THE LOOK OF YESTERYEAR

in a modern-day

With its vintage appeal, this A-frame construction plant stand has details that provide the popular "repurposed" look of an authentic old metal ladder. Compact and lightweight, yet rugged and strong enough to hold heavy pottery. The three, galvanized metal shelves fit snugly onto the ladder frame and require no tools to assemble while keeping soil and moisture contained. Perfect indoors or on a small patio. Folds compactly for seasonal storage.

BENEFICIAL INSECT HOUSES

Have become a hot category in the past years

Consumers are becoming aware that attracting beneficial insects to the garden is a great way to increase plant health with insect pollinators that substantially improve vegetable, flower & fruit yields or feed on invasive, disease-carrying species without the use of harmful chemicals.
