Why Is Eucalyptus Sustainable?

Eucalyptus is an extremely sustainable and renewable resource. Eucalyptus is a plantation-grown hardwood that is sustainably harvested and in plentiful supply. Some plantations can produce up to 30 times more volume per year than your average carpentry wood bearing trees.

This high-quality, kiln-dried timber is incredibly solid with great durability and strength and has beautiful grain and a smooth finish that requires minimal maintenance. Eucalyptus is extremely dense, rot- and decay-resistant with a high oil content that repels water and moisture making it ideal for outdoor furniture and planters. It also weathers to a soft gray if left untreated, however, it can be stained to maintain its rich tones.

TERRARIUM FILLERS

Decorative terrarium filler, or use as soil substitute  
as hydroponic growing medium.

Porous structure promotes root growth

Water Absorbing Rocks  
for Terrariums & Planters

Introducing an attractive, new no-soil alternative – Aqua Stones™. A natural, versatile plant substrate that adds colour and vitality to plants both indoors and out. Perfect for terrariums or hydroponic planting, Aqua Stones can be used to plant directly into, layered over, or between potting soil. Not only does it hold moisture in the pot, but it keeps plants watered and looking fresh longer.

HOUSEPLANT ACCESSORIES

**NEW! Stackable Natural**  
**Coir Coco Fiber Trellis Poles**

**Stackable** A trellis and natural-looking coco fiber plant support that blends with the beauty of plants while retaining water for healthier growth.

Here is an Ideal plant support for climbing plants and vines while maintaining moisture for aerial roots absorption. Made from natural and biodegradable coconut husk, the pole is safe and sturdy for training climbing plants to grow upright. As your plant grows bigger, new poles are easily stacked on top of each other to accommodate the new height.

Each pole is  
5cm Dia x 40.6cm H  
2 in. Dia x 16in. H  
(12.7cm / 5 in. wooden stake height).

## LANDSCAPE EDGING

### Straight Edge Landscape Edging Kit

Includes 3 sections &  
4 lightweight "U" stakes  
10 x 91 cm / 4" x 36"  
82457 / Bronze  
6 per case

Combining the elegant look of cast iron edging with professional-grade metal landscape edging.

We've taken metal landscape edging to a new level with stamped ornamentation that gives this functional product line more personality. Classic designs popular in our wire border fence, like final and arch shapes, are combined with professional-grade 1.5mm thick sheet metal that can be easily installed to fit any landscape. Pre-galvanised sheet metal is powder coated with rugged, textured finishes for an elegant appearance.

128 W x 120.6 H x 39 D cm  
50.5" W x 47.5" H x 15.5" D

Each metal edge strip is installed using our 10.5"H Metal Landscape Edging Stakes in a matching finish. The stakes connect two strips securely together end-to-end with no wasted overlap. They also install in the centre of each strip to provide more flexibility when bending them into curved shapes. An angled, flat top on each stake makes it easy to hammer them into the ground without damaging edging and provides more stability.

MODERN FARMHOUSE Gardener

## Elegant Plant Supports

Gardening is a labour of love and passionate gardeners know that supporting their climbing or top-heavy plants is the key to success. To accentuate greenery and flowering plants, these Modern Farmhouse-styled plant supports take it to the next level. With beautiful copper-plated ball tops and a thick, matte black texture powder-coated finish, it is easy for plants to grab without sliding down. It's a gardening investment that serious gardeners will proudly make to showcase their prize plantings.

Featuring copper plated accent balls & rugged, yet simple grid design, with a thick textured powder coated finish.

## MASON BEE SHELTERS could become the dominant category

In the insect house product category

With the dramatically declining bee population, consumers are becoming aware that products which encourage re-population of bees are a desirable purchase for environmental responsibility. Mason bees in particular offer the most benefit as plant pollinators.

## BENEFICIAL INSECT HOUSES

Have become a hot category in the past years

Consumers are becoming aware that attracting beneficial insects to the garden is a great way to increase plant health with insect pollinators that substantially improve vegetable, flower & fruit yields or feed on invasive, disease-carrying species without the use of harmful chemicals.
