ICON GUIDELINES

Suitability icons are explained below:

Suitable for aquatic use.

Supplied washed.

Suitable for driveways.

Two tone design.

Suitable for pot toppers.

Matching paving & kits.

Suitable for rockeries.

Matching stepping stones.

Suitable for pathways.

Matching edging.

ENVIRONMENTAL POLICY

Dur environmental policy dictates that we only supply ethically sourced materials from sustainable deposits, being operated within current legislative and ecological parameters. We also undertake to source recycled products or industrial bi-products for relevant applications where possible. Dur plastic, paper, card board and polypropylene bags from our processes are recycled by a registered Waste Carrier company.

ABOUT US

CUSTOMER SERVICE

As the business has evolved and considerably grown over the last 150 years, it still remains very customer focussed and utilises it's wealth of industry expertise to offer tailored support to suit the bespoke requirements of each and every customer.

CUSTOMER SERVICE

In a recent survey our overall customer service scored a 91% satisfaction rate.

PRODUCT & PACKAGING

Our product and packaging quality scored an 88% satisfaction rate.

OTIF

We have achieved an 85% 'On Time in Full' delivery record.

CUSTOMER SUPPORT

Our in-house sales team offer decades of stocking and product advice, supported by a team of highly experienced sales agents based around the UK. This makes it easy to meet face to face with a Meadow View Stone representative wherever your centre is.

With a combined 183 years of industry and sales expertise within our team gives customers the assurance that we have the knowledge and ability to considerably grow sales.

AWADD WINN

AWARD WINNING

This personal and tailored support was recognised when we received "Runners Up" in the GMMA supplier of the year awards 2019, a recognition we are very proud of.

We are members of:

CUSTOMER RESULTS

UP 76% ON AVERAGE

With many of our accounts enjoying sales increases of between 20-150% in our category this year, it gives us a great sense of achievement that we are able to continue to develop and grow sales within our established customer base.

MERCHANDISING

Clear strong pricing with the option of multi buy offers to drive volume.

3D DISPLAYS

This new arrangement is ideal for displaying paving and aggregates together to maximise cross selling opportunities.

These gardens can be bespoke to your centres stock profile.

Speak to your agent for more details and how to integrate this display into your merchandising plan.

CUSTOMER FEEDBACK

TILL SALES UP BY 25%

"Dut of the 150 suppliers I use, Meadow View is by far the most effective and pleasant to deal with. Couple that with an amazing product range, POS and marketing set up and Meadow View has become one of our most profitable suppliers."

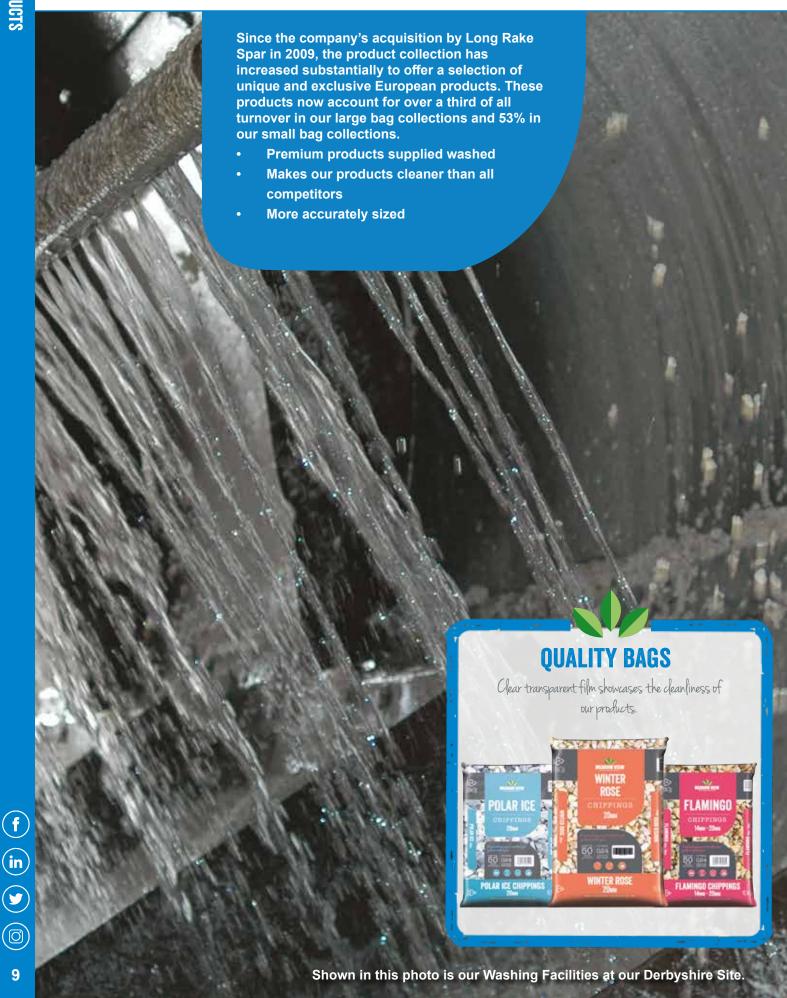

Connor Gallivan, Big Red

BIG RED GARDEN CENTRE

OUR PRODUCTS

WASHED PRODUCTS

We pride ourselves on supplying superior quality products. Our Premier Chippings are supplied rinsed using our extensive washing and processing facilities located at our four production sites. Being the only supplier in our sector to have these facilities ensures that our premium collection of decorative aggregates are:

- cleaner
- more consistently sized
- better suited to retail.

UNWASHED

See the large amounts of fine particles and silt completely coating the gravel and the residue that is left on your hands which clearly obscures the colours.

- better quality than all our competitors
- showcased to maximise their potential
- purchased in volume

WASHED

See the contrasting clean washed gravel, with the layer of grime removed to fully showcase the colours and appearance of the gravel.

The vast improvement in the appearance of these more premium products has seen a big take up in sales, with three of these products now within our top ten best sellers, despite their higher RRP.

EXCLUSIVE WHY SWITCH?

Many of these unique products feature within our Premium collection, but others also feature within our product collections of Slate, Eco chippings, Pebbles & Cobbles and small bags and are identified as exclusive in this brochure by this icon:

With its subtle uplifting colour tones of light grey/blue and white, our Polar Ice was introduced at Glee in 2017 to reflect and complement the current trends for Grey in the outdoor living category. Since its introduction, the product has considerably grown in popularity with customers, due to the increasing sales volumes it delivers, at a healthy RRP and margin return.

records by returning a higher sales value (6% MORE) than Plum Slate 40mm.

A high proportion of our sales come from our exclusive products, increasing sales by a minimum of 30%.

RECYCLED PRODUCTS

In an effort to conserve our natural resources, we continue to look for recycled or bi-products that will enhance our range.

This year we have added two such products to our Horticultural Collection, which are Eco Grit and Eco

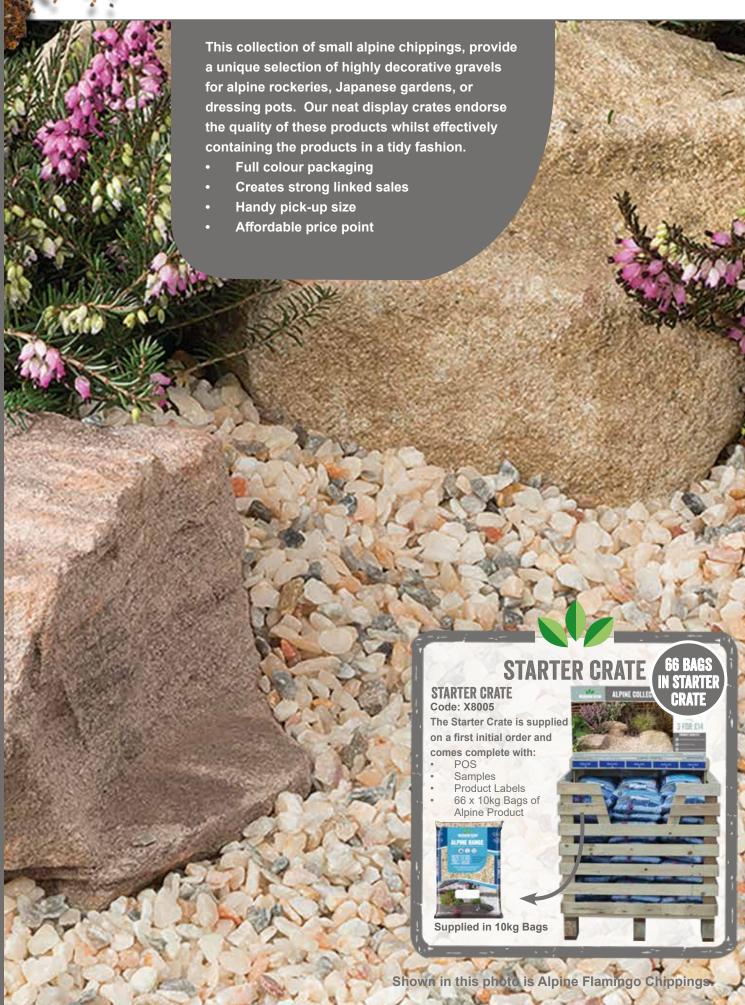

Rainbow Sand from page 35..

CORTEN STEEL FIREPITS

WHAT IS CORTEN STEEL?

Corten Steel is a high strength, low alloy, welfable structural steel possessing excellent weathering resistance by forming a protective oxide coating which seals the surface against corrosion. The coating is a brown rusted appearance which is a firm favourite in modern architectural exterior, and interior design.

STARTER PACK

Material Type: Corten Steel, Hand Made UK Manufacture No maintenance and long life span.

STARTER PACK Code XP4004

Starter Pack with one of each Firepit is available for store

PRICE POINT

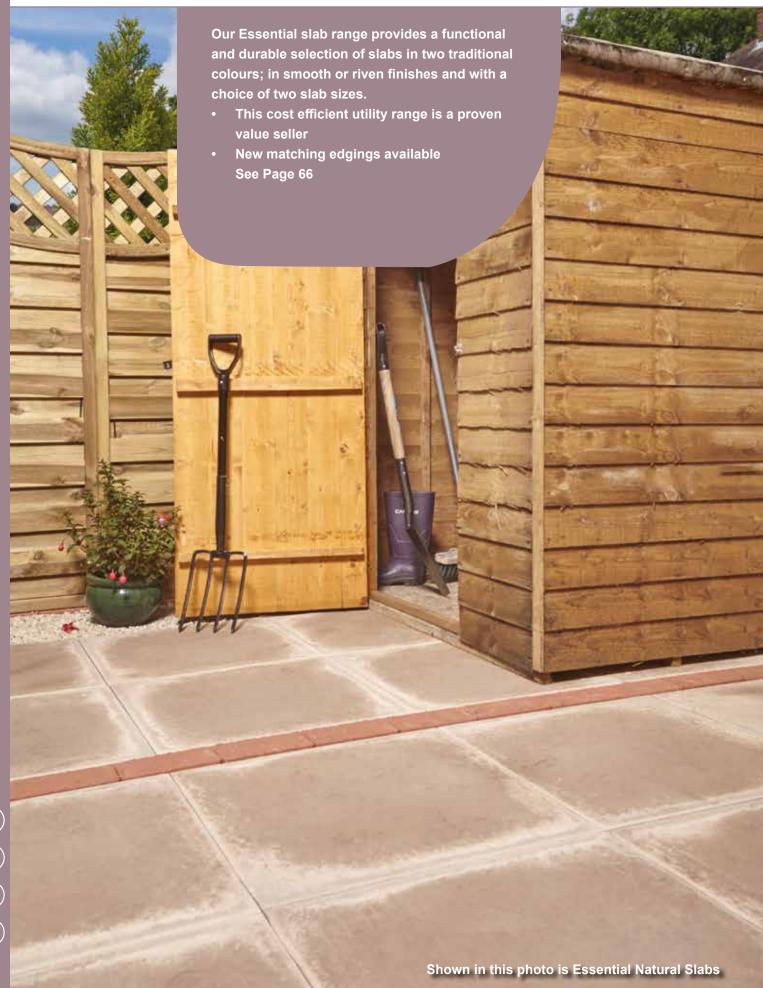

These quality 450mm riven and smooth slabs, fill the gap between, premium quality decorative concrete and low-priced utility slabs.

The price point sits between the Bronte and the Essential slabs and offers a mid-priced economical slab with a more decorative superior finish. The fashionable dark charcoal colour and superior finish quality, allows customers to create an economical and attractive patio area. See how it looks in this end of aisle garden.

ORDERING

ORDERING

DECORATIVE AGGREGATE COLLECTIONS

Each pre-pack pallet or bulk bag equates to one full pallet with a minimum order requirement of 5 pallets, e.g. 2 x rockery and 2 x pallets of slate and 1 x bulk bag of decorative chippings would meet the 5 tonne pallet requirement.

PAVING COLLECTION

Most products are packed at 500kg per pallet, therefore 2 pallets of paving equate to 1 pallet of aggregates, e.g. 10 pallets of paving make up the 5 tonne pallet requirement. A mix of any of the above, e.g. 3 pallets of aggregates and 4 pallets of paving make up the 5 tonne minimum pallet requirement.

For customers who are not able to reach the above minimum order requirements we can despatch on a palletised carrier network, for which a small additional surcharge for delivery will be applied.

HOME DELIVERY

VEHICLES SIZE AND ACCESS

Please check that your customer has sufficient access to accommodate this size of vehicle (18 Tonnes) at their chosen point of delivery. The vehicle will require a minimum opening width of 3m to access the chosen delivery address. If your access cannot accommodate vehicles of this size it may result in failure to deliver, or the goods will then be delivered to the nearest kerbside at the discretion of the driver. Smaller vehicles are of limited availability and requests for these may delay delivery by up to two working days.

ROUTE TO YOUR CUSTOMERS PROPERTY

Please make sure that the route to the chosen delivery address is free from low hanging branches or obstacles, including parked cars, which may cause damage or obstruct delivery vehicle

OFFLOADING

The driver will unload using a tail-lift offload and manual pump truck which can only be operated on:

- Solid Hard Surfaces.
- Surfaces Free From Gravel or Grass.
- Flat & Level Ground With NO Inclines/Declines.

RECEIPT OF GOODS

Please make sure that your customer is available to receive the order and sign for the material, or has made prior arrangements for a third party to do so on their behalf.

The following delivery criteria, needs to be assessed and agreed with your customer to ensure a smooth delivery is achieved. Failure to comply with these factors may delay receipt of the order, and may incur additional costs for failed or re-deliveries.

We can accommodate some customer's specific delivery restrictions and would be happy to discuss these to try and accommodate delivery – please discuss with a member of our sales team.

NOT A HIAB

Please note that the delivery will not be on a Hiab vehicle, so the goods will not be craned off.

ADDITIONAL INFORMATION

PRODUCTS

We practise a policy of continuous improvement across our entire product range and material sourcing activity. While the product details contained within this guide were accurate at the time of print, we reserve the right to alter specifications or withdraw products from sale, without prior notice.

All products shown in this sales brochure are supplied subject to Meadow View Stone's terms and conditions of sale. All our aggregate products are naturally sourced and maybe subject to changes in their appearance, colour and size. Colour swatches are for reference only. We recommend viewing samples to ensure a fair representation of your chosen products.

Many of our aggregate products have been mechanically screened through meshes to define the material size specified. While screening offers a more consistent sized product, it cannot eradicate material particles that exceed the defined size(s) in one dimension. All material grading sizes and size ranges are for guidance only.

Boulder & Rockery products purchased from our sources are based on an overall crate weight. Despite close attention to this within our quality systems, piece sizes and numbers per crates can vary. Quantities quoted should be considered as an average across a number of packs and pieces. All quarried materials can be subject to varying contaminates. Every effort is made to minimise this with suppliers. Naturally occurring Iron Oxide/Silicate and other metallic elements are impossible to eradicate fully. Such contaminates can result in staining. Meadow View Stone cannot be held liable for this natural occurrence either pre or post installation.

PAVING

All our Paving products are UK sourced concrete products and maybe subject to minor colour variation due to batch variations. Product pictures have been supplied for reference only. We recommend viewing samples to ensure a fair representation of your chosen products.

All concrete paving products can be subject to a visual change of appearance once installed. Many concerns simply weather away in the early life of the paving/product. If issues are prolonged please don't hesitate to contact our customer service team on 01948 841 607.

All pavements and garden areas should be subjected to periodic cleaning and maintenance. The frequency of this will depend upon the surrounding environment. Meadow View Stone cannot be held liable for the effect of detritus upon any installed area.

CORTEN STEEL FIREPITS

Our new firepit range is manufactured from Corten Steel. This material as it naturally weathers, is designed to oxidise to give the product an eventual rusted appearance. This process can take several weeks depending upon climatic conditions, and does give the product its longevity. Please consider this change as part of the aesthetic and purchasing decision.

PACKAGING

BULK BAGS

For larger requirements our products can be supplied in bulk bags, either via our home delivery service or for supply ex store.

STANDARD PREPACKS

Our range of decorative aggregates are supplied in premium quality, bright and attractive pre-pack bags, with clearly legible fonts in a highly transparent film which gives product clarity and showcases the cleanliness of our products. All prepack bags are supplied black wrapped to prolong the shelf life of the products, with each pallet clearly labelled for ease of locating in store.

ADDITIONAL INFORMATION

COVERAGE

See our Till Book/ Product guide for specific coverage information and laying depths across our complete product offer.

BROCHURE AND TILL BOOK

No charge is levied for the Garden Centre Brochure and Till Book, and according to the company, it's employees and authorised agents can accept no liability whatsoever, either directly or indirectly arising from the use of its products in connection with any information or advice contained within.

QUALITY POLICY

We have been accredited with ISO 9001: 2015 certification for the processing and supply of decorative aggregates.

PRODUCT APPLICATION

Products identified in this document are primarily designed for domestic garden applications. Guidance has been given on all products suitability of application via a series of icons. If you or your customer are unsure about any products suitability, please contact our customer service team on 01948 841 607.

ENVIRONMENTAL POLICY

Our plastic, paper, cardboard and polypropylene bags from our processes are recycled by a registered Waste Carrier company.

DELIVERY HANDLING AND STORAGE

Whilst every care is taken with your order, please check that it is in a satisfactory condition upon arrival. In the unlikely event of any concerns, please contact our customer service team immediately on 01948 841 607.

The responsibility of the product and packaging transfers to the customer once it is removed from the delivery vehicle and has been signed for.

For all product handling and storage we recommend that a comprehensive risk assessment and method statements are produced to ensure safe, sustainable and legal working practises at all times. This should include a full assessment of the ground conditions for safe stacking.
