FAT BALL GARLAND

Bird care for our
feathered friends

With over 40 years combined experience working with instore TV promotion the directors Richard and Mark embarked on their Creative Journey in 2009.

Since the beginning the company's business idea has been to import and sell creative products that make everyday life a little more practical, easy and fun. From humble beginnings **Creative Products** rapidly became the most innovative instore TV promotion company in the UK. What makes us **Creative** is our ability to source the most interesting and exciting products from around the globe and turn them into fast moving consumer goods with mass market appeal, many of which have gone on to win industry awards for innovation.

★ BEST PRODUCT ★

At **Creative** we made a definitive early move away from excess plastic in our product packaging and as a result developed our unique nature card branding that is distinctively **Creative**.

Like great song writers we constantly strive for the next hit record in terms of product sales and at **Creative** we pride ourselves on delivering maximum sales per square metre. But before we bring any new product into the **Creative** range, we conduct extensive tests in selected retail stores to ensure that each product delivers what you the retailer needs, and that's fast-selling repeat sales. Some of these great new lines will go on to become amazing. Some may not make it through this rigorous testing process.

But you can be sure that

Creative^{TV}
will have the next...

BIG HIT!

Display options

There are various screen and merchandising options available to you. We can supply 18.5 inch and 32 inch media screens for use on our free-standing displays or alternatively on metre ends or slat-walls.

Our bespoke display stands have wood effect vinyl graphics that look great in any retail environment. Our flexible approach means we can find a merchandising solution for even the smallest of space.
