**Stockists'
Catalogue
2021-22**

From 1 September 2021

Peat-free, sustainable products; delivery when promised; a true sense of partnership; support right down the line – that's why more garden centres than ever are stocking our products.

Inspiring everyone to grow

The Royal Horticultural Society (RHS) endorsement of Melcourt products is boosting sales – and those sales could be going through your checkout. The RHS is widely recognised as the world's leading authoritative garden voice with over 570,000 members, over 2.6 million annual visits to their gardens, and on average over 11 million monthly page impressions to the RHS website (rhs.org.uk). Melcourt Industries Ltd are the only supplier of these kinds of products that fulfil the requirements of, and are endorsed by, the RHS.

* The Royal Horticultural Society. The Royal Horticultural Society, and its logo, are trade marks of The Royal Horticultural Society (Registered Charity No 222879/SC038262) and used under licence from RHS Enterprises Ltd.

Other products

- 12 Playsand[™]
- 13 Horticultural Grits & Sands
- 14 Decorative Aggregates
- 16 Poultry & Reptile Bedding

Please note all bags and packs shown in this catalogue are for illustrative purposes only and not to scale.

Dear Stockist,

The retail gardening compost market is going through a seismic change following the recent announcement by Government to ban peat. The future of gardening is indeed peat-free.

As a consequence of the pandemic there has been a significant upturn in UK gardening activity. Unfortunately, due to such high demand last season, many of our products became oversubscribed or were unavailable, and our lead times became extended and outside of our usual standard performance.

To overcome this for future seasons, we have taken the following swift action:

- **arranged** to lay three acres of additional product storage space at Tetbury;
- **ordered** a third automatic product packaging line – form, fill, and seal – for delivery and commissioning during April 2022;
- **installed** a new computer system and employed more office staff;
- **planned** and ordered all of our raw material, ready for next season.

Subject to customer demand, and the length of our lead times, we may have to restrict certain product lines until we have supply and demand in balance.

However, our production capacity will substantially increase by about 30% from April 2022.

May we take this opportunity to say a big THANK YOU from all at Melcourt for your valued business and understanding during turbulent, challenging times.

With kind regards,

Andy Chalmers

Managing Director
Malcourt Industries Ltd
September 2021

* Key Stock Items

Look out for the Key Stock Items symbol. Be sure to order these popular Melcourt products to be ready for customer demands on the next growing season.

The future of gardening is peat-free, and Malcourt is leading the way.

Peat-free SylvaGrow® Compost

SYLVAGROW® MULTI-PURPOSE

Superb quality 100% peat-free compost as used by professionals. Suitable for a wide range of garden applications including potting-on, planting out and as a growing bag.

Responsible sourcing.

The latest on RSSGM

As the peat reduction process takes effect across the growing industry, the Responsible Sourcing of Growing Media Scheme (RSSGM) is finally being rolled out. Its aim is *“to ensure growing media is made from materials that are sourced and manufactured in a way that is both socially and environmentally responsible.”* Where used by manufacturers, it will

provide far greater transparency for both buyers and consumers about the contents within the bag and their

environmental and social impacts. The scoring of each ingredient is based on energy and water use, impacts on habitat and biodiversity, pollution, renewability, social impacts and resource use efficiency. Only businesses achieving Full or Gold membership can display the logo and a graphic for use on POS and product bags. Melcourt has been both a proactive founder member and a full participant of the scheme from day one. When it comes to fruition this autumn, the scheme will enable the buying public to compare and judge products for themselves, knowing that the scores have been independently audited. Find more information on the RSSGM at www.growingmedia.co.uk/responsible-sourcing.html or give us a call. And, of course, look out for the colourful RSSGM logo on Melcourt's bags and POS in due course.

Stock rotation.

Why are stock rotation and shelf life important?

At Melcourt, we promote and encourage stock rotation. Our bags come off the bagging lines and are delivered to customers in as fresh a condition as possible. Melcourt compost products have the date they're bagged marked clearly on the side of the pack, near the base and the date of despatch on the pallet label. You may have also noticed a note on the back of the compost packs which states: *'Best used within the season of purchase. Longer storage can cause a nutrient imbalance.'* So we believe stock rotation to be important, and we do recommend our stockists arrange items systematically to ensure the oldest compost products get sold first. Naturally, we recommend you sell any remaining stock well before the end of the season with plenty of time to give us a call to order more fresh compost ready for the next growing season.

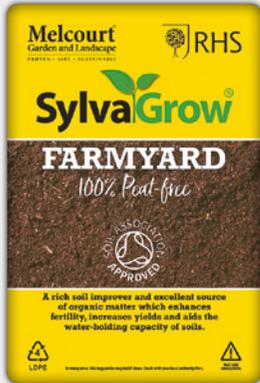

Key Melcourt contacts: see back cover.

Peat-free Soil Improvers & Planting Media

SYLVAGROW® FARMYARD

A rich source of organic matter for all soils, adding nutrients, improving fertility and yield, soil structure and workability and enhancing water-holding capacity.

Bag Size	50 Litres
Product Code	7228
Bags Per Pallet	60
Pack Weight	14–20kg
Barcode	5060157810698

COMPOSTED FINE BARK™

Rich, bark-based soil conditioner. Improves a soil's texture by adding organic matter, thus helping to lighten heavy/clay soil whilst aiding moisture-holding capacity of light/sandy soils. Free-flowing and easy to incorporate into soil. Nominal particle size 0–10mm.

Bag Size	50 Litres

Endorsements

To make it easier for you to see the suitability of our products for your customers, here's a key to symbols for each product to look out for when choosing a product.

JOHN INNES SEAL OF APPROVAL

Indicates that the SylvaGrow® John Innes range has been inspected and approved by John Innes Manufacturers' Association (JIMA).

SOIL ASSOCIATION

The UK's most well-known organic certification body approves our organic range, the logo on-pack giving real credibility to the organic claim.

SUITABLE FOR USE BY VEGANS

An increasing proportion of customers look for vegan-friendly products, which many of our composts are.

FSC® CERTIFICATION

All eligible Melcourt products are certified by the Forest Stewardship Council (FSC®) indicating that we only use bark and wood from sustainably managed sources.

Natural Play Surfaces

PLAYBARK®

An exceptionally well-graded, chunky pine bark. Dust and fines have been removed and the product contains less than 5% wood. Nominal particle size 10–40mm. Tested in accordance with BS EN 1176 and 1177. Fire tested in accordance with BS4790:1987.

Bag Size	60 Litres
Product Code	6018
Bags Per Pallet	50

Fiberized coir fibre used for vivariums and reptile bedding. Nominal particle size 0–8mm.

Bag Size	60 Litres
Product Code	6653
Bags Per Pallet	50
Pack Weight	17–19kg

Bag For Life & Maxi Bales

REFILLABLE BAG FOR LIFE

Select which product you require together with a RHS endorsed Melcourt **Bag For Life**.

How to use

The customer chooses a product and you fill the Bag For Life from the Maxi Bale. Customer pays for the growing media and a **Bag For Life** (if a first-time customer). Customer uses the product and returns to store to buy more product using the same **Bag For Life**.

Product for the refillable **Bag For Life** bags comes in a Maxi Bale. Each Maxi Bale contains 2500 litres, is spun-wrapped, labelled, and delivered on a recycled and recyclable one-way-trip pallet.

Buy a pack of 55 **Bag For Life** bags that you can sell to your customer to fill repeatedly with compost or mulch from the Maxi Bales. On their third refill, customers would be in plastic 'credit' – a contribution in kind to the environment.

Melcourt Bag For Life Sales

For each sale you'll need to scan two barcodes. One for the refillable **Bag For Life**, and one from the list of Maxi Bales for the contents – unless the customer's brought the refillable **Bag For Life** back for a refill. If you're selling a refill, only scan the product contents Maxi Bale barcode.

Our HQ and operations centre, Tetbury.

Operations at our headquarters site at Tetbury include admin, technical, production and logistics teams ensuring that Melcourt products are expertly made and bagged for Melcourt's UK market.

There's a massive undertaking in getting a pallet of Melcourt product to market: material and growing media procurement, manufacturing, blending, packing, order planning and logistics, to name only a few. First, we design, develop, test then manufacture products at various sites around the UK. Then, the growing media ingredients, mulches, soil improvers, topsoils, and decorative aggregates arrive at Tetbury, where a front loader with a bucket the size of a small shed scoops 12 cubic metres at a time and handles them either

into the blending hoppers or directly into the bagging machines. The lines fill an array of 15, 20, 50, 60, and 70 litre bags and ensure that 25 bags a minute roll off into the relative quiet of the storage yard. But, of course, they aren't there long – as soon as a curtain-sided HGV stops in the despatch area, forklift teams buzz into action to load the pallets, bulk bags and maxi bales. Once aboard, the consignment heads off to one of many hundreds of garden centres and merchants in all parts of Wales, Scotland, and England.

Come and visit us

We welcome you to our Tetbury Head Office and production facility. See for yourself the care we take making our products, and get a better understanding of a product's make up and use. At the same time, you will be able to meet with our key staff, some of whom you would normally only speak to on the telephone. We work hard to build long term business partnerships and find that such visits to our site are extremely beneficial for everyone.
