Cordless Range

Zero Cables, Zero Emissions.

Give yourself the freedom away from cables & the hassle of petrol machines with the cordless range from Webb.

There are two different voltages in the Webb range, the lightweight 20V range & the more powerful 40V range for our Rear Rollers.

The light but powerful Webb 20V cordless range of garden tools offers customers convenience and flexibility. Each tool in the range comes complete with a battery charger that features a fast-charging 1.5Ah slot, so a battery only takes 80 minutes to charge (2Ah only).

The Lithium-ion batteries hold their charge and don't degrade in storage, which is an important consideration for choosing garden tools, which may not be used on a daily basis. However, if you do find yourself with an uncharged battery and don't want to wait, you can easily swap it with the battery of any other Webb 20V products in the range as they have been designed to use the same, easily interchangeable battery.

Lightweight and compact, all products in the range can be easily stored in a garage or a garden shed while taking up minimum room when not in use.

With no emissions and lower running and maintenance costs than petrol equivalents and no power cables to contend with, the new Webb Cordless range provides total convenience and ease of use.

The 40V range features two Rear Roller mowers. The roller mower is ideal for a more formal garden, as you'll be left with a traditional British lawn stripe; and, thanks to a 43cm cut, it will cover a small to medium sized area in quick time.

Moving over to a cordless Lawnmower also means you can be freed from not only the cable, when using an electric mower, or the majority of the annual maintenance associated with a petrol engine.

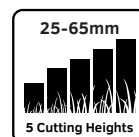

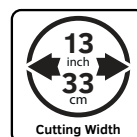

33cm (13") Cordless 20v Rotary Lawnmower with 4Ah Battery & 1.5Ah Charger WEV20LM33

Powered by the 20V 4Ah battery, the Webb WEV20LM33 makes light work of a small to medium. With integrated grass fins for up to the edge mowing and central height adjustment for a quality finish and ease of use.

43cm (17") Cordless Rear Roller Rotary Lawnmower with 40V Battery & Charger WERR17LIP

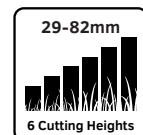

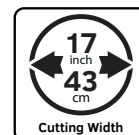

This advanced 40v Lithium-Ion-powered roller-mower from will prove a great buy if you've had enough of your noisy, dirty and maintenance-heavy petrol-driven mower! It's capable of bagging, rear-discharging and mulching, so it's highly versatile for a roller-mower; and it comes with a hugely roomy 60-litre grass-collector that delivers a substantial cut in downtime. The Webb WERR17LIP runs for around 35 minutes on one charge and is based around a light robust ABS deck.

Supplied with

Battery & Charger

Sanli 40V 4Ah Battery
Mower cutting standard = Up to 35mins with One 4Ah Battery

43cm (17") Self Propelled Cordless Rear Roller Rotary Lawnmower with 2 x 40V Batteries & Charger WERR17LISPX2

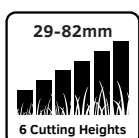

The WERR17LISPX2 is a self-propelled cordless rear roller lawnmower that will prove a great buy if you're after lawn stripes without the effort! It's capable of bagging, rear-discharging and mulching, so it's highly versatile for a roller-mower; and it comes with a spacious 60-litre grass-collector that delivers a substantial cut in downtime. The Webb WERR17LISPX2 runs for up to 20 minutes on with one battery and is based around a light robust ABS deck.

Supplied with

2 x Batteries & Charger

Sanli 40V 4Ah Battery
Mower cutting standard = Up to 20mins with One 4Ah Battery

Cylinder Mowers

For the traditional cut

Webb hand-push cylinder mowers are a perfect addition to your garden - you'll enjoy tool-less height adjustment, roomy front-mounted collection-bags and a stripe-producing rear rollers. These mowers have been equipped to give an expert finish with minimal maintenance-requirements compared to a petrol-powered mower.

46cm (18") 'Contact Free' Sidewheel Lawnmower WEH18

With no cable to hold you back, no noisy engine to disturb your neighbours and a widest-in-class 46cm cut, this traditional hand-push cylinder-mower from Webb is the ideal choice for those maintaining a large lawn in a built-up residential area. Its contactless blade design reduces wear for stay-sharp durability; while its rear-roller will furnish your lawn with an attractive striped finish. The Webb WEH18 comes with a roomy grass-collector and weighs a mere 21kg.

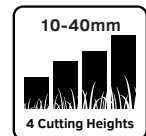

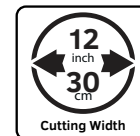

30cm (12") 'Autoset' Sidewheel Lawnmower WEH30

From top British brand Webb, the WEH30 Side-Wheel Hand-Mower combines an ultra-compact 30cm cut with a straightforward hand-push design to make it a great choice if you're looking after a small lawn in a noise-sensitive area. It comes with a front-mounted catcher, so you won't have to rake-up clippings; and it offers four preset cutting-heights for the creation of a 'just so' finish. Weighs just 9.1kg.

30cm (12") 6 Bladed Cutting Cylinder

30cm (12") Roller Hand Lawnmower WEH12R

Boasting a precision-machined five-blade cylinder and a large rear-roller, this design-classic from long-established British brand Webb will produce a super-neat striped finish that will be the envy of your neighbours! Durability-features include a chain-drive and a steel/alloy deck; convenience-features include tool-free cylinder-adjustment and an 18-litre grassbag. The Webb WEH12R weighs-in at only 11.1kg.

Large rear roller for stripes

Electric Mowers

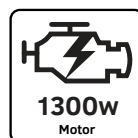

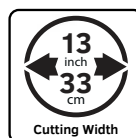

Convenient and simple mowers

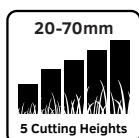

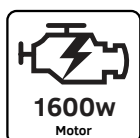

Classic 33cm (13") Electric Rotary Lawnmower WEER33

Compact and easy to manoeuvre, the UK-designed Webb WEER33 'Classic' is worth serious consideration if you're maintaining a smaller lawn. Quality features include a 10-metre mains-lead for excellent freedom of movement; a poly deck that makes it easy to keep clean; and a folding handle for space-saving storage. This 33cm model weighs just 8.8kg.

Classic 36cm (14") Electric Rotary Lawnmower WEER36

If you're maintaining a small/medium-sized lawn in a built-up residential area, the compact, quiet-running and easily manoeuvrable Webb WEER36 'Classic' Electric Rotary-Mower could well be the machine you're looking for. Quality features include a poly deck for weight-reduction and impact-resistance; and collapsible handlebar to save on storage space; and a 10-metre power-cord for extension-free mowing. This model weighs only 11.5kg and has a 36cm cut.

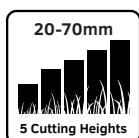

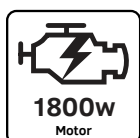

Classic 40cm (16") Electric Rotary Lawnmower WEER40

Enjoy the powerful performance provided by a hefty 1800w electric motor and cover a mid-sized lawn in quick-time with this top-of-the-range 40cm mains rotary-mower from Webb's superior 'Classic' line! Durability-features include a robust poly cutter-deck and a cable-pull protector; convenience-features include single-lever cutting-height selection and a 'bag full' indicator. The Webb WEER40 comes with a 50-litre catcher and a 10-metre power-lead.

Single Lever Height Adjustment

Classic Mowers

Quality and Value Range

Webb Classic mowers have been designed and built with quality and value in mind. Featuring durable steel cutter-decks, large mesh collection-bags and sharp, clean-cutting metal blades, these machines are great if you're just starting-out with a garden.

Steel Deck

Our 'Classic'-range petrol lawnmowers are based around steel decks these are lightweight and resistant to impact damage and corrosion.

Webb Engines

Webb overhead valve engines power all of the lawnmowers in this range. These four stroke air cooled motors have many benefits compared to older 'flathead' types, including improved emissions-performance and reduced oil consumption.

Metal Blades

Metal blades are generally sharper than plastic ones, which means cleaner, neater and more precise results with less stress on the grass. They can also be easily sharpened for increased blade life.

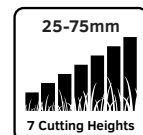

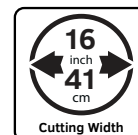

Classic 41cm (16") Petrol Rotary Lawnmower WER410HP

Combining a compact 41cm cut with a low-weight build (25kg) and hand-propulsion, the British-designed Webb WER410HP 'Classic' will prove a great buy if you're maintaining a smaller lawn where manoeuvrability is key. Attractive features include a steel cutter-deck for rugged robustness; single-lever height-of-cut adjustment for ease of use; and fold-down handlebars for convenient storage. Power comes from a Webb DVO130 132cc Engine.

Powered By

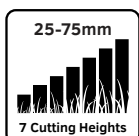

Classic 41cm (16") Self Propelled Petrol Rotary Lawnmower WER410SP

Offering effort-saving self-propulsion and boasting a compact 41cm working-width, this classic petrol rotary-mower from trusted British brand Webb will come into its own on smaller lawns with slopes and/or rough-grass areas to negotiate. Quality features include simple single-point cutting-height adjustment; a space-saving foldable handlebar; and a powerful but fuel-efficient Webb DVO130 132cc Engine. The Webb WER410SP is built around a robust steel deck, but nevertheless weighs-in at just 26kg.

Powered By

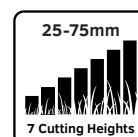

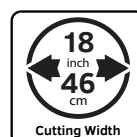

Classic 46cm (18") Self Propelled Petrol Rotary Lawnmower *WER460SP*

With its sizeable 46cm cut, large 55-litre-capacity grassbag and self-propelled drive, the UK-designed Webb 'Classic' WER460SP will get you around a more substantial lawn quickly and with minimal effort expended. It boasts a seven-stage height-of-cut range, and four cutting methods so you'll be able to achieve your desired finish; and it features a beefy Webb DVO140 141cc engine that's characterised by its low-emission performance and superior fuel-economy. This steel-decked model weighs just 34kg.

Powered By

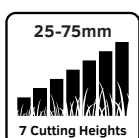

Classic 51 cm (20") Self Propelled Petrol Rotary Lawnmower *WER510SP*

A wide 51cm cut works with power-driven rear-wheels to make the British-designed Webb WER510SP 'Classic' a great choice for gardeners looking to quickly cover a large area with minimal effort expended! It is superbly well-equipped, featuring as it does four-in-one mowing; a large-displacement Webb DVO173 173cc Engine; a downtime-cutting 65-litre grassbag; and large, manoeuvrability-enhancing drive-wheels. The following cutting-options are provided: bagging; mulching; side/rear-discharge.

Powered By

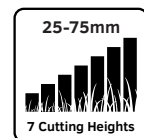

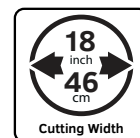

Classic 46cm (18") Self Propelled Electric Start Petrol Rotary Lawnmower *WER460ES*

Get mowing the hassle-free way and cover a medium/large lawn quickly and efficiently with this 46cm electric-start model from Webb's 'Classic' line of high-quality but affordable petrol rotary-mowers! You'll enjoy powerful performance from a Webb DVO173 173cc Engine; low-effort operation, thanks to rear-wheel self-propulsion; and excellent versatility through Webb's provision of four cutting-modes. The WER460ES is a steel-decked machine and comes with a 55-litre catcher.

Powered By

Supreme Mowers

Supreme in it's standards

Webb Supreme mowers are a great addition to your garden-machinery collection! With industry leading Briggs & Stratton engines, quick-release folding handles and large bagging capacities across the entire range, these machines are a powerful, convenient and fast way to manage your lawn.

Steel Deck

Our 'Supreme' range petrol lawnmowers are based around steel decks, these are lightweight and resistant to impact damage and corrosion.

Briggs & Stratton Engines

Powered by engines from the world's largest producer of air cooled petrol motors for outdoor power equipment. You know you'll be able to rely on the engine for years to come; that's why 9 out of 10 leading lawnmower brands count on Briggs & Stratton to power more of their products than any other manufacturer.

Wash Port

A simple and effective way to clean the underside of your cutter deck after use. All that's required is to hook up a hosepipe, turn on the tap, run the engine briefly, and the job's done!

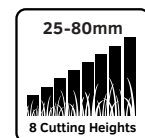

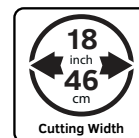

Supreme 46cm (18") Petrol Rotary Lawnmower WER18HP4

Solidly built, flexible in use and simple to operate, the British-designed Webb 'Supreme' will impress gardeners looking for a classic petrol rotary mower at a price that won't break the bank! With many of the features you would want in a four wheeled lawnmower, such as a powerful Briggs & Stratton engine, Steel Deck & rear collection & discharge capabilities, this will be a reliable and helpful machine for tackling your garden lawn.

Powered By

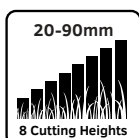

Supreme 46cm (18") Self Propelled Petrol Rotary Lawnmower WER18HW4

Offering best-in-class features, at a supremely affordable price, this superbly well-equipped petrol rotary-mower from long-established British brand Webb is worth serious consideration if you're looking to get that bit of extra quality for your money. With an option to either side-discharge, collection or mulching the grass this steel-decked, Briggs & Stratton powered 46cm lawnmower can easily tackle any job your garden lawn presents.

Powered By

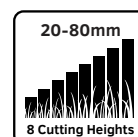

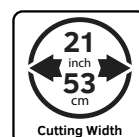

Supreme 53cm (21") Self Propelled High Wheel Petrol Rotary Lawnmower WER21HW4

The WER21HW4 is the largest lawnmower in the 'Supreme' range, 4-in-1 capability and a Briggs & Stratton 725EXI engine. This Steel decked mower gives you the choice of rear collection, mulching the grass, rear or side discharging, giving you options when tackling your lawn. This combined with the 53cm cutting width, it can quickly and simply deal with your lawn.

Powered By

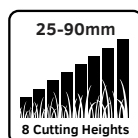

Supreme 48cm (19") Alloy Deck Disc Bladed Self Propelled Petrol Rotary Lawnmower WER19ALSP

The WER19ALSP is the flagship 19" mower from the Webb range, packed full of premium features and exceptional build quality. Featuring a powerful Briggs & Stratton 150cc engine, and an exceptionally strong and durable aluminium cutter deck with 3 in 1 functions for collecting, rear discharge or mulching. Other quality features include an 8 stage single lever height of cut, simply move the lever to the desired cutting height and the machine raises or lowers itself with one hand. Cutting and collecting performance is exceptional thanks to a large blade disc with 4 swing tip blades, ensuring no damage if an object is hit, as well as filling the large 60L collector to the brim

Powered By

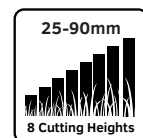

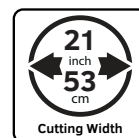

Supreme 53cm (21") Alloy Deck Self Propelled Petrol Rotary Lawnmower WER21ALSP

The WER21ALSP is the flagship of the Webb lawnmower range, packed full of premium features and exceptional build quality. Featuring a powerful Briggs & Stratton 163cc engine, and an exceptionally strong and durable aluminium cutter deck with 4 in 1 functions for collecting, rear or side discharge, and mulching. Other quality features include an 8 stage single lever height of cut, simply move the lever to the desired cutting height and the machine raises or lowers itself with one hand. Cutting and collecting performance is exceptional thanks to a large blade disc with 4 swing tip blades, ensuring no damage if an object is hit, as well as filling the large 70L collector to the brim.

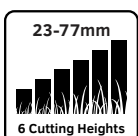

Powered By

Supreme 43cm (17") Self Propelled Petrol Rear Roller Rotary Lawnmower WERR17SP

Equipped with a rear-mounted roller and constructed around a hard wearing ABS cutter-deck, this superbly well-engineered machine from leading UK brand Webb will appeal to gardeners who appreciate a classic striped finish and rugged build-quality. It employs top-end Briggs & Stratton power, so you can be sure of superior performance and unwavering reliability; and it's able to either mulch, rear-discharge or collect, so it's ideally placed to handle typically variable British conditions. The self-propelled Webb WERR17SP 'Supreme' has a 43cm width-of-cut and is supplied with a 60-litre catcher; a combination that makes it suitable for medium- to large-scale domestic use.

Powered By

Ride-On Mowers

For the larger gardens

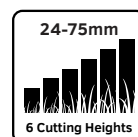

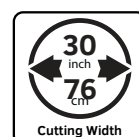

76cm (30") Ride-On Lawnmower with Collector WE12530

One of the most compact ride-ons in production, the 76cm Webb WE12530 is the ideal machine for gardeners looking to make their first step-up from a larger walk-behind mower! It offers three-in-one mowing and features a multi-speed manual transmission, so it will prove highly adaptable; and it boasts a tight 60cm turning-radius that works with its compact dimensions to optimise manoeuvrability. A 176-litre catcher means lengthy runs between emptying-breaks; while Webb's employment of premium Briggs & Stratton power guarantees superior performance and reliability.

Powered By

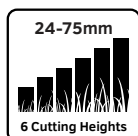

10" front wheels and
15" rear wheels

76cm (30") Ride-On Lawnmower with Collector & Hydrostatic Drive WE12530HYDRO

Webb brings you a true ride-on mower with the flexibility of a rotary mower, the performance of a Briggs & Stratton 344cc PowerBuilt™ engine and a 76cm cutting deck, making this mower ideal for the larger garden. Our ride-on comes with all of the quality features that you would expect from any Webb mower including 10" front and 15" rear wheels, electric start, a hydrostatic transmission and a fully enclosed engine for quieter operation.

Tillers

A great tool for your grow-your-own project

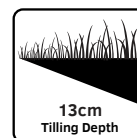

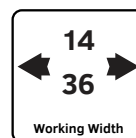

36cm (14'') Petrol Tiller WEPT360MM

With it's excellent 36cm (14'') working-width and a powerful 161cc OHV engine, this high-performance tiller from Webb will help deliver excellent preparation for your vegetable garden. It has an adjustable depth-skid, is fitted with a fixed handlebar and a transport wheel that makes it easy to both store and manoeuvre.

Powered By

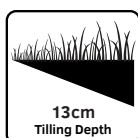

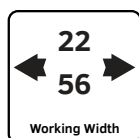

56cm (22'') Petrol Tiller WEPT560MM

Fitted with a very high-performance 161cc OHV engine and boasting a generous 56cm working-width, the Webb WEPT560MM will take compacted virgin-ground in its stride and offers superior large-area productivity. It can operate down to 13cm, so it's ideal for applications where aggressive cultivation is required; and it comes equipped with crop-protection discs for confidence when tackling tight inter-row tasks. This model weighs 34kg.

Powered By

Hand Held Machines

Power in your hands

Looking after your garden is about more than just mowing your lawn, so we've developed a range of hand-held machines that will assist you in tackling all those other jobs; from hedgetrimming and leaf clearance, through to edge tidying and brushcutting.

With a choice between electric, petrol or cordless power, you can be confident you'll find the perfect work partner for your particular garden; and whichever machine you choose, it will enable you to spend a whole lot more time enjoying your outdoor space.

Classic 23cm (9") Linetrimmer WEELT250

With its handy bump-feed head, lengthy 10-metre power-cord and ultra-lightweight build, the UK-designed Webb WEELT250 Electric Grass-Trimmer is a practical and convenient way to keep your garden shipshape! It's powered by a 250w motor and weighs just 1.3kg.

This scarifier cassette means you can deal with the thatch, surface debris & dead moss whilst you are using the walk behind vacuum.

Shredders

For the tidying up

Supplied with Plunger

Electric Silent Shredder with Box WEISS

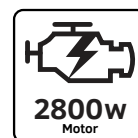

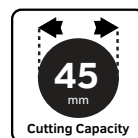

Offering range-topping power from a 2800w motor and boasting a large 45mm cutting-capacity, this high-performance mains-electric shredder will take the pain out of reducing piles of garden waste by 10:1. This quiet drum style shredder is a joy to use and substantially quieter than normal impact style shredders

10 Metre Power Cable

Quiet gear crushing action

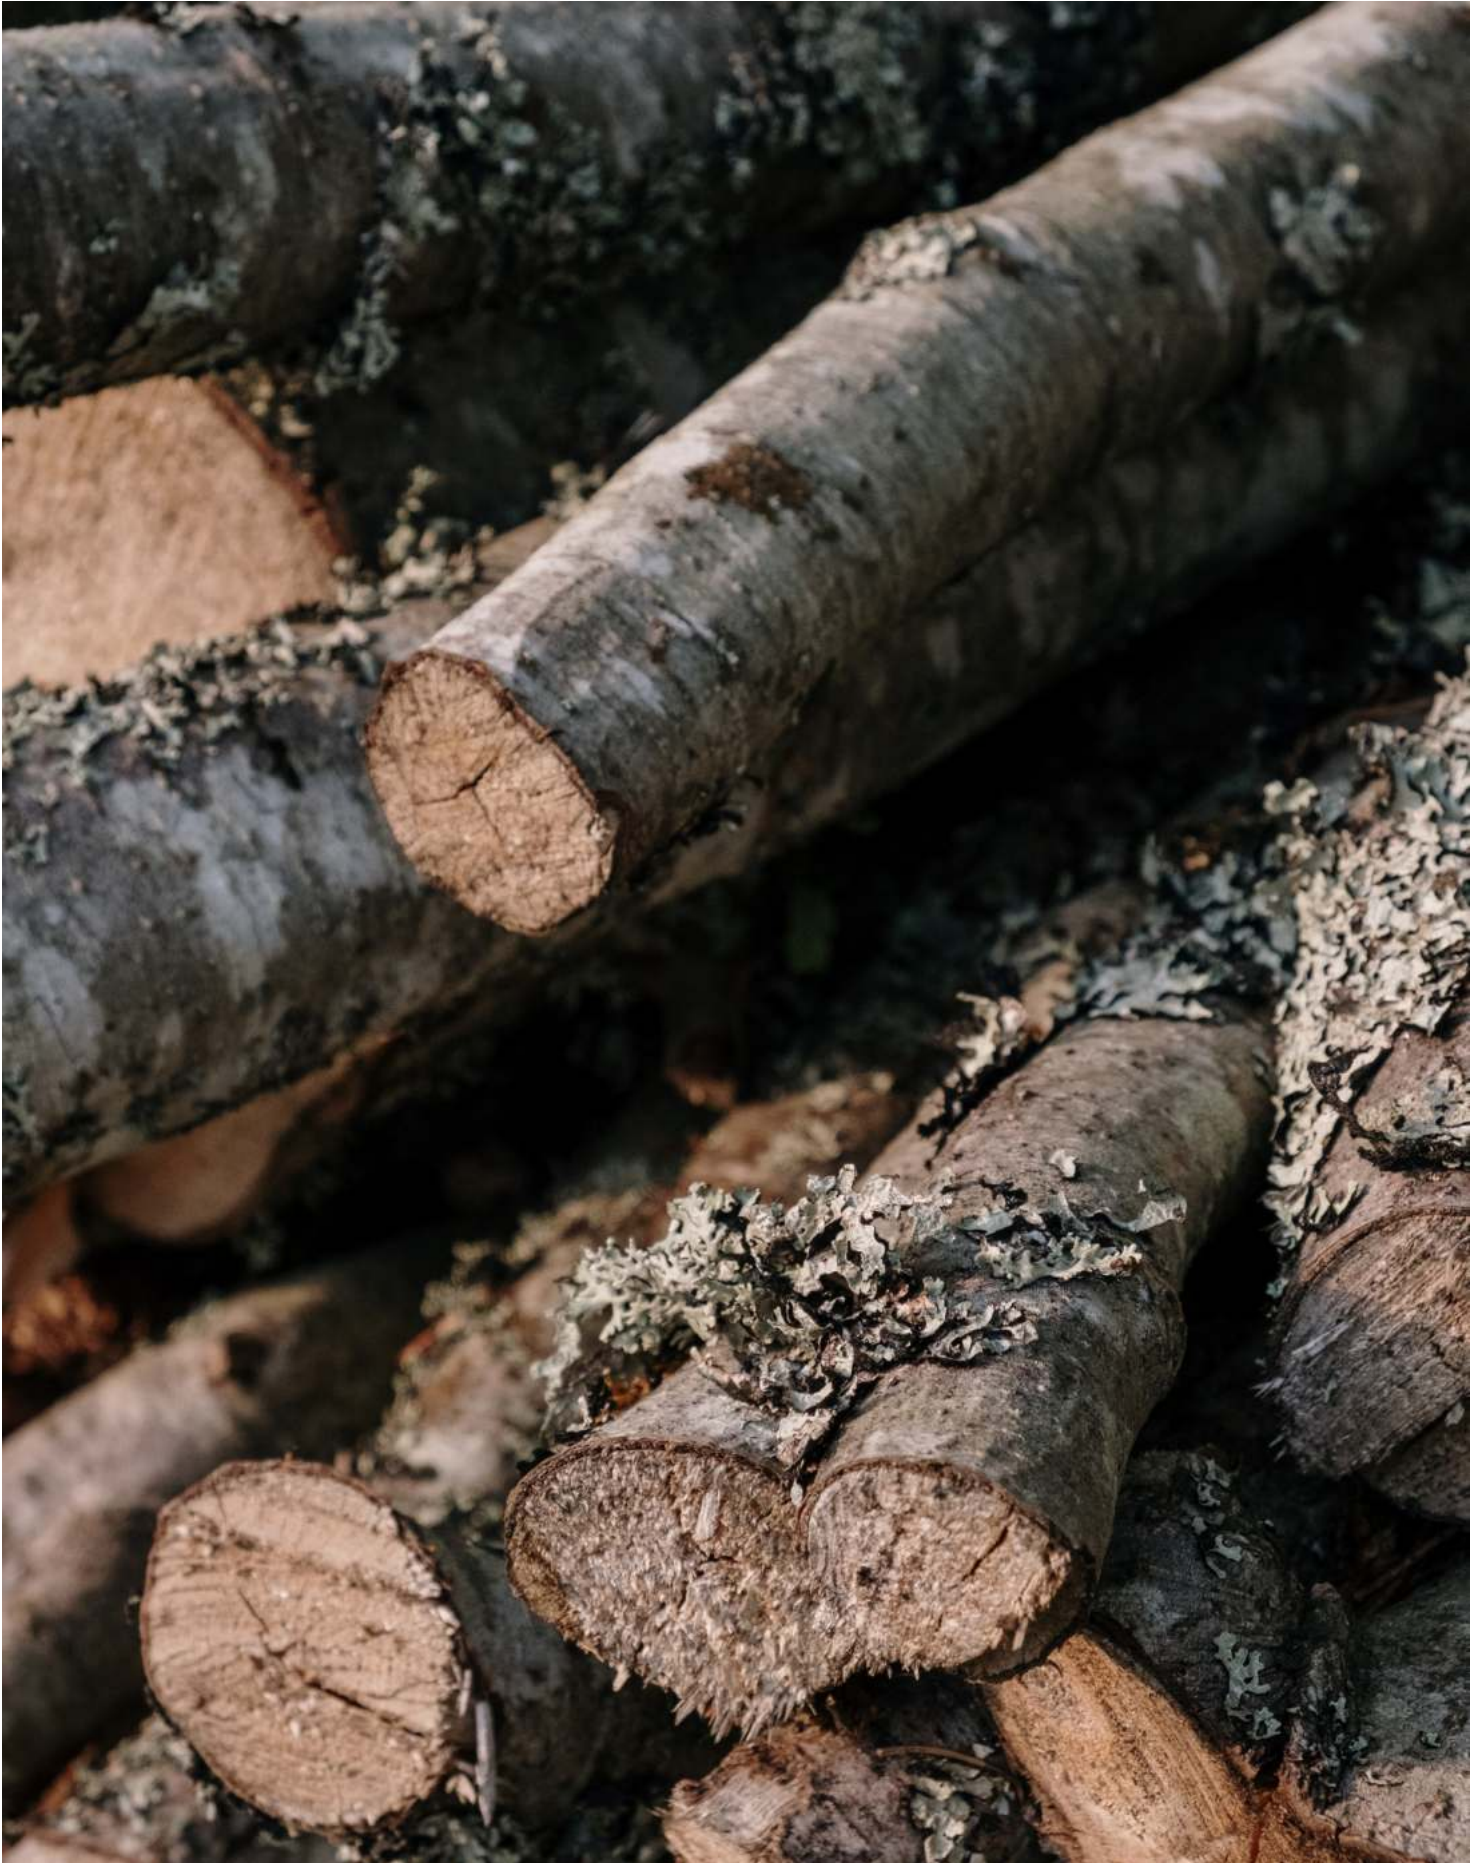

Wheels for easy transportation

55 Litre Collection Box

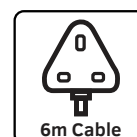

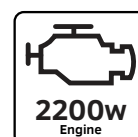

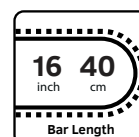

Chainsaws

For pruning, felling & harvesting...

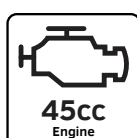

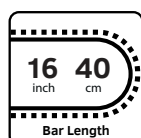

40cm (16") 2200 Watt Electric Chainsaw WE ECS402200

Offering great power from a 2200w motor and boasting a large 40cm bar & chain, this high-performance mains-electric chainsaw from UK garden-machinery experts Webb.

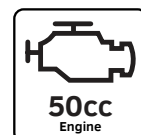

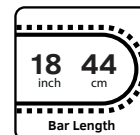

40cm (16") 45cc Petrol Chainsaw WE PCS16

With a 45cc 2-Stroke engine & 16" (40cm) guide bar makes this WE PCS16 a lightweight yet power machine. Capable of tackling your garden jobs; such as chopping firewood, pruning & DIY tasks.

46cm (18") 50cc Petrol Chainsaw WEPCS18

With a 50cc 2-Stroke engine & 18" (44cm) guide bar makes this WEPCS18 a lightweight yet power machine. Capable of tackling your garden jobs; such as chopping firewood, pruning & DIY tasks.

We know that buying a lawnmower can be a confusing time...

There are many different features to consider, so we've explained some of the key aspects and attributes of our lawnmowers in order to help you decide which machine best meets your needs.

Electric Start

Forget about strenuous pull-starts and get mowing with zero hassle when you get your hands on an advanced electric-start machine.

Rear Roller

Our line of rear-roller machines will lay-down a traditional British stripe as you mow. The roller also has the advantage of enabling you to cut up to and over the lawn edge, thereby doing away with the need to tidy-up with a strimmer.

Single Lever Height Adjustment

All of our Webb rotary-mowers feature a single height-adjustment lever - this is the quickest and easiest way to adapt to the condition of your lawn; simply set the lever to the required height and start mowing!

Mulch Plug

A mulch plug enables you to recycle grass-clippings back into the soil. Once you have your mower equipped with a mulch plug, clippings are not collected, but are instead finely chopped and forced at high speed into the turf where they'll be practically invisible. The decomposing clippings then return nutrients to the soil, meaning you'll be simultaneously mowing and fertilising.

Metal Blades

Metal blades are generally sharper than plastic ones, which means cleaner, neater and more precise results with less stress on the grass. They can also be easily sharpened for increased blade-life.

Side Discharge

The side-discharge chute is perfect if you're mowing those rougher areas of your garden where collection isn't required. You simply lift the side-discharge flap, add the chute, fit the mulch plug, and you're ready to go!

Wash Port

Most of our Supreme mowers are fitted with a deck-wash port that makes it quick and easy to remove corrosive, performance-limiting debris from the under-deck area after mowing. All that's required is to hook-up a hosepipe, turn-on the tap, run the engine briefly, and the job's done!

Quick Release Folding Handles

Models within the Supreme lawnmower ranges come equipped with quick-release handlebars, which fold down to make the machine more compact ready for storage or transport.

Cylinder Blades

It's an indisputable fact that cylinder blades deliver a superior cut compared to that produced by a rotary blade. This is because the grass is forced between the spinning cylinder-blades and the fixed straight blade, enabling it to be cut with a super-clean 'scissor'-like action. The sole disadvantage of the cylinder blade is that they're only suited for flat, uniform and stone-free lawns.

Power in your garden...
