Everyday Collection

2022
Issue No.1

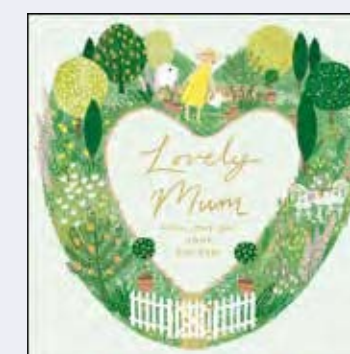

On a recent tour of the Verona paper mill where much of our luxurious paper is made, I was asked by Gabriele, the director, what this strange, foreign phenomenon of a greeting card was all about.

Our humble greeting card – almost uniquely a cultural quirk of English-speaking countries – can often feel at odds with our fast-changing, high-tech world. Despite our being better connected than ever at the click of a button, how seldomly we pause to consider and say the words that really matter to those we love.

The quiet moments of reflection and care in choosing, writing, and giving a card are without parallel. And, in an increasingly challenging world of uncertainty and strife, we need those heartfelt words more than ever.

Protecting the Environment

At Woodmansterne, we are committed to using sustainable materials and practices wherever possible. As a third-generation family business, we understand the importance of protecting our environment and safeguarding it for the future.

All our cards are printed by us in Croxley, Hertfordshire.

We print using vegetable inks on paper from FSC sustainable forests.

Our envelopes are made from 100% recycled post-consumer waste.

UK manufacturing and distribution keeps our carbon footprint low.

We pack our cards with a paper Smart Seal that saves up to half a million pieces of throw away plastic being sent to landfill every week.

As of December 2020, we have removed all glitter from our products.
