We are very excited to launch our new Eco-Thermal WPC Cabin. With insulated panels and roof, this will withstand the elements, and provide a comfortable shelter for your pet.

The wood plastic composite boards mean that this product is low maintenance and highly durable.

Goodchaps are an award winning, family run, eco friendly, plastic free brand specialising in products for human and hound. Our passion is to ensure that our canine family members enjoy healthy, high-quality treats and toys, whilst keeping our environmental impact low.

If it isn't natural, healthy or generally good for your dog, then Goodchaps don't sell it. We specialise in healthy treats and chews made from nothing but fish and a little bit of potato, and natural 100% cotton rope toys which we make by hand.

We have also gone plastic free with all of our products and packaging. Our dog treats and chews come in compostable and recyclable cornstarch pouches. All of our toys are hand made from plastic free materials, and our gifts, for both human and hound, are all packed in plastic free ways that use plants not plastic!
