged steel handles are left exposed to give them greater resistance to tough use - including contact with hard ground surfaces. Replacements are available for most key points of wear in the **DualCUT™** range, giving confidence and convenience to the demanding user.

DualLINK™

DualLINK™ is a power-increasing feature added to many tools across the range from hand pruners to hedge shears and loppers. The effects of **DualLINK™** can be enjoyed in the form of reduced effort to make a cut or ability to make a larger cut. These **DualLINK™** benefits are applicable to all gardeners but particularly so to those with less strength, where ease of cut is most important.

ComfortGEL®

The **ComfortGEL®** family is a range of great quality, everyday tools, with a range of features specifically designed to appeal to the domestic gardener. Comfort of handle, ease of cutting, lightness of weight are just some of the areas where **ComfortGEL®** tools deliver.

PACKAGING AND PRESENTATION

The Corona® brand embodies strength, durability and reliability, and these values are encapsulated in the Corona® product packaging. The strong red, black and white colour scheme is instantly recognisable from a distance, offering a stand-out look in-store.

The branding of the product packaging is echoed and reinforced by the range of eye-catching display solutions (see pages 64-68), for a distinctive and memorable look.

LOPPERS

Perfect for tackling out-of-reach growth, larger stems and even small branches, these loppers have been designed and engineered to exceed expectations. For routine tree and shrub care, or hard cutting back, this range of loppers offers a highly effective combination of performance and durability.

THE PERFECT LOPPER FOR EVERY GARDENER...

The loppers in this section include **MAX FORGED** options, **ClassicCUT®** and **DualCUT™**, giving the durability of a forged blade, with classic design and a more engineered approach. In addition, the compound action of the **DualLINK®** loppers offers maximum cutting power, with minimum effort. Finally, there are the easy-to-use **ComfortGEL®** designs, featuring lightweight construction and tactile gel grips for superb handling comfort.

Limb&Branch Lopper

DualCUT™

SL7180BB | OVERALL LENGTH - 79CM

- Requires less cutting effort due to patented blade and hook design
 - Professional-grade blade for longer-lasting sharpness
 - Fully forged steel construction for strength
 - Easy to resharpen
 - Reduced hand and shoulder fatigue with integrated ShockGUARD® bumper system
 - Comfortable handle with contoured soft grip, fits various hand sizes
 - No-fail metal end cap - handles can be used to gather debris
 - **Lifetime warranty**
 - Replacement parts available
- Case Qty: 3

Patents U.S. D660,104, D664,406, 8,910,386, Canada 2,775,512

Limb&Branch Lopper

DualLINK™

SL8180BB | OVERALL LENGTH - 79CM

- Boosted power and reduced effort
 - Enhanced performance delivering up to 3X cutting power from dual compound lever
 - Fully forged steel construction for strength
 - Easy to resharpen
 - Comfortable handle with contoured soft grip, fits various hand sizes
 - Reduced hand and shoulder fatigue with integrated ShockGUARD® bumper system
 - No-fail metal end cap - handles can be used to gather debris
 - **Lifetime warranty**
- Case Qty: 3

Patents U.S. D660,104, D664,406 & D802,383, Canada 172121

Limb&Branch Lopper

ComfortGEL® grips

SL3264BB | OVERALL LENGTH 76CM

- Excellent everyday pruning
 - Specially coated non-stick blade provides enhanced cutting performance
 - Reduced hand and shoulder fatigue with ShockGUARD® bumper system
 - Maximise comfort and control with soft, ergonomically-shaped grips
 - **10 year warranty**
- Case Qty: 6

EXTENDABLE HANDLES

Limb&Branch Lopper

DualLINK™

with **ComfortGEL®** grips

SL4264BB | OVERALL LENGTH 79CM

- Boosted power and reduced effort
 - Dual compound lever provides added power
 - Two-zone blade for large and small cuts
 - Specially coated non-stick blade provides enhanced cutting performance
 - Reduced hand and shoulder fatigue with ShockGUARD® bumper system
 - Strong and lightweight metal handles
 - Maximise comfort and control with soft, ergonomically-shaped grips
 - **Lifetime warranty**
- Case Qty: 3

U.S. Patents D726,523

Limb&Branch Lopper

DualLINK™

with **ComfortGEL®** grips

SL4364BB | OVERALL LENGTH 74-94CM

- Boosted power and reduced effort with extended reach
 - Extendable handles with innovative locking mechanism
 - Dual compound lever provides added power
 - Two-zone blade for large and small cuts
 - Aluminium outer handle, steel inner handle
 - Specially coated non-stick blade provides enhanced cutting performance
 - Reduced hand and shoulder fatigue with ShockGUARD® bumper system
 - Maximise comfort and control with soft, ergonomically-shaped grips
 - **Lifetime warranty**
- Case Qty: 3

U.S. Patents D726,523 & D712,230

HEDGE SHEARS

Bringing the best of American engineering to the classic British garden hedge, this selection of hedge shears combines durability with performance. For precision shaping and trimming of soft green growth, to more powerful cutting of thicker individual stems, these shears will create the perfect crisp finish.

KEEPING EVERYTHING IN TRIM...

The hedge shears in this section include easy-to-use **ComfortGEL®** tools, featuring lightweight construction and tactile gel grips for superb handling comfort. Some of these designs incorporate the **DualLINK®** compound action for maximum cutting power, with minimum effort. The **MAX FORGED** selection gives the durability of a forged blade, and features either **SerratedBLADE®** design to grip stems for easy cutting, or **DualCUT™** engineering for control with a powerful cut where required.

Hedge Shear

DualCUT™

HS7140BB | 25.5CM BLADES | 32CM STEEL HANDLES

- Enhanced performance with large cuts due to patented blade design - includes limb notch
 - Easy to sharpen
 - Professional-grade forged steel blades deliver longer-lasting sharpness
 - Comfortable steel handles with contoured soft grips fit various hand sizes
 - Reduced hand and shoulder fatigue with integrated ShockGUARD® bumper system
 - Fully forged steel construction for strength
 - No-fail metal end cap - can be used for gathering debris
 - **Lifetime warranty**
 - Replacement parts available

Hedge Shear

ComfortGEL® grips

HS3244BB | 23CM BLADES | 33CM HANDLES

- Excellent everyday hedge trimming
 - Lightweight strong steel handles
 - Specially coated non-stick blades provide minimum resistance
 - Reduced hand and shoulder fatigue with ShockGUARD® bumper system
 - Maximise comfort and control with soft, ergonomically shaped grips
 - Resharpenable blades
 - **10 year warranty**
- Case Qty: 6

5 019360 015185

Hedge Shear

DualLINK™

with **ComfortGEL®** grips

HS4244BB | 25CM BLADES | 35.5CM HANDLES

- Minimise cutting effort with dual compound lever - open handles less to cut more
 - Specially coated non-stick blades provide minimum resistance
 - Serrations on blade for easier cutting
 - Lightweight strong steel handles
 - Reduced hand and shoulder fatigue with ShockGUARD® bumper system
 - Maximise comfort and control with soft, ergonomically shaped grips
 - Resharpenable blades
 - **Lifetime warranty**
- Case Qty: 6

U.S. Patent D703,498

Hedge Shear

DualLINK™

with **ComfortGEL®** grips

HS4344BB | 25CM BLADES | 42.5-62.5CM HANDLES

- Minimise cutting effort with dual compound lever - open handles less to cut more
 - Reduced hand and shoulder fatigue with ShockGUARD® bumper system
 - Specially coated non-stick blades provide minimum resistance
 - Serrations on blade for easier cutting
 - Aluminium outer handle, steel inner handle
 - Maximise comfort and control with soft, ergonomically shaped grips
 - Extendable handles with innovative locking mechanism
 - Resharpenable blades
 - **Lifetime warranty**
- Case Qty: 3

LONG REACH CUTTING TOOLS

The easy way to cut at a distance, these long reach tools let you keep your feet firmly on the ground, while pruning overhead or in thick growth. Innovative design brings saw and pruning blade together in one tool, for a simple all-in-one solution to tackle those difficult pruning jobs.

A CUT ABOVE...

The long reach cutting tools in this section include a Cut'n'Hold pruner which holds the stem until released - perfect for spiny or thorny stems. For pruning at height, there's a **DualCUT™** combination saw and pruner, and for the ultimate way to cut at height, a **MAX** combination saw and pruner features a **RazorTOOTHsaw®** super-sharp blade.

Extendable Tree Saw & Pruner
RazorTOOTH Saw®

TP6870BB | 33CM BLADES | REACHES UP TO 4.26M
SAW CUTS UP TO 20CM

- RazorTOOTH Saw® tempered blade with 3-sided teeth finishes up to 2X faster than conventional saws
 - Pruning head with 3X cutting power features a compound action pulley system and heavy-duty chain drive for branches up to 3cm
 - 3-sided impulse-hardened teeth stay sharp longer
 - Chrome-plated blades reduce friction and improves efficiency
 - SK5 steel blade contains higher carbon which means harder steel, allowing blade to stay sharper longer
 - **10 year warranty**
 - Replacement parts available
- Case Qty: 3

5 019360 015574

Extendable Tree Saw & Pruner
DualLINK™

TP4214BB | 30.5CM BLADE | REACHES UP TO 4.26M
SAW CUTS UP TO 17.5CM

- Pruning head with dual compound lever provides added power for cuts up to 2.5cm
 - Tempered steel triple-ground saw blade
 - Overall length extends with twist-lock adjustment
 - Rope drive activation
 - **10 year warranty**
 - Replacement parts available
- Case Qty: 2

5 019360 015581

Branch & Stem Pruner
Cut'n'HOLD
LongREACH

LR3460BB | REACHES UP TO 117CM

- Ideal for overhead work
 - Cut 'n' hold feature holds stem until you release the grip
 - High-carbon steel blade and anvil are fully heat-treated
 - Overall length of 117cm allows reach to otherwise inaccessible areas
 - Non-stick coated blade for less resistance
 - Adjustable foam grip provides balance and ease of use
 - Ergonomic grip for comfort
 - Resharpenable blade
 - **10 year warranty**
- Case Qty: 6

5 019360 015567

RazorTOOTH Saw®
Replacement Blades

AC7241BB | FITS CORONA® TP6870BB

- Bolt-on design
 - 3-sided impulse-hardened teeth stay sharp longer
 - Chrome-plated blades reduce friction and improve efficiency
 - SK5 steel blade contains higher carbon which means harder steel, allowing blade to stay sharper longer
- Case Qty: 6

5 019360 015536

AC7243BB | FITS CORONA® TP4214BB

- Bolt-on design
 - 3-sided impulse-hardened teeth stay sharp longer

 - SK5 steel blade contains higher carbon which means harder steel, allowing blade to stay sharper longer
- Case Qty: 6

5 019360 015543

GRASS SHEARS

The perfect way to tidy up those corners and edges where the mower can't cut, these grass shears give controllable cutting, at any angle. They're just the thing to create a perfect tidy finish, anywhere around the garden.

DON'T LET THE GRASS GROW...

In this section there's a clever swivel grass shear, with a rotating blade which can be used at different angles; vertical for edging, horizontal for trimming, or angled for hard-to-reach areas. There's also a **MAX FORGED** grass shear with the durability of forged blades, which slices easily through even tough turf.

Grass Shear

ClassicCUT®

GS6750BB

- Cuts through grass, turf and even tough ground cover
 - Professional-grade forged steel delivers longer-lasting sharpness
 - MAX FORGED all-steel construction for strength and performance
 - Comfortable, non-slip grip
 - Easy to re-sharpen
 - **Lifetime warranty**
 - Replacement parts available
- Case Qty: 6

ADJUSTABLE BLADE ANGLE SAVES WRIST STRAIN

Swivel Grass Shear

GS3750BB

- Versatile three-position blade - vertical for edging, horizontal for trimming, angled for hard-to-reach areas - saves wrist strain
 - Precision-ground, high-carbon steel blades
 - Easy to re-sharpen
 - Durable chrome plating
 - Easy-to-set thumb lock
 - **Lifetime warranty**
- Case Qty: 6

SCISSORS AND SNIPS

For precise trimming, snipping and harvesting, these snips and scissors can't be bettered. The scissor action features two razor-sharp blades for a clean cut, and with the range starting with blades of just over 3cm in length, there's the perfect tool for any detailed cutting job.

CUTTING IT FINE...

This section features some of our most precise tools, for the finest, most accurate cutting requirements. There are **ComfortGEL®** snips with ergonomic handles for maximum comfort and control, as well as precision micro snips suitable for the finest trimming. A **MAX FORGED** option gives the durability of a forged blade, in a narrow-bladed thinning shear designed to last a lifetime.

Finger Micro Snip

FS4110BB | 3CM BLADES

- Ideal for repetitive cutting
- Sharp stainless steel blades and tip allows for precision cutting
- Handle and blade can be sterilised to limit cross contamination
- Spring in the handle helps to open the blades after each cut
- Durable ABS-plastic handle for lightweight comfort and performance
- Large finger hole in the handle for comfort and control with push-button thumb lock for safety

• 10 year warranty
Case Qty: 12

Deadheading Snip

ComfortGEL® grips

FS3214BB | 4.5CM BLADES

- Compact, sharp stainless steel blades with double-bevelled tapered tips for precision cuts
- Handle and blades can be sterilised with alcohol to limit cross contamination and to remove sap
- Heavy-duty spring for reliable performance
- Full stainless steel core
- Maximise comfort and control with soft, ergonomically shaped grips
- Built-in lock
- Supplied with blade tip protector

• 10 year warranty
Case Qty: 6

Fruit & Flower Snip

ComfortGEL® grips

FS3204BB | 6CM BLADES

- Fine tips for precise picking
- Fully heat-treated carbon steel blades maintain sharpness
- Non-stick coated blades for minimal resistance
- Volute spring resists dirt build-up and clogging
- Thorn stripper for stems up to 5mm diameter
- Maximise comfort and control with soft, ergonomically shaped grip
- Accommodates left and right handed users
- Built-in lock

• 10 year warranty
Case Qty: 6

Thinning Shear

FS4350BB | 4CM BLADES

- For targeted stem removal
- Resharpenable, straight, narrow blades for tight spaces
- Forged steel alloy construction for strength and lasting sharpness
- Scissor cutting action
- Rounded blade tips prevent plant damage
- Non-slip grips
- Accommodates left and right handed users

• Lifetime warranty
Replacement parts available
Case Qty: 6

Garden Scissors

FS4000BB | 7.5CM BLADES

- Great for cutting an assortment of plants and flowers
- Stainless steel blades are resharpenable and won't rust
- Serrated blade for easy, clean cuts
- Ergonomic grips for outstanding comfort

• 10 year warranty
Case Qty: 6

ERGONOMIC GRIPS FOR COMFORT

BRANCH AND STEM PRUNERS

When cutting, precision is everything. On green, live growth, it results in a clean, healthy cut, and on older hard wood it affords accurate cutting, without slipping. The expert cutting tools in this section are some of the finest Corona® hand cutting tools, including some of the most popular and well-known designs.

THE JOB AT HAND...

This section includes easy-to-use **ComfortGEL®** designs with features such as **FlexDIAL®** to adjust the grip for small or large hands, to an extensive selection of **MAX FORGED** options, combining the durability of a forged blade with classic, straightforward designs that will withstand the test of time.

MAX FORGED
STRENGTH & DURABILITY™

**Forged tough. Proven performance.
Season after season.**

Experience the performance and durability of **MAX FORGED** tools with classic, simple designs that withstand the test of time. Agricultural and landscaping professionals' tool family of choice.

Branch & Stem Pruner

ClassicCUT™

BP3180BB | FOR LARGER HANDS

- Professional-grade tool with resharpenable, replaceable high-carbon steel blades
- High-precision pivot bolt and locking nut keep blade and hook aligned
- Fully forged steel construction - through to tips - for maximum strength and lasting sharpness
- Non-slip grips for greater control and comfort
- **Lifetime warranty**
- Replacement parts available

 - Maximises comfort and control with soft, ergonomically shaped grips
 - Specially coated non-stick blade provides smooth cutting performance
 - Full steel construction
 - Resharpenable blade
 - 10 year warranty
- Case Qty: 4

Patents: U.S. D802,382, Canada 172123, 2986400

Branch & Stem Pruner

RatchetCUT™

with ComfortGEL® grips

RP4224BB

- Ratchet anvil action for easier, more comfortable multi-cuts through tough, hard branches
 - 4-gear heavy duty metal ratchet system
 - Maximise comfort and control with soft, ergonomically shaped grips
 - Specially coated non-stick blade for enhanced cutting performance
 - Resharpenable blade
 - 10 year warranty
- Case Qty: 4

Patents: U.S. D802,384, Canada 172122, 172120

SAWS

Fast, easy and efficient cutting of thicker branches to make short work of larger cutting jobs. The blades of the saws in this section feature unique tooth designs and advanced manufacturing techniques to ensure optimum cutting performance, over thousands of saw strokes, season after season.

BRANCHING OUT...

These MAX pruning saws have been selected to cover the widest variety of larger cutting jobs. These saws feature either a **RazorTOOTHsaw®** blade, designed to remove the maximum volume of material with each stroke, or at the top end of the range a **QuickSaw®** blade, with innovative sawdust-removing teeth designed to minimise friction and cut up to 2.5 times faster than a conventional saw.

QuickSAW®

- Exert less force with QuickSAW's tapered, friction-minimising blade that cuts up to 2.5X faster than conventional saws
- Maintain sharpness and eliminate tooth snaps with electromagnetically hardened tips
- Triple-ground teeth for faster cleaner cutting
- Stays sharp over thousands of strokes thanks to the superior SK4 grade steel
- Innovative tooth design with every eighth fractionally adjusted to clear sawdust and keep the saw moving
- Lifetime warranty

18cm Folding Pruning Saw QuickSAW

QS7800BB | 18CM BLADE

- Dual cutting positions: one for regular cuts and another for difficult-to-reach branches
 - For small to medium branches
 - QuickSAW® grips dampen vibrations, providing superior control when wet or dry, and with or without gloves
 - Lightweight, high-strength aluminium handle with secure lock and release button
 - Lifetime warranty
 - Replaceable blade
- Case Qty: 6

33cm Pruning Saw QuickSAW

QS7900BB | 33CM BLADE

- For large branches
 - QuickSAW® grips dampen vibrations, providing superior control when wet or dry, and with or without gloves
 - Secure, well-controlled cuts thanks to a single-piece blade design with a full tang that extends through the entire handle
 - Lifetime warranty
- Case Qty: 3

RazorTOOTH Saw®

- Saw blades with triple-ground impulse-hardened teeth for 2X faster material removal per stroke than a conventional saw
- High-carbon SK5 steel blades for lasting sharpness
- Chrome-plated blade for smooth action and blade upkeep
- Lifetime warranty

Folding Pruning Saws

RazorTOOTH Saw®

RS7255BB | 20CM BLADE
RS7265BB | 25.5CM BLADE

- For small to medium branches
 - Ergonomic non-slip handles
 - Lifetime warranty
- Case Qty: 6

U.S. Patent D513,956

35.5cm Pruning Saw RazorTOOTH Saw®

RS7395BB | 35.5CM BLADE

- For medium to large branches
 - Ergonomic non-slip handle
 - Lifetime warranty
 - Replaceable blade
- Case Qty: 6

Patents: U.S. D802,382, Canada 172123, 2986400

46cm Pruning Saw RazorTOOTH Saw®

RS7510BB | 46CM BLADE

- For large branches and limbs
 - Ergonomic, non-slip D-handle designed for gloved or two-handed operation
 - Lifetime warranty
- Case Qty: 6

AXES

Extreme work requires extreme tools, and these axes are some of the very toughest you'll find. Whether for cutting logs, removing shrubs or small trees, or extracting hard-to-tackle roots, these axes will make it all seem effortless.

CUTTING EDGE TOOLS...

Axes don't come any harder-working than these **MAX FORGED** tools, bringing the strength and durability of forged steel to the striking head. Maximum-strength solid-core fibreglass handles with moulded coating reduce handle weight and dampen vibration for improved comfort during many years of superior performance.

Felling and Wood Splitting Axe

AX70020BB | 86.5CM SOLID-CORE FIBREGLASS HANDLE

- Forged, 1.59kg tempered steel head hardened for maximum strength
- Sharpened and polished blade edge, cuts more cleanly and with less effort
- Maximum-strength solid-core fibreglass handle with thick, moulded poly jacket dampens vibration from overstrikes to prevent breakage
- **Lifetime warranty**

Case Qty: 4

5 019360 015420

Axe and Root Grubbing Tool

AX71020BB | 86.5CM SOLID-CORE FIBREGLASS HANDLE

- Sharpened 1.6kg axe blade with steep bevel holds edge while cutting roots in soil
- Triangular-shaped mattock blade for excavating around large roots
- Maximum-strength solid-core fibreglass handle with thick, moulded poly jacket dampens vibration from overstrikes to prevent breakage
- **Lifetime warranty**

Case Qty: 4

5 019360 015437

SPECIALIST GARDEN TOOLS

Corona®'s newest and most innovative design-led products deliver enhanced performance to landscape professionals and passionate gardeners alike, for those really tough garden jobs. All tools feature **ComfortGEL®** grips for exceptional comfort and control.

Garden Tiller

SoilRIPPER™

with **ComfortGEL®** grips

LG3624BB

- Used for tilling soil and the preparation of seed-rows in gardens
- A substitute for rototillers in small developed gardens or raised-bed gardens
- Durable, heat-treated high carbon steel tines
- Self-sharpening, large 23cm wide x 15cm long steel tines
- All-metal footplate, with slip-resistant traction grooves, will withstand high load-bearing pressure
- Quick-release plunger to push out dirt and mud clots from tool between submersions into soil

• **Lifetime warranty**

Case Qty: 4

5 019360 014898

Garden Soil Cultivator

DiscCULTIVATOR

with **ComfortGEL®** grip

LG3634BB

- 3 tine configurations for different uses: weed, aerate and till soil
- Three easy-to-adjust sets of detachable rotational tines
- Large cast aluminium tines quickly break up soil and are self-cleaning
- All-metal footplate, with slip-resistant traction grooves, will withstand high load-bearing pressure
- 122cm long angled handle for enhanced leverage and reduced back strain

• **Lifetime warranty**

Case Qty: 4

5 019360 014881

Weeding Tool

WeedDESTROYER™

with **ComfortGEL®** grips

LG3654BB

- Removes tough weeds without the use of chemicals
- All-metal footplate, with slip-resistant traction grooves, will withstand high load-bearing pressure
- Fully heat-treated, high-carbon steel blades for extra strength when driving into the soil
- Quick-release plunger for removing weed from tool

• **Lifetime warranty**

Case Qty: 4

5 019360 014904

Path Border Edger

EdgeMASTER

with **ComfortGEL®** grips

LG3684BB

- Quick, clean cuts in grass, through turf or soil
- Trim paths, create borders for gardens or flower beds
- Ribbed blade that's self-sharpening, durable, fully heat-treated and made from high-carbon steel.
- All-metal footplate, with slip-resistant traction grooves, will withstand high load-bearing pressure

• **Lifetime warranty**

Case Qty: 4

5 019360 014973

HAND GARDEN TOOLS

For everyday gardening, most gardeners look for a lightweight tool that's comfortable and easy to use - and these **ComfortGEL®** hand tools fit the bill perfectly. Thoughtful design features such as integrated sack opening notch make for easier and more relaxing gardening.

ComfortGEL®

Hand Garden Tools

Our range of stainless steel hand tools is built to work as hard as you do, for the long haul. This fully-featured range comes with **ComfortGEL®** grips, large-diameter reinforced square tangs, welded joints and robust tool heads and blades.

Trowel

ComfortGEL® grip

CT3314BB

- Integrated sack opening notch
 - Flat-ended tamper handle/grip
 - Finger guard protects hand during digging
 - Depth gauge for precise holes
 - Lifetime warranty
- Case Qty: 8

5 019360 014959

Fork

ComfortGEL® grip

CT3374BB

- Flat-ended tamper handle/grip
 - Finger guard protects hand during digging
 - Lifetime warranty
- Case Qty: 8

5 019360 201526

Scoop

ComfortGEL® grip

CT3364BB

- Large scoop for transporting more soil, also great for pet food
 - Finger guard protects hand during use
 - Lifetime warranty
- Case Qty: 8

5 019360 014942

Transplanter

ComfortGEL® grip

CT3324BB

- Depth gauge for precise holes
 - Flat-ended tamper handle/grip
 - Serrated edge cuts roots
 - Finger guard protects hand during digging
 - Ideal for transplanting smaller plants
 - Lifetime warranty
- Case Qty: 8

5 019360 014911

Weeder

ComfortGEL® grip

CT3354BB

- 2-prong end for piercing soil, extracting weed at root
 - Serrated edge for cutting weeds and weed roots
 - Finger guard protects hand during use
 - Lifetime warranty
- Case Qty: 8

5 019360 014935

Cultivator

ComfortGEL® grip

CT3334BB

- Wide-diameter, robust tines easily penetrate soil
 - Finger guard protects hand during digging
 - Ideal for aerating around young plants/weeding between rows
 - Lifetime warranty
- Case Qty: 8

5 019360 014966

Hoe/Cultivator

ComfortGEL® grip

CT3344BB

- Dual working heads - 2 tools in 1
 - Sharp hoe to break up clumpy soil
 - Cultivator for weeding between rows
 - Lifetime warranty
- Case Qty: 8

5 019360 014928

EXTENDED REACH GARDEN TOOLS

Designed for gardeners working on raised bed gardens, in small gardens or in tight access locations. The tools are designed to give optimal long reach and balance making them ideal for gardeners who have physical strength limitations. Additional features such as the unique, trapezoid-shaped handles and **ComfortGEL®** grips deliver great comfort and control for an easier, more therapeutic gardening experience.

PERFECT FOR
RAISED BED
GARDENS

7-Tine Rake

ComfortGEL® grip

GT3234BB

- 91.5cm extended reach - ideal for raised beds
- Tines cultivate soil for planting
- 7 tines transport, break up and level soil
- Grooved top for fine smoothing of soil
- **Lifetime warranty**

Case Qty: 4

5 019360 015000

Hoe/Cultivator

ComfortGEL® grip

GT3244BB

- 91.5cm extended reach - ideal for raised beds
- Breaks up clumpy soil and digs up weeds
- Moves and aerates soil
- **Lifetime warranty**

Case Qty: 4

5 019360 014980

2-Prong Weeder

ComfortGEL® grip

GT3254BB

- 101.5cm extended reach - ideal for raised beds
- Sharpened, fork-tipped blade removes weeds at root source
- **Lifetime warranty**

Case Qty: 4

5 019360 014997

ExtendaHANDLE TOOLS

One size really does fit all with this selection of cleverly-designed garden tools! With a twist, the handles extend to give that extra bit of reach, just when it's needed. These tools are ideal for raised beds, working at the back of borders, or even working while standing, to eliminate bending and stooping.

ENJOY LONGER IN THE GARDEN...

These **ExtendaHANDLE** garden tools offer great flexibility in the garden, as they feature handles that extend from 45cm to 86cm, using a simple twist action to lock and unlock. Lightweight steel handles with non-slip grips offer comfort in use, while a protective coating on the heads guards against chips and rust.

ExtendaHANDLE LIGHTWEIGHT

- Lightweight steel handles extend from 45cm to 86cm for extra reach
- Heads are fully heat-treated for enhanced durability
- Protective coatings resist chipping and rust
- Comfortable non-slip grips
- Convenient hanging rings for easy storage
- Lifetime warranty

5 019360 015734

Garden Weeder

GT3040BB

- Sharpened fork-tipped blade pulls weed at root source
- Lifetime warranty
- Case Qty: 6

5 019360 015758

Garden Hoe/Cultivator

GT3060BB

- Dual working heads - 2 tools in 1
- Sharp hoe to break up clumpy soil
- Cultivator for weeding between rows
- Lifetime warranty
- Case Qty: 6

5 019360 015765

Garden Trowel

GT3080BB

- Wide trowel for efficient digging
- Depth gauge for accurate planting
- Lifetime warranty
- Case Qty: 6

5 019360 015741

Flat-Tine Garden Rake

GT3050BB

- Springy flat-tined rake for gathering debris - without damaging emerging shoots/surrounding plants
- Lifetime warranty
- Case Qty: 6

LIGHTWEIGHT TOOLS DISPLAY OPTION AVAILABLE - SEE PAGE 65

SPADES

A small selection of some of the sturdiest, most durable spades around. From nursery spades for general digging around the garden, to an ultra-tough, all-steel hardrock shovel for maximum digging and prising power, there's a spade here for every garden - and every gardener.

DIGGING DEEP...

The spades in this section range from small, controllable spades packed with design features, to a shovel offering the optimum in digging and levering strength.

MAXIMUM DIGGING
& PRISING POWER

Round Point Digging Shovel

ALLSTEEL

AS90300BB

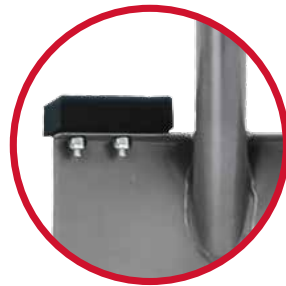

- For maximum digging and prising power - optimal strength for use with boulders, tree stumps etc
- Closed-back blade design provides extra strength and eliminates soil buildup
- Thick, powder-coated, aerospace-grade steel handle is welded to the extra thick steel blade
- Detachable hard rubber tread can be fixed to right or left side

• Lifetime warranty

Case Qty: 2

5 019360 015666

Round Point Spade

LIGHTWEIGHT

SS30030BB

- Great for general digging
- Steel collar for strong head-to-handle connection
- Sharpened blade edge
- Large, forward-turned steps for firmer footing
- Textured epoxy finish protects head against rust
- 76cm fibreglass handle with cushion D grip

• Lifetime warranty

Case Qty: 6

5 019360 015673

Square End Shovel

LIGHTWEIGHT

SS31030BB

- Ideal for lifting and moving loose materials
- Steel collar for strong head-to-handle connection
- Large, forward-turned steps for firmer footing
- Textured epoxy finish protects head against rust
- 76cm fibreglass handle with cushion D grip

• Lifetime warranty

COMPACT TOOLS DISPLAY OPTIONS AVAILABLE - SEE PAGES 64-67

LONG-HANDLED GARDEN TOOLS

These long-handled tools make short work of raking, hoeing and cultivating. These garden tasks can be back-breaking, but an inspired combination of intelligent design and materials technology makes the toughest jobs much easier, thanks to long aluminium handles and strong, lightweight heads.

RAKE IT IN...

The **MAX** rakes, hoes and cultivators in this section have been designed for superior performance and durability. With lightweight aluminium handles throughout, the choice also includes the **BigLOAD™** leaf rakes, featuring heads up to 76cm in width, for the ultimate in super-speedy tidying.

2 x FASTER THAN STANDARD RAKES

Unique high-shouldered head design maximises load capacity. Allows for larger load to be collected, compared with traditional narrow-shouldered rakes

BigLOAD™

LEAF RAKES

LIGHTWEIGHT, SUPER-STRONG AND EXTRA FAST

Leaf Rake

BigLOAD™

RK45030BB | 76CM | 30 TINES
160CM ALUMINIUM HANDLE

- Rake up to 2X faster than standard leaf rakes thanks to unique high-shouldered head design - maximises load capacity
- 76cm poly head with moulded ribbing on reverse is both lightweight and durable
- 160cm aluminium handle with anti-slip vinyl grip for comfort in extreme heat or cold
- Handle extends through into rake head for added strength
- 10 year warranty

Case Qty: 3
5 019360 015802

Leaf Rake

BigLOAD™JR

RK45026BB | 66CM | 26 TINES

ACCESSORIES

When you're hard at work, it helps to have everything you need right at your fingertips. There's nothing more frustrating than having to stop to fetch a different tool, or struggling on with a blunt blade which really needs sharpening. These accessories give you everything you need, right when you need it.

ACCESS ALL AREAS...

This selection of holsters ensures those favourite tools stay close at hand. A holster in top-grain leather and a universal tool pouch in durable nylon both fit tools up to a 20cm folding saw, while a handy 13cm sharpener slips easily into pocket or holster, for blade maintenance on the go.

Leather Holster

AC7220BB | 13CM

- Universal design fits most hand pruners and folding saws
- Top-grain cowhide leather construction
- Stitched and riveted for maximum durability
- Belt clip and loops included
- Pouch depth: 13cm
- **Limited warranty**

Case Qty: 6
5 019360 015017

Universal Tool Pouch

AC4510BB | 13CM

- Universal design fits hand pruners and folding saws
- Durable nylon construction
- Easy to carry using metal clip or belt loops
- Front pocket for sharpener storage
- Pouch depth: 13cm
- **Limited warranty**

Case Qty: 6
5 019360 015062

Sharpening Tool

Solid CARBIDE

AC8300BB

- Ideal for sharpening most blades (excludes saw blades)
- Easy-to-use instructions on back of packaging
- 5cm super carbide file
- Easy to fit in pocket
- Non-slip grip for easy use
- **Limited warranty**

Case Qty: 12

WARRANTY INFORMATION

THE CORONA® PROMISE

The lifespan of a tool is dependent upon frequency of use, as well as the conditions and environment in which it is used. Tools used by professionals, every day, on every job, will more likely wear out long before tools used by occasional or infrequent users. Typically, any defects in materials or workmanship will emerge early in the life of the tool. **CORONA®** tools are designed, engineered and manufactured to perform their intended purpose, **Season after Season.®** Customer satisfaction is at the top of our priority list, so in the event our tool fails to perform as intended due to materials and/or workmanship, **CORONA®** promises to provide a solution based on our three product lines and associated warranties.

CORONA® MAX TOOLS represent our best-in-class and have been specifically designed, engineered and manufactured for **PROFESSIONALS** and **PASSIONATE GARDENERS** that demand maximum durability and lasting performance.

MAX AND MAX FORGED TOOLS CARRY A LIFETIME WARRANTY

CORONA® MAX TOOLS are guaranteed to be free of defects in materials and workmanship. If a **CORONA® MAX** tool is found to be defective, **CORONA®** will either repair it or replace it free of charge, once the tool has been returned along with the original customer's proof of purchase. On cutting tools in these ranges, replacement parts are available when damage is due to wear and tear.

WHAT'S NOT COVERED
CORONA® is dependable and trustworthy and we rely on our customers to be the same. We do not and cannot cover normal wear, lost or stripped parts, altered or modified products, or product damage due to negligence, misuse, or abuse. **OUR DEFINITION OF ABUSE** – Using a tool in a manner for which it was not designed.

CORONA® LIFETIME WARRANTY

Selected **CORONA®** tools carry a lifetime warranty. **CORONA®** warrants these tools to be free of defects in materials and workmanship. If your tool is found to be defective, **CORONA®** will either repair it or replace it free of charge, once the tool has been returned along with the original customer's proof of purchase. The warranty excludes cosmetic changes in appearance due to wear and tear. On cutting tools with a lifetime warranty, the blade carries a **10 year warranty** only. Please note: these products carry a **10 year warranty** when used for professional work.

CORONA® 10 YEAR WARRANTY

CORONA® warrants its tools to be free of defects in materials and workmanship. If your tool is found to be defective within ten (10) years from the date of purchase, **CORONA®** will either repair it or replace it free of charge, once the tool has been returned along with the original customer's proof of purchase. The warranty excludes cosmetic changes in appearance due to wear and tear.

MAKING WARRANTY CLAIMS OUTSIDE THE U.S.

The warranties outlined here apply specifically to products purchased within the UK from Burgon & Ball. If you purchased your product outside of the UK, your local **CORONA®** distributor's standard product warranty will apply. Warranty claims can be made by returning the tool to where you bought it within the relevant timeframe, along with its packaging and original proof of purchase. **CORONA®** reserves the right to ask Dealers and Distributors to send in product photo and contact information for a warranty claim. In some cases, a Return Merchandise Authorisation (RMA) number may be required for product returns.

CORONA® LIMITED WARRANTY

The **CORONA®** limited warranty means the tool is covered by a standard manufacturer's one year limited warranty against defects in materials or workmanship. If the item is found to be defective within one (1) year from the date of purchase, **CORONA®** will either repair it or replace it free of charge, once the item has been returned along with the original customer's proof of purchase.

PRODUCT SUBSTITUTION
CORONA® will make an effort to either repair or replace any defective tool with one that is similar. If, for any reason, this is not possible, **CORONA®** may choose to satisfy your claim by substituting a different product.

GENUINE REPLACEMENT PARTS
All **CORONA®** tools are built to last, but certain components will wear out after heavy or repeated use. That's why we offer genuine replacement parts for most **MAX** products.

Burgon & Ball is the primary distributor of **CORONA®** products in the UK. Orders for **CORONA®** tools can be combined with Burgon & Ball products to reach minimum carriage paid order value. For further information, pricing queries, or to place an order, please contact your Area Sales Manager or:
