About Joyces Industrial Company Limited

-Collaboration based on Values, Deliberate Endeavour for Sustainable Green Supply Chain & Corporate Social Responsibility.

Globalization is ending. What is the next? Our solution is a collaboration based on Values. Our firm has three different supply chains which focus on distinct values. 1)Here for Green(E): Green represents providing items with environmental protection. It also means the E element of ESG. (Environment, Social and Governance); 2) Here for Good(S): Good represents Corporate Social Responsibility. It also describes the S element of ESG; 3) Here for Efficient(G): Efficient represents high-quality governance by supplying our items with competitive prices. It also describes the G element of ESG.

About Managing Director

Dr George is the Managing Director of Joyces Industrial Company Limited. Dr George insisted on doing business research over the past five years and getting a PhD in Enterprise Management. His research interests are B2B organizational customer loyalty and Corporate Social Responsibility. Dr George executes his Corporate Social Responsibility idea in business activity and creates mutual value for all business partners.
