***EASY*ClickBase**

A revolutionary new way to create patios,
paths and driveways

Halve your prep time with this *EASY* sub-base system. Traditional methods of laying paving and driveways requires significant excavation and subsequent costly disposal of residual materials, plus the import of expensive aggregates. *EASYClickBase* saves all these requirements whilst maintaining the integrity of the project.

- ◆ A synthetic sub-base alternative to traditional methods
- ◆ It reduces the time, labour and costs of an installation
- ◆ A lightweight, simple interlocking system; easy to transport and ideal for areas with restricted access
- ◆ Manufactured from 100% recycled ABS plastic.
Any unused off cuts can then be fully recycled
- ◆ Ideal for porcelain and block paving
