HELLO

If you are new to Wilsons, 'Hello!' and if you're an established Wilsons customer 'Welcome back'!

However long you have been a Wilsons customer, we are pleased to bring you the latest Wilsons full product catalogue. It has been a tough couple of years for most, but at Wilsons we have worked hard to ensure to maintain good stock levels and have been committed to providing a consistently great service for our customers – which in turn ensures you can do the same for yours.

This 2023 Catalogue will showcase our full product range and we will be continuing to bring our smaller product focus brochures to you each month. This way you will have a full list of products to hand but also never miss out on any special offers and new lines that we release. The product focus brochures are posted via Royal Mail; however, you can always view these online should you misplace your hard copy!

You can also register for our promotional emails to ensure that you are the first to know when a new deal drops. Simply scan the QR code to the right to request to receive these emails. You can also request this by emailing sales@wilsonscolchester.com or mention it next time you are on the phone with us. (You can of course unsubscribe at any time!)

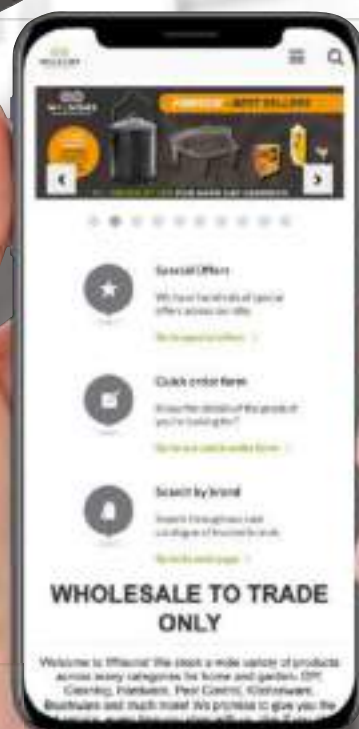

Due to continued uncertainty with supply chain, rising courier and material costs, and frequent price changes from our suppliers, we have made the decision to publish this catalogue unpriced. The team will always be on hand to help with any pricing queries via phone and email.

The most up-to-date pricing can always be found on our website wilsonscolchester.com by logging into your online account.

DON'T HAVE A LOGIN OR FORGOTTEN YOUR DETAILS?

Let us know and we will get one sorted for you! It's really easy to view products online and we will happily guide you through it.

GUTTER BRUSH

Simple and ecologically smart. Gutter brushes avoid the need for annual cleanings of gutters and prevents them from being clogged by branches and leaves. They protect against excess dirt and allow rain water to flow through.

There's no need for gutter clips as the brushes hook together. No tools required, just bend any excess gutter brush back on itself to fit snugly into the gutter.
