

LEONBOOTS^{CO}
ULTRALIGHT

The **LIGHTEST** wellingtons you'll ever wear!

www.lbcboots.com

About Leon Boots

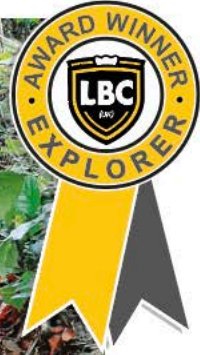

2018 saw the introduction of Leon Boots Co to the UK footwear market. With our record breaking, award winning footwear style, we now have over 800 stockist locations across many market sectors, from Construction to Garden Centres.

We are taking part in a **reEVAL**ution in the world of Wellington/Rain Boots, which uses the same Ultralight, Durable, Comfortable material that is already being used in many leading footwear brands including Adidas, Nike & Sketchers.

EVA is a far better product than PVC or PU. Not only is it lighter & more durable, but **EVA** consists of lower harmful chemicals so is more sustainable to the environment.
