LBC REVALUTION

In 2018 together with the team in Ireland we decided to take on a challenge to grow our own brand of footwear - LBC - Leon Boots Co. We are taking part in a reVALution in the world of Wellington/Rain Boots, which started in Europe many years ago & now finally spreading rapidly around the globe.

We are now proud to be an international leader in this major and unstoppable shift! **JOIN US!**

Abbreviation of the word *TEAM* means: *Together Everybody Achieves More... So let's Team up!*

Charlie & Kev Burgess - UK Directors

Mission Statement

Our Mission is very simple. To introduce our LBC ULTRALIGHT, ultra-comfortable, ultra-durable and ultrasafe (safety range) wellingtons to as many people in as many different sectors.

By increasing the value of our brand to many market sectors for work or leisure, from farming to food manufacturing, construction to conservation, walking in the hills to fishing on the peg - with our revolutionary range... delivering the highest quality that surpasses our competition.

Here at LBC we love what we do and we do it with love to you!

About Leon Boots Co

Existing on the market for many years as a distributor of EVA wellington boots in Ireland, Leon Boots Co found a great potential to introduce the ULTRALIGHT range into the UK.

Starting the journey at GLEE 2018 where UK Director Kev got his hands on the number one selling wellington within the range – Explorer Black, since that introduction three years ago Leon Boots Co UK stands proudly as a family run business with son Charlie arriving on board & together the UK has over 200 stockists across the United Kingdom from independent agricultural stores to supplying one of the biggest garden centre groups in Europe.

By listening carefully to our valued customers we have also discovered a growing market niche for ULTRALight Protective/ Safety Boots which are now known as a stronger alternative for outdated heavy rubber or PVC footwear.

In order to provide the best quality products we only work with well-established manufacturers based in Central Europe targeting all market sectors & revolutionising the wellington boot market.

We are ready to serve the most demanding clients with our wide range of footwear, excellent service at competitive. Our ULTRALight range of boots come with a removable, washable warm lining & is getting now a significant market share.
