

With over ten years experience in the manufacturing of Glazed, Atlantis, Fibreclay and Terracotta pottery from our own factories based in the Far East , we at Newbridge pride ourselves in bringing the highest quality planters to the UK and European markets at very competitive price points.

In addition we also offer our retail partners unique and attractive pots created by our own design team which are updated regularly. This ensures that stock rotation is maximised with the latest colour and design trends.

From our Bedford warehouse and distribution centre we pride ourselves on quick, efficient deliveries across the whole of the UK using our own transport fleet or trusted independent carriers as required.

All of our products are pre-priced with clear eye-catching labels, along with excellent stands and matching POS. We back this up with our dedicated merchandising team who are passionate about offering our customers the back up support required to ensure healthy sales growth.
