plug for drainage

National Product Catalogue

We are pleased to present our National Product Catalogue 21-22. This year we have a comprehensive range of new products for both the grower and retail sectors. Highlights include our new tin palm planters, zen cement buddhas, natural wicker baskets and ornamental garden decor.

If you are looking to be part of the growing indoor plant sector look no further than our beautifully designed ranges of indoor pots and planters. Our indoor range offers innovative designs at excellent price points.

This year we are encouraging customers to order early to avoid disappointment. Whilst our aim has always been to maintain good stock levels, the current climate has meant this has proven difficult.

We offer a bespoke design and sourcing service working with yourselves to develop exclusive products based on your requirements. To see the full range of stocked lines, new ideas and concepts please make an appointment to visit our showroom.

With a myriad of decorative planters and garden decor across all price points to choose from, we know your customers will keep coming back for more.

Mark l'Anson and Kieran Daly

Fargro believes in responsible sourcing of all its products. Fargro are members of Sedex and have completed a full ethical trading audit. All prices quoted in this catalogue are correct at the time of going to print.

All prices quoted exclude V.A.T. and delivery. Prices may be subject to alterations due to changes in raw material costs, freight rate and exchange rate fluctuations. All prices are subject to a minimum order value. Distributors reserve the right to amend prices accordingly if minimum order values are not reached.

Please visit our website at www.fargro.co.uk for any price changes. Whilst we do our best to provide accurate information regarding measurements and colour descriptions, there may be variation for some of these products due to the manufacturing processes involved. All pack sizes stated are correct at time of going to print although on occasions these may change during the year.

Boskke Sky Planter Recycled

The Sky Planter is an award-winning design enabling you to maximise space by hanging plants upside-down from the ceiling.

Using 100% recycled plastic, the Slo-Flo non-drip irrigation system provides the plant with water for up to two weeks at a time feeding directly to the plant's roots thus limiting evaporation.

The Sky Planter holds a variety of different plants and is height adjustable. Each pack contains kit for hanging and instruction booklet.

EVERY PACK CONTAINS

- Sky Planter ceiling hook and plastic anchor plug
- 30cm and 70cm extension wires
- Plastic mesh
- Instruction booklet

Sky Planter Recycled

How it works

CEILING HOOK

For secure installation into solid ceilings.
Height-adjustable hanging system included.

RESERVOIR

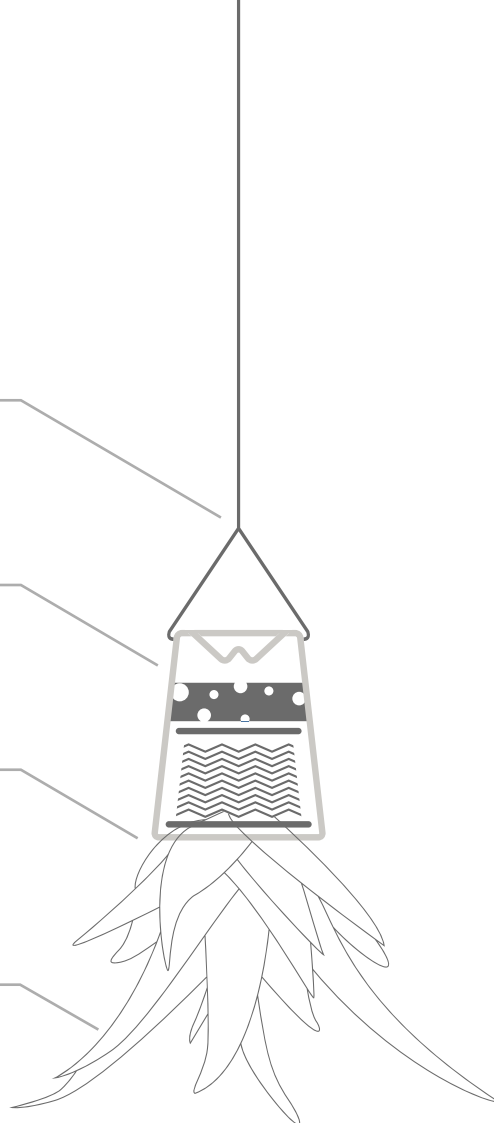

The Slo-Flo internal irrigation system is easily refillable and releases water into the soil.

LOCKING DISC

Locks the plant and soil in place allowing you to suspend your Sky Planter indoors. A perforated mesh covers any exposed soil.

PLANT

Grows a wide variety of indoor plants using standard potting soil.

LESS WATERING

The Sky Planter's Slo-Flo irrigation system feeds water gradually to the plant's roots. Because there is no excess water to drain away they can be used indoors.

SAVE SPACE

Look up in any home or office and the least used space will be the ceiling. What better place to grow an indoor garden without interrupting your day-to-day living.

Slo:floSystem

Boskke Till Planter Recycled

The Till Planter enables you to cultivate kitchen herbs and houseplants using Slo-Flo irrigation technology. The reservoir system is easily refillable and allows the plant to draw water slowly up into the soil, only requiring watering once every couple of weeks.

FLOW POT

GO WITH THE FLOW

A system that works

Flow Pot is a global initiative that uses innovative, environmentally friendly plastic derived from ocean bound and post-consumer waste.

Flow Plastic is ethically-sourced using various suppliers that collect, sort, and sanitise discarded plastic so that it may be given a second life in the form of these beautiful pots.

Through careful deliberation and rigorous quality control, we've created a balanced mixture that ensures the familiar quality and consistency associated with CTi.

Rotational Moulded Pots

The special manufacturing and finishing process involved in this technique generates "unique pieces" since it provides the pot with different colours and shades.

- Resistant to breakage
- Impermeable to frost damage

Rotational moulded pots are a non stocked item so lead times may vary.

Jumbo Collection

Street furniture. Smooth pot with reinforced bottom.

Empot

Pot Handling Systems

The extensive range of pot carriers for round and square pots:

- Eliminates the tedium of large container movement
- A proven investment ensuring greater productivity
- Help keep plants upright under adverse weather and ground conditions
- Injection moulded in black polypropylene, lightweight, robust and durable
- Designed to allow pots to stand directly on the ground or matting
- Stacks compactly when not in use
- All trays hold round or square pots

Telescopic Adjustable Card Holders

Adjusts in 4" (10 cm) stages from 24" (60 cm) to about 36" (90 cm) by extending or retracting the inner stem. Eight buttons hold the card securely. The stem of the card holder fits into a 10" (25 cm) square base which is very sturdy and stable. It can be screwed down or plants can be placed on the base for support in windy situations. Flat or angled heads are available made from a highly UV resistant black durable plastic, now with easier adjusting stages.

With a choice of a flat double sided head, so that two cards can be held, or a single sided angled head. Eight buttons hold down the card securely. It can be screwed down or pots can be placed on its 6" (15 cm) square base. It is made from a very strong black UV resistant plastic.

Horti Wrap Machine

The Horti-Wrap™ Machine employs a simple concept to wrap Danish trolleys with most kinds of film. Trolleys are pushed onto the turntable and as this is manually rotated, the film is wound around the trolley as it moves up the 2m mast, wrapping the trolley from the base to the top.

Movement is controlled by foot pressure on the base plate. Using large machine size rolls of film reduces costs compared to hand wrapping.

Blocking Discs

With our blocking discs, you easily secure your Danish trolleys, auction carts or CC containers. Once you put a caster in the hole of a disc, the cart will no longer move/roll, which makes applying wrapping film to the cart an easy task.

The blocking discs can easily be transported or placed thanks to their simple design. The bottom is equipped with anti-slip, and the extra steel rings prevent them from sagging.

**BLOCKING DISCS FOR DANISH
TROLLEYS OR CC CONTAINERS**

Wippon Transporters

A simple yet effective way of moving Danish trolleys around the nursery or garden centre.

The wippon car is located under the trolley to enable the pneumatic wheels to support the trolley and move over uneven ground. The trolley can be locked onto the wippon car during movement.

Wheels: 100mm wide x 400mm diameter.

WIPPON CAR DANISH TROLLEY MOVER

F/CODE	DESC	£ EACH
WWT	Wippon Wagon Transporters	212.19

The H-400 is an electric powered tug that is used for pulling heavy loads, such as transportation trolleys and Danish trolleys filled with shelves. Thanks to its compact size, it is easy to manoeuvre.

A new digital controller puts the braking energy back into the battery again. The H400 can be used for 24 hours after one battery charge.

Together with the correct couplings the H400 Tug can pull a train of Danish Trolleys with ease.

- Supplied with AGM battery and charger
(Longer life lithium batter available on request)
- Length 90cm x Width 51cm x Height 104cm
- Towing capacity 640kg

ELECTRIC POWERED TUG H-400

F/CODE	REF	£
HTH400	1024-1000	3344.2

The 4x4 version of the wippon car has 4 wheels and a handle. This makes creating a train of wippon cars possible which can be pulled with an electric vehicle.

This makes the 4x4 wippon car perfect for the transportation of Danish trolleys and CC containers over soft surfaces such as ground covers or tiny gravel.

Horti-Grow 4 Layer Growing System

The Horti-Grow DC is a vertical growing system based on a standard Danish trolley so is fully portable. Excellent for the cultivation of micro vegetables, baby leaves, lamb's lettuce and various fruit and vegetables.

Four growing shelves

The Horti-grow is supplied as a complete package containing;

- Trolley with Four Growing shelves.
- 4 sets of pre-fixed LED Lighting.
- 4 Water trays.
- Water tank, pump and all pipes and connectors.
- Full surround trolley jacket that can be removed in sections.
- Extra storage tray and lid on the top of the trolley.

F/CODE	£ EACH
HGTORL	1991.95

Water tank pump

Full surround trolley jacket

LED-Lighting

LED-Lighting Experiments in a controlled environmental chamber show that plants grow better under conditions replicating a clear sunny day than when only exposed to blue and red light. Our LED lights introduce the latest technology in lighting culture. The spectrum is adjusted to provide the same light as a clear sunny day.

Our LED Lights produce little warmth and need no extra cooling. This makes them very energy efficient. The output voltage is 48 volts.

The combination with the IP65 waterproof rating makes the LED Lights 100% safe, even under the most difficult conditions.

Automatic Water System

The Horti-Grow is equipped with a fully automatic water system. The system is based on irrigation whereby the water trays automatically fill with water at the time set by you. After the desired duration, the water trays will automatically empty again.

Various internal trials with sprouts, baby leaves, lamb's lettuce, arugula, strawberries and even tomatoes have proved very successful. The Horti-Grow also allows you to grow herbs entirely according to your wishes.

Trolley & Sack Trucks

Strong, well made trolleys for movement of containers and heavy items safely and securely around the nursery.

Easy to manoeuvre & lightweight.

fitt nts master plus

Thanks to the unique and original FITT NTS double mesh, the FITT NTS MASTER PLUS hose features improved sturdiness and performance.

Hose Pipes

The FITT NTS MASTER PLUS hose also boasts a high degree of malleability, ensuring a constant flow of water without any folds or twists.

- Phthalate-free.
- 6 layer structure conforms to the most rigorous safety standards.
- Resistant to cuts and abrasion.
- Resistant to UV rays.
- Excellent degree of flexibility at low temperatures.
- No folds and twists.
