CASUAL SEATING COLLECTION

2023

INTRODUCING

2023 CASUAL SEATING

COLLECTION

It is with great pleasure that we present our 2023 Casual Seating Collection.

The design of swing chairs and Daybeds has quickly evolved and so much more often we see rattan chairs moved from the garden into the home, and are therefore being used all year round.

Our New Casual Seating collection makes this extremely easy; the lightweight frame means moving between garden and indoor living spaces is hassle-free, also, the colour ranges of the rattan and accompanying cushions are purposely neutral shades, meaning easy pairing with existing décor for both indoor and outdoor.

Lastly, an innovative folding design allows our cocoons and daybeds to close or fold for easy storage when not in use.

innovators
— international —

Innovators International Ltd. is always striving to further improve the design and functionality of furniture collections. We produce many fresh concepts year after year, whilst keeping our core values of luxury and longevity as a focal point.

Innovators offers stylish and space saving twists on classic garden furniture, ensuring that your garden always looks its best whether you are entertaining or simply relaxing. Innovators International is proud to be an accredited member of a number of trade organisations, ensuring that all our factories meet UK/EU ethical and environmental standards.

Innovators is certified LOFA Assured.

Our products are created with elegance, comfort and functionality in mind by professionals with more than 30 years experience in the furniture, gardening and design industries.

Our brand offers design led products that constantly bring innovation to the marketplace. In 2020 our Bellevue Set won the Best New Product award at the Glee Spring Fair.

INNOVATORS INTERNATIONAL

BRASILIA RANGE

HOLLY
SINGLE HANGING
COCOON CHAIR

The Holly folding cocoon chair is an innovative and patented design that is one of a kind. This hanging chair makes use of an innovative design which means it can be folded down for easy storage when not in use.

This decorative and modern Holly hanging cocoon chair will add a contemporary twist to any garden, outdoor space or conservatory. Sturdy, stylish and comfortable, this egg chair is the perfect place to sit and enjoy the garden. It features a robust steel base supporting and acting as a strong base for the sturdy aluminium frame cocoon chair to hang from.

This is finished with synthetic rattan and Terylene ropes for a simple yet effective contemporary style. The egg-shaped chair section is suspended from the curved frame for floating comfort and features a thick, soft cushion with head rest.

The Holly cocoon chair is constructed using flat rattan and is available in light grey rattan with charcoal fabric cushions or natural rattan with cappuccino fabric cushions.

This set comes flat packed for quick and easy home assembly.

FEATURES

- Steel Base/Aluminium Chair
- Created with synthetic rattan and Terylene rope
- Flat rattan
- Innovative patented fold-away design
- Packed in a Small Carton
- Comfortable cushion
- Fabric: 100% elastolefin, fill: 100% polyester
- Cushioned seat and headrest
- Colours available: Charcoal/Grey or Latte/Cappuccino

OLIVIA
DOUBLE DAYBED

This Olivia double daybed is a wonderful place to spread out and relax with a cool drink on a warm summer afternoon.

This fantastic rattan daybed can be used as both a traditional daybed for lounging or as a sofa, as the ottoman tucks underneath.

This gives you a piece of garden furniture that's modular and flexible depending on how you want to use it. The adjustable canopy lets you decide whether to sit in the shade or in the full sunshine.

This daybed is constructed of an aluminium frame and double half rattan which is hand weaved. It is suitable for all weather conditions and the cushions are showerproof.

The Olivia double daybed comes in grey rattan and charcoal cushions.

FEATURES

- Aluminium frame
 - Double half rattan hand weaved
 - 1 x double daybed with canopy

Innovators International

Great furniture to relax in

Innovators has been a key supplier to the garden and DIY trades for over 30 years.

The 'Innovators International' brand name is recognized throughout the trade for offering quality, innovative products at superb prices.

We were the original mixed container specialist and have always 'led while others followed'. Our reputation has been built on product and service innovation.

We always listen to our customer's requirements, responding to their individual needs in a timely, accurate and innovative manner. We have co-operated with our partner factories for many years and have established a reliable and quality manufacturing base.

For 2023, we are able to offer a superb range of products which have been designed in accordance with current fashion and lifestyle trends, whilst incorporating the logistical requirements of our customers. The overall ambiance that we are trying to create is one of simplicity. Our ranges are manufactured to ensure that minimal maintenance is required in keeping with modern living.

Innovators International is proud to be an accredited member of a number of trade organisations, ensuring that all our factories meet UK/EU ethical and environmental standards.

Innovators Terms of Warranty

PLEASE KEEP THIS SHEET WITH YOUR PROOF OF PURCHASE WARRANTY CLAIMS CAN ONLY BE PROCESSED WITH A VALID RECEIPT OR PROOF OF PURCHASE

SHOULD YOU HAVE ANY QUERIES ABOUT YOUR FURNITURE YOUR FIRST POINT OF CONTACT SHOULD BE THE RETAILER FROM WHOM YOU PURCHASED YOUR PRODUCT.

TERMS OF WARRANTY - This warranty covers the product for its intended use only - The warranty will be null and void if the product is used for any other purpose than originally intended, or if it is altered, modified or repaired by a third party. The warranty is in effect for a period of 24 months beginning from the date of sale/invoice to the original retail purchaser. (With exception to our exclusive Winawood range tm where we offer a 36 month warranty period)

Any claim must be reported in writing to Innovators International Ltd who will take reasonable steps to either suitably repair the product or if this is not possible, replace or refund the item. All claims will be subject to scrutiny and inspection from our own experts. The decision to be repair or replace the item will be made by Innovators International Ltd.

When reporting any claim Innovators International Ltd will require proof of purchase and images to support the reported issue.

Any damaged product must be reported within 14 days of purchase to the retailer. Or within a 4 month period of sale to the retailer.

In order to get the very best performance from your furniture we have listed and recommend the following.

GENERAL - UK & EUROPE

- Garden Furniture should not be covered when damp and not in use as this traps moisture and can cause mould to develop, we recommend that a cover should be used on dry items only and certainly not over cushions. (Cushions should be stored in a separate sealed bag).
- Certain types of furniture can be left outside throughout the year. Please discuss this with your retailer prior to purchase. However, if you wish to store the furniture inside please ensure it is completely dry before storing it. Furniture stored away when damp or stored in damp conditions can develop mould.
- If using a parasol with your furniture you must always ensure you use a suitably weighted base, this is especially important when using glass top tables.
- When a parasol is not in use or when it is windy the parasol should be removed, failure to do so can lead to damage to your furniture and this warranty becomes null and void.
- Each piece of Innovators furniture has been thoroughly tested against most weather conditions and can withstand everyday use
- If the furniture you have purchased is foldable each piece should fold easily, please do not use extreme force to fold furniture
- It is recommended not to sit on Innovators furniture whilst wearing sun cream/sunblock/self-tanning or body lotions. We recommend a towel be placed upon the furniture to stop the creams/lotions reacting with the coatings on the furniture
- Clean up spilt drinks as quickly as possible with an absorbent cloth
- Remove grease or any other dirt as quickly as possible with warm soapy water. Rinse with lukewarm water to prevent stains
- Do not jet wash any of our furniture as this can cause damage to material and coatings (with exception to the Winawood tm range)

WINAWOOD™ UK AND EUROPE

- Winawood, the zero-maintenance outdoor furniture you've been looking for.
- Combining the latest manufacturing techniques and using both new and recycled polymer materials, Innovators international ltd. have successfully produced a range of outdoor furniture that combines the appearance of wood (including a natural wood grain effect) with the durability and maintenance characteristics of man-made items.
- The colour and grain is not only visible on the surface but is embedded through the material. It's the same colour all the way through, just like real wood!
- Winawood is not painted, Winawood will never need to be recoloured!
- The colour is encased in the polymer material. Sand the top layer of any item and you will find the same colour underneath the visible surface. All of our designs are patented and exclusive.
- Supplied with a 3 year limited guarantee. Each bench comes with a small sanding block for easy maintenance.
- To clean use a power hose and just wash the product and leave to dry or wipe down, no cleaning material is required.

WOOD - UK & EUROPE

- The high oil content of wood means it is ideally suited to the UK's changeable climate
- Wood will naturally develop splits, known as end grain cracking, as it dries out through the season, this will be particularly visible on the ends of parts such as arm rests and edges of tables. This is not a fault but a naturally occurring process.
- If left untreated your furniture will weather to a silvery grey finish, if you wish to maintain the original colour we recommend treating the item every year, your retailer should be able to recommend the correct product.
- Wood cleaner can be used at the beginning and end of the season to remove any build up of dirt on your furniture, carefully follow the instructions on the back of the bottle.
- Once clean your furniture will benefit from a light sanding to remove any colour differences which have developed before the wood oil is applied.
- Wood oil should be applied to the underside of furniture as well as visible parts, any excess oil should be removed with a dry cloth.
- Once a year we advise that you tighten the fittings on your furniture as they can loosen as the wood breathes.
- Do not jet spray the furniture as this can damage the wood.

CUSHIONS - UK & EUROPE

- Store your cushions in the dry when not in use.
- If the cushions get wet ensure they are completely dry before storing away.
- Small spillages can be cleaned using soapy water and a clean cloth before leaving the cushion to dry.
- Removable covers have cleaning instructions on the cushion tag and these must be followed. After cleaning pull back into shape before being left to dry.
- Cushions will eventually fade in the sunshine, the chemicals that make up the colours within the fabric are broken down by ultra-violet light that is present in the sunshine, this is a natural process and is not covered by the guarantee or warranty.

CERAMIC TABLES - UK ONLY

- Ceramic table tops are made by bonding a layer of ceramic onto a lightweight aluminium honeycomb structure.
- Do not place hot dishes directly onto the ceramic and ensure spillages are cleaned away quickly with a clean damp cloth.
- Do not jet spray the tables as this can damage the table tops.

RATTAN - UK & EUROPE

- Rattan products are made by weaving durable resin weave onto a lightweight aluminium frame.
- To clean your rattan furniture use warm soapy water and a clean cloth and rinse with lukewarm water.
- Do not place hot dishes directly onto the glass table top and ensure spillages are cleaned away quickly with a clean damp cloth.
- Do not jet spray the furniture as this can damage the weave

GLASS - UK & EUROPE

- Unfortunately glass is not covered by our warranty.
- The glass that accompanies our tables is toughened safety glass. It is either 5mm or 8mm thick with chamfered or rounded edges. This glass is similar to the glass that is used in cars or house windows. This glass will only shatter or crack if impacted by a heavy object or if the parasol is left in the table and the wind takes the parasol which may cause damage to the glass.
- Our glass does not shatter or crack due to the heat.

CAST ALUMINIUM AND ALUMINIUM - UK & EUROPE

- Cast Aluminium furniture requires very little maintenance however your furniture will benefit from occasional cleaning with warm soapy water, a clean cloth and then rinse with lukewarm water.
- Do not place hot dishes directly onto table tops and ensure spillages are cleaned away quickly with a clean damp cloth.
- Do not jet spray your furniture as this can cause damage.

SPRAYSTONE TABLES • UK & EUROPE

- Spraystone tabletops have a topcoat made of plastic, not stone. The coating is hard and extremely durable.
- To maintain remove sand or dirt with a soft brush to avoid scratching.
- Clean table with lukewarm water and a mild detergent then rinse with lukewarm water to prevent any potential stains from the cleaning agent.
- To prolong the life of your table the following should be avoided as they can cause permanent damage to the table.
- Do not cover the table with a plastic cover, this can cause permanent stains and mould.
- Do not use aggressive cleaning products as this may cause irremovable stains and damage the surface.
- Do not place objects on the table for long periods of time.
- Do not use plastic placemats on the table.
- Do not pile the table with disproportionate weight.
- Do not place hot plates or candles on the table as these can cause permanent stains.
- Clean up spilled drinks as quickly as possible with a damp cloth before they are absorbed by the stone.
- Remove any grease as quickly as possible with warm water and mild detergent. Rinse with lukewarm water to prevent staining.

PARASOLS - UK & EUROPE

- Parasols should only be used as a sunshade and not as an umbrella
- Our parasols are showerproof and not waterproof
- Parasols will fade in the sunshine, the chemicals that make up the colours within the polyester fabric are broken down by ultraviolet light that is present in the sunshine, and this is a natural process and is not covered by the guarantee or warranty. We do try to counteract this process by putting a UV resistant additive in to the fabric however this only protects the fabric for a certain amount of time.
- Always use a suitable weighted base with a parasol
- Do not leave parasol up or unattended when not in use or if there is the slightest chance of wind, failure to do so will cause damage to your furniture.

PERGOLAS - UK & EUROPE

- Pergolas should only be used as a sunshade
- The lining on all pergolas are waterproof however we do not recommend using them as a shelter from the rain they are by design a shading product only
- Pergola canopies will fade in the sunshine, the chemicals that make up the colours within the polyester fabric are broken down by ultraviolet light that is present in the sunshine, this is a natural process and is not covered by the guarantee or warranty. We do try to counteract this process by putting a UV resistant additive in to the fabric however this only protects the fabric for a certain amount of time.
- Make sure all pergolas are fixed firmly to the ground or have a suitable weighted base to hold them in place. If not secured or weighted down they will move position if there is the slightest chance of wind.
- Please be aware that Pergolas/Pavilions are not permanent structures and we recommend removing the canopy between October and March. These are the months when the weather will cause damage to the fabric.

ROPE – UK & EUROPE

- Rope is made of thermoplastic polypropylene fibres and has been developed to meet all standard requirements for outdoor furniture. The rope is UV resistant, colour fast and water and mould resistant. It is also resistant to temperature variations from -40 to +80 degrees Celsius.
- We recommend that outdoor rope products are cleaned using a fabric and upholstery protector, following the instructions detailed on the label. Do not abrade the rope with excessive scrubbing or by using a hard brush. Please use a soft cloth and allow to air-dry. Never use a high-pressure hose on rope.

ACCESSORY ITEMS

Fire Pits & Heaters

All instructions used for a fire pit must be adhered to, all safety measures must be followed. Remember to ensure children are not left alone near any fire pit or heating product. It is best to cover the item when not in use.
