GREEN HAUS

100% RECYCLED PAPER INDOOR POT COVERS

Our range of GREEN HAUS indoor pot covers are made from 100% recycled paper.

Paper off-cuts and waste are collected and then added with water to create a paper pulp. From that pulp, beautiful patterns are pressed into sheet form and then stitched together to create this stunning indoor range.

All paper pot covers are 100% waterproof.

Our Paper Planters are lined with several layers of natural biodegradable latex. This natural renewable resource creates a waterproof seal.

Zero Waste

All offcuts and waste from production is collected and re-used to make more pulp and the process starts again.

Socially responsible

We have developed a system for young mothers to work from home whilst taking care of their children.

We give them training, supply the materials and they get a fair price for their work. This way women like Chaturika can raise their children and get a regular income.

GREEN HAUS

100% RECYCLED PAPER.

100% WATERPROOF.
