About

AIRFLOW
MAKING PLASTICS WORK

Airflow is a **specialist plastic building products and contract moulding company**, established in 1955, and moved to New Milton in 1972. We design and produce our own range of plastic building materials, specialising in using recycled material where possible and are the sole producers of the well-known INVINCIBLE Bucket.

We operate in the areas of injection/vacuum and thermo-moulding. We also do contract moulding.

Our in-house CAD design department, produces innovative results to our customers demands.

Airflow can offer rapid prototyping, giving customers the chance to physically hold and gain a better understanding of the product they seek to develop.

Within the community, we work with local companies and Scout groups to gather materials for recycling and help to raise monies for good causes.

ROLL PANELS

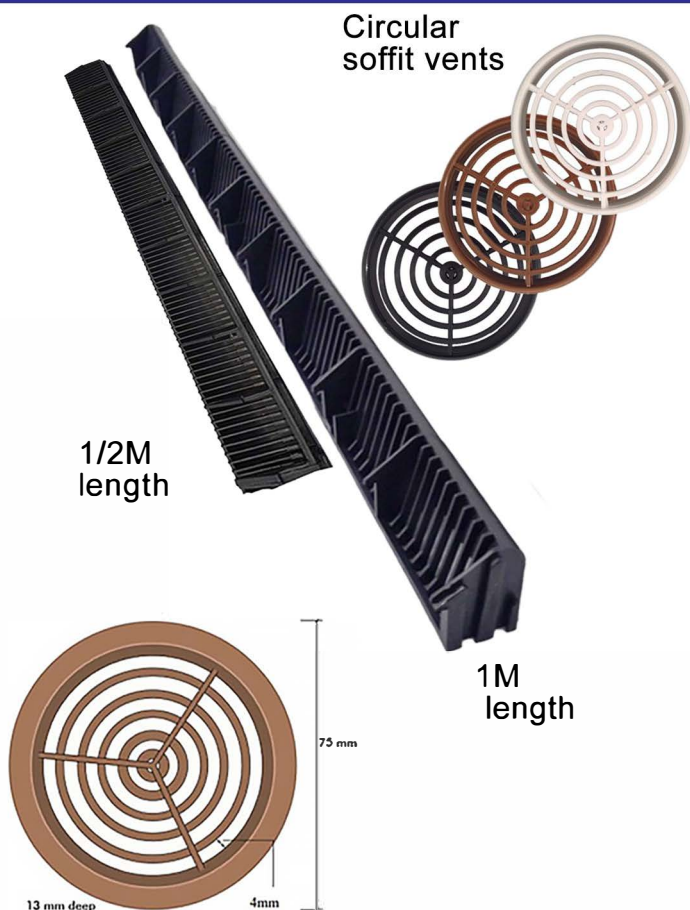

Airflow developed a new type of roll panel, as many on the market offered small castellations, enabling them to become blocked by insulation, reducing the performance.

We developed our unique design to give support, performing above and beyond many available.

Offering many widths, we are now one of the largest suppliers in the market.

Ref	Product (x6M)	Box
AIR500	300mm roll	10
AIR500-4	400mm roll	10
AIR500-6	600mm roll	5
AIR500-8	800mm roll	5
NEW! AIR500-9	900mm roll	5
NEW! AIR500-10	1M roll	5

ROOF VENTS

Our roof ventilators not only are of great quality, but also offer outstanding performance. They are regularly regarded for their ease of fitting.

Over fascia vents come in both 10mm and 25mm versions.

BUILDERS BUCKETS

Airflow buckets are where we shine the most, starting, with our market leading INVINCIBLE Bucket often referred to as "The Bucket with the car on."

We offer a number of quality buckets made from recycled, as well as, virgin materials. Our products have been designed for builders wanting products they can rely on, coming in many different colours and sizes.

The
INVINCIBLE
Bucket

Extra strong 15lt

15lt strong, recycled builders bucket

15lt

Strong metal gripper handle

10lt

5lt bucket or planter

SHALLOW/DEEP PLASTERERS BUCKET

15lt shallow
plasterers/
feeder bucket

Airflow offers two products with diverse uses. The shallow 15lt bucket is wider and low lying making them exceptional as mixing or feeding buckets.

Look out for our HOOV PROOF versions, produced from a differing flexible material, allowing animals to step on them without breaking.

30lt deep plasterers
bucket

Our 30lt deep plasterers bucket is strong and stable for mixing large amounts of material.

FLEXIBLE TUBS (BLACK)

Airflow offers a range of cost effective recycled black flexible tubs under our new Mightiflex range from 15lt to 56lt.

- Frost and UV proof.
- Extremely Flexible, almost Indestructible.
- Ribbed profile for strength.
- Large capacity for mixing or rubble removal.
- Handles CE tested for 100 Kilos.

FLEXIBLE TUBS (COLOURS)

Available in:

Red

Yellow

Green

Pink

Blue

Purple

Following along the line of Mightyflex, our coloured tubs allow for segregation or can just be a colourful sight in the garden.

WEEP VENTS & INSULATION DISKS

Available in:

White

Terracotta

Brown

Black

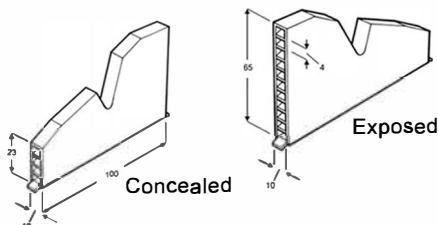

Buff

Grey

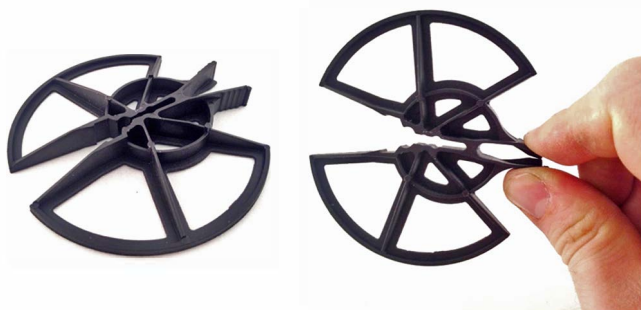

Clear

Airflow's famous dual weep vent allows two options in one product, depending on which way it's fitted. It can either be concealed or exposed (being full brick height). They all come with a mini frog to secure and stop creeping.

Our universal insulation disks fits many of the ties used today and is easy to fit with its clothes peg pinch facility.

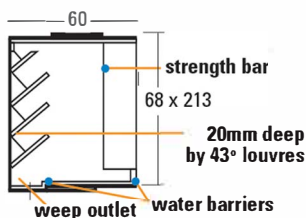

AIRBRICKS & UNDERFLOOR

9" x 3" airbrick 78cm² free area

Our airbricks offer one of the highest free areas on the market. They come with a two-step integral water barrier that can lock together to have one product that suits most brick sizes.

9" x 6" airbrick
156cm² free area

Our underfloor liner is designed for our airbrick to attach to. We offer a full range of adaptors to meet most building requirements.

Adaptors

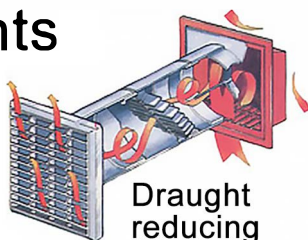

Underfloor
liner

THROUGH WALL VENTS

Core vents

100cm² free area

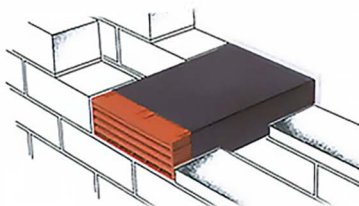

Still, after 20 years, Airflow are the main supplier of passive through wall ventilators to British Gas.

We were the first to offer a 5" circular through wall core vent allowing 100cm².

We work on the concept of Easyfit saving the installer time, while making sure the job remains neat.

9" x 3" set

9 x 6" wall set

A full range of surface mounted vents also available

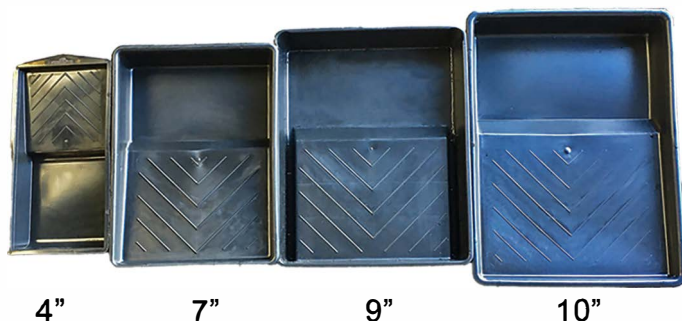

EXTRACTOR/TUMBLE DRYER DUCTING

Our extractor vent range comes with outlet terminals, vent pack, ducting and a full range of accessories for 4,5 and 6" diameter, and also rectangular ducted products. Many display packed for ease of display.

PAINT TRAYS

Did someone say paint trays?

We have, over the last few years, expanded our range to offer all popular sizes and all produced in the UK from recycled materials.

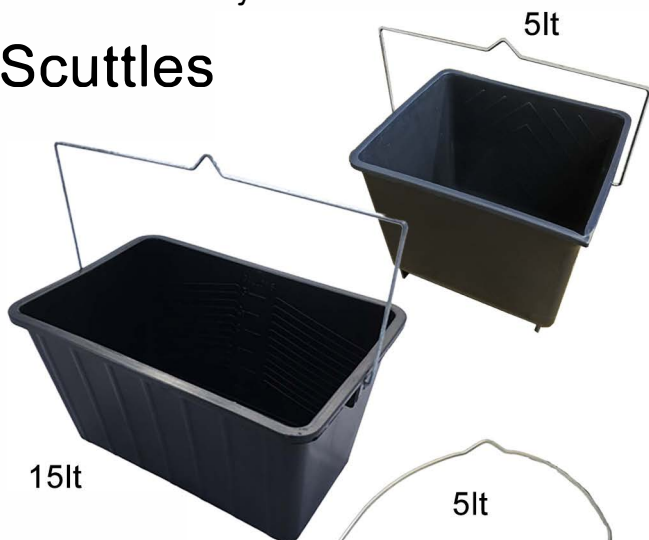

NEW
9" PAINT TRAY

SCUTTLES AND KETTLES

Durable and easy to clean.

Scuttles

Kettles

Airflow paint scuttles and kettles all have strong metal handles. Our new 2.5LT kettle is also available with a lid option.

ACCESS PANELS

Our access panels give you access behind tiles in your bathroom to service pipes or hidden appliances. The units come ready packed for shop displays and have their own template for ease of fixing. They remain almost invisible except for the grout around the door.

Instant access panels have been designed to simply pull away from the frame allowing you to paint or paper over to disguise, if required.

Available in a range of sizes.

CLEANING & DOMESTIC

As well as our popular plastic mop buckets, we have a number of other products suitable for cleaning or tidying purposes around the home, farm yard or building site.

Mop bucket with
detachable squeegee

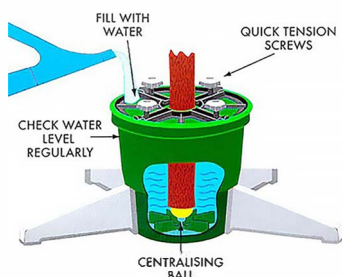

Available in:
Silver
Red
Blue
Yellow
Green

Our 3 compartment caddy tray has many uses from cleaning, carrying tools, horse grooming and storing decorating equipment.

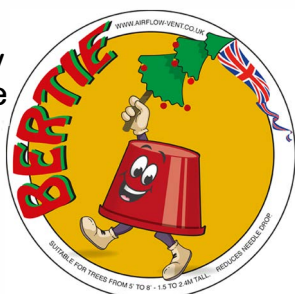

Caddy tray

XMAS TREE STANDS

As contract moulders, we have offered our standard range of watering Christmas tree stands in 3 size options.

2022 sees our new specially designed stand, Bertie come to the market. Expected to take the market by storm, by offering a quality, secure stand.

NEW!

Designed for trees 1.2m - 2.7m (4ft - 9ft), Bertie is 100% recyclable and made with a percentage of recycled material.

4.5lt capacity with spill guard

Legs unclip up to 90°

Trunk sizes up to 15cm ø

CONTRACT MOULDING & PRODUCT DESIGN

Offering contract moulding to customers means we also produce varied items , such as: bung feet for furniture, medical parts, filters, bobbins and attachments for a world famous trouser press to name but a few.

We also offer product development and design, helping to bring many new ideas to the market. For example, Airflow were the main developer of a leading magnetic filter for the heating industry.
