*hand-crafted from bamboo*

# JARDINOPIA - ABOUT US

With a passion for gardening and a love of the outdoors, when not working, we are usually either outside digging in the garden or walking our labrador Evie in the beautiful Devon countryside that we have made our home. Both our children are now grown up, and about 4 years ago we found time on our hands to plan 'what next?'.

Utilising our business experience working for large corporates for over twenty-five years, we decided to create a multi-brand home and garden gift-oriented company that offered innovative new designs for practical and utilitarian products – affording something different for people that enjoyed a similar lifestyle and ethos, or that were perhaps looking for an unusual and competitively priced gift for friends and loved ones. We were determined to design and manufacture all of our own products in an ethical and sustainable way – and not buy *'off the shelf'*!

To commence the Jardinopia journey, we developed and custom-designed a range of plant pot feet under the company brand 'Potty Feet', which we think appropriately reflected our quirky but useful product. Our now multi award-winning Potty Feet come beautifully presented in 100% recycled craft card packaging, and make ideal gifts all year round and for any occasion. We then launched our sister brands 'Cane Companions' (award winning); Feeder Friends (award winning) and Pot Buddies - and we sell to both trade and direct to consumers.

Another reason for establishing Jardinopia was to create a vehicle through which we could actively support worthy causes close to our hearts. We therefore donate a portion of our profits (dependent on the brand) to causes that are important to us. Our main aim for the 'Eco-Pot' brands is to help with environmental based causes.

Over the next few years we will be launching many new additional brands of home and garden gift related products for both adults and children – all designed and produced by us - and we will be diversifying our good cause donations to reflect these. We are delighted to introduce our **Eco-Pots** Range here

We try to source, package and protect our environment in a responsible and sustainable way at all times. Please take a look at our current designs and brands, and keep an eye out for constant new arrivals!

# ECO-POTS (BAMBOO)

Our uniquely designed **Eco-Pot** brand has made it easier than ever to decrease the amount of plastic you use, thanks to our range of bamboo pots, saucers and trays. All of our **Eco-Pots** are made from sustainable bamboo fibres and resin that comes from naturally occurring organic compounds. They are free from petroleum-based plastics and BPA's and utilize eco-decals, adding that little bit of glamour to your herbs, vegetables or flowers.

**Eco-Pots** are 100% bio-degradable and can be used year after year indoors or outside. When you need to dispose of them, they can be shredded or crushed and put on the compost heap, where they will naturally decompose. **Eco-Pots** are sold in 100% recycled craft card gift packaged sets of 3, making them an ideal present for any gardener, whether for Mother's Day, Father's Day, Birthdays, Christmas, a teacher present or Easter. Maybe just treat yourself!

Our Insect and Herb **Eco-Pot** sets have been designed in collaboration with the much-acclaimed wildlife artist Iona Buchanan. A botanical artist and illustrator by training whose style is characterised by careful observation of the natural world around her, Iona's wildflower meadow is home to many of the insects and plants that inspired these designs, captured in her unique watercolours exclusively for Jardinopia.

So why use **Eco-Pots**?

- Reduce your use of plastics by converting to organic made pots and planting accessories
- 100% compostable and bio-degradable
- A wide variety of designs and styles
- Lifespan of 5-7 years
- Indoor or outside use

# ECO-POTS – MADE FROM 100% RECYCLED PLASTIC BOTTLES

Our uniquely designed **Eco-Pot** brand has made it easier than ever to be kind to the environment whilst gardening. Through our innovative repurposing of recycled products, we make use of the millions of reclaimed plastic bottles littering our streets, oceans and countryside. All of our fabric based **Eco-Pots** are made 100% from these reclaimed plastic bottles, adding that little bit of glamour to your herbs, vegetables or flowers, whilst ensuring you minimize your impact on the world around you. We've even sourced 100% recycled card & label & tag products to complement the environmental credentials of this amazing range.

Our Beatrix Potter Peter Rabbit **Eco-Pot** products have been designed in collaboration with Penguin Books, in readiness for the 120<sup>th</sup> Anniversary of the very first title in the series of 23 Beatrix Potter books.

So why use fabric **Eco-Pots**?

## **Sustainable**

Made from 100% recycled plastic bottles for reuse time and time again

## **Superior Root Growth**

Innovative double mesh fabric technology

## **Breathable**

Prevents root 'spiralling' and 'balling'

## **Handles**

Strong handles for easy relocation

## **Grommets**

Integrated drainage to prevent water-logging

## **Portable**

Lightweight and foldable for easy storage

## **Maintainable**

Easy to wash out after use

## **Decorative**

Beautiful original designs to brighten up any patio, garden or home
