YOUR PUMP TOP GUARANTEES SALES SUCCESS

Fuel customers are your greatest asset, so why not take the opportunity while customers fuel up, to offer them something unique with a pump top promotion. It only takes a minute to fuel up but it only takes a second to impulse buy a Fast Trak promotional offer.

Fast Track specialises in pump to promotions and our success is based on market research and careful analysis of your business, guaranteeing you success after success.

The Fast Trak promotional service incorporates marketing and sales expertise to bring you the highest category in non-food sales. Statistics show that you're more likely to profit from a pump top promotion than any other item you sell in your shop.

We provide all of our customers with a diverse range of promotions, so appealing to the full spectrum of forecourt customers, from young to old, male or female. Our promotions have a high buyer appeal, whether you are a Motorway

Service Station with thousands of transient customers or a local forecourt with your regular customer base, we will give you something to talk about.

Being first to market with our unique promotions allows you to maximise sales, giving you greater profits. Each Fast Trak promotion is designed to provide value for money for the customer. Our promotions range from £1.99 to £30, allowing petrol retailers to build customer loyalty with regular monthly offers.

Fast Trak works closely with most of the UK's symbol groups and can provide fast drop shipment deliveries, combined with hassle-free invoicing and payment through our central billing account.

APPLIED NUTRITION

PADDY PUNCH

used to fuel
PADDY THE BADDY

BODY FUEL sold out in its first week thanks to a huge amount of publicity generated through a series of social media posts to promote the product from UFC superstar Paddy the Baddy. Paddy highlighted the sophisticated and scientifically supported composition of BODY FUEL compared to alternatives on the market. Now back in stock and one of our top sellers, together with two new on trend flavours launched Jan 23, we expect BODY FUEL to continue to be in high demand among people looking for a expertly formulated electrolyte and vitamin water drink.

The Applied Nutrition High Protein Shake is a delicious, smooth and creamy milkshake with a whopping 42g of protein per bottle. Simply shake and enjoy! Use as a super convenient, post workout protein shake or between meals instead of a snack and keep your protein levels at their optimum.

WHAT OUR CLIENTS SAY ABOUT US?

After your visit I thought I should just let you know how much I appreciated the time we spent looking through the products and offers as well as considering other elements of the business.

Thank you again for your help.

I highly recommend your products and your customer service is second to none.

The ordering of products is simple and is normally delivered within a couple of working days.

I am extremely happy with my time with Fasttrak. I have had no problems and everything is highly efficient.

I'm looking forward to seeing the new products in the future and growing our relationship.

I would like to say a big thank you to Fasttrak for supporting me with opening a new petrol station for my employer Tesco.

Your staff members have made dealing with your products an absolute delight.

I recently signed up to receive Fasttrak products as they offer a wide range of interesting and innovative products. On any one promotion Fasttrak can have up to 6 or even more things selling which does offer the consumer a good product range. There is very little time needed to be put on our side as the reps take care of it all!
