

Apsley Farms Natural Plant Food

Better for your plants, and the planet too

Our NEW Natural Plant Food formulation is a product of the anaerobic digestion of rye, maize and grass which, in turn, creates green energy.

Main Features

Our Natural Plant Food has been analysed, developed, scientifically tested and trialled by experienced growers. It was found to be a highly effective liquid fertiliser.

Our key USPs include:

- 🌱 Double your fruits and flowers
- 👍 Approved for organic growing by the Soil Association
- 💚 A by-product of green energy production, approaching net-zero
- 😊 Well rounded fertiliser with beneficial microbes
 - 100% recycled bottle and label
 - Made from crops
 - Peat free and waste free

Further benefits include:

- Prolonged blooming
- Improved root development
- Improved soil fungal activity
- Encourages excellent vegetative growth as well as flowering
