GARDEN SHEDS BOXES · PLANTING BED

METAL FOR GARDEN & TERRACE | 2022

Your continuing
satisfaction is our
prime concern here
at Biohort.

Dear Customer!

Biohort products offer you the best quality, functionality and security. Our customers especially appreciate the durability and low maintenance of our storage solutions.

Biohort garden sheds have proven their durability in over 45 years of outdoor service. We are an Austrian manufacturing company with highly-trained and skilled workers. Biohort uses only top-quality materials from tested suppliers to manufacture its products. The high-quality steel plate we use is supplied by the same worldwide renowned Austrian and German steelworks in which German premium car manufacturers place their trust. This is the reason why we can offer our customers a 20-year guarantee against corrosion with a clear conscience.

Let Biohort help you realise your gardening dreams without a care in the world: With the foundation solutions SmartBase and SmartBase^{PLUS}, the free delivery and the assembly service, completes our offer to a real complete solution. Find out more on page 4.

Sophisticated design and the high Austrian quality standard applied in the manufacturing process creates products that you will enjoy for decades.

We personally vouch for this.

THE BIOHORT ALL-AROUND CAREFREE PACKAGE

All-In-One Solution

We guarantee our customers long-lasting satisfaction with our high-quality, durable products. In addition, we also offer you a complete service package.

Our **customer service department** will always take care of your needs personally as quickly as possible, regardless of the size of the product.

Through our trained **installation partners**, we can also guarantee the comfort of a professional installation.

The **foundation solutions** SmartBase and SmartBase^{PLUS} are available for all shed types and are built faster and cleaner than expensive concrete foundations.

Together with our online tools such as the **product configurator**, Biohort offers the most complete service on the market!

THIS IS WHAT WE STAND FOR!

Quality

- 20 year guarantee, see page 76 for details
- Hot-dipped galvanised, polyamide coated steel plates
- Screws and hinges made of stainless steel
- Lifetime maintenance free
- Rainwater proof
- Production in Austria

Stability

- Double the plate thickness compared to low-cost providers
- Optimal constructional design
- Storm proof up to 150 km/h, wind force 12
- High snow load of up to 150kg/m²

Service

- Home delivery included in the price
- Short delivery time
- Assembly manual with photos / 3D illustrations for easy assembly
- Consultation from the Biohort Service Team
- Assembly service available on request

Security

- Locking mechanism with a cylinder lock
- Fireproof

Functionality

- Extensive range of standard equipment
- User-friendly
- Large selection of accessories
- Wide range of applications

FREE DELIVERY

Dispatched within 2 to 4 days!*

We will deliver your order free of charge directly to your home address (delivery free kerbside). The given address must be accessible for a 38-t lorry (3 m minimum width of access).

*for stock items, except outbuilding CasaNova®

ASSEMBLY SERVICE

Biohort will be delighted to help you find an assembly partner who will assemble your purchase professionally. You can find more information on installation and the recommended prices at:

biohort.com/en/service/assembly-service

BIOHORT FOUNDATION SOLUTIONS

The foundation solutions Smart-Base and SmartBase^{PLUS} form a stable foundation for Biohort garden sheds, the Equipment Locker and MiniGarage. The foundations are storm-proof and quick to install.

More information on page 26 and at:

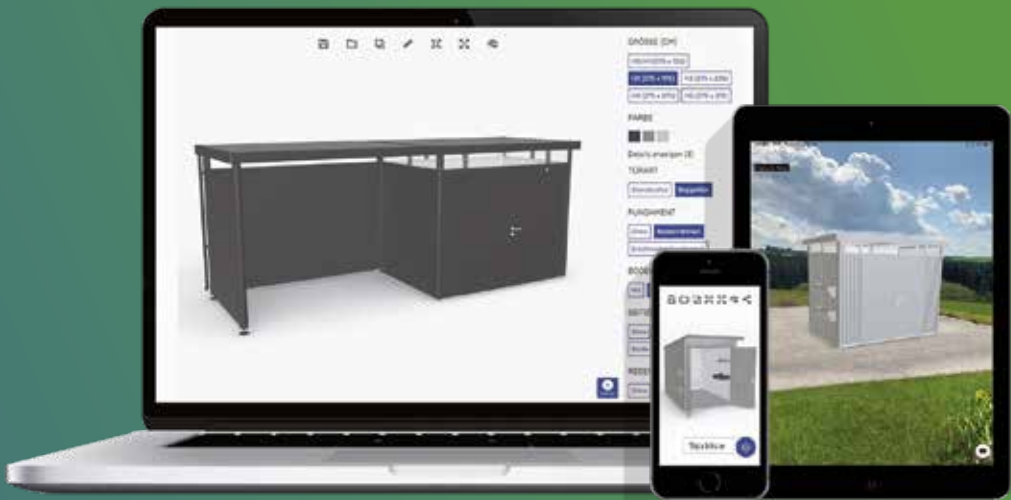

biohort.com/en/service/foundation-tips

PRODUCT CONFIGURATOR

The Biohort 3D-Configurator visualises within a few clicks each product including the individually desired accessories and even calculates the final price. And this is not all: the handy augmented reality function allows you to virtually position the product directly in your garden via smart phone or tablet.

REVOLUTION IN DESIGN & FUNCTIONALITY

Available in one or two colours (a second colour can be chosen for the door and roof at no extra cost).

The Best From Decades of Experience - The Biohort Top Product

Smooth wall surfaces and the elegant acrylic glass panel in the door characterise the modern look. Additional acrylic glass panels can be flexibly installed thanks to a specially developed panel system. To ensure a pleasant atmosphere, the wooden ceiling regulates the humidity along with the optional grey white interior panelling and insulation.

Size 2B, Metallic Dark Grey with Side Canopy
Back and side walls as privacy screens are available separately (see accessories, p. 22).
Tip: The acrylic glass panel and FloraBoard are also available for the side canopy.

ADVANTAGES

Security:

- 3-way locking mechanism complete with stainless steel door handle
- Storm proof up to 150 km/h, wind force 12
- High snow load of up to 150kg/m²

Functionality:

- Comfortable door opening with gas spring
- Optional interior panelling and insulation
- Integrated roof gutter

Standard Equipment:

- Luminous element in the standard door
- Wooden ceiling made of 19 mm plywood with a 1.5 mm EPDM roofing membrane
- Rainwater downpipe (2 pcs.)
- Tool holder (2 pcs.)
- Tool hanger (2 pcs.)
- Shelves (2 pcs.)

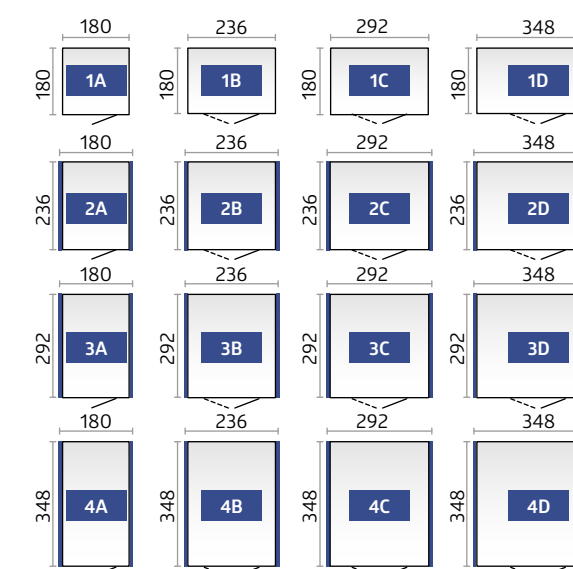

Optional accessories available on pages 20 – 25.

Sizes (in cm, outer dimensions incl. roof overhang)

Door opening:

Standard door (right door hinge): 83 x 200 cm (W x H) - the standard door can be installed on the sides of the shed.
Double door: 167 x 200 cm (W x H) - the double door can be installed on the 236 cm sides of the shed.

The blue bar markings on the gutters are there to indicate onto which side (from size 2A onwards) the optional side canopy can be attached. See page 22 for details.

Technical data and detailed information can be found on pages 77 – 79.

HighLine® Size H2, Metallic Quartz Grey
(with aluminium floor frame, aluminium floor panels,
bicycle holder "bikeHolder" and double door as
accessories)

Product Info

HighLine®

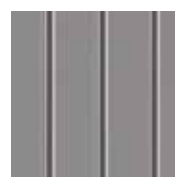

AN EXAMPLE OF DESIGN AND TECHNOLOGY

The Garden Shed HighLine® Fulfills the Highest Standards

Sophisticated industrial design in an impressive form: The modern flat roof and the integrated all-around skylight give the HighLine strong accents. The 3-way locking mechanism with a robust cylinder lock ensures optimum security. The opening and closing of the door works semi-automatically with the help of a gas spring. The HighLine® shed is absolutely maintenance-free!

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

(Roof surface is always in metallic quartz grey)

Size H3, Metallic Silver with Side Canopy
Back and side walls as privacy screens are
available separately (see accessories, p. 22).

ADVANTAGES

Security:

- 3-way locking mechanism complete with stainless steel door handle
- Storm proof up to 150 km/h, wind force 12
- High snow load of up to 150 kg/m²

Functionality:

- Integrated gutter with a connection for a 1 1/4" hose
- Gutter with integrated leaf traps tilted to both sides
- Comfortable door opening with gas spring

Standard Equipment:

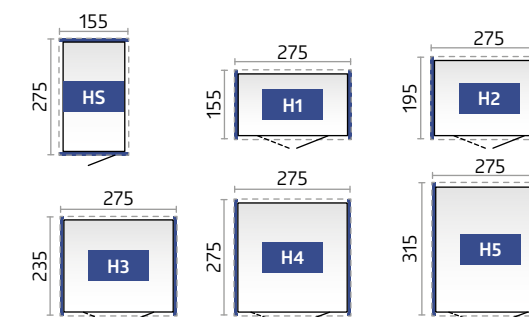

- 360° acrylic glass panels
- Tool holder (2 pcs.)
- Tool Hanger (4 pcs.)
- Shelves and support rails (2 pcs. each)

Sizes (in cm, outer dimensions incl. roof overhang)

Door opening:

Standard door (right door hinge): 76 x 182 cm (W x H)
Double door: 155 x 182 cm (W x H)

The blue bar markings on the gutters are there to indicate onto which side (from size H2 onwards) the optional side/front canopy can be attached. See page 22 for details. The dotted lines mark the roof overhang.

Tip: You can rotate the HighLine® from size H2 onwards to suit your own preferences, and the standard door can be installed in any side wall.

From size H4 onwards, installing the double doors in the side wall is also possible.

Technical data and detailed information can be found on pages 80 – 81.

Optional accessories available on
pages 20 – 25.

Panorama® Size P2, Metallic Dark Grey
(with aluminium floor frame, aluminium floor panels and FloraBoard as accessories)

Product Info

Panorama®

INTERIOR ILLUMINATION

The Beauty of Natural Light

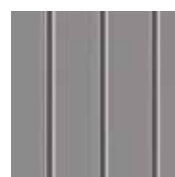

The full encircling skylight constructed from acrylic glass gives our new garden shed Panorama® a lightness in appearance and allows this model with its modern gable-roof to fit easily into its surroundings. The proven Biohort quality of materials and workmanship together with the selection of individual equipment options and the range of sizes available make the Panorama® the perfect garden shed to meet your high demands.

Size P2, Metallic Quartz Grey
The standard door can be fitted in any side wall from size P2 onwards.

		Neo**	HighLine®	Panorama®	AvantGarde®	Europa	Equipment Locker
01	Tool Hangers To hang up spades, rakes, garden hoses and other garden tools. (Load capacity: 10 kg) Standard equipment: 4 pieces, (exception Garden Shed Neo: 2 pieces).						
02	Shelves / Support Rails Standard equipment: 2 shelves (depth: 24.5 cm, load capacity: 15 kg per shelf) und shelf support rails. (exception Garden Shed Neo: no support rails are needed here). Additional shelves of 24.5 cm or 43.5 cm depth and support rails are available separately as accessories. (exception Garden Shed Neo: shelves of 26 cm or 44.5 cm depth)						
03	Tool Holder Standard equipment: 2 tool holders. For mounting on the inside of the doors. A maximum of 4 tool holders can be fitted to the door panel.						
04	Rainwater Downpipe Set Two downpipes with outlet elbows in the same colour as the shed.						
05	Hook Set Consists of a combination hook, a handle hook and a shovel hook on a wall rack, this is hung between 2 support rails*.						
06	Electric Mounting Panel Discreet, hidden cable routing and easy assembly of switches and outlets (electrical equipment in photo not included).						
07	LED Light Battery-powered light with motion sensor and permanent light switch; magnetic fixation possible; including USB charging cable.						
08	Suspension Basket Ideal for storing small objects. Includes wall bracket for hanging the basket in-between 2 support rails*. Sack made of black polyester mesh. Size (W x L x H): 67 x 34 x 20 cm (exception Garden Shed Neo: 55 x 34 x 20 cm).						
09	Folding Table The space-saving folding table can be easily inserted into 2 support rails*. It quickly provides you with a stable work surface. Load Capacity max. 30 kg, Size: 69 x 58 cm.						
10	Threshold Access Ramp For outside and inside, for easy crossing the floor threshold, only possible with aluminium floor frame and double door, max. load capacity 200 kg, length: 135 cm (exception Garden Shed Neo: 163.5 cm)						
11	Bicycle Hanger "BikeMax" Garden Shed Europa: height-adjustable in 6 different positions, for bicycles up to 26 inches, with a tire thickness of max. 5 cm and a weight of max. 25 kg. Garden Shed Neo, AvantGarde®, HighLine®, Panorama®: height-adjustable in 8 different positions and suitable for bikes with up to 29" wheels. Integrated locking eyelet for bicycle locks.						
12	Bicycle Holder "BikeHolder" Optimal storage of bicycles thanks to the adjustable retaining clamps. The base plate can be easily slotted into 2 support rails*. Quick and easy securing of the bicycle tyres for a maximum of 3 bicycles per "Bike-Holder".						

* Support rails not included in the delivery. Exception Garden Shed Neo: no shelf supports are needed here.
 ** Attention: Garden Shed Neo does not have any corrugations like the other garden sheds, this has not been taken into account in the illustration.

STANDARD EQUIPMENT
OPTIONAL ACCESSORIES

		Neo	HighLine®	Panorama®	AvantGarde®	Europa	Equipment Locker
13	Double Door Makes entering and leaving the shed with large tools and equipment easier. The double door is equipped with a twist knob locking mechanism and a gas spring (except for Garden Shed Europa and Equipment Locker).	★	★	★	★	✓	✓
14	Additional Door Included in the delivery scope are a stainless steel door handle with standard cylinder, a 3-way locking mechanism, a gas spring, hinges, two tool holders as well as the necessary metal fittings for the hinge positions. The door can be hinged on the right and on request also on the left. Your Garden Shed "Europa" can be equipped with additional standard doors (for example to be installed into the side wall). You can also order an extra wide double door with the dimensions: 171 x 170 cm – to replace or supplement the standard door (note: can only be installed off-centre).*	★	★	★	★	★	
15	Shed Extension Europa* Connecting modules are available for the sheds with 244 cm or 316 cm widths. This allows two sheds to be joined together lengthwise to form a single large shed. The gables of the two houses are supported and connected with profiles at the connection point. The clearance height here is 170 cm (same as door height).					★	
16	FloraBoard Two rails of the same colour as the shed are attached to the outer wall and the flower boxes can be hung on these at a suitable height. Plastic inserts for easier planting are included in the standard delivery scope. Tip: For the garden shed Neo, the FloraBoard is also available for the side canopy with side or back wall.	★	★	★	★		
17	Acrylic Glass Panel The tinted acrylic glass panel (Dimensions: 28 x 207 cm) is mounted in a metal frame and can be flexibly installed in any side wall, but not side by side. Tip: The acrylic glass panel is also available for the side canopy with side or back wall.	★					
18	Interior Panelling Grey white interior wall panels are simply hooked into the side walls and screwed in place.	★					
19	Insulation The interior wall panelling can also be fitted with 40 mm thick insulation (styrofoam boards), which opens up many new possibilities for the garden shed.	★					
20	Window Unit The complete side wall unit with a metal framed clear plastic window brings daylight into the garden shed (window opening 50 x 60 cm).					★	
	Side Canopy The side canopy can be attached to the garden shed Neo (from size 2A onwards) on either on one or both sides. The width of the side canopy is 3 m. The aluminium supports are equipped with height-adjustable feet. Two rainwater downpipes are included.	★					
21	The side canopy can be attached to the shed HighLine® (from size H2 onwards) on the side with the gutter - either on one or both sides. This creates a roofed, open space equal to the single/double surface area of the garden shed. The aluminium supports are equipped with height-adjustable feet. The rainwater downpipe is included. The side canopy for the garden shed Europa can be attached either to the left, to the right or to both sides of the shed. The set includes the supports, a short rainwater downpipe and the fixation material (not available for size 1 and size 2A).		★			★	
22	Side and Back Walls for Side Canopy Garden Shed HighLine®/Neo You can attach a back wall and/or a side wall to the side canopy of your HighLine® shed (from size H2)/Neo (from size 2A). They are available in the same colours as the shed.	★	★

FOUNDATION SOLUTIONS

More information in foundation brochure and at: biohort.com/foundation

CONCRETE FOUNDATION

A reinforced concrete foundation slab on a gravel base is an optimal, but also expensive foundation. With this type of foundation, you must also make sure that no water can penetrate into the shed at ground level. The offset foundation with a circumferential step of 2 cm x 7 cm is the ideal design for this (aluminium floor frame and aluminium floor plate cannot be used).

As an alternative to the stepped concrete foundation slab surface, a continuous flat concrete slab can also be poured. The available **aluminium floor frame** accessory makes it easier to level out any unevenness in the foundation and as well as fitting a sealing joint. The aluminium floor frame also allows the use of the **aluminium floor panels**, which can be underlaid with 2-3 cm thick XPS hard foam boards. The XPS hard foam boards not included in the delivery.

POINT FOUNDATION

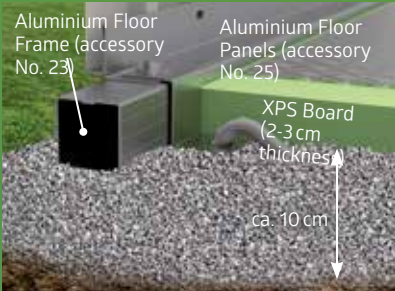

Another possibility for installing level and storm proof Biohort garden sheds on very uneven and soft ground is a point foundation in combination with a Biohort **aluminium floor frame**.

PAVING SLABS

A good and inexpensive solution are paving slabs on a gravel base. We strongly recommend the use of the **aluminium floor frame**.

FLOOR FRAME

With the **aluminium floor frame** (accessory) you can also set up the shed on a gravel base and anchor it with storm-proof ground anchors (ground anchors are included). The **aluminium floor panels** (accessory) serve as a functional floor and are underlaid with XPS hard foam boards (XPS hard foam boards not included in the delivery).

Detailed information on the SmartBase and SmartBase^{PLUS} can be found on the following pages.

SmartBase

Perfect for Hard Surfaces

The Biohort SmartBase Foundation is the ideal foundation for concrete or paved areas. It consists of high-quality aluminium boards, a special foundation frame and height-adjustable feet. So light ground irregularities of up to 4 cm can be compensated.

Time of Assembly: 1 - 2 hours for two (depending on workmanship and product).
Tools*: spirit level, drill, open ended spanner SW13 and SW24.

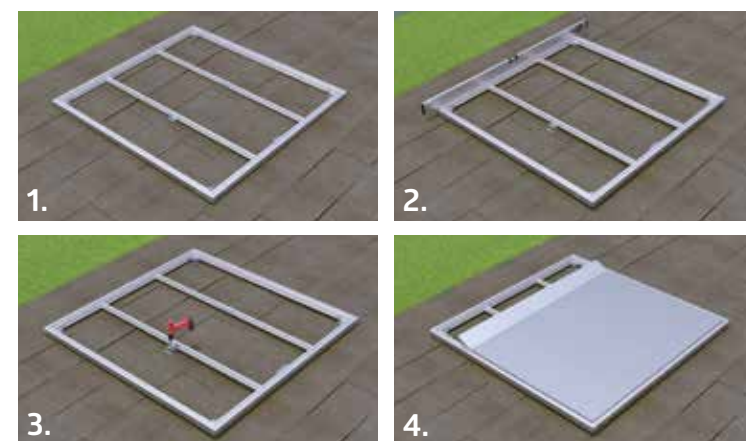

ADVANTAGES

- Compensation of unevenness through adjustable feet
- Easy to remove if necessary
- Precisely fitted to all Biohort garden sheds, the Equipment Lockers and the MiniGarage
- Storm proof
- Load bearing capacity max. 200 kg/m²

Standard Equipment:

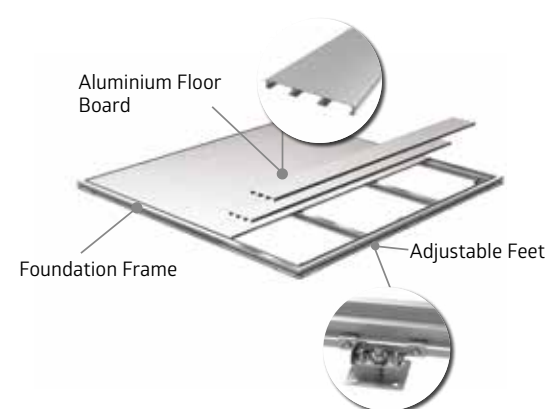

- Aluminium floor boards with grooved surface
- Specially designed foundation frame
- Galvanised adjustable feet
- Adjustable feet with height adjustment
- Integrated water barrier to protect against water ingress

Floor frame and floor plates are no longer necessary!

1. Frame Assembly
 3. Fixing the Adjustable Feet to the Subsurface

2. Connection of Adjustable Feet and Frame Alignment
 4. Fixing of Aluminium Floor Panels

SmartBasePLUS

Optimal Solution for Slopes and Lawns

Unlike the SmartBase foundation, the patented SmartBase^{PLUS} system includes ground screws instead of adjustable feet. These are screwed directly into the ground and can compensate slopes of up to 15 cm. For this, the soil should be compact and free of large stones and roots.

Time of Assembly: 2 - 4 hours for two (depending on workmanship and product). **Tools*:** hammer drill, drill bit Ø 40 x 600 mm, spirit level, drill, open-end spanner SW13 and SW24, shovel.

ADVANTAGES

- Little excavation
- Gravel base is not necessary
- Compensation of unevenness through ground screws
- Easy to remove if necessary
- Precisely fitted to all Biohort garden sheds, the Equipment Lockers and the MiniGarage
- Storm proof
- Load bearing capacity max. 200 kg/m²

Standard Equipment:

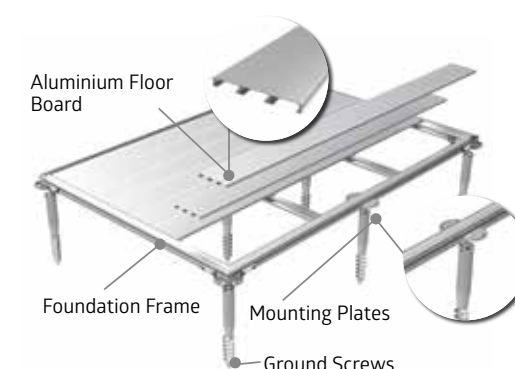

- Aluminium floor boards with grooved surface
- Specially designed foundation frame
- Galvanised ground screws
- Multi-adjustable mounting plates
- Including manual screw-in driver
- Integrated water barrier to protect against water ingress

Floor frame and floor plates are no longer necessary!

1. Site Preparation and Ground Screw Insertion
 3. Positioning and Attachment of Frame

2. Attachment and Levelling of Mounting Plates
 4. Fixing of Aluminium Floor Panels

ADVANTAGES

- Sandwich element with 40 mm core made of polystyrene (EPS W20)

Security:

- Locking mechanism with stainless steel door handle
- Roof resp. snow load of up to 215 kg/m² (less roof loading such as greenery)

Functionality:

- Easy to heat thanks to thermal insulation; U-value of side walls: 0,76 W/(m²K)
- Door hinge position on the left or right available
- Large selection of accessories
- Ventilation via acrylic glass panel which can be opened
- Comfortable door opening with gas spring

Product Info

StoreMax®

DESIGN ON THE OUTSIDE SPACE ON THE INSIDE

Gardening Joy at the Highest Level

A garden is a feel-good oasis – at least if it is tidy. This is why the Storemax® offers maximum storage space in a small space, which can be individually divided up with shelves and shelving units. Whether as a lawn mower garage, garden tool box or storage space for pillows, behind the two-part opening system there is room for everything!

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

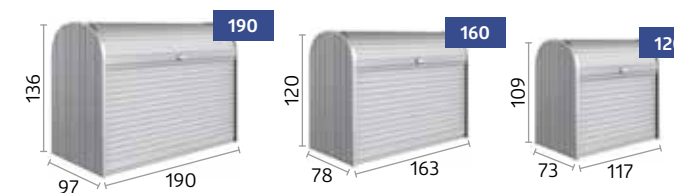

The top shutter can be opened separately.

To fully open the Storemax® the front shutter fully glides back.

Sizes (in cm)

OPTIONAL ACCESSORIES

Corner Shelf Set (suitable for size 120 & 160)

2 shelves (triangular-shaped) with support rails, height adjustable in 5 different positions, easy to retrofit without any tools, can be fitted on the left or the right as required.

Intermediate Shelf (suitable for size 160 & 190)

2-pieces, galvanised steel shelf with support rails, supports a load of ca. 100 kg; can also be used as a 2-piece shelf, height adjustable in 5 different positions, easy to retrofit.

Shelf Set (suitable for size 190)

2 steel shelves (72 x 24.5 cm) and 2 support rails.

HighBoard Size. 160, Metallic Dark Grey
(with tool holder and intermediate shelf as accessories)

ADVANTAGES

- Rainwater proof
- Invisible, integrated ventilation

Security:

- Locking mechanism with turn knob cylinder lock

Functionality:

- Comfortable lid and door opening with gas spring

Standard Equipment:

- Dustbin lid opener (3 pcs.)

HighBoard

HIGHLIGHT ON THE PATIO

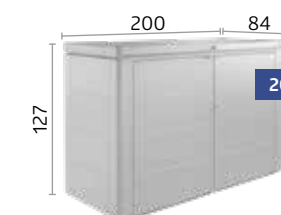

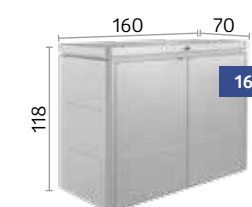

Multitalent for Storage

Thanks to the double doors and opening lid, the applications for the HighBoard are almost limitless: whether as a storage space for cushions and garden equipment or as the perfect extension to your outdoor kitchen, everything is protected from the weather and neatly stowed away. Its elegant design has been developed by industrial designers and is a guaranteed highlight on every patio.

Product Info

MiniGarage, Metallic Silver
(with aluminium floor frame, aluminium floor panel, bicycle suspension rail and shelf system as accessories)

MiniGarage

SMALL WITH BIG BENEFIT

Multifunctional storage wonder without authorization requirement*

The MiniGarage provides the ideal storage space for up to 2 bicycles or gardening tools and garden furniture. With a height of only 145 cm, it does not require planning permission*. The intelligent rail system (optional) facilitates the storage of bicycles: Place the rear wheel onto the ground rail, hang the handlebar in the extendable upper rail, push into the Minigarage, done! The extendable shelf system with 2 shelves (150 cm long) is valuable for storing gardening tools. MiniGarage – multi-purpose in application, modern in design.

Metallic Silver

Metallic Dark Grey

MiniGarage with two bicycle suspension rails and electrical mounting panel.

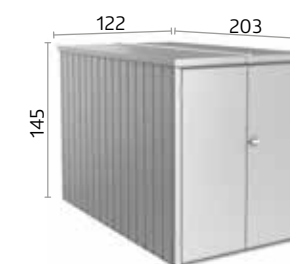

Sizes (in cm)

Door opening:

103 x 131 cm (W x H)

Interior dimensions:

117 x 195 x 137 cm (L x W x H)

Tip: also available with electrical mounting panel.
See page 20 for details.

OPTIONAL ACCESSORIES

Bicycle Suspension Rail

Extendable storage system with guide rail on the floor, designed for easy extraction and storage of bicycle.
Max. 2 bicycle storage rails possible.

Shelf System

Extendable, consists of two shelves incl. guiding rails (dimension per shelf: W 43 x T 150 x H 5 cm) height adjustable.
Load capacity max. 15kg/shelf.

Aluminium Floor Frame/Aluminium Floor Panels

The aluminium floor frame gives the MiniGarage the necessary stability even on uneven ground. The top-quality and elegant aluminium chequer plate floor can only be used in combination with the aluminium floor frame.

SmartBase/SmartBase^{PLUS}

Complete system consisting of aluminium profiles, aluminium boards and adjustable feet or ground screws. Perfect for levelling slight inclines.

For details, see page 24 – 25.

*please observe local by-laws, as these may vary from country to country!

Two Combined Dustbin Box Alex, Colour Combination: 2 (metallic quartz grey)

ADVANTAGES

- Can be expanded as required due to modular design
- Integrated ventilation
- Stable roof for planters
- Rainwater proof

Security:

- Locking mechanism with turn knob cylinder lock

Standard Equipment:

- Catch bar for tipping out the dustbin
- Functional floor for wheel positioning
- Organiser system fitted inside the door (incl. 3 hooks)

Alex

Modern Design, Clever Details

With the new Alex dustbin system, any number of boxes can be arranged in a row, even at a later date, and thus separation systems can be optimally accommodated. The dustbin can be easily tipped out, the retaining bracket fixes it in the inclined position and facilitates filling. With its modern design, Alex cuts a fine figure in every driveway!

Sizes (in cm)

Door opening:

65 x 118 cm (W x H)

Storage capacity:

120 L Dustbin or
240 L Dustbin

OPTIONAL ACCESSORIES

Connecting Element

The connecting element covers the gap between two dustbin boxes at the front and back.

Matching Cylinder Lock

If several boxes are used, access is possible with only one single key.

Shelves/Supports Rails (2 pcs.)

Hot-dip galvanized steel shelves (72 x 24.5 cm) are suspended in the support rails. Max. 4 shelves per dustbin box possible.

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

Available in one or two colours (a second colour can be chosen for the door and roof at no extra cost).

Metallic Dark Grey

Size L100, Metallic Silver with Trellis

Sizes (in cm)

Tip: All sizes are available in three different heights!

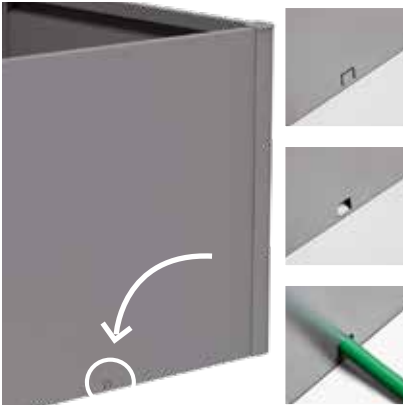

OPTIONAL ACCESSORIES AVAILABLE ON PAGES 64-65.

	Raised Vegetable Bed	Belvedere®
01 Sliding Panel Easy to empty thanks to sliding panel.		
02 Preparation for Irrigation Opening for watering hose on the narrow side (size: 17 x 17 mm, except Raised Vegetable Bed 2 x 2 and 1.5 x 1.5).		
03 Rodent Protection Integrated rodent protection made of fibreglass fabric. Is inserted before filling.		
04 Intermediate Floor The intermediate floor reduces the volume of the bed and the soil filling required, saving both money and valuable time. It is placed on the second corrugation during assembly.		
05 Cold Frame Extension Efficient frost protection with 4 easily removable sliding panels. Storm proof and equipped with rainwater drainage (suitable for size 2x1). Not combinable with trellis.		
06 Snail Protection It is placed on top of the raised Vegetable Bed. Can be combined with a cold frame extension. (exception: not for L sizes)		
07 Skirting The skirting is mounted on the floor frame and placed on the lawn. The Raised Vegetable Bed is then placed on the skirting and fastened (cannot be installed afterwards). Width: 6.7 cm		
08 Planter Insert Plastic insert (size: 0.5 x 0.5 m) for easier planting, is placed on the intermediate floor. Holes for drainage can be drilled without any problems.		
09 Trellis The trellis is attached directly to the raised/planting bed. Height: 91 cm		
10 Privacy Screen with or without Acrylic Glass Panel In conjunction with the planting bed, the privacy screen forms a decorative boundary and serves not only as a view but also as a windscreen. Height: 91 cm		
11 Heights-Variants The three planter heights enable demand-oriented use. Height: 45 cm (Mini), 61 cm (Midi) and 77 cm (Maxi)

DaVinci® Metallic Quartz Grey
Combination of different heights, lengths, with privacy screen and trellis

DaVinci® FLEXIBLE PLANTER BOX SYSTEM

Limitless Individuality

Design the flexible planter box system DaVinci freely according to your wishes. From planting bed with height graduations to privacy screen and terrace borders, there are no limits to the possibilities. The basic modules in different versions can be individually combined. With the help of the 3D-Configurator, your planter box system DaVinci can be visualized with just a few clicks.

3 Heights, 3 Widths, 3 Colours and Countless Possibilities

Possible heights from 45 cm to 77 cm and lengths from 50 cm to 200 cm.

Thanks to the modular construction, there are no limits to your wishes. The basic modules can be arranged in any order. Privacy screen and trellis can be positioned freely according to your expectations.

Flexible, convenient and versatile configurations

DaVinci® as Privacy Screen
Combination of different heights, lengths and two privacy screens.

DaVinci® as Terrace Border
Combination of different heights, lengths and two trellises.

Privacy Screen with Acrylic Glass Panel (optional), Metallic Quartz Grey
Combination of different heights

ADVANTAGES

- Individually configurable
- Extremely durable
- Simple assembly
- Privacy, wind and sun screen

Security:

- High wind resistance due to well-thought-out ground anchoring

Functionality:

- Free-standing assembly or connection to house wall or similar possible

Privacy Screen

DECORATIVE EYE-CATCHER

A Piece Of Privacy

Our privacy screen not only protects against curious eyes, it also offers protection from wind and direct sunlight. Thanks to the simple plug-in system, the elements can be individually expanded. Regardless of whether it is free-standing or directly on a house wall - the Biohort Privacy Screen is the perfect boundary for your garden oasis.

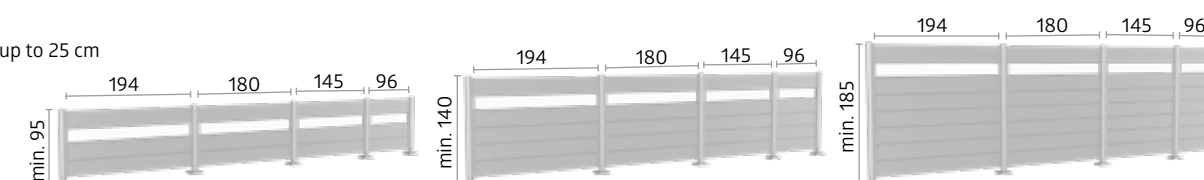

Sizes (in cm, without post)

Posts:

Height adjustable: up to 25 cm
Diameter: 10 cm

Base plate:

18 x 18 cm (W x H)

POSSIBLE COMBINATIONS

Components

Wall panels (with or without acrylic glass panels) and the appropriate post are required for privacy screen.

Privacy Screen Combinations

The privacy screen can be extended both in a straight line and in different 90° angles.

All widths and heights are compatible with each other, making height gradations also possible.

Variant 1: post for anchoring, height-adjustable up to 25 cm

The base plate is bolted to a frost-proof concrete foundation using the supplied stainless steel bolt anchors. Assembly on terrace tiles or wood/WPC boards is not sufficient.

Variant 2: post for setting in concrete, height-adjustable up to 25 cm

With this variant, the post is set directly into the concrete foundation. Size of foundation points (varies depending on soil conditions): min. 40 x 40 cm, depth: 80 cm

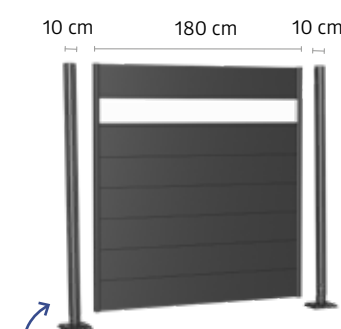

Metallic Silver

Metallic Quartz Grey

Metallic Dark Grey

Privacy Screen consisting of:
Wall panels and post

The posts can be used as end, corner or connecting post for the privacy screen panels.

ADVANTAGES

- Extremely durable

Security:

- Integrated rodent protection made of fibreglass fabric

Functionality:

- Ventilation system ensures an optimal rotting process
- Sliding front wall panel makes it convenient and easy to empty
- Comfortable lid with gas spring

MonAmi® PREMIUM COMPOSTER

Functional Design to Last for Decades

As "my friend in the garden" the Composter MonAmi® combines functionality with stylish appearance: smooth surfaces on the inside and outside, with everything required for efficient composting. Two centrally placed ventilation pipes create a chimney effect and ensure a reliable circulation of air, meanwhile the circumferential gap underneath the cover ensures that heat is transferred out of the composter. Even composting can now look great!

This May Go In:

- Organic waste such as fruit and vegetable waste
- Crushed eggshells
- Coffee grounds and tea leaves
- Leftover bread
- Cuttings such as small branches and twigs
- Leaves and dry grass clippings

This May Not:

- Leftovers such as meat, fish and bones
- Contents of animal litter and animal excrement
- Cigarettes
- Treated wood
- Vacuum cleaner bags
- Large quantities of ash and barbecue coal

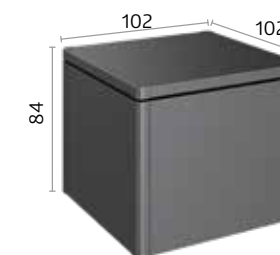

Metallic Dark Grey

Sizes (in cm)

Volume:

QUALITY & GUARANTEE

Highest Stability During Any Weather Condition

Biohort garden sheds are manufactured from steel plates with double the thickness compared to low-cost manufacturers. This ensures very high stability (snow loads of 150 kg/m²). A wind tunnel test conducted by the Vienna university of Technology in Austria confirmed that Biohort garden sheds can withstand the highest level on the Beaufort-scale (force 12 = wind speed of 150 km/h) without any problems. Perfectly designed profiles and the use of stainless steel treated screws further contribute to the durability of our products.

METAL - IDEAL FOR OUTDOOR USE

Metal

- No more painting – use your valuable time for the essential things in life.
- Thanks to galvanising and enamel finishing, metal remains durable for generations. 20-year guarantee!
- The high-quality steel used by Biohort does not deform and remains in shape for decades.
- The colour of the enamelled steel plates remains attractive for years and can be cleaned easily (even with a high-pressure washer).
- The hot-dip galvanised, polyamide enamel coated steel plate used by Biohort is fireproof in accordance with EN 13501-1 (Class “A1”).

Best Materials for a Lifetime of Free Maintenance

Biohort uses only the best materials to manufacture its products. For our painted parts we use **galvanised steel plates** with an additional „stove-enamel“ with polyamide. The **high-quality steel plates** supplied by the Austrian and German steelworks are also used by premium German automobile manufacturers. The use of top-quality materials ensures that Biohort can confidently offer a **20 year guarantee** against corrosion. This guarantee only applies under the prerequisite that no aggressive substances (e.g. chlorine, salt, etc.) are stored in our products and that there are no aggressive environmental conditions present; e.g. proximity to the sea or the influence of road salt. All screws, bolts, nuts and fittings are also made of stainless steel.

Biohort Colours

The colour coatings we use are produced exclusively for Biohort and do not match the RAL numbers. Since many Biohort dealers have show models or original colour samples, we recommend visiting them before your purchase. Further, you can order free colour samples from all our products in our Biohort web shop.

Our general terms and conditions (GT&C) can be found here: <https://www.biohort.com/agb>
Our terms of guarantee are available here: <https://www.biohort.com/en/quality/terms-of-guarantee>

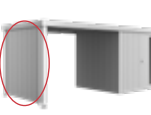

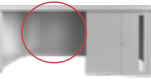

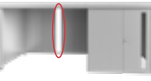

Wood

- Time-consuming painting in your spare time costs money and nerves.
- When wood gets wet, it will begin to rot after a few years.
- Wood expands and contracts. The results are jammed doors and splits due to expansion.
- Painted or varnished wood surfaces must be treated regularly. Untreated wood will quickly become unsightly.
- Wood burns easily. Because of this, the use of wood and plastic is forbidden on camping sites.
