Sat 9am - 4pm

*"Great level of customer service and were very easy to deal with. We went to their showroom to view the kennels beforehand and Kat was so helpful and reassuring! The installation time were extremely polite and respectful and did a fantastic job. Very impressed with the quality and build of the kennel!"*

*Would 100% recommend"*

 BM Kennels LTD

 Benchmarkkennels

## Product Information

High Quality Wooden Dog Kennels

# Welcome to Benchmark Kennels

## PERFECT FOR PETS

Kennels with runs are perfect for any dog, no matter the size or breed. Benchmark Kennels and runs are highly versatile, providing a safe, comfortable place for your dog to spend time.

A superb way to give your dog plenty of room, fresh air, and stimulation.

### SAFETY

A well-structured and quality kennel serves as a dependable and snug area for your dog to spend time whilst keeping your pet safe.

Offering protection from inedible or potentially poisonous plants or objects around your garden, and removing the risk of your dog escaping.

You can rest easy with a professionally made dog kennel.

Ideal solution for separating animals.

### COMFORT

If you are worried about your dog staying warm and dry when kept outdoors in the chilly British climate, dog pens and runs can protect your pets from the elements.

The entire Benchmark Kennel's range can be customised to suit your needs.

Use your dog kennel in the right way, and your animal will learn to associate their pen with comfort, warmth and security, not confinement.

## SOLUTIONS

A Benchmark Dog Kennel and run can make life as a dog owner so much easier. If you have more than one dog, large or long-haired breeds that like to get muddy on their walks, an outdoor pen is perfect for keeping your dog outside while it shakes and dries off.

Outdoor dog kennels are a place for your dogs to play or sleep while you get some jobs done around the home, without having to worry about them chewing anything in your absence! If you have a friend or family member visiting that is afraid or allergic of dogs and would prefer them not to be around, an outdoor pen is ideal for temporarily keeping your animals out the way.

Part of the worry when welcoming a new dog to your home is how they will cope when left alone, especially if your dog will have to be kept cooped up indoors.

Outdoor dog kennels are a superb way to give your dog plenty of room, fresh air and stimulation when you're out of the house for short periods.

### TRAINING

There are a number of factors at play such as your dog's breed, personality, past experiences, but most of all your training techniques.

Kennels are a great aide to house-train a dog, without the risk of damage to your home.

At Benchmark Kennels, we offer a personal, friendly and affordable service.

Our range of kennels, pens and runs are completely customisable, so you can adapt each product to suit your dog(s) perfectly.

Benchmark Kennels aims to manufacture, deliver, and fit, all kennels within 2 weeks!\*
