Our Customer Promise

When we created Crescent Garden in 1999, we were skilled in manufacturing and design, and while enthusiastic about gardening we weren't yet experts. We set about listening, learning, and discovering from industry friends and colleagues what's needed for gardens and gardeners to thrive.

22 years later, the Crescent Garden Company is one of the premier container gardening providers, a pioneer in self-watering solutions, run by people who are professional, passionate and always in their customers' corner.

The Crescent Garden brand is trusted by independent garden centers and nurseries to offer containers and accessories, distinguished by refined design and breakthrough innovation that lasts and lasts, for successful, inspired gardening.

Our pioneering TruDrop system engineers self-watering planters to go up to weeks without watering, for phenomenal results and more confident gardeners. It dramatically transforms the way people care for plants.

And Crescent Too, brings attractive and useful containers and supplies that make gardening easier and more rewarding to more people, at an excellent value.

Crescent Garden believes that planters should work for you, not the other way around, and builds their R&D on design and innovation that pushes the envelope, legendary reliability and durability in whatever season, while understanding what works best for both healthy plants and the people who love them.

With a vision to make gardening more accessible and relevant to everyone, while pushing the industry standards for what's possible, we dedicate ourselves to a simple customer promise:

we help you grow

CRESCENT

Crescent Garden planters are defined for their refined design.

From on-trend, transitional and classics, our planters give designers variety and versality, in a lightweight, durable container that are easy to install and will last.

Versatile self-watering with TruDrop Flex

Everyday planters well-made

When it comes to addressing sustainability, we believe that looking at a company's trajectory over time is important. From early on, we have been committed to developing innovative solutions that work. We want to take you through our history to see our big picture, from our internal processes all the way to how our consumers use and dispose of our product. Together let's consider where we all can make a difference. From small decisions in company policies, to large investments in technology, every day we can improve to lessen our footprint on the environment. Sustainability is nothing new for Crescent Garden, and it begins with being sensible.

Creating a paperless company

From our early beginnings over 20 years ago we envisioned a company that would utilize technology to become paperless. From instating no file cabinet policies, to providing multiple screens to users, and investing in electronic integrations with vendors and customers, we have succeeded in our efforts.

Promoting green spaces in our facilities.

Our manufacturing facility in Colombia stand on a campus that invested heavily in adding trees where there weren't any before and designating green spaces. Our new corporate headquarters that will open in 2022 already has design plans in place that will remove concrete areas to add green spaces that not only will be open to our team members but will also be accessible to the public.

Understanding the lifecycle of our products

The lifecycle of our products is critical to our R and D process. Energy efficient manufacturing, decreased carbon footprint in shipping, better use of limited resources in product use, durability, and considering responsible disposal is consequential and can make a difference.

MANUFACTURING

Responsible manufacturing is always in our fundamentals: efficient, safe, environmentally aware and always considering the impact on our communities.

100% RECYCLABLE

Disposal once a consumer is ready to move on is important. Making sure we don't end the cycle with our product we design our products with materials that are recyclable, and improve designs to make sure mixed materials can be separated easily.

DISTRIBUTION

Our products are lightweight and unbreakable requiring less energy and packaging for transportation.

10 Year
Limited
Warranty

CONSUMER EXPERIENCE

Consumers use less water and fertilizer with our planters.
Unlike clay or terracotta our planters outdoors maintain water for longer, and our TruDrop self-watering planters collect both rainwater, and irrigation water saving gallons over time. Our products are made to last both in durability and design, many supported with a 10 year warranty.

10 Year Warranty

Our 10 Year Warranty against fading, or cracking on our rotationally molded products gives confidence to consumers when purchasing our products.

Water Gardening

Easy to install and maintain, these containers are ideal to tap into the water gardening market. With a broad selection of shapes, depths and sizes, these containers can accommodate a variety of water gardening plants and fish. Some of our planters are also supplied with specialty plugs to use with fountain pumps.

No Drainage Holes

Healthy plants start with proper drainage.

We design most of our planters with elevated pot feet and drainage holes that are adequately sized for each planter. However, there are times when consumers just need a cache pot or drainage can be an issue. In these case you will find the No Drainage Holes icon on the page.

Double Wall

Double Walled construction provides many benefits including superior structural integrity, enhanced appearance and insulating properties for better thermal protection of plant roots.

TruDrop System

Our patented TruDrop self-watering delivers phenomenal results with little effort. See more details on page 18

Can be Personalized

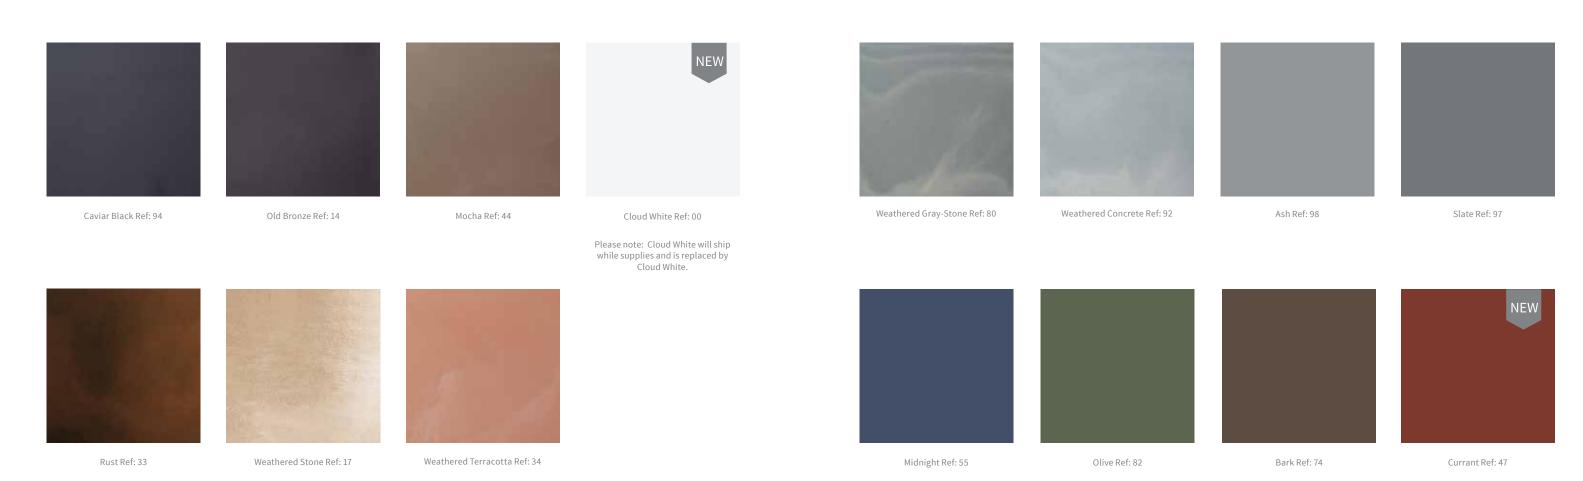

Some of our planters can be branded with a logo, house number or family name. See page 14.

Quick Ship Program and Special Orders

We provide a wide array of in stock items in our Quick Ship program that are readily available all year round. We consider these to be a selection of our best selling colors in each design and style. These can be viewed throughout the catalog in the individual shots provided on each page.

However, all of our Crescent Garden planters can also be customized in any of the colors below. Check with your customer service representative for lead times, pricing and terms on special orders.

Standard Colors:

Can be Personalized

Make your next project unique by customizing the planters.

- Brand with hotel, city, healthcare facility or park name to delineate campuses and create greater awareness.
- Use for residential properties to identify street or house numbers.
- Create a custom family crest or display a family name to give an entrance a special touch.

Available Styles for Personalization

Rim Planter

Let's get started:

Image Requirements:

Vectorized graphic should be provided in any of the following file types: .ai, .eps, .dxf or .pdf. If providing pdf it should be created from a vectorized graphic.

Timeline for Customized Project:

Once images are received, we would provide artwork for approval within 4-5 working days. We would require signature approval on artwork. Once this is returned to us production lead time for Quick Ship items, can be between 4-5 weeks.

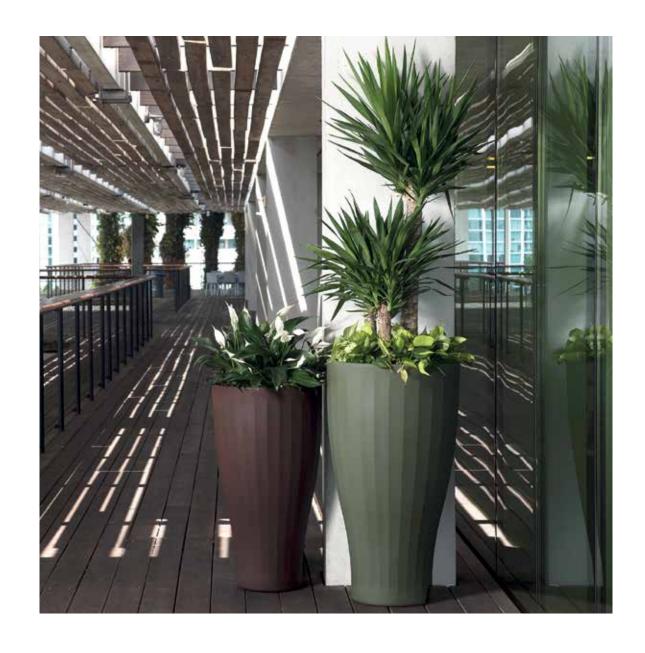

Minimums:

 $Contact \ us \ at \ customers ervice @crescent garden. com, for \ details \ on \ minimums \ and \ pricing \ for \ customized \ projects.$

Weeks without Watering

With our TruDrop self-watering, containers can go without watering for 2-6 weeks depending on plant selection and climate.

Easy

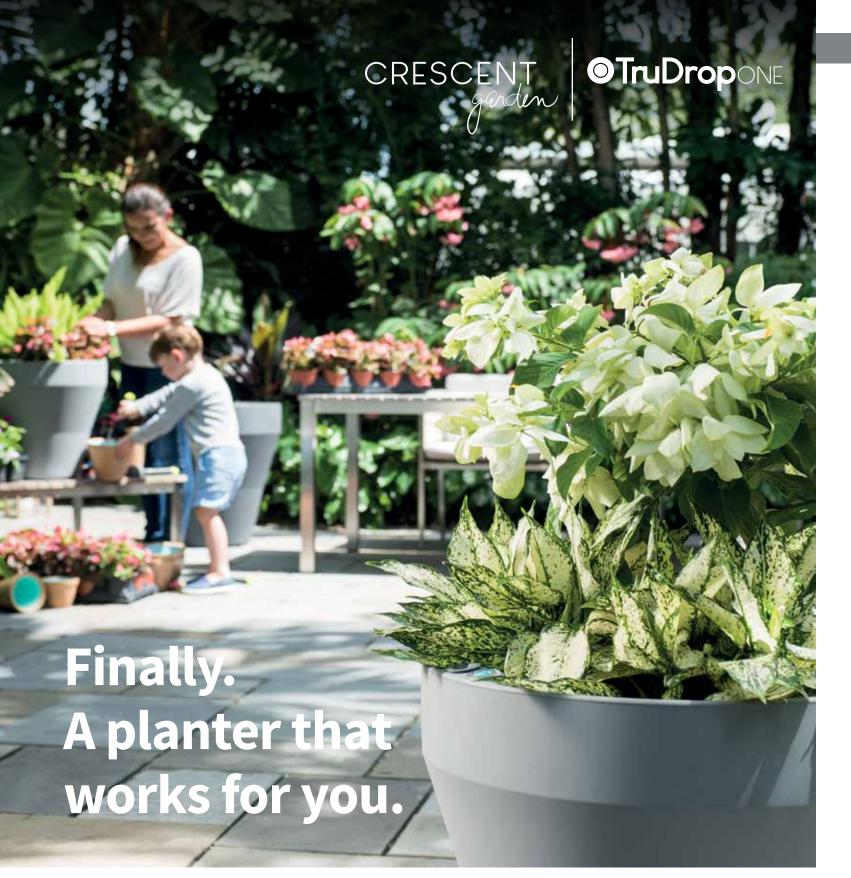

With no rocks or wicks, this single-body planter just needs potting soil and plant making it easy even for first time gardeners.

Safe, Efficient

With 50% less water usage and more efficient use of fertilizers that remain in the water cavity, these planters are environmentally friendly.

Dramatically Successful

In our planters with TruDrop the plants determine how much water they need instead of the consumer which renders phenomenal results.

TruDrop: Grow Healthy Plants with Minimal Watering*

Easy

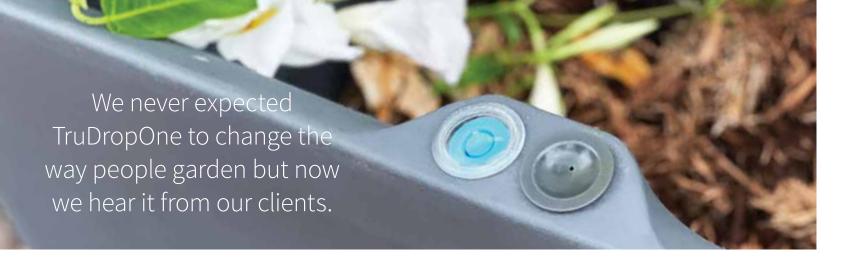

Versatile

"I returned home from **two weeks' vacation...** and was very happy to see that my TruDrop planter did its job while I was away."

Jed Laufferty, West Chester, Pennsylvania, U.S.A

66

I got 26 days out of it... I **saved** that much **time** watering!

Laura LeBoutillier, **Garden Answer,** Oregon, U.S.A

"I think these are the **best** things since sliced bread lol."

66

Jed Susan, Ontario, Canada

66

"They work great for me, as we live at a lake home with 6 outdoor pots and we are gone from our home several times a month for anywhere from a couple days to a week. With your pots, my flowers now make it through the summer without dying from lack of water."

Debbie, Minnesota, U.S.A

"TruDrop's claims that watering is only needed every two to six weeks sounded a little far-fetched, but... (It) works better than I ever imagined."

Heather Rhoades, Gardening Know How

"The pottery is **gorgeous** by the way! We have one very happy customer - can't wait to order more!"

Erin, Landscape Solutions Company, Tennessee, U.S.A

"Where we were once watering every day, we are now able to simply "top off" each planter once a week. The savings in man power have been exponential."

Mark Russel (Director of Horticulture), SeaWorld Parks and Entertainment, Orlando, U.S.A

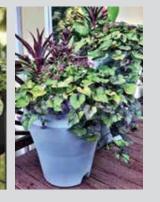

"I absolutely love the Crescent Garden self-watering TruDrop planters. It is the first self-watering planters that I have found that really work. I think this is a perfect solution.... for my clients who are busy with family and travel, and for my commercial clients who rely on building managers to water. It eases the work load for everyone."

Julie Friedman, **Exteriors Container Garden & Landscape Design** Washington D.C., U.S.A

"Together, with my client ... I decided on the Rim Planters for the entrance of their business. Besides the beautiful design we chose them for the self watering feature.

The TruDrop system is fantastic! The plants stayed beautiful all fall long. This has been a game changer for them & for me to have them available for my clients."

> June Spanier, June of All Trades St. Cloud, U.S.A

TruDrop One - Easy Drain System

Make sure to order mess-free drain couplings if you will be emptying water cavity on a delicate surface.

How easy drain works

Display Box (30 Drain Caps and 10 Couplers)

Replace the standard cap on the mouse hole opening at the bottom of the planter with the Easy Drain Screw cap or barbed pull drain cap depending on the planter selected. When you are ready to drain the planter just use the coupler to connect to a standard garden hose. Hose can then be directed to a bucket or a green area away from decks or delicate floors.

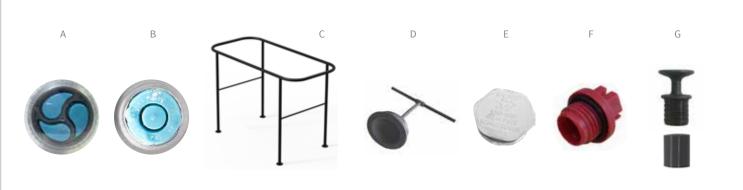

Display Box (30 Drain Caps and 10 Couplers)

10 YEAR WARRANTY PLANTERS

Longevity

Crescent Garden rotationally molded products provide a great value to consumers given their 10 year limited warranty.

Well Designed

Every planter is detailed to deliver durability, better gardening solutions, and versatility in color and style.

Protecting Surfaces

We offer a variety of universal saucers, caddies and other solutions to protect surfaces indoors or outdoors.

100% Recyclable

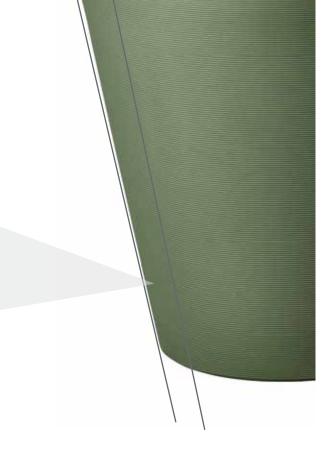

All our products are manufactured with polymer type 🕎 and can be recycled.

What makes our Planters Unique

Double Wall

To protect roots from extreme temperatures, select our double wall planters that have a pocket of air between roots and the external wall.

10 Year Warranty

Our 10 Year Warranty against fading, or cracking will guarantee that you won't have complaints down the road.

Drainage

Healthy plants start with proper drainage. We design ours with elevated pot feet and drainage holes that are adequately sized for each planter.

Lightweight

Our planters will make install a worry free process. We will make sure everything arrives to site intact and you won't need a large crew to get started.

Variety

Every style is available in stock in a curated selection of finishes, offering designers variety. Want to mix it up and use a color we don't have in stock?

Contact us for your special orders.

Bowls

Bowls have so many uses in a garden setting we wanted to make sure to provide you with a solution that works for all of those; our plugs allow you to easily change a bowl from a succulent garden, to a water garden or convert it into a bubbling fountain.

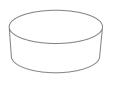

Use regular plug for water gardens.

Use plug with hole for fountains.

Use with no plug for planting.

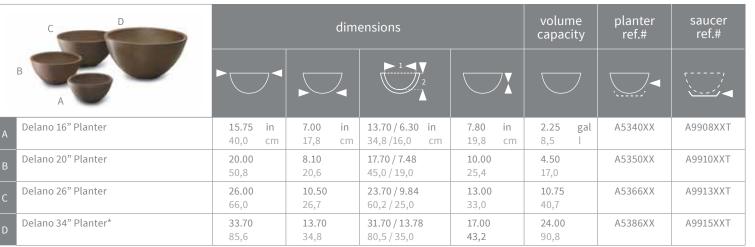

10 Year Limited Warranty

MOBILITY AND DRAINAGE SOLUTIONS

Successful Gardening

We know drainage is essential to healthy plants, but protecting surfaces is also important so we offer a variety of solutions to make it happen.

Innovative Solutions

Maintaning proper drainage is indispensable for the survival of containerized plants. Our accessories present a variety of innovative solutions.

Movable Planters

Once potted large planters can be heavy. Add mobility to some of our planters with our casters, to clean and transform spaces easily.

In-Store displays

These accessories are easy to merchandise with our ready to go display racks. We offer a variety of display options always considering smaller footprints and great visual appeal.

Caddies can easily support 200 pounds.

MARKETING AIDS

Great Visual Aids

We want to provide you with the tools to communicate our product attributes better. When a sales attendant is not close to your customer our banners and product platforms help communicate our product warranty, and inspire your customers.

Creating a Home for Crescent Garden Products

Through advertising in magazines, product releases and web campaigns we promote the Crescent brands. We want the customer to make the connection inside your store.

Digital Marketing

In a digital age we realize it is important for us to provide you not only with in store visual aids but also digital content. We want you to take advantage of all our brand awareness marketing.

Premier Garden Center Program

Our Premier Garden Center program gets you started with free point of purchase aids, specialized Lunch and Learn opportunities for your employees and much more. Ask your sales representative for more information on how to become a premier dealer.

In Store Videos

Request copies of our video content to run in your video displays in store. From TruDrop videos to our 360 degree sprayers we are continuously adding to our library. Make sure we provide you with the latest content.

Social Media Sharing

12 months a year we are working at promoting Crescent Garden brand awareness on our social media channel. Be sure to follow us so you can see the latest content, and share with your consumers when it is relevant to your own marketing efforts.

Event Promotions

Use our consumer network. If you have an event in your garden center related to container gardening or Crescent Garden products, be sure to let us know. We would love to share news on our social media.

Be a part of our Content

Would like to be a greater part of our content. Be sure to tag us when posting pictures with our products. Reach out to us to participate in Crescent Garden events. We invite experts like yourselves all the time into our channel.
