Real life fun & play!

75 years
of inspiring
play!

As a family of toymakers, we are immensely proud of our heritage and the fact that we are celebrating 75 years in the toy industry this year. Whilst trading conditions have been enormously challenging over the past year, Casdon has continued to develop new ideas to add to the brilliant role play range of inspirational toys that are synonymous with our brand. We look forward to unveiling some of these exciting developments later in the year, so watch this space!

Casdon has also invested heavily in our new team and we continue to do so. Building upon tremendous growth globally, our ambitious plans will see the company build further upon that growth of all our partners – as well as galvanise other long-lasting associations into the next decade, and beyond.

Our iconic product range includes some of the best names in household appliances from Dyson to Flymo, Henry to Hetty, Morphy Richards to Kenwood, DeLonghi and Mr Kipling. Toys that have been loved by generations over the past 75 years and will continue to be so well into the future. With our NPD strategy, dynamic team and our experience in the toy industry I believe that 2021-2022 will see major growth and innovation for Casdon and for our valued partners.

Please contact your representative below to find out more about the exciting developments planned here at Casdon.

We all look forward to doing business with you.
