**GoGro Style brings colour and nature to a growers' home or outdoor area. GoGro's modular self-watering design means your system can be built to fit any space, from living rooms to gardens, patios or even balconies – the possibilities are endless, and now brighter and more stylish!**

The larger 28.5 L pots are now available in three beautiful colours; white, lime green and purple. Each pot is fully UV resistant and frost proof meaning they can handle the most adverse weather conditions. GoGro is exceptionally easy to install and use, meaning it suits all levels of growers.

**Say goodbye to daily watering!**

GoGro's clever self-watering tray and valve prevents over/under watering meaning your plants will stay healthier for longer with minimal upkeep! Simply set up your GoGro modules using the parts provided, place in your desired location, plant your favourite flowers, fill up the reservoir, and let GoGro handle the rest! Please make sure your reservoir is raised a minimum of 50 cm above the level of your pots allowing gravity to take control.

**No power? No problem!**

GoGro Style is a gravity fed system that does not require any plumbing, electricity or even growing expertise! Its uniquely designed tray and collar prevents algae build up by blocking sunlight reaching the water under each pot; this is a common issue with standard pots and trays in greenhouses or gardens that can cause many growing problems.

GoGro Style is simple, stylish and gives you amazing results!

Designed and manufactured in the UK.

# POTS & SYSTEMS | Fabric Pots

11 & 17 L  
ROUND POTS  
ARE PERFECT  
FOR  
GOGRO

## PLANT!T Fabric Dirt Pots

Lightweight and reusable, the PLANT!T Dirt Pots offer value and versatility to all gardening enthusiasts. Made from porous breathable fabric, PLANT!T Dirt Pots allow your plants to thrive, promoting exceptional root health and vigorous plant growth. The soft-sided construction allows the planter to conform to your terrain, making them the perfect choice for all growing areas.

- Promotes vigorous plant growth
- No root circling
- Great for Tender Perennials - heavy duty handles that allow you to manoeuvre them around your garden or glasshouse
- Breathable, soft fabric means superior drainage and aeration
- Manages plant temperatures - keeping plants cooler in summer and warmer in winter

- 1 Roots hit the side of pot, get air pruned and stop growing.
- 2 This triggers roots to grow off the side roots, these then get air pruned.
- 3 This triggers a mass of fine roots to grow throughout the pot.

In a plastic pot, roots are drawn to the bottom of the pot and circle around the base.

## Botanium

### Pick, chop, cook. Indoor growing simplified!

Botanium enables you to grow herbs or vegetables fast and effortlessly. Featuring an automatic watering system along with a water tank that lasts several weeks, this product is perfect if you lack green fingers but want fresh basil with minimum effort. Perfect for growing basil, oregano, mint, chillies, tomatoes and more!

Botanium's contemporary look and feel means it will be a beautiful addition to any household. Whether you want to grow on the windowsill in your kitchen, or next to your TV - Botanium takes the 'green fingers' out of growing!

### How does it work?

Complete with a USB cable, Botanium simply plugs into any USB port/plug and begins irrigating immediately. Once the USB cable is unplugged you will automatically reset the pump timer setting. Due to its low power output, Botanium can also work using a solar or phone charger battery pack allowing you to grow anywhere around your home.

Botanium comes complete with porous stone growing media. By growing in porous stones instead of soil, the plant's roots are exposed to higher levels of oxygen resulting in faster growth. The plant is automatically watered every three hours with nutrient-rich water from the reservoir below. The excess water is drained through the bottom of the growing container and is collected in the water tank, so it can be reused - this prevents any water wastage!

### What can you grow?

You can grow herbs such as basil, oregano or mint. If herbs aren't for you, then why not try growing chillies, tomatoes or even strawberries! Botanium works especially well with thirsty plants that normally would require very frequent watering.

### Grow indoors

Botanium works well on a windowsill with plenty of natural sunlight. If you live in a cold and dark country, you will need extra light during the winter to help your plants thrive. The E27 full spectrum LED grow light is the perfect supplement for natural daylight, and it will encourage your plant to grow faster and stronger!

### What comes in your kit?

Your complete kit includes; one Botanium planter with built-in pump and USB cable, one USB to UK three pin plug, 0.7 L of porous stone, 25 ml of Botanium nutrient solution, and a complete guide to set up your Botanium.

## Urbalve Self-watering Planter

Create a real centre piece to a room.

The Urbalve product range supports green living in cities. Urbalve's mission is to produce and design products that bring us closer to nature, create a healthier lifestyle and utilise sustainable natural resources. Thanks to our Urbalve range, growing plants and composting will become a normal part of city life!

Urbalve Self-watering Planters are ideally suited for indoor use, but they can also be used outside on roof terraces, balconies and patios. They are ideal for growing and maintaining houseplants, flowers, herbs and small vegetables. This European designed product perfectly combines wood with plastic to create a real centre piece to a room.

Using a simple wick system, both planters hold 15 L of water meaning your plants can stay hydrated for up to two weeks during warmer summer days. These trendy planters are great for thirsty plants, small vegetables, and even strawberries thanks for their large volume planting area.

### Technical Specifications

# POTS & SYSTEMS | Worm Farm

## Urbalive Worm Farm

### Ideal for recycling organic kitchen waste.

The Urbalive Worm Farm is a stylish container that is used to compost organic kitchen waste using Californian earthworms. This unique and trendy product can be used at home, in schools or at work to make clever use of your food waste to continue the ecosystem.

The Urbalive range supports green living in cities, brings us closer to nature, and helps towards sustainability of natural resources.

Its modern design is made up of composting layers where earthworms help create vermicompost leading to a container where the worm tea collects. Vermicompost contains essential enzymes and natural growth hormones that are great for soil fertility and feeding your garden. Worm tea is rich in natural nutrients and enzymes that help plants grow strong and healthy. Simply mix your tea with water and feed your plants or vegetables.

urbalive

18-025-755	Urbalive Worm Farm - Light Green
18-025-760	Urbalive Worm Farm - Ivory
18-025-762	Urbalive Worm Farm - Chocolate

### Turn your organic kitchen waste into compost

The Urbalive Worm Farm by Plastia is a stylish container that is used to compost organic kitchen waste using Californian Earthworms which are easily accessible. Alternatively, you do not necessarily have to use earthworms, as they simply speed up the natural breakdown of compost.

This unique and trendy product can be used at home, in schools or at work to make clever use of your food waste to continue the ecosystem.

### Clever multi-layered system allows you to make worm tea

The modern design is made up of composting layers where earthworms help create Vermicompost leading to a container where the worm tea collects.

Vermicompost contains efficient enzymes and natural growth hormones that are great for soil fertility and feeding your garden.

Worm tea is rich in natural nutrients and enzymes that help plants grow strong and healthy.

### Fun, odourless and educational!

Composting in the Urbalive Worm Farm is easy and odourless. The kit comes with trays where the worms transform food scraps into Vermicompost, a bin where the liquid worm tea is collected and a tight fitting lid. Worm tea is a liquid fertiliser containing a lot of rich nutrients and enzymes that help your plants grow and prevent them from pests.

### Where can I use my Worm Farm?

You can compost with worms all year-round. You can place your Worm Farm either indoors or outdoors, however it is important to always ensure that the earthworms have an optimal temperature of approximately 20°C. It is also key that there is plenty of moisture in the substrate. During Winter you should keep your

Worm Farm insulated to withstand a sudden drop in temperature or to avoid risk on frost. In the Summer please avoid leaving the Worm Farm in direct sunlight, this is to prevent water evaporation and overheating. The temperature in your Worm Farm should not drop below 5°C or exceed 25°C.

### What can go into my Worm Farm?

Your Worm Farm is particularly suitable for peelings and leftovers of fruit and vegetables, such as potato peels, apple cores, green tops of vegetables etc. Tea-bags are also great as the worms will often reproduce in them resulting in more Vermicompost! Coffee grounds and paper coffee filters are also suitable as well as cooked vegetables, crushed egg shells, dampened cardboard and dead plants. We strongly advise avoiding spicy foods, citrus fruits (oranges and limes), milk-based products, meat products, bones, oils, lard and other fats.

### Which worms do I use?

Composting worms are mixture of species selected for their composting ability. These types of worms are productive at consuming organic leftovers and therefore offer the best solution to creating an organic Worm Tea and Vermicompost. Californian Earthworms are also excellent composters, they can be purchased online or in-store across the UK.

### How do I use the Worm Tea?

Worm tea is an excellent liquid fertilizer for indoor plants and garden plants. It contains high amounts of nutrients and enzymes that promote natural growth and help build the plants' resistance to pests. We recommend diluting the tea with water at a ratio of 1:5, for example, 10 ml of worm tea with 50 ml of water.

Add your leftover fruits and vegetables (peel, pulps, seeds, stalks, leaves), teabags, coffee grounds and much more

## Urbanive Bokashi Composter

An indoor composter designed for the processing of organic household waste, which uses fermenting bacteria to transform organic waste to a fermented liquid and fermented mixture. The obtained fermented material that can be used to create first-class compost, while the liquid has a range of possible uses in the household.

Bokashi composting is the transformation of organic waste using the principle of fermentation that is carried out by adding a dry mixture of special Bokashi bacteria to the organic waste. Unlike classical composting, here the fermentation process takes place without air and relies on living organisms that activate upon contact with organic material.

During fermentation, fermented liquid will form in the bin. The first collection of the liquid will be possible in approximately 14 days from the start of fermentation. After that, you should collect it approximately every 3-5 days.

The Urbanive Bokashi Composter can be kept in the kitchen, in the corridor in the garage, etc. Keep the container at room temperature. Avoid placing it in direct sunlight!

## Urbalve Berberis Self-watering Planters

Urbalve Berberis Self-watering Planters are great for indoor and outdoor planting.

The clever self-watering system allows your plant to be in control of watering cycles. Using a simple wick system, this stylish planter prevents under or over watering of plants, herbs and small vegetables. This system comes with a water level indicator to tell you how much water is in the pot, simply fill the reservoir up and enjoy healthier, greener plants!

If you live in a city where outdoor space is tight, the Urbalve Berberis Planter will fit perfectly onto windowsills and window ledges, to bring plenty of green to your urban landscape.

- Stylish self-watering system
- Visual indicator means no over or under watering
- Ideal for houseplants, flowers, herbs or small vegetables
- Perfect for balconies, roof terraces and patios
- Suitable for indoor and outdoor use

<b>01-010-730</b>	Round Saucer 60 cm – Black

## Round Net Pots

Get the air to your roots.

Our range of quality net pots are great for all sorts of systems and propagation.

<b>01-010-045</b>	Round Net Pot 51 mm (2")
<b>01-010-052</b>	Round Net Pot 77 mm (3")

Cable management points. All pipes fit neatly, so no blocked pipes or airlines. All fit correctly so no problems with light or algae

## Ultra Heavy Duty Net Pots

Heavy gauge, dense plastic netting, which is more resistant to cracking.

- Ideal for use in aeroponic systems as they offer the plants excellent breathing opportunities
- Perfect for use in Flood & Drain and NFT set ups
- Fits the PLANT!T Bucket Lid

## PLANT!T Heavy Duty Bucket & Lid

Purpose-made bucket for DIY hobby systems while still maintaining function as a storage container.

- 20 L capacity
- Heaviest, strongest bucket on the market
- Tight fitting lid with indicator areas in the top to show where to cut to fit net pots
- Flat side panel on bucket to aid easy drilling for pipe inlets and better watertight seals
- Designed to take pre-moulded net pot lids that fit inside the inner lip of the bucket allowing any top spillage from drippers to fall back into the bucket
- Stackable when used as storage container, the base locates onto the lid

01-010-060	Ultra Heavy Duty Net Pot - 80 mm Diameter
01-010-065	Ultra Heavy Duty Net Pot - 140 mm Diameter
01-010-070	Ultra Heavy Duty Net Pot - 200 mm Diameter

01-010-312	PLANT!T 20 L Bucket
01-010-317	PLANT!T Bucket Lid

# POTS & SYSTEMS | Buckets & Square Pots

## Round Black Buckets

Robust, versatile buckets with handle and lid are great for storage buckets or making into DIY bucket systems.

- Available in 5 L, 10 L, 20 L, 25 L and 33 L sizes
- 20 L and 25 L sizes nest well to make double bucket Flood & Drain or Deep Water Culture systems
- 20 L, 25 L and 33 L sizes come with heavy duty metal handles

<b>01-010-650</b>	5 L Round Black Bucket with Handle & Lid
<b>01-010-655</b>	10 L Round Black Bucket with Handle & Lid
<b>01-010-660</b>	20 L Round Black Bucket with Metal Handle & Lid
<b>01-010-665</b>	25 L Round Black Bucket with Metal Handle & Lid
<b>01-010-670</b>	33 L Round Black Bucket with Metal Handle & Lid

## Premium Square Pots with Feet

High quality pots offering excellent drainage.

- 25 mm feet elevate pot out of standing water
- Robust plastic, suitable for years of use
- Unique underside with drainage slots and aeration holes
- Grid bottom

### Technical Specifications

25 L - 345 x 345 x 325 mm  
(Fits 330 mm<sup>2</sup> Saucer)  
35 L - 395 x 395 x 360 mm  
(Fits 420 mm<sup>2</sup> Saucer)

<b>01-010-232</b>	25 L Premium Square Pot with Feet
<b>01-010-235</b>	35 L Premium Square Pot with Feet

## Pot Stand

Developed to create distance between the base of pot and standing water, the open construction provides excellent drainage.

- Feet allow air and light to come under the bag or pot
- Supports a weight up to 25 kg
- Fits up to 35 cm pots

### Technical Specifications

Dimensions: 350 x 350 x 42 mm

### Suitable for use with

- 01-010-225** 18 L Premium Square Pot
- 01-010-230** 25 L Premium Square Pot
- 01-010-010** Round Black 15 L Pot

## Stewart Essentials Grow Bag Tray

Impact resistant, light, long life trays.

- Ideal for use with growbags, if needed add holes for drainage
- Robust injection moulded propagator ideal for years of use
- Large enough to fill with smaller trays or pots or multi cell inserts

### Technical Specifications

Dimensions: 1000 x 390 x 50 mm

**Stewart**  
Garden

**12-555-020** Stewart Essentials Grow Bag Tray 100 cm x 39 cm x 5 cm

## Garland Square Trays

Lightweight but robust plastic makes these trays perfect for many uses. Plant direct or in seed trays and pots, if needed add holes for drainage.

- Impact-resistant material, made from recycled polypropylene
- Shallow horizontal ridges on the internal base of the tray aid drainage

### Technical Specifications

# POTS & SYSTEMS | Reservoirs

## Slimline Water Butts

Heavy duty water butts that are ideal for gravity feed or pumped irrigation systems such as GoGro.

- Available in 100 or 250 L sizes
- Supplied with a lid and 13 mm tap

<b>01-045-155</b>	100 L Slimline Water Butt
<b>01-045-160</b>	Slimline Water Butt Stand - to suit 100 L
<b>01-045-165</b>	250 L Slimline Water Butt
<b>01-045-170</b>	Water Butt Stand - to suit 250 L

## PLANTIT Flexible Tanks

Use for rain water collection or as a nutrient reservoir.

- This handy tank can be used for hydroponic systems, water storage in gardening and collection of rain water
- Easy to store away when not in use unlike rigid tanks
- Includes a 13 mm Nut and Tail with 3/4" BSP

## PLANT!T Watering Ring

Laser-cut watering ring and T-piece, ideal for use with DIY kits or systems. Allows for even watering throughout growing media eliminating dry areas and maximising root growth.

- Laser cutting eliminates swarf, creating very clean holes and reducing the likelihood of blockages
- Adjustable angle 13 mm T-piece for connecting to dripper lines or “in-pot feed” from below

### Technical Specifications

Dimensions:  
200 mm diameter

PLANT!T

01-045-115 PLANT!T Watering Ring

## PLANT!T Water Timer

Gravity feed and mains pressure irrigation controllers. Simply select the time you want the water supply to be turned on and off, link up to your irrigation dripper line and the timer will do the rest.

- Ideal for watering allotments, lawns, gardens, shrubs, pots, hanging baskets, patio irrigation, roof gardens, holiday watering and sprinklers
- Easy to install and simple to use, with just 2 dials for setting frequency and run time
- Auto safety valve shut-off when battery power is low and programme delay button for when you need to do plant maintenance work and don't want to be irrigating
- Includes extra fittings to connect to a water butt, as well as a filter

### Technical specifications

Working pressure range: 0-150 PSI (0-10 BAR)

Connection: 3/4 male /female tap/hose connector

Frequency: can select to irrigate every 1, 2, 3, 4, 6, 8, 12, 24, 48, 72 hours or 1 week

Run (on) time: 1, 3, 5, 10, 15, 20, 30, 60, 90 or 120 minutes

PLANT!T

01-045-125 PLANT!T Water Timer

## PLANT!T pH Meter

A sturdy, compact, reliable and surprisingly easy to use pH Meter that also reads the temperature at the same time.

- pH/temperature dual LCD display
- Auto-Temperature Compensation (ATC)
- One touch auto-calibration
- 20 minute sleep function
- Data hold selection
- Low battery indicator
- Sensor cover to keep glass bulb moist

PLANT!T

09-410-100 PLANT!T pH Meter

# GROWING ACCESSORIES | Plant Support

## Mulch Trays

Mulch Trays fit over the top of your plant pot and are ideal for hand watered and dripper fed plants. They are designed to help reduce water loss through evaporation..

- Water less frequently and use less water!
- Evenly distributes water over the surface of the media

### Technical Specifications

25 L - 345 x 345 x 325 mm (Fits 330 mm<sup>2</sup> Saucer)

35 L - 395 x 395 x 360 mm (Fits 420 mm<sup>2</sup> Saucer)

01-010-520	3 L Mulch Tray - Black
01-010-530	10 L Mulch Tray - Black

## PLANT!T YoYo

The ultimate plant support, eliminating the need to re-hang everyday.

- Automatically tightens as plants grow, offering support and sculptural training
- No need to constantly adjust the device as plants grow
- Supports your plant as it grows or holds fruiting trusses
- Includes locking pin!

**PLANT!T**

10-480-020	PLANT!T YoYo - Box of 8
------------	-------------------------

## PLANT!T Bamboo Stakes

These Bamboo Stakes have a natural finish and can be used indoors and outdoors.

- Lightweight stakes that have a smooth, attractive finish
- Natural finish
- Strong and durable
- Use indoors or outdoors

**PLANT!T**

10-480-055	PLANT!T Bamboo Stakes 90 cm (3') - Pack of 25
10-480-060	PLANT!T Bamboo Stakes 120 cm (4') - Pack of 25

10-480-064	PLANT!T Bamboo Stakes 180 cm (6') - Pack of 25

## PLANT!T Plant Support - Connectable

The PLANT!T Plant Support - Connectable 60 cm (2ft) allows growers not just to support their plants but also extend the support to required length.

- Connect together for longer support
- Plastic coated steel supports
- Increased strength and durability

**PLANT!T**

10-480-100	PLANT!T Plant Support - Connectable 60 cm (2ft) - Pack of 50
------------	--

## LightHouse Twist Tie

This plastic coated wire is durable and comes with a cutting tool built into the dispenser.

- Dispenser included!
- Available as a 50 metre roll

## LightHouse Soft Garden Tie

The Garden Soft Tie is ideal for tying plants to stakes and trellises.

- Padded tie that will not cut into the stems
- 8 metres long

## Plant Bends

Plant Bends enable you to train leaves or stems to ensure a plant receives as much light as possible. They offer flexible short and side truss support for long and thick truss stems and can be attached at an early stage of growth.

- Bendable, so the stem does not have to be forced through the support and they bend with the truss as the stem grows
- Pack of 50

## LightHouse PVC Coated Stiff Wire

PVC Coated Stiff Wire can be used for a range of different applications such as securing plants to plant supports in a greenhouse or growroom.

- 50 m x 1.2 mm (approx.)

10-480-065 LightHouse Twist Tie - 50 m Roll

10-480-070 LightHouse Garden Soft Tie - 3.5 mm x 8 m (26' x 1/8")

10-480-090 LightHouse PVC Coated Stiff Wire - 50 m

# GROWING ACCESSORIES | Measuring

## Plastic Pipettes

Used to take an accurate amount of concentrate to mix with water or add to your tank. A must for all growrooms.

- 3 ml Pipette measures in 0.5 ml increments
- 5 & 10 ml Pipettes measure in 1 ml increments

<b>10-485-025</b>	3 ml Plastic Pipette - 0.5 ml increments

## Scalpels

Perfect for fine pruning and trimming, these stainless steel clippers come in a box of 12.

- Quality stainless steel remains sharp and untarnished even through heavy use
- Mini blades ideal for precision trimming

<b>12-570-020</b>	Scalpels (Packet of 10)
-------------------	-------------------------

## Stainless Steel Blade Precision Pruners - Straight & Curved

Made with high-grade razor-sharp stainless steel, these pruners produce an extremely neat and precise result when pruning. Available with straight or curved blades.

- Soft grips for comfort while pruning
- Spring-loaded to take strain off the gardener's hands
- Quality stainless steel remains sharp and untarnished even through heavy use

<b>12-570-200</b>	Stainless Steel Straight Blade Precision Pruners
<b>12-570-205</b>	Stainless Steel Curved Blade Precision Pruners

## Titanium Coated Blade Precision Pruners - Straight & Curved

Incredibly sharp durable coated titanium pruners allow gardener's to prune accurately, with minimum effort. Available with straight or curved blades.

- Coated titanium remains untarnished and retains its sharp edge
- Soft grips for comfort while pruning
- Spring-loaded to take strain off the gardener's handsuse

<b>12-570-220</b>	Titanium Coated Straight Blade Precision Pruners
<b>12-570-225</b>	Titanium Coated Curved Blade Precision Pruners

## Stainless Steel Curved Shears

Robust shears with sharp, stainless steel blades and ergonomically designed handles.

- Ergonomically designed handles for comfortable, easy use
- Quality stainless steel remains sharp and untarnished even through heavy use

<b>12-570-240</b>	Stainless Steel Curved Shears
-------------------	-------------------------------

# GROWING ACCESSORIES | Microscopes

## ESSENTIALS Illuminated Magnifier Loupe

A great little magnifier that provides a sharp, clear, enlarged image without distortion and features a swing-away protective lens cover that also serves as a handle.

- Easily identify pests or diseases
- The protective lens cover also serves as a handle, making handling far easier and comfortable
- Built-in light provides targeted illumination
- Includes protective pouch and instructions
- Batteries included

## ESSENTIALS Illuminated Microscopes

Simply place the base of the microscopes on to the specimen and adjust the focus by gently turning the focusing dial until your item comes into perfect view.

- Easily identify pests or diseases
- 60x to 100x magnification
- Built-in light provides targeted illumination
- Includes protective pouch and instructions
- Batteries included

## PHONESCOPE

Quick and easy magnification using your mobile.

- Take amazing magnified photos and videos
- Easily attaches directly to your mobile or tablet
- Up to 30x magnification using your device's digital zoom

## Thermometer

Ideal for monitoring the temperature levels in your growroom.

- Measures temperatures in both °C and °F
- Contains no mercury

## **Irrigatia C12 Solar Automatic Watering System**

This auto-irrigation system offers automatic watering for up to 12 irrigation units (that's 5 large hanging baskets or 12 x 20 litre pots!).

The SOL-C12 connects to the following Irrigatia Kits:

Drippers: Use for pots, baskets and individual plants

Seep hose: Ideal for short runs in a mixed dripper/seep hose environment, germinating seedlings, watering plant troughs and small beds

### **Contents:**

- 1 x SMART Controller C12 with integrated pump
- 1 x Inlet Filter
- 1 x Anti-siphon Device
- 15 m Tube
- 12 x each: Drippers, Stakes, Tees
- 1 x Water Level Sensor
- 3 x AA batteries

13-635-105 Irrigatia C12 Solar Automatic Watering System

## **Irrigatia C24 Solar Automatic Watering System**

This auto-irrigation system offers automatic watering for up to 12 irrigation units (that's 12 large hanging baskets or 24 x 20 litre pots!).

The SOL-C24 connects to the following Irrigatia Kits:

Drippers: Use for pots, baskets and individual plants

Seep hose: Ideal for short runs in a mixed dripper/seep hose environment, germinating seedlings, watering plant troughs and small beds

Microporous Hose: Ideal for flower beds, raised beds, vegetable plots, fruit trees and fruit cages

### **Contents:**

- 1 x SMART Controller C24 with integrated pump
- 1 x Inlet Filter
- 1 x Anti-siphon Device
- 15 m Tube
- 12 x each: Drippers, Stakes, Tees
- 1 x Water Level Sensor
- 3 x AA batteries

13-635-110 Irrigatia C24 Solar Automatic Watering System

# GROWING ACCESSORIES | Irrigatia Automatic Watering

## Irrigatia Micro Porous Hose

A unique system that distributes water through millions of microscopic pores using durable DuPont Tyvek tubes, that resist the clogging, cracking and root intrusion problems common to other drip systems.

- These are ideal for longer runs in vegetable and flower beds and can be connected to the SOL-C12 (only half of the roll will be required) or SOL-C24 unit in up to 25 m lengths
- Each 25 m roll comes with 2 adaptors, 2 connectors, 2 lengths of connector pipe, 2 O rings, 2 cable ties and 6 stakes

## Irrigatia 12 Dripper Extension Kit

Complete with 15 m of tube and 12 of each drippers, stakes and t-pieces, this 12 dripper extension kit extends the C12 to a 24 dripper system with 30m of tube.

- Please note that adding more than 12 drippers to the C12 reduces the amount of water supplied to each dripper

## Irrigatia Seep Hose Extension Kit

If you want to extend the water emission over a longer area then you can use the Irrigatia Seep hose Extension kit that connects directly onto a dripper.

- Ideal for raised beds, seed trays or even tree root establishment
- Connect up to 1m of seep hose directly onto the dripper or a 2 m length with a dripper at either end
- Comes with 12 m of seep hose, 12 stoppers, 2 connectors and 12 stakes

13-635-150 Irrigatia Micro Porous Hose & Fittings - 25 m

13-635-155 Irrigatia 12 Dripper Extension Kit

13-635-160 Irrigatia Seep Hose Extension Kit

## PLANT!T Clay Pebbles

PLANT!T Clay Pebbles are made from 100% natural clay, they are clean, pH and EC stable, and offer great aeration and drainage.

- Due to their unique structure and large surface area, they offer the ideal environment to foster beneficial bacterial growth around the root zone, leading to healthier plants.

**02-050-050** PLANT!T Clay Pebbles 10 L Bag

## PLANT!T Potting Soil

PLANT!T Potting Soil is an organic, peat free coco soil that contains natural trichodermas and is ideal for both indoor and outdoor use.

- Comes in a transparent bag that allows you to mix the substrate with water immediately to avoid any mess in your house
- Lightweight, compact and easy to carry, so no more struggling with large soil bags!

**02-055-320** PLANT!T Potting Soil - 15 L

## PLANT!T Perlite

PLANT!T Perlite is a natural pH neutral sterile growing medium derived from volcanic rock which is great for improving the aeration and drainage of your soil.

- Achieve faster germination and striking of cuttings due to superior air to water ratio
- Can aid in the breaking up of heavy soils, simply mix with potting soil and it will keep the soil loose and light
- Great for repairing/laying down lawns - gives additional aeration and drainage when raked into spiked holes
- Ideal for planting trees and shrubs - loosens and aerates soil to encourage root development

**02-065-005** PLANT!T Perlite 100 L Bag  
**02-065-015** PLANT!T Perlite 10 L - Box of 6 Bags

## PLANT!T Vermiculite

PLANT!T Vermiculite is a natural sterile soft mica mineral with great water holding and insulation properties.

- Excellent water holding capabilities makes it an excellent addition to sandy soils or dried out ground
- Offers a high cation exchange capacity which means it will slowly release nutrients back to your plant which it has absorbed during watering
- Easy and safe to handle and odourless whilst also being lightweight and simple to use
- Our vermiculite grade is V3 Medium, which is a nominal size range 2.0-5.0 mm

**02-070-005** PLANT!T Vermiculite 100 L Bag  
**02-070-015** PLANT!T Vermiculite 10 L - Box of 6 Bags

# GROWING MEDIA | Soil & Coco

## PLANT!T Reduced Peat Pro Soil

Vegetables, fruits, flowers and herbs will all thrive when grown in PLANT!T Reduced Peat Pro Soil. Perfect for plant pots and improving flower beds, it is packed with beneficial bacteria and has a high nutrient content to help with plant growth, and to keep plants healthy.

- Unique soil blend designed for a bumper yield
- Added beneficial microbes produce bigger and better plants
- Wood fibres improve drainage, provide excellent aeration and makes re-wetting easy
- Feeds plants for up to 4 weeks by just adding water
- Reduced peat mix for today's eco-minded grower

02-075-255 | PLANT!T Reduced Peat Pro Soil - 50 L Bag

## PRO7 Light

A natural, clean and light; an air enriched peat based potting mix that gives you the control. It sets itself apart from other substrates through its use of the purest raw materials, that conform to the strictest RHP standards.

- It has a superb air to water relationship, ensuring optimal drainage throughout whilst creating ideal air filled porosity for almost every method of cultivation
- Strong, rapid rooting through low EC value and optimal air to water ratio
- Charged to kickstart microbial life that builds plant strength and resilience
- Use for all phases of your plant's growth, rooting, growing and blooming

02-075-300 | PRO7 Light, Peat Potting Mix - 50 L Bag

## PRO7 Coco

Premium, peat free, coco from a guaranteed reliable and consistent source PRO7 Coco is one of the most stable coco substrates on the market today. 100% pith manufactured from the mature coconut husk and never compressed to retain its structure.

- Uses mature coconuts which means the pith will decay slower, thus giving a more stable media over the growing cycle.
- Washed and buffered with calcium and magnesium to RHP standards - extracting unwanted elements such as potassium, sodium and chlorides
- Has excellent water retention and airing properties
- Guaranteed low EC value with stable pH

02-055-350 | PRO7 Coco, 100% Pure Coco - 50 L Bag

## PRO7 Coco 70/30

PRO7 Coco 70/30 contains a combination of two high quality substrates: 70% RHP Certified coco pith mixed fibre substrate with excellent air and water retention properties and 30% perlite.

- A fully buffered coco that is really easy to use and is a universal substrate for both the growth stage as well as the flowering stage
- A coco/perlite mix, providing good structure and improved drainage when hand-watering - results in better root development
- Perfect for timed irrigation too, with higher AFP (Air-Filled porosity)
- Better rootzone temperature control, aiding growth in young plants
- Peat free

02-055-360 | PRO7 Coco 70/30, Coco Perlite Mix - 50 L Bag

### PRO7 Coco Block

The perfect choice for growers that use a lot of coco and want it to be easy to transport and store, but more cost effective than buying multiple PRO7 Coco Bricks.

- Fast expansion - makes 70 L of loose fill substrate!
- Made of a premium mixed fibre cocopeat with excellent air and water retention properties
- Recommended for short-term fast-growing crops
- Premium quality RHP washed and buffered coco
- Peat Free

02-055-370 | PRO7 Coco Block 5 kg (70 L)

### PRO7 Coco Bricks

A 100% RHP Certified brick of pressed and dehydrated premium mixed fibre coconut coir pith. It is washed/buffered and charged with added trace elements and beneficial elements, making it ideal for an all-round potting substrate that is easy to transport and store, aids faster rooting and develops stronger plants.

- Easy to transport and store due to its compressed nature
- Fast expansion - each brick makes 8 L of loose fill substrate!
- Made of a premium mixed fibre cocopeat with excellent air and water retention properties
- Premium quality RHP washed and buffered coco
- Peat free

02-055-380 | PRO7 Coco Brick 8 L – Box of 24

### PRO7 Coco Cubes

PRO7's purified, stabilized Coco Cube substrate is carefully selected at Jiffy's own production site; washed/buffered to RHP standards and charged with added trace elements and beneficial elements to aid faster rooting to develop stronger plants.

- Ideal for cuttings and seedlings
- Excellent air and water retention properties
- Air pruning – allows the roots to grow through its sides so, when potting-on, plants get established faster
- Better rootzone temperature control, aiding growth in young plants
- Complete with seedling hole in the top to accommodate Jiffy7C pellets or direct seeding
- Limits damaging root system when potting on
- Premium quality RHP washed and buffered coco
- Peat free

02-055-390 | PRO7 Coco Cube 100 mm (4") - Box of 92

## Biobizz Coco Mix

An organic substrate that can be used in combination with specialist coco nutrients such as PLANT'IT Coco Feed.

- Made from waste materials left over by the coconut industry, which has proven to be an ideal medium for growing plants
- Due to its neutral structure, it is also ideal to mix into pre-used soil allowing the grower to recycle old substrate (flush your soil first)
- The pH falls between 5-6 and can be used in all hydroponic media systems

**BIOBIZZ**  
WORLD WIDE ORGANICS

02-055-025 Biobizz Coco-Mix - 50 L Bag

## Biobizz Light-Mix Potting Soil

An ideal potting soil for organic gardeners who want to have control over the growing process through the application of liquid fertilisers.

- Ensures a fast development of roots and vigorous new growth
- Made from Baltic Peat, the best source of peat offering a light fluffy texture with high air exchange
- Specially blended to ensure optimal drainage throughout - an essential property if you use automatic irrigation systems

**BIOBIZZ**  
WORLD WIDE ORGANICS

02-075-100 Biobizz Light-Mix Potting Soil - 50 L Bag

02-075-105 Biobizz Light-Mix Potting Soil - 20 L Bag

## Biobizz All-Mix Potting Soil

This heavily pre-fertilized substrate mixture emulates a rich outdoor soil with a full micro active ecosystem. It's been designed to have enough nutrient-fuelled power to sustain lush growth for a couple of weeks, without any need to add any extra fertilizer.

- Creates the optimum environment for plants to flourish throughout the year
- Pre-fertilized so it emulates a rich outdoor soil with a full micro active ecosystem

**BIOBIZZ**  
WORLD WIDE ORGANICS

02-075-110 Biobizz All-Mix Potting Soil - 50 L Bag

02-075-115 Biobizz All-Mix Potting Soil - 20 L Bag

## Biobizz Pre-Mix

A dry fertiliser comprised of 100% natural ingredients derived from organic matter, rock meal and trace elements.

- Microbially active blend was formulated to guarantee vigorous growth, abundant flowering and maximum resistance to disease and fungal attack

### Tip

Make your own soil mixture: (1000 L) 50% Potting Soil or Coco-Mix (500 L), 30% Perlite (300 L), 15% Biobizz Worm-Humus (150 L) and 5% Pre-Mix (50 L). Important: well and evenly

**BIOBIZZ**  
WORLD WIDE ORGANICS

05-225-005 Biobizz Pre-Mix 5 L Tub

05-225-010 Biobizz Pre-Mix 25 L Tub

## Biobizz Worm-Humus

A 100% organic worm manure of a very high quality.

- To be used in the rejuvenation of All-Mix or for use in potting mixtures, garden beds etc.

**BIOBIZZ**  
WORLD WIDE ORGANICS

05-225-015 Biobizz Worm-Humus 40 L Bag

## Biobizz Bio-Grow

Impressive growth during all the plant's development stages.

- Complete fertilizer that can be used throughout the growing and flowering period
- A rich food source for beneficial soil microbes
- Use with most types of soil and substrate mixtures

## Biobizz Bio-Bloom

The perfect diet for exuberant flowers.

- 100% organic, complete liquid fertilizer
- Contains blend of nitrogen, phosphorous and potassium, along with enzymes and amino acids

## Biobizz Alg-A-Mic

The 100% organic way to make plants less stressed and more productive.

- Made from a high grade, 100% organic seaweed concentrate
- Ensures green leaves by stimulating chlorophyll absorption
- Contains a low level of NPK (Nitrogen, Phosphorus and Potassium) - making it impossible to overdose

## Biobizz Fish-Mix

The power of the sea, concentrated in your pot. A rich infusion of organic fish emulsion from the North Sea, mixed together with extract of 100% organic Dutch sugar beet.

- Stimulates the production of microorganisms and useful bacteria in all types of soil and coco-based substrates
- For use on all kinds of plants during the first stages of growth, and during the flowering period until harvest
- Mild enough to be used in the first stages of a plant's life or sprayed directly onto leaves

# NUTRIENTS & ADDITIVES | Biobizz

## Biobizz Root-Juice

The first step towards an amazing harvest. Made entirely from vegetable ingredients and designed for organic gardening, Root-Juice combines two amazing natural substances: premium humic acid and seaweed.

- Encourages vigorous root development
- Enhances the health of the natural biological life that surrounds the root zone
- Ideal for soil, peat and coco mixes, as well as guaranteed root protection with hydroponic and aeroponic systems

## Biobizz Top-Max

Taste, nuance, and aroma taken to the top with Top-Max, the 100% organic flowering stimulator.

- Humic and fulvic acids work together to boost the energy in plant cells while stimulating new cells to form
- Increases size, weight and taste of fruit/flowers
- Can be used throughout the entire flowering period

## Biobizz Bio-Heaven

The 100% organic metabolic stimulator: your plants will look forward to complete, all-round nirvana with Bio-Heaven.

- Stimulates enzymatic activity and fast nutrient absorption
- Increases the chelate of essential macro and micronutrients
- Use during the entire growing and flowering period on every type of substrate, coco mix or hydroponic systems

## Biobizz Acti-Vera Botanic Activator

Acti-Vera has been designed to protect the immune system, increase metabolism and enhance nutrient absorption in all sorts of plants.

- Protects and activates the immune system, increases germination and plant metabolism
- Can be used indoors and out, on food crops, plantations, perennials, and ornamental plants
- Use during the vegetative and flowering phase to stimulate growing and blooming young plants

## Biobizz CALMAG

Organic and certified. Biobizz CALMAG has been designed for the professional grower and the hobbyist that needs an extra boost of Calcium and Magnesium in their grow.

- 100% organic and certified solution for Ca/Mg deficiencies
- Does not alter an existing feeding regime

## Biobizz Bio-PH-

Lower pH without lowering your substrate's nutrient power.

- Aqueous solution made of citric acid found naturally in different citrus fruits, such as lemons
- Enables fast pH adjusting of any type of substrate and for any type of crop
- Suitable to be used during both the growing and the flowering period
- Doesn't contain any strong acids. This means that this 100% organic pH regulator doesn't harm the substrate micro life

## Biobizz Bio-PH+

Raise pH in an easy, controlled, and harmless way.

- Humic acid based formulation harvested from natural sources
- Enables fast pH adjusting of any type of substrate and for any type of crop
- Suitable to be used during both the growing and the flowering period
- Doesn't contain any strong acids. This means that this 100% organic pH regulator doesn't harm the substrate micro life

## Biobizz Leaf-Coat

A ready-to-use plant strengthener that can be applied to plants growing in soil, coconut substrate and stone-wool up to two weeks before the end of the flowering period.

- Strengthens plants and gives them a powerful expelling effect on harmful insects. It also prevents damaging leaf fungi
- Made from natural latex which was developed to restrain evaporation.
- Forms a very thin elastic layer of 1.5 micron on the leaves, which contains the nutritious elements for the plant. Its effect will last up to two weeks until it is decomposed by light or sunlight
- Extremely suitable for use as an environmentally friendly alternative to pesticides

## Biobizz Starters-Pack

Are you someone with strong organic beliefs? Do you care about the future of the planet? Is it quality above quantity - or more about the flavour and the colour of your crop that matters? Whatever your concerns or goals, choose Biobizz and the rest is easy.

- Fully loaded with everything you need to begin your own growing adventure

## Biobizz Try-Packs

### Indoor Pack

If indoor cultivation is your choice and you don't know how to start, let Biobizz make it easy for you.

The Indoor Pack contains Bio-Bloom, Bio-Grow, and Top-Max. A combination that will allow the grower to gain experience with the Biobizz organic fertilizers range as it provides basic feeding for 1-4 plants.

### Outdoor Pack

If the climate in your region allows it and outdoor cultivation is your choice, but you don't know how to start, then try the Outdoor Pack from Biobizz.

Biobizz Fish-Mix contained in this pack boosts all of the natural minerals and (micro) organisms and stimulates the production of useful bacteria. The high levels of proteins will also help to create a rich organic outdoor substrate. But remember, don't try it at home or you will have to keep the windows open for a week!

### Stimulant Pack

Do your plants need a boost? The Stimulant Pack from Biobizz could be just what you need.

The Stimulant Pack contains Root-Juice, Top-Max, and Alg-A-Mic; a combination that will allow both the hydroponic and the organic grower to gain experience with the Biobizz organic stimulant range as it provides basic feeding for 1-4 plants.

An ideal pack if you wish to take a step further and get the maximum out of your harvest organically. With the Biobizz Stimulant Pack, you will get sweeter taste, bigger plants, and better results than ever, even hydroponically!

### Hydro Pack

Do you grow hydroponically but you are tired of feeding minerals to your plants? Do you want to enjoy the natural taste of an organic harvest but can't let your system go? Let Biobizz make it easy for you with the Hydro Pack.

The Hydro Pack contains Bio-Bloom, Bio-Heaven, and Top-Max. A combination that will allow the hydroponic grower to gain experience with the Biobizz organic products that are suitable to be applied in any hydroponic system.

Get the best of both worlds with the organic quality and the hydroponic quantity. The Hydro Pack will stimulate an optimal root development and protection by using organics in your hydro system.

# NUTRIENTS & ADDITIVES | Plant Tonic & Bat Guano

## SUPERthrive Plant Tonic

The world renowned SUPERthrive is a great plant tonic and general growth promoter. Plants require more than one vitamin for optimum performance. SUPERthrive is full of vitamins.

- SUPERthrive is NOT a fertiliser, but an additive
- Use SUPERthrive on any plant at any stage of growth or flower. On indoor plants, it brings out more new flower and leaf buds. On outdoor plants and bare-rooted plants, it starts new root and foliage action. It helps develop earlier and larger flowers as well as being a great stress reliever to plants
- Use on seeds to help during germination and get earlier vegetable and flower crops, to revive sick plants or to help plants recover from any stress or to guard against transplant shock

## SUPERthrive

06-260-020	SUPERthrive 120 ml (4 oz)
06-260-025	SUPERthrive 480 ml (Pint)
06-260-030	SUPERthrive 960 ml (Quart)
06-260-035	SUPERthrive 3.8 L (Gallon)
06-260-040	SUPERthrive 9.4 L (2.5 Gallon)

## VitaLink Bat Guano

Bat Guano is bat faeces that have been composted over hundreds of years to produce an odourless, high phosphorus fertiliser. Elements such as Nitrogen, Phosphorus and Potassium are found in Bat Guano which are highly beneficial to plant growth and make the product an ideal fertiliser or soil conditioner.

- Provides a rich, potent, 100% organic fertiliser which ensures rapid, high quality root growth and bud development
- A slow release, natural fertiliser, it contains many of the macronutrients and micronutrients which help to grow healthier, stronger plants that are more resistant to pests and disease
- Soil builder & cleanser - improves the condition of soil and encourages a rich microbial life which can break down toxins in the soil.
- Compost activator that encourages beneficial microbes which can speed up composting
- High cationic exchange which increases a plant's ability to feed
- Assists plants to resist fungal attacks

05-235-005	VitaLink Bat Guano 700 g
05-235-010	VitaLink Bat Guano 3.5 kg

## LightHouse ECOHEAT Greenhouse Heaters

ECOHEAT Heaters produce a stable heat to protect plants against sudden temperature fluctuations and protect against frost. Ideal for use in propagation areas where ambient temperatures are required.

- Helps reduce humidity and condensation when growing indoors thus protecting against fungal attack
- More economical than a fan heater, cleaner and safer than paraffin heaters
- Cheap-to-run, similar to an ordinary light bulb and 25% less than most similar tube heaters
- IP55 rated, splash and sprinkler resistant

<b>09-435-250</b>	LightHouse ECOHEAT 45 W Greenhouse Heater - 305 mm
<b>09-435-255</b>	LightHouse ECOHEAT 80 W Greenhouse Heater - 608 mm
<b>09-435-260</b>	LightHouse ECOHEAT 135 W Greenhouse Heater - 915 mm
<b>09-435-262</b>	LightHouse ECOHEAT 240 W Greenhouse Heater - 1220 mm

## LightHouse 2 kW Greenhouse Heater

This 2 kW heater is robust, reliable and simple to use with a built-in fan to keep air moving over the two heating elements.

- Dual use – can be used as both a heater and a fan
- Thermostatically controlled with a choice of three heat settings
- Not suitable for control by external thermostats

### Technical Specifications

Power	2025 W
Input	230 V
Frequency	50 Hz

<b>09-435-280</b>	LightHouse 2 kW Greenhouse Heater
-------------------	-----------------------------------

## LightHouse 3 kW Greenhouse Heater

A powerful, 3 kW output means it can quickly and effectively heat up large spaces or act as a fan if required.

- Dual use – can be used as both a heater and a fan
- Thermostatically controlled with a choice of three heat settings
- Simple and robust design, easy to assemble
- Quiet Running

### Technical Specifications

Power	3050 W
Input	220-240 V
Frequency	50 Hz

<b>09-435-290</b>	LightHouse 3 kW Greenhouse Heater

# PROPAGATION | Plugs

## ROOT!T Natural Rooting Sponges Refill Bag - 50 Plugs

Maximise your success rates and grow faster, more vigorous roots with our specially manufactured ROOT!T Natural Rooting Sponges. Create the ideal micro-climate for seeds and cuttings meaning you will have higher success rates.

- Simply dampen the sponges, place your seeds in the pre-drilled holes, clip the propagator lid on top of the filled tray insert, and place somewhere with plenty of natural light.
- Resealable to help ensure that each ROOT!T Natural Rooting Sponge is kept in perfect condition.

### Benefits

- Grow from seed - you can grow herbs, leafy greens, salads, vegetable, chillies and more directly from seed.
- Ideal for cuttings - Combine our sponges with the ROOT!T Rooting Gel for the best success rate on your cuttings.
- Effortless transportation - the sponges hold your roots together to prevent damaging them during transplantation.
- Great water retention - due to its structure, each plug retains the right amount of water without causing material compression.

02-090-210 | ROOT!T Natural Rooting Sponges 50 Refill Bags - Box of 10

### Unique Design

ROOT!T Natural Rooting Sponges are a breakthrough in organic technology. They are made from a mixture of peat and bark bonded together with plant-derived biodegradable polymers that allow the plug to biodegrade.

The ROOT!T Natural Rooting Sponges are specially designed to improve cutting strike rate and encourage faster germination.

Each ROOT!T Natural Rooting Sponge has two holes

**Hole 1** is the perfect depth for most seeds, designed to a specific width to create an ideal humid micro-climate around the seed resulting in faster seed germination.

**Hole 2** is perfect for gripping cuttings and will hold the cutting firmly in place. We recommend using ROOT!T Rooting Gel for better results; this will create a seal around the cutting preventing it from drying out.

## Jiffy-7 Expanding Plugs

These best-selling propagating plugs just require wetting. Drop in the seed or cutting and place in a propagator and off it grows. Sold throughout the world.

- Works great in NFT, simply drop your new seedlings into your SureGrow Gully

### Benefits

- Stable structured substrate
- Environmentally friendly product
- Convenience
- Quality Assured

12-580-005	Jiffy-7 38 mm Peat Plug (Box of 1000)
12-580-010	Jiffy-7C 30 mm Coco Coir Plug (Box of 1155)

## Jiffy-7 Tray

Purpose-made Jiffy tray fits 84 Jiffy-7C coco plugs, ideal for volume propagation.

- Great for volume propagation or to cut down to fit smaller propagators

### Technical Specifications

Dimensions: 520 x 310 mm

**12-580-050** | Jiffy 84 Cell Trays - Pack of 20

## ROOT!T Value Propagator (Large)

Garland's largest unheated propagator.

- Robust injection moulded propagator ideal for years of use
- Large enough to fill with smaller trays or pots or multi cell inserts

### Technical Specifications

Dimensions: 580 x 405 x 225 mm

**12-550-030** | ROOT!T Large Propagator Tray - Box of 18

## ROOT!T 24 Cell Filled Propagation Insert and Tray

Filled with ROOT!T Natural Rooting Sponges, it is durable and does not allow for any pooling, it really does help to grow big every time.

- Large drain hole to facilitate easy de-plugging
- Specially designed irrigation channels to rapidly remove excess water
- Fully recyclable HIPS (hi-impact polystyrene)
- Tough and durable
- Fits standard seed tray size propagators
- Consumable for existing ROOT!T Propagators

**12-550-100** | ROOT!T Natural Rooting Sponge 24 Cell Filled Trays - Box of 8

## ROOT!T Value Natural Rooting Sponge Propagation Kit (Large)

Garland's largest unheated propagator.

- Robust injection moulded propagator ideal for years of use
- Large enough to fill with smaller trays or pots or multi cell inserts

### Technical Specifications

Dimensions: 570 x 370 x 200 mm

Garland's largest unheated propagator.

- Robust injection moulded propagator ideal for years of use
- Large enough to fill with smaller trays or pots or multi cell inserts

### Technical Specifications

Dimensions: 580 x 405 x 225 mm

**12-550-210** Garland XL High Dome Unheated Propagator

## Garland XL High Dome Heated Propagator

Ideal for growers who want to grow seeds and cuttings in large volumes all year round.

- Features a 24 W heated base, which provides warmth to aid germination and young plant development
- Robust injection moulded propagator ideal for years of use
- Large enough to fill with smaller trays or pots or multi cell inserts

### Technical Specifications

Dimensions: 590 x 410 x 265 mm (External)

**12-550-230** Garland XL High Dome Heated Propagator

## MPL Unheated Propagators

Whether you're growing from seeds, or cloning plants within your grow tent, this propagator creates an ideal micro-climate for seeds and cuttings.

- Adjustable ventilation for humidity and air control
- Shatter resistant and crystal clear lid for maximum light exposure
- Unpackaged propagator

### Technical Specifications

## ROOT!T Heat Mats

ROOT!T Heat Mats produce a more efficient, uniform heat, generated by the single mesh element encased inside a waterproof, frayproof matting.

- Tough and can withstand rugged greenhouse environments
- The heating element is encased in waterproof, fray-proof layers
- Available in three sizes to suit a variety of propagation set ups
- Suitable for use with the ROOT!T Propagation Kit and Insulated Mats

<b>12-585-005</b>	ROOT!T 9 W Heat Mat - Small (250 x 350 mm)
<b>12-585-010</b>	ROOT!T 25 W Heat Mat - Medium (400 x 600 mm)
<b>12-585-015</b>	ROOT!T 50 W Heat Mat - Large (400 x 1200 mm)

<b>12-585-025</b>	ROOT!T 9 W Heat Mat & Insulated Mat (Small) Bundle
<b>12-585-030</b>	ROOT!T 25 W Heat Mat & Insulated Mat (Medium) Bundle
<b>12-585-035</b>	ROOT!T 50 W Heat Mat & Insulated Mat (Large) Bundle

## ROOT!T Hobby Heat Mats

Value heat mats for budget growers designed to gently and evenly warm seedlings.

- The heating element is encased in waterproof, fray-proof layers
- Available in three sizes to suit a variety of propagation set ups
- Suitable for use with the ROOT!T Propagation Kit and Insulated Mats

<b>12-585-055</b>	ROOT!T Hobby 11 W Heat Mat - (250 x 350 mm)
<b>12-585-060</b>	ROOT!T Hobby 30 W Heat Mat - (400 x 600 mm)
<b>12-585-065</b>	ROOT!T Hobby 60 W Heat Mat - (400 x 1200 mm)

<b>12-585-200</b>	ROOT!T Hobby 11 W Heat Mat & Insulated Mat Bundle
<b>12-585-205</b>	ROOT!T Hobby 30 W Heat Mat & Insulated Mat Bundle
<b>12-585-210</b>	ROOT!T Hobby 60 W Heat Mat & Insulated Mat Bundle

## ROOT!T Heat Mat Thermostat

ROOT!T's electronic temperature controller is compatible with all heat mats and is an optional accessory for the ROOT!T Heat Mats.

- The thermostat turns the heat mat on and off to maintain optimum temperatures giving ultimate temperature control during propagation
- Maintain optimum temperatures for specific plants
- Easy plug-in operation
- Easy-to-use and control
- Temperature control range 20°C to 42°C
- 2 year warranty

**12-585-105** ROOT!T Heat Mat Thermostat

## ROOT!T Hobby Insulated Mats

Simply placed underneath your heated propagation mat. This will ensure that sensitive surfaces are protected and all heat produced is directed upward into your propagator and not lost into work tops.

- Direct heat upwards
- Avoid heat loss into work tops
- Protect sensitive surfaces

**SUITABLE FOR ALL TYPES OF HEAT MAT**

<b>12-585-155</b>	ROOT!T Hobby Small Insulated Mat - (250 x 350 mm)
<b>12-585-160</b>	ROOT!T Hobby Medium Insulated Mat - (400 x 600 mm)
<b>12-585-165</b>	ROOT!T Hobby Large Insulated Mat - (400 x 1200 mm)

CDU OF 10

## ROOT!T First Feed

Specially formulated to give young plants the best start in life. ROOT!T First Feed contains everything required for healthy growing during the propagation stage. This highly concentrated liquid feed is incredibly easy to use and is ideally suited for propagation plugs/sponges or transplanter blocks/pots.

- Promotes fast and healthy root development
- Proven to reduce standard rooting times
- Boosts resistance to infection and disease
- Increases your chance of success at this difficult and crucial stage
- Provides the basis for overall healthy plants

**ROOT!T**

05-250-005 | ROOT!T First Feed 125 ml - CDU of 10

CDU OF 16

## ROOT!T Rooting Gel

ROOT!T Rooting Gel is the first rooting gel specifically formulated for use with growing media. ROOT!T Rooting Gel helps natural root development of cuttings.

- Placed directly into the central cavity of the plug, the gel forms a seal around the cut surface of the cutting, aiding uptake and helping prevent dehydration and infection
- Works equally effectively with rooting sponges, stonewool plugs, peat plugs, coco coir plugs/fibre or compost
- No need for hormone rooting powder
- Use in combination with ROOT!T First Feed and ROOT!T Cutting Mist for the strongest rooting around!

**ROOT!T**

12-560-115 | ROOT!T Rooting Gel 150 ml - CDU of 16

## ROOT!T Cutting Mist

ROOT!T Cutting Mist helps to prevent losses in the critical first few days. It can be used to pre-treat donor plants 2-3 days before taking a cutting and also, to treat cuttings for the following 3 days.

- Ideal for use on soft and semi-hardwood material
- Best used with ROOT!T Rooting Gel, but can be used with other rooting products or even on its own

**ROOT!T**

12-560-120 | ROOT!T Cutting Mist - 100 ml

## Sicce Utility UltraZero Pump

Fully submersible, sits on the base of your nutrient tank and pulls nutrient from as little as 2 mm depth to ensure that no sludge forms.

- Made of thermoplastic and will not rust or corrode
- Features an easy access handle with a removable base for cleaning
- Designed and produced in Italy

### Technical Specifications

Flow rate	3000 L/hr
Head Max.	3.1 m
Size	(Ø) 120 x (h) 150 mm
Cord	10 m
Discharge	3/4"

## BOYU Low Noise Air Pumps

Low noise air pumps with aluminium casing for long life, strength and good heat dissipation.

- Quiet running with high air flow
- A range of 5 pumps with flow rates ranging from 600 - 3600 litres per hour
- Fittings included

### Technical Specifications

Pump	Flow Rate	Outlet	Power	Fittings (included)
SES-10	600 L/hr	Single 8 mm	10 W	4-way plastic manifold and hose
SES-20	1200 L/hr	Single 8 mm	15 W	6-way plastic manifold and hose
SES-30	1800 L/hr	Single 13 mm	25 W	6-way plastic manifold and hose
SES-40	2400 L/hr	Single 13 mm	30 W	6-way plastic manifold and hose
SES-60	3600 L/hr	Single 13 mm	35 W	8-way plastic manifold and hose

## Guard'n'Aid Insect Catcher

Double-sided sticky fly traps for catching and identifying pests.

- Double-sided glue sheets used to monitor the presence of all flying insects
- Use sticky fly traps as part of your routine pest management (IPM) procedure to alert you to a problem before it becomes an infestation

**10-475-050** Guard'n'Aid Insect Catcher CDU - 12 Packs

## Guard'n'Aid Pest Pistol

A high quality sprayer is ideal for applying pest products to the plant, designed with a fine output.

- For foliar application

**10-475-055** Guard'n'Aid Pest Pistol 750 ml

## Pump Up Compression Sprayers

Spritz plants efficiently with this sprayer. Simply pressurise the bottle using the handy pump lid and spray!

- Handle features an on/off trigger to allow a constant stream of nutrients and water
- Adjustable nozzle allows growers to choose between a fine mist or a more direct spray

**10-505-025** Pump Up Compression Sprayer - 2 L

**10-505-030** Pump Up Compression Sprayer - 5 L

## Guard'n'Aid PestOFF Plus Concentrate

A broad spectrum Pyrethrum-based contact insecticide for control of many sucking and biting insects including White Fly, Aphids, Thrip, Mites, Scale bugs, Caterpillars, Wool bug, Mealy bug, beetles and some wasp larvae.

- Effective against adult insects, some larval stages and eggs
- Contains the active ingredients of Natural Pyrethrum and a formulated addition of Rapeseed oil. Natural Pyrethrum is obtained from a species of chrysanthemum (*Chrysanthemum cinerariaefolium*) indigenous to Africa. The actual agent, Pyrethrin, is contained in the yellow petal heads of the plant
- Most effective when applied in the evening or early morning when temperatures are lower. The effectiveness decreases when temperatures are 25°C or higher
- This is a contact spray. Therefore the plants must be sprayed from all sides. The spray technique and application are very important to the effectiveness of the product
- We recommend a secondary spraying 5-7 days after the first application
- When dealing with Dracaenae thrips (*Parthenothrips dracaenae*), scales and mealy-bugs the second application should be sprayed after 14 days.

10-475-400 Guard'n'Aid PestOFF Plus Concentrate - 250 ml

## Guard'n'Aid PestOFF Plus Fumers

Permethrin-based smoke generators for use in controlling crawling and flying insects in difficult to reach places, growrooms and empty glasshouses.

- Please note: Guard'n'Aid PestOFF Plus Fumers are specifically for fumigating vacated areas and are not for treating plants. The room must be vacated for 4 hours after the treatment. **ADVICE SHEET INCLUDED** (contains Permethrin Synthetic Pyrethroid Insecticide)
- NOTE: MAXI FUMER IS FOR PROFESSIONAL USE ONLY

### Technical Specifications

PestOFF Plus Mini Fumer - contains 2 x 3.5 g smoke generators

PestOFF Plus Midi Fumer - contains 1 x 15 g smoke generator

PestOFF Plus Maxi Fumer - contains 1 x 31 g smoke generator

10-475-405	Guard'n'Aid PestOFF Plus Mini Fumer - Pack of 2
10-475-410	Guard'n'Aid PestOFF Plus Midi Fumer
10-475-415	Guard'n'Aid PestOFF Plus Maxi Fumer

# PEST CONTROL | Insecticides

## Guard'n'Aid for Thrip

Pyrethrum-based targeted contact insecticide for use against Thrips in all edible and non-edible crops grown in outdoor and in protected situations.

- A contact insecticide specially developed for use against Thrips in all edible and non-edible crops grown in outdoor and protected situations, including hard surfaces.
- Controls some eggs, larval stages and adult Thrip
- Pyrethrins as a oil-based formulation with added Canola oil targets the respiratory organ and nervous system of insects, eradicating them
- Most effective when applied in the evening or early morning when temperatures are lower. The effectiveness decreases when temperatures are 25°C or higher

**THIS  
250 ML

SPRAYERS**

10-475-420 Guard'n'Aid for Thrip - 250 ml

## Guard'n'Aid for SpiderMite

Pyrethrum-based targeted contact insecticide for use against SpiderMite and their eggs.

- A targeted contact insecticide for use against SpiderMite in all edible and non-edible crops grown in outdoor and protected situations. Controls eggs, larval stages and adult mites
- Pyrethrins as a oil-based formulation with added Canola oil targets the respiratory organ and nervous system of insects, eradicating them
- Canola oil also works extremely well against the egg stages of pests. This is especially important when dealing with red spider mites
- Most effective when applied in the evening or early morning when temperatures are lower. The effectiveness decreases when temperatures are 25°C or higher

**THIS  
250 ML  
BOTTLE MAKES  
UP TO 16 X  
750 ML READY  
TO USE HAND  
SPRAYERS**

10-475-425 Guard'n'Aid for SpiderMite - 250 ml

## Guard'n'Aid Healthy Leaf & Bud

A concentrated preparation of naturally-occurring bacteria and nutrients to promote plant health in hydroponics and soil-based systems.

- Feeds and strengthens the leaf by adding beneficial bacteria, improves calcium absorption and uptake and will ensure that your leaves and buds grow strong and healthy even in the harshest of conditions
- Use alongside your standard nutrient program or as a boost when you see stress
- Contains naturally-occurring bacteria (*Bacillus subtilis*) at  $5 \times 10^9$  cfu/g (colony forming units per gram) and essential nutrient Calcium in chelated form

**THE  
250 ML  
BOTTLE MAKES  
UP TO 22 X  
750 ML READY  
TO USE HAND  
SPRAYERS**

10-475-430 Guard'n'Aid Healthy Leaf & Bud - 250 ml

10-475-435 Guard'n'Aid Healthy Leaf & Bud - 1 L

**NATURALLY DERIVED BIOCIDES THAT KILLS 99.9% OF BACTERIA**

**Guard'n'Aid Healthy Root**

A concentrated preparation of naturally-occurring bacteria to promote plant and root health in hydroponics and soil-based systems.

- Restores the microbial balance by adding beneficial bacteria, improves nutrient availability and uptake and will ensure that your roots grow strong and healthy even in the harshest of conditions.
- Use alongside your standard nutrient program or as a boost when you see stress or browning of roots

**ROOTS WILL GROW IN GOOD OR BAD CONDITIONS**

10-475-440	Guard'n'Aid Healthy Root - 250 ml
10-475-445	Guard'n'Aid Healthy Root - 1 L

**Guard'n'Aid CleanRoom**

A powerful, naturally derived cleaner and disinfectant based on fermentation extracts and plant-derived surfactants, for growrooms and greenhouses. Helping you to naturally clean & disinfect your growing area for ensuring healthy crops and a healthy growing environment.

- Keep your growroom and growing equipment/cutting blades clean and free from fungi and bacteria
- Kills 99.9% of bacteria as well as common plant pathogenic fungi, such as Fusarium and Botrytis
- Naturally derived Biocide
- Used to clean down a room and growing equipment in between crops. Not to be used directly on the crop.

10-510-010	Guard'n'Aid CleanRoom - 1 L
------------	-----------------------------

**Guard'n'Aid OxyPlus**

Liquid additive that can be used in hydroponic or soil systems to increase oxygen content and maintain system cleanliness.

- Can also be used in seed germination and as a preventative against Pythium

10-510-020	Guard'n'Aid OxyPlus 250 ml
10-510-025	Guard'n'Aid OxyPlus 1 L
10-510-030	Guard'n'Aid OxyPlus 5 L

## EnviroGro by LUMii T5 Lights

EnviroGro by LUMii's T5 Lights deliver performance and flexibility along with high Lumen output in any growing environment.

- These durable lights are ideal for small and large-scale propagation
- Low profile powder coated, pre-galvanized steel housing
- 2 m grounded power cord
- On/Off switch
- Outlet socket for daisy-chaining multiple units

### Technical Specifications

Model	Lumen Output	Colour Temp.	IP Rating
60 cm 2 Lamp	Up to 4000 lm	6400 K	IP20
60 cm 4 Lamp	Up to 8000 lm		
122 cm 4 Lamp	Up to 16,400 lm		
122 cm 8 Lamp	Up to 32,800 lm		

More control for you: dual switches are featured on all models (except the 61 cm 2 lamp model). Switches allow half illumination of either inner or outer lamps illuminated or full illumination of all lamps.

## EnviroGro by LUMii T5 Lamps

Replacement lamps for T5 Lights.

- Delivers performance and flexibility along with high lumen output in any growing environment

<b>03-140-050</b>	EnviroGro by LUMii 60 cm (2 ft) 2 Lamp T5 Light
<b>03-140-055</b>	EnviroGro by LUMii 60 cm (2 ft) 4 Lamp T5 Light

<b>03-117-185</b>	EnviroGro by LUMii 114.9 cm 54 W T5 Lamp (6400 K) - Box of 20

## EnviroGro by LUMii TLED Tube

A single Tubular LED lamp designed for use within the EnviroGro by LUMii 60 cm TLED Fixture.

- Delivers performance and flexibility along with high lumen output in any growing environment
- 6400 K colour temperature

**03-155-450** EnviroGro by LUMii 60 cm (2 ft) TLED Tube

## E27 Grow Lights

Our E27 Grow Light grows salad crops from seed, as well as keeping houseplants alive for longer. Thanks to its warm 4000 K white light and full spectrum, the E27 Grow Light will suit any room in the home, rather than purple alternatives available on the market.

- Boasting two timer options, 15 hours ON and 9 hours OFF, or permanently ON; this state of the art E27 lamp allows you to carry on with your busy lifestyle without worrying about your plants
- Due to its specifically developed LED chips, the E27 Grow Light will leave your houseplants looking greener, fuller and healthier for longer!
- Fits any standard E27 lighting fixture
- Uses warm white light to create a cosy atmosphere
- Available in 16 W or 25 W variants

**03-155-020** E27 LED 4000 K Grow Light - 16 W

**03-155-030** E27 LED 4000 K Grow Light - 25 W
