MADE IN AUSTRIA

STORAGE SOLUTIONS

FOR YOUR GARDEN | 2021

Your continuing satisfaction is our prime concern here at Biohort.

DEAR CUSTOMER!

Biohort products offer you the best quality, functionality and security. Our customers especially appreciate the durability and low maintenance of our storage solutions.

Biohort garden sheds have proven their durability in over 45 years of outdoor service. We are an Austrian manufacturing company with highly-trained and skilled workers. Biohort uses only top-quality materials from tested suppliers to manufacture its products. The high-quality steel plate we use is supplied by the same worldwide renowned Austrian and German steelworks in which German premium car manufacturers place their trust. This is the reason why we can offer our customers a 20-year guarantee against corrosion with a clear conscience.

Let Biohort help you realise your gardening dreams without a care in the world: With the foundation solutions SmartBase and SmartBase^{PLUS} we complete our package of personal consultation, delivery and assembly and allows us to offer our customers an all-in-one solution. Find out more on page 4.

Sophisticated design and the high Austrian quality standard applied in the manufacturing process creates products that you will enjoy for decades.

We personally vouch for this.

Neo Size 2B, Metallic Quartz Grey
(with SmartBase foundation, acrylic glass panel, interior panelling and double door as accessories)

Product Info

Neo REVOLUTION IN DESIGN & FUNCTIONALITY

The Best From Decades of Experience - The Biohort Top Product

Smooth wall surfaces and the elegant acrylic glass panel in the door characterise the modern look. Additional acrylic glass panels can be flexibly installed thanks to a specially developed panel system. To ensure a pleasant atmosphere, the wooden ceiling regulates the humidity along with the optional grey white interior panelling and insulation.

Size 1B with Double Door, Colour Variant: 2.3
(Metallic Quartz Grey/Metallic Dark Grey)

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

Available in one or two colours (a second colour can be chosen for the door and roof at no extra cost).

ADVANTAGES

Security:

- 3-way locking mechanism complete with stainless steel door handle
- Stable roof construction for a snow load of up to 150 kg/m²
- Storm proof up to 150 km/h, wind force 12

Functionality:

- Comfortable door opening with gas spring
- Integrated support rails
- Optional interior panelling and insulation
- Integrated roof gutter

Standard Equipment:

- Luminous element in the standard door
- Wooden ceiling made of 19 mm plywood with a 1.5 mm EPDM roofing membrane
- Rainwater downpipe (2 pieces)
- Tool holder (2 pieces)
- Tool hangers (2 pieces)
- Shelves (2 pieces)

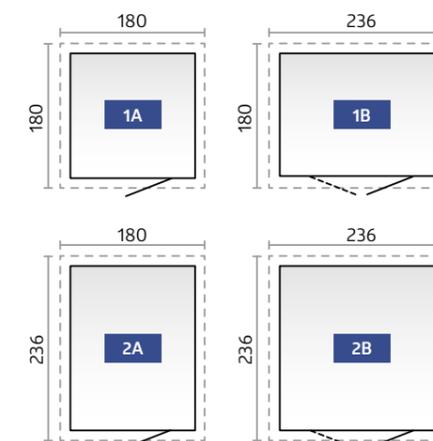

Optional accessories available on pages 20 – 23.

SIZES (IN CM, OUTER DIMENSIONS INCLUDES ROOF OVERHANG)

Door Opening:

Standard Door (right door hinge): 78 x 200 cm (W x H) – the standard door can be installed on the sides of the shed.
Double Door: 161 x 200 cm (W x H) – the double door can be installed on the 236 cm sides of the shed.

The dotted lines mark the roof overhang.

HighLine® Size H2, Metallic Quartz Grey (with aluminium floor frame, aluminium floor panels, bicycle holder "BikeHolder" and double door as accessories)

Product Info

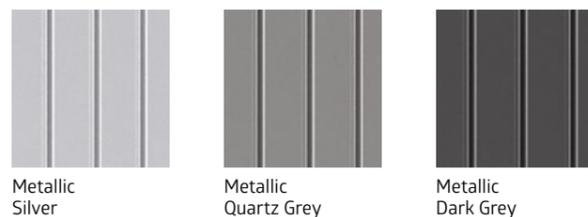

HighLine®

AN EXAMPLE OF DESIGN AND TECHNOLOGY

The Equipment Shed HighLine® Fulfills the Highest Standards

Sophisticated industrial design in an impressive form: The modern flat roof and the integrated all-around skylight give the HighLine® strong accents. The 3-way locking mechanism with a robust cylinder lock ensures optimum security. The opening and closing of the door works semi-automatically with the help of a gas spring. The HighLine® shed is absolutely maintenance-free!

(Roof surface is always in metallic quartz grey)

Size H3, Metallic Silver with Side Canopy
Back and side walls as privacy screens are available separately. (see accessories p. 22)

ADVANTAGES

Security:

- 3-way locking mechanism complete with stainless steel door handle

Functionality:

- Integrated gutter with a connection for a 1 1/4" hose
- Gutter with integrated leaf traps fitted to both sides
- Comfortable door opening with gas spring

Standard Equipment:

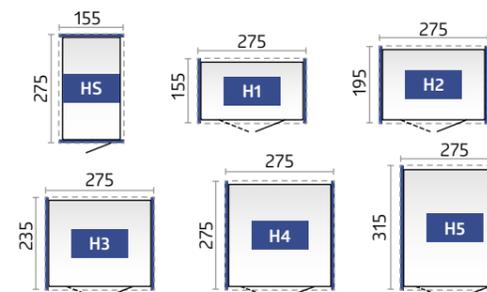

- 360° acrylic glass panels
- Tool holder (2 pieces)
- Tool hangers (4 pieces)
- Shelves and support rails (2 pcs. each)

SIZES (IN CM, OUTER DIMENSIONS INCL. ROOF OVERHANG)

Door Opening:

Standard Door (right door hinge): 76 x 182 cm (W x H)
Double Door: 155 x 182 cm (W x H)

The blue bar markings on the gutters are there to indicate onto which side (from size H2 onwards) the optional side canopy can be attached. Details on page 22. The dotted lines mark the roof overhang.

Hint: You can rotate the HighLine® (from size H2 onwards) to suit your own preferences and the standard door can be installed in any side wall. From size H4 onwards, installing the double doors in the side wall is also possible.

★ Optional accessories available on pages 20 – 23.

Technical data and detailed information can be found on pages 72 – 73.

Panorama® Size P2, Metallic Dark Grey
(with aluminium floor frame, aluminium floor panels and FloraBoard as accessories)

Panorama®

INTERIOR ILLUMINATION

The Beauty of Natural Light
The full encircling skylight constructed from acrylic glass gives our new garden shed Panorama® a lightness in appearance and allows this model with its modern gable-roof to fit easily into its surroundings. The proven Biohort quality of materials and workmanship together with the selection of individual equipment options and the range of sizes available make the Panorama® the perfect garden shed to meet your high demands.

Size P2, Metallic Quartz Grey
The standard door can be fitted in any side wall from size P2 onwards.

ADVANTAGES

- Security:**
- 3-way locking mechanism complete with stainless steel door handle
- Functionality:**
- Integrated gutter with a connection for a 1 1/4" hose
 - Gutter with integrated leaf traps fitted to both sides
 - Comfortable door opening with gas spring

-  STANDARD EQUIPMENT
-  OPTIONAL ACCESSORIES

	Neo	HighLine®	Panorama®	AvantGarde®	Europa	Equipment Locker
13 Aluminium Floor Frame Offers the tool shed additional stability when erected without a foundation on uneven ground (i.e. lawn). The supplied ground anchors offer safety during stormy weather.	★	★	★	★	★	★
14 Aluminium Floor Panels The floor consists of 1-5 high quality aluminium chequer plate panels depending on the size of the shed, incl. connecting rails. To ensure the optimal fitting the aluminium floor frame is necessary.	★	★	★	★	★	★
15 SmartBase A The perfect floor for solid ground (concrete or paved surfaces). Light ground irregularities of up to 40 mm can be compensated. For details, see page 24 – 25.	★	★	★	★	★	★
15 SmartBase PLUS B Optimal solution for slopes and lawns. Patented system with ground screws to compensate for slopes of up to 15 cm. For details, see page 24 – 25.	★	★	★	★	★	★
16 FloraBoard Two rails of the same colour of the shed are attached to the outer wall and the flower boxes can be hung on these at a suitable height. Plastic inserts for easier planting are included in the standard delivery scope.		★	★	★		
17 Double Door Makes entering and leaving the shed with large tools and equipment easier. The 2nd door is equipped with a twist knob locking mechanism and a gas spring (with the exception of Garden Shed Europa and Equipment Locker).	★	★	★	★	✓	✓
18 Additional Door Included in the delivery scope are a stainless steel door handle with standard cylinder, a 3-way locking mechanism, a gas spring, hinges, two tool holders as well as the necessary metal fittings for the hinge positions. The door can be hinged on the right and on request also on the left. Your Garden Shed "Europa" can be equipped with additional standard doors (for example to be installed into the side wall). You can also order an extra wide double door with the dimensions of 171 x 170 cm to replace or supplement the standard door (can only be installed off-centre).*	★	★	★	★		★
19 Shed Extension Europa* Connecting modules are available for the sheds with 244 cm or 316 cm widths. This allows two sheds to be joined together lengthwise to form a single large shed. The gables of the two houses are supported and connected with profiles at the connection point. The clearance height here is 170 cm (same as door height).						★
20 Side Canopy The side canopy can be attached to the shed HighLine® (from size H2 onwards) on the side with the gutter - either on one or both sides. This creates a roofed, open space equal to the single/double surface area of the tool shed. The aluminium supports are equipped with height-adjustable feet. The rainwater downpipe is included. The side canopy for the garden shed Europa can be attached either to the left, to the right or to both sides of the shed. The set includes the supports, a short rainwater downpipe and the fixation material (not available for size 1 and size 2A).		★				★
21 Side and Back Walls for Side Canopy Garden Shed HighLine® You can attach a back wall and/or a side wall to the side canopy of your HighLine® shed (from size H2 onwards). They are available in the same colours as the shed.		★				
22 Window Unit The complete side wall unit with a metal framed clear plastic window brings daylight into the garden shed (window opening 50 x 60 cm).						★
23 Acrylic Glass Panel The tinted acrylic glass panel (Dimensions: 28 x 207 cm) is mounted in a metal frame and can be flexibly installed in any side wall, but not side by side.	★					
24 Interior Panelling Grey white interior wall panels are simply hooked into the side walls and screwed in place.	★					
25 Insulation The interior wall panelling can also be fitted with 40 mm thick insulation (styrofoam boards), which opens up many new possibilities for the garden shed.	★

SmartBase

Perfect for Hard Surfaces

The Biohort SmartBase Foundation is the ideal foundation for concrete or paved areas. It consists of high-quality aluminium boards, a special foundation frame and height-adjustable feet. So light ground irregularities of up to 4 cm can be compensated.

Time of Assembly: 1 - 2 hours for two (depending on workmanship and size). **Tools*:** spirit level, drill, open ended spanner SW13 and SW24.

1. Frame Assembly
2. Connection of Adjustable Feet and Frame Alignment
3. Fixing the Adjustable Feet to the Subsurface
4. Fixing of Aluminium Floor Panels

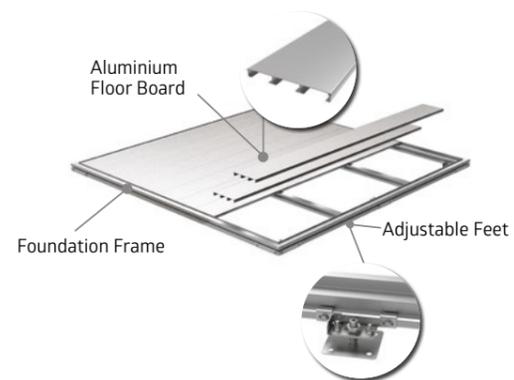

ADVANTAGES

- Compensation of unevenness through adjustable feet
- Easy to remove if necessary
- Precisely fitted to all Biohort garden sheds, the Equipment Lockers and the MiniGarage
- Storm proof
- Load bearing capacity max. 200 kg/m²

Standard Equipment:

- Aluminium floor panels with grooved surface
- Specially designed foundation frame
- Galvanised adjustable feet
- Adjustable feet with height adjustment
- Integrated water barrier to protect against water ingress

Floor frame and floor plates are no longer necessary!

* not included in the delivery
24

SmartBase^{PLUS}

Optimal Solution for Slopes and Lawns

Unlike the SmartBase foundation, the patented SmartBase^{PLUS} system includes ground screws instead of adjustable feet. These are screwed directly into the ground and can compensate slopes of up to 15 cm. For this, the soil should be compact and free of large stones and roots.

Time of Assembly: 2 - 4 hours for two (depending on workmanship and size) **Tools*:** hammer drill, drill bit Ø 40 x 600 mm, spirit level, drill, open-end spanner SW13 and SW24, shovel.

1. Site Preparation and Ground Screw Insertion
2. Attachment and Levelling of Mounting Plates
3. Positioning and Attachment of Frame
4. Fixing of Aluminium Floor Panels

* not included in the delivery

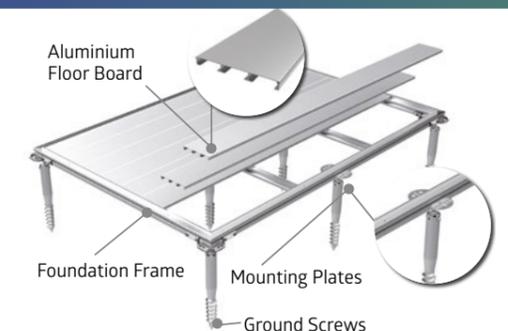

ADVANTAGES

- Little excavation
- Gravel base is not necessary
- Compensation of unevenness through ground screws
- Easy to remove if necessary
- Precisely fitted to all Biohort garden sheds, the Equipment Locker and MiniGarage
- Storm proof
- Load bearing capacity max. 200 kg/m²

Standard Equipment:

- Aluminium floor panels with grooved surface
- Specially designed foundation frame
- Galvanised ground screws
- Multi-adjustable mounting plates
- Including manual screw-in driver
- Integrated water barrier to protect against water ingress

Floor frame and floor plates are no longer necessary!

Alternative foundation solutions can be found on page 68. 25

CasaNova® 3x5, Metallic Quartz Grey
(with aluminium floor frame, exterior lighting, two glass elements and double door as accessories)

ADVANTAGES

- Sandwich element with 40 mm core made of polystyrene (EPS W20)
- Security:**
 - 3-way locking mechanism complete with stainless steel door handle
 - Roof resp. snow load of up to 215 kg/m² (less roof loading such as greenery)
- Functionality:**
 - Easy to heat thanks to thermal insulation u-value of side walls: 0,76 W/(m²K)
 - Door hinge position on the left or right available
 - Large selection of accessories
 - Ventilation via acrylic glass panel which can be opened
 - Comfortable door opening with gas spring

Size 160, Metallic Silver with Intermediate Shelf

OPTIONAL ACCESSORIES

Suspension Basket

The sack made of black polyester mesh offers additional storage space and is simply hung on the frame. Load capacity max. 10 kg.

Intermediate Shelf

In metallic silver, 9 position height adjustment. Easy to install and universally adaptable (e.g. as a continuous shelf or as 2 shelves). Load capacity max. 50 kg.

Tool Holder

For mounting on the inside of the doors. A maximum of 2 tool holders can be fitted to each door.

Lid Storage Net

The solution for small objects. It can be easily attached to the inside of the lid.

ADVANTAGES

- Rainwater proof
- Invisible, integrated ventilation
- Lid made from aluminium

Security:

- Locking mechanism with turn knob cylinder lock

Functionality:

- Comfortable lid and door opening with gas spring

OUTDOOR BOXES

LoungeBox® Size 160, Metallic Dark Grey

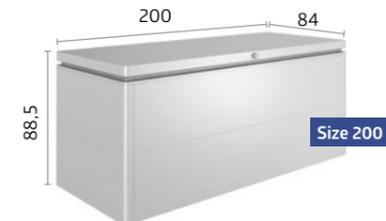

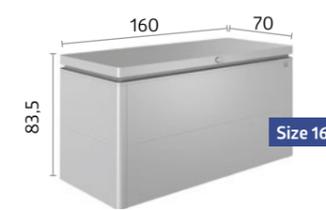

LoungeBox®

STYLISH ELEGANCE

Design for High Standards

The LoungeBox® is the perfect storage solution for seat cushions and many other things for which one can never find a suitable place. Due to its appealing look, it blends in well on every patio.

SIZES (CM)

OPTIONAL ACCESSORIES

Suspension Basket
The basket, made of black polyester netting, offers extra storage space. Easy to attach, just place on top of the frame. Load bearing capacity of max. 10 kg.

Lid Storage Net
The solution for small objects. It can be easily attached to the inside of the lid.

Size 160, Metallic Dark Grey

ADVANTAGES

- Rainwater proof
- Invisible, integrated ventilation

Security:

- 2-way locking mechanism with T-handle cylinder lock

Functionality:

- Comfortable lid and door opening with gas spring

LeisureTime Box Size 160^{High}, Metallic Quartz Grey

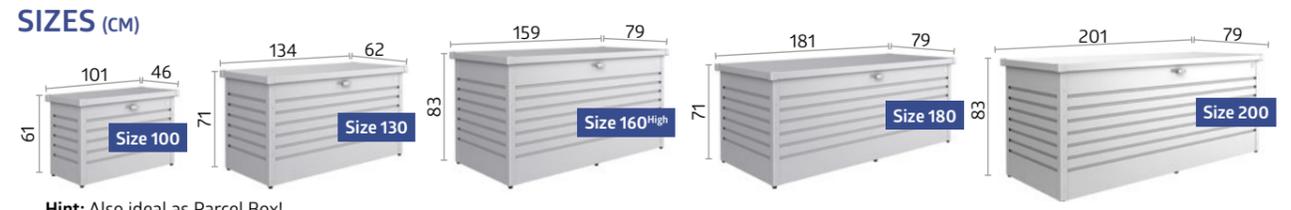

OUTDOOR BOXES

LeisureTime Box

STYLISH & DURABLE

The Perfect Box for Outside
 It stores all those items you cannot find a suitable storage place for. Ideal for stowing away seat cushions, toys, sun loungers, folding chairs, sports and camping equipment. 5 sizes, 5 colours for every demand. The perfect long-lasting solution through the use of high-quality materials.

Hint: Also ideal as Parcel Box!

OPTIONAL ACCESSORIES

Suspension Basket
 The sack made of black polyester mesh offers additional storage space and is simply hung on the frame. Load capacity max. 10 kg.

Parcel Box Kit
 Stainless steel locking bar and padlock with number combination and stainless steel securing cable.

Lid Storage Net
 The solution for small objects. It can be easily attached to the inside of the lid. Two nets can be fixed side by side in the LeisureTime Box 180 and 200.

42 MiniGarage

44 StoreMax®

46 HighBoard

ADVANTAGES

- Rainwater proof
- Invisible, integrated ventilation

Security:

- 3-way locking mechanism with T-handle cylinder lock

Functionality:

- Comfortable door opening with gas spring

Standard Equipment:

- Organiser system fitted inside the door (incl. 6 hooks)

MiniGarage, Metallic Silver
(with aluminium floor frame, aluminium floor panel, bicycle suspension rail and shelf system as accessories)

MiniGarage

SMALL WITH BIG BENEFITS

Multifunctional Storage Wonder Without Authorisation Requirement*

The MiniGarage provides the ideal storage space for up to 2 bicycles or gardening tools and garden furniture. With a height of only 145 cm, it does not require planning permission*. The intelligent rail system (optional) facilitates the storage of bicycles: Place the rear wheel onto the ground rail, hang the handlebar in the extendable upper rail, push into the Minigarage, done! The extendable shelf system with 2 shelves (150 cm long) is valuable for storing gardening tools. MiniGarage – multi-purpose in application, modern in design.

Metallic Silver

Metallic Dark Grey

MiniGarage with two bicycle suspension rails and electrical mounting panel.

* please observe local by-laws as these may vary from country to country.

SIZES (CM)

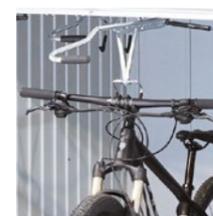

Door Opening:
103 x 131 cm (W x H)

Interior Dimensions:
117 x 195 x 137 cm (L x W x H)

Hint: also available with electrical mounting panel. See page 20 for details.

OPTIONAL ACCESSORIES

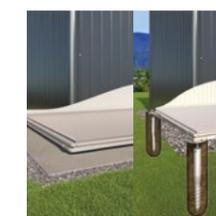

Bicycle Suspension Rail
Extendable storage system with guide rail on the floor, designed for easy extraction and storage of bicycle.
Max. 2 bicycle storage rails possible.

Shelf System
Extendable, consists of two shelves incl. guiding rails (dimension per shelf: W 43 x T 150 x H 5 cm) height adjustable.
Load capacity max. 15kg/shelf.

Aluminium Floor Frame/ Aluminium Floor Panels
The aluminium floor frame gives the MiniGarage the necessary stability even on uneven ground. The top-quality and elegant aluminium chequer plate floor can only be used in combination with the aluminium floor frame.

SmartBase/ SmartBasePLUS
Complete system consisting of aluminium profiles, aluminium boards and adjustable feet or ground screws. Perfect for levelling slight inclines.
See page 24 – 25 for details.

StoreMax® Size 190, Metallic Silver

ADVANTAGES

- Rainwater proof
- Shutter made from aluminium

Security:

- 2-way locking mechanism with T-handle cylinder lock

Functionality:

- Easy operation due to spring support

Standard Equipment:

- Tool holder on the inside of the side walls

Product Info

StoreMax®

SLIDE UP THE SHUTTER AND HAVE FUN WITH YOUR BICYCLE

Cuts Quite a Figure

Right in front of your home, immediately ready: the rainproof bicycle garage Storemax® with the "BikeHolder" offers a maximum of storage without needing much space itself - perfect dimensions for up to 2 bicycles. The very smoothly working roller shutter helps you save your energy for the bicycle tour and protects your bicycle with a robust cylinder lock.

SIZES (CM)

THRIVE

58 Raised Vegetable Bed

60 Belvedere®

62 MonAmi®

64 WoodStock®

66 Charly®

ADVANTAGES

- Extremely durable
- Assembly in just 10 minutes - only 8 screws

Security:

- Integrated rodent protection made of fibreglass

Functionality:

- Optional snail guard, cold frame extension and intermediate floor
- Sliding side walls make it easy to empty
- Opening for irrigation hose

Raised Vegetable Bed
2x1, Metallic Dark Grey

Raised Vegetable Bed

CLEVER CULTIVATION

The Best Conditions for a Bountiful Harvest

Raised vegetable beds make it easier to plant vegetables and maximise the harvest – but only the Biohort raised Vegetable Bed combines the hobby of gardening with practical and intelligent design. Ingenious details add to the eye catching effect of this product, which offers more than just beauty!

Metallic Quartz Grey

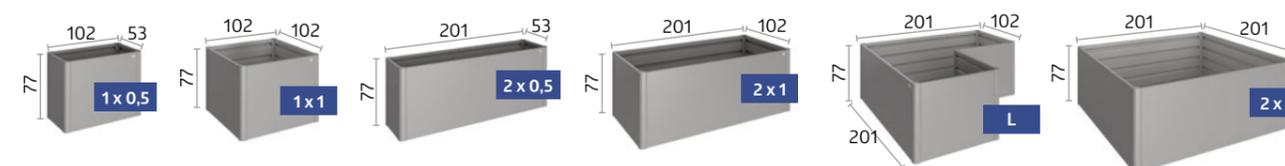

Metallic Dark Grey

Sliding Panel/Preparation for Irrigation
Easy to empty thanks to sliding panel, opening for watering hose on the narrow side (size: 17 x 17 mm, except size 2x2).

SIZES (CM)

Hint: an ideal place to recycle garden cuttings!

OPTIONAL ACCESSORIES

Intermediate Floor
(available for size 1x0.5, 1x1, 2x0.5 & 2x1)
The intermediate floor reduces the volume of the bed and the soil filling required, saving both money and valuable time. It is placed on the second corrugation during assembly.

Snail Protection
(available for size 1x0.5, 1x1, 2x0.5 & 2x1)
It is placed on top of the raised Vegetable Bed. Can be combined with a cold frame extension.

Cold Frame Extension
(suitable for size 2x1)
Efficient frost protection with 4 easily removable sliding panels. The cold frame extension is storm-proof and designed to direct rainwater into the raised Vegetable Bed.

ADVANTAGES

- Extremely durable
- Assembly in just 10 minutes - only 8 screws

Security:

- Integrated rodent protection made of fibreglass

Functionality:

- Sliding side walls make it easy to empty
- Opening for irrigation hose

Standard Equipment:

- Intermediate Floor

Belvedere® M,
Metallic Dark Grey

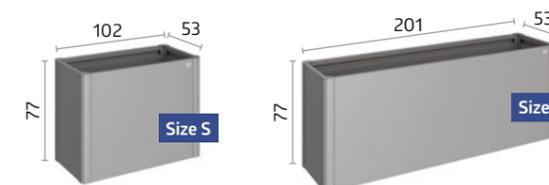

Belvedere®

EXPERIENCING DESIGN

The Eye-Catcher for Your Terrace

With a width of only 50 cm, the Planting Bed Belvedere® creates a space for special ideas: as a living, plant filled room divider it adds structure to your patio or garden and also embellishes your balcony. This product gives you completely new design possibilities.

SIZES (CM)

Metallic
Dark Grey

Size S, Metallic Quartz Grey

STANDARD EQUIPMENT

Intermediate Floor

The intermediate floor reduces the volume of the bed and the soil filling required, saving both money and valuable time. It is placed on the second corrugation during assembly.

Preparation for Irrigation System

Opening for watering hose on the narrow side (size: 17 x 17 mm).

MonAmi, Metallic Dark Grey

ADVANTAGES

- Extremely durable

Security:

- Integrated rodent protection made of fibreglass

Functionality:

- Ventilation system ensures an optimal rotting process
- Sliding front wall panel makes it convenient and easy to empty
- Comfortable lid and door opening with gas spring

MonAmi® PREMIUM COMPOSTER

Functional Design to Last for Decades

As "my friend in the garden" the Composter MonAmi® combines functionality with stylish appearance: smooth surfaces on the inside and outside, with everything required for efficient composting. Two centrally placed ventilation pipes create a chimney effect and ensure a reliable circulation of air, meanwhile the circumferential gap underneath the cover ensures that heat is transferred out of the composter. Even composting can now look great!

This May Go In:

- Organic waste such as fruit and vegetable waste
- Crushed eggshells
- Coffee grounds and tea leaves
- Leftover bread
- Cuttings such as small branches and twigs
- Leaves and dry grass clippings

This May Not:

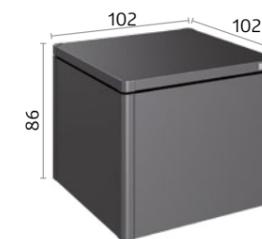

- Leftovers such as meat, fish and bones
- Contents of animal litter and animal excrement
- Cigarettes
- Treated wood
- Vacuum cleaner bags
- Large quantities of ash and barbecue coal

Metallic Dark Grey

SIZES (CM)

Volume:
725 L

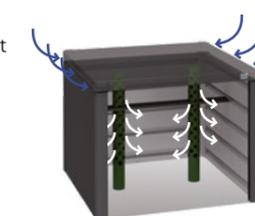

STANDARD EQUIPMENT

Sliding Panel

Sliding front wall panel makes it convenient and easy to empty.

Ventilation Pipes

The integrated ventilation pipes provide an optimal supply of oxygen and circulation of air, which is essential for efficient composting.

ADVANTAGES

- Stability because of massive aluminium frame
- Functionality:**
 - Integrated gutter on the front side
 - Universally applicable for garden tools
 - Wide range of accessories available
- Standard Equipment:**
 - Screws and anchors for fixation to the ground

WoodStock® Size 230, Metallic Dark Grey

WoodStock® THE MULTITALENT

Firewood Storage and Equipment Locker Rolled Into One

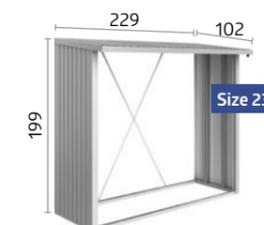

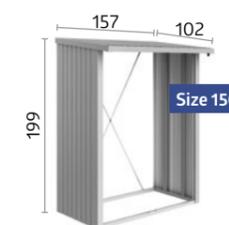

Nothing conjures up a cosier atmosphere than a blazing fire burning in the chimney on a cold winters day. But where to store the firewood? The WoodStock® provides the tidy and lasting solution for this question. During the summer it offers plenty of space for garden furniture and equipment. The possibility of attaching it to the house wall has proven to be particularly practical.

Size 150, Metallic Silver with Aluminium Floor Panels, Door Package and Rear Wall

SIZES (IN CM, OUTER DIMENSIONS INCL. ROOF OVERHANG)

Volume:
Size 150: 2,1m³
Size 230: 3,1m³
Possible to store wood in two rows
(max length of firewood: 35 cm)

OPTIONAL ACCESSORIES

Aluminium Floor Panels
High quality aluminium chequer plate, protects the stored wood and gardening equipment from moisture.

Rear Wall
Made from galvanized, polyamide coated steel plate.

Door Package
Double door fitted with T-handle cylinder lock and organiser system on the inside of the doors, Door opening: 135 x 171 cm (W x H).

ADVANTAGES

Security:

- Folding-locking mechanism
- Edge protection
- Ground screw ground fastening

Functionality:

- Easy access to the control panel due to folding lid

Charly®
Size 2

Charly® ROBOTIC LAWN MOWER GARAGE

Perfectly Protected

A shelter from the rain is not only the least that your hard-working robotic lawn mower deserves, but is also highly recommended for the protection of your robot! With two sizes, which are suitable for all market-based models, robotic Lawn mower garage Charly® provides all the comfort robots and owners need. The folding lid offers easy access to the control panel. You can find information on this at www.biohort.com/robotergarage.

FOUNDATION SOLUTIONS

More information in foundation brochure and at biohort.com/foundation

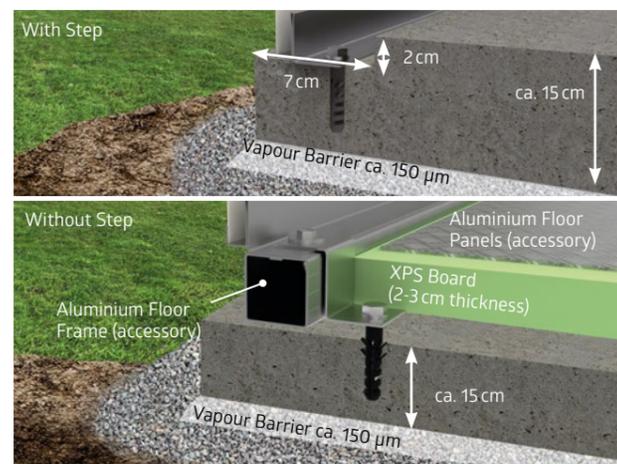

SMARTBASE

SMARTBASE^{PLUS}

The foundation solutions SmartBase und SmartBase^{PLUS} form a stable foundation for Biohort garden sheds, the Equipment Locker and MiniGarage. The foundations are storm-proof and quick to install. Whether on paved or uneven ground, with the SmartBase and SmartBase^{PLUS} we offer the optimal solution. No excavation is necessary, so a lot of work and site dirt is eliminated during installation.

Detailed information can be found on pages 24 – 25.

CONCRETE FOUNDATION

A reinforced concrete foundation slab on a gravel base is an optimal, but also expensive foundation. With this type of foundation you must also make sure that no water can penetrate into the shed at ground level. The stepped foundation slab with a circumferential step of 2 cm x 7 cm is an ideal design. (Aluminium floor frame and floor panels cannot be used.)

As an alternative to the stepped concrete foundation slab surface, a continuous flat concrete slab can also be poured. The available **aluminium floor frame** accessory makes it easier to level out any unevenness in the foundation and as well in fitting a sealing joint. The aluminium floor frame also allows the use of the **aluminium floor panels**, which can be underlaid with 2-3 cm thick XPS hard foam boards.

POINT FOUNDATION

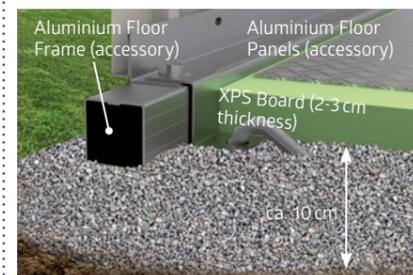

Another possibility for installing level and storm proof Biohort garden sheds on very uneven and soft ground is a point foundation in combination with a Biohort **aluminium floor frame**.

PAVING SLABS

A good and inexpensive solution are paving slabs on a gravel base. We strongly recommend the use of the **aluminium floor frame**.

FLOOR FRAME

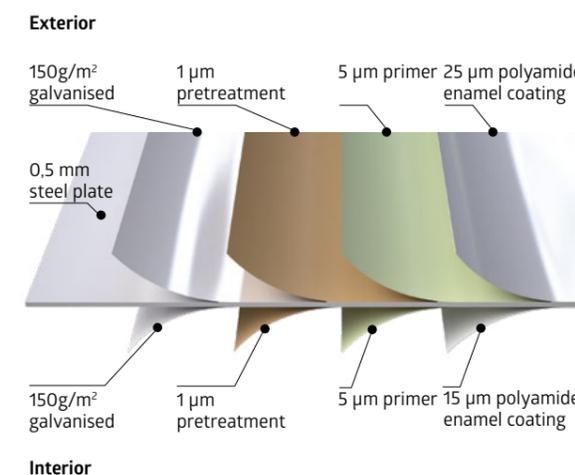

With the **aluminium floor frame** (accessory) you can also set up the shed on a gravel base and anchor it with storm-proof ground anchors (ground anchors are included). The **aluminium floor panels** (accessory) serve as a functional floor and are underlaid with XPS hard foam panels (XPS hard foam panels not included in the delivery).

QUALITY & GUARANTEE

HIGHEST STABILITY DURING ANY WEATHER CONDITION

Biohort garden sheds are manufactured from steel plates with double the thickness compared to low-cost manufacturers. This ensures very high stability (snow loads of 150 kg/m²). A wind tunnel test conducted by the Vienna university of Technology in Austria confirmed that Biohort garden sheds can withstand the highest level on the Beaufort-scale (force 12 = wind speed of 150 km/h) without any problems. Perfectly designed profiles and the use of stainless steel treated screws further contribute to the durability of our products.

METAL - IDEAL FOR OUTDOOR USE

METAL

- + No more painting – use your valuable time for the essential things in life.
- + Thanks to galvanising and enamel finishing, metal remains durable for generations. 20-year guarantee!
- + The high-quality steel used by Biohort does not deform and remains in shape for decades.
- + The colour of enamelled steel plates remains attractive for years and can be cleaned easily (even with a high-pressure washer).
- + The hot-dip galvanised, polyamide enamel coated steel plate used by Biohort is fireproof in accordance with EN 13501-1 (Class "A1").

BEST MATERIALS FOR A LIFETIME OF FREE MAINTENANCE

Biohort uses only the best materials to manufacture its products. For our painted parts we use **galvanised steel plates** with an additional „stove-enamel“ with polyamide. The **high-quality steel plates** supplied by the Austrian and German steelworks are also used by premium German automobile manufacturers. The use of top-quality materials ensures that Biohort can confidently offer a **20 year guarantee** against corrosion. This guarantee only applies under the prerequisite that no aggressive substances (e.g. chlorine, salt, etc.) are stored in our products and that there are no aggressive environmental conditions present; e.g. proximity to the sea or the influence of road salt. All screws, bolts, nuts and fittings are also made of stainless steel.

BIOHORT COLOURS

The colour coatings we use are produced exclusively for Biohort and do not match the RAL numbers. Since many Biohort dealers have show models or original colour samples, we recommend visiting them before your purchase. Further, you can order free colour samples from all our products in our Biohort web shop.

Our general terms and conditions (GT&C) can be found here: <https://www.biohort.com/en/company/general-terms-and-conditions-of-sale>
Our terms of guarantee are available here: <https://www.biohort.com/de/qualitaet/garantiebedingungen>

WOOD

- Time-consuming painting in your spare time costs money and nerves.
- When wood gets wet, it will begin to rot after a few years.
- Wood expands and contracts. The results are jammed doors and splits due to expansion.
- Painted or varnished wood surfaces must be treated regularly. Untreated wood will quickly become unsightly.
- Wood burns easily. Because of this, the use of wood and plastic is forbidden on camping sites.
