Plant Fuel is available as 1L and 2.5L bottle.

1L BOTTLE

2.5L BOTTLE

SUPPORTING BUMBLEBEES

The RocketGro team are very supportive of the natural environment. Our products are 100% natural, 100% peat free, and 100% bee friendly. We believe in chemical free natural fertilisers and peat free gardening at all times.

THE IMPACT

We recognise the huge importance that bees have in their role in food production, pollination, and the natural habitat. Therefore we have teamed up with the Bumblebee Conservation Trust to support them in their nationwide goals to improve bee habitats and save endangered bee species.

10% OF PROFITS

We are giving 10% of all our profits to this amazing charity to give back to the countryside, and the natural environment that has given us our RocketGro products. We are very proud to be associated with such a worthy cause, and support a cause that is so close to our Somerset farming hearts and values.

Proudly supporting 2021/22

BUMBLEBEE WILDFLOWER SEED MIX

Get back in touch with nature and develop a wildflower area in your garden! Our special mix of seeds, native to the UK, are all nectar rich favourites for bees and bumblebees.

Our wildflower seed mix will deliver a flush of colour to your garden, that entices bees and helps them thrive. A lovely resilient mix of perennial flowers will grow from our seeds ensuring they return for at least two years

INCLUDED WILDFLOWERS

Phacelia
Birdsfoot Trefoil
Oxeye Daisy
Wild Carrot

Alsike Clover
Red Clover
Vetch
Sanfoin

WILDFLOWER SEED MIX OPTIONS

Wildflower Seed Mix is available as a 100g pouch. The pouch is 100% compostable.
