

TRADE BROCHURE 2022 - 2023

A modern outdoor lamp with a black pole and a glass-enclosed light fixture, illuminated at dusk. The lamp has a black, dome-shaped top and a black metal frame. The light fixture is made of clear glass and contains a warm-toned LED bulb. The lamp is mounted on a black pole that is planted in a patch of green grass next to a light-colored stone or concrete walkway. In the background, there is a light-colored wall and some dark green foliage.

WELCOME

Founders Brian Davenport, Luke Sanders and David Eaton came together in 2005 to create Solar Centre. They had a shared passion to design & create eco-conscious solar lighting of superior quality.

Solar Centre continually thrives with unprecedented growth and positioning themselves as influential leaders within their market.

SELL WITH CONFIDENCE

One-stop-shop for all garden lighting needs

Diversify your solar lighting range with ease with our wide ranging, inclusive designs with something suitable for every budget.

Each of our products have been thoroughly tested so you can sell to your customers with confidence.

INNOVATIVE DESIGN

Solar lighting that works

Guided by the ethos that good design demands lighting that stands the test of time, we are committed to remain pioneers of the solar lighting industry at the forefront of innovation and technology.

With recent events providing opportunity for customers to spend more and more time outside, we have been working hard behind the scenes to develop our range even further. Our in-house design team strive to curate a collection that represents reliability, simplicity and well-considered design to deliver a product that your customers can trust.

AWARD-WINNING

Our products speak for themselves, having won a number of trade industry awards:

- **GIMA 2021 - GCA Supplier of the year - Finalist**
- **GIMA 2021 - Garden Lighting - Winner** - Kingsbridge Wall Light
- **GIMA 2021 - Garden Lighting - Finalist** - Salcombe Wall Light
- **GIMA 2018 Finalists** - TrueFlame Torch Light
- **GIMA 2017 Finalist** - Lumify Festoon Lights
- **Which? Editors Choice 2021** - Lumify Solar Vintage Festoons
- **Which? Best Buy 2022** - Lumify Solar Vintage Festoons
- **DIY Gold Week Award for Security Lights**
- **Garden Angels**
- **Totally DIY**
- **Best Garden Decoration Product at Glee 2017 - Winner** - Trueflame
- **Best Garden Decoration Product at Glee 2018 - Finalist**
- **T3 - Best Solar Garden Lights 2022** - Atlas Solar Spotlights

Member of:

A string of warm white LED lights is shown against a dark background with green foliage. One light is in sharp focus in the foreground, while the others are blurred in the background, creating a bokeh effect.

KEY FEATURES

powersaving mode

with our innovative three-way switch, choose to reduce brightness and extend the run time by conserving power during darker winter nights

USB chargeable

many of our lights use dual-power technology to provide a trustworthy boost via a USB charging port

unrivalled lumens

we use state-of-the-art LED bulbs, which are brighter and more energy efficient

remote control

choose from a range of colours, lighting modes and brightness levels with ease

smart technology

using the latest advances in smart technology, we have lighting you can control from your phone

polycrystalline panel

these panels can have a life expectancy up to 40+ years; they are highly efficient, compact and powerful

RRP: **£49.99**

Outer Qty: **4**

The image is a composite of two photographs. The top photograph shows a modern interior space with warm, ambient lighting. It features a wooden bench or sofa with a light-colored cushion, and a wall with several small, square, recessed light fixtures. The bottom photograph shows a close-up of two glowing, spherical decorative lights on a light-colored floor. One sphere is significantly larger than the other, and both emit a bright, warm yellow light. The background of the bottom photo shows the wooden frame of the same bench seen in the top photo.
