What are the Kidzplay Activity Boxes?

The boxes are equipped with shared focus activities for families to enjoy together outdoors, providing a wonderful opportunity to connect with nature that enhances a child's emotional well-being.

These activities inspire a child's creativity and critical thinking abilities. All of the activities are linked to the Early Years Foundation Stage and Allow children to take the lead and let their imagination direct the play.

Children can explore, investigate and experience the fun and learning each activity has to offer. All the activities are screen free, everything in the boxes are eco-friendly and you simply open and play.

Why would they sell in my venue?

It will drive revenue for those slower months in July / August. Grand parents and parents need to entertain children throughout the summer holidays – these boxes give busy caregivers a blueprint of what to do when throughout the school holidays. You can drive footfall and spend by running workshops at your venue with our one-off activities that link to the box sale.

Bug Activity Box

Become a bug bodyguard, make a house for bugs, observe how they move and create your own bug

Flower Activity Box

Grow your own flowers, make perfume and create your own pressed flowers to decorate a bookmark for your summer

Bee Activity Box

Learn about the bee, build a bee house, understand beehive and honeycombs and grow a sunflower

Tree Activity Box

Learn about printing with bark rubbing and leaf printing. Create your own woodland character and build a den, while you experience the benefits of forest bathing.

Bird Activity Box

Assemble a pine cone feeder for the birds. Create and decorate your own binoculars and count how many varieties of birds visit your garden.
