NEW PRODUCT SHOWCASE

# Zest for sustainable living

## Sustainable approach

Zest is focused on reducing CO<sub>2</sub> emissions and doing business responsibly.

All offices and warehouses are heated by biomass boilers using woodchip from waste wood. Every suitable roof has solar panels installed producing even more green power for the business and rainwater is reused wherever possible.

A key focus of Zest is to improve transport efficiency of products into the UK through to home delivery. Zest ensures all loads to garden centre stockists are loaded to the optimum level to reduce the overall miles of road freight. This recently resulted in 42 fewer lorries, per month, on the roads delivering an increased amount due to improved DFMA (Design For Manufacturing and Assembly) design principles, packaging and SMART routing plans to minimise miles travelled.

Zest has sustainability at the very heart of its brand ethos, appreciating how vital ethical sourcing and environmental responsibility is to the planet and to future generations. Zest is committed to using responsibly sourced, sustainable, PEFC certified (PEFC/16-37-1490) timber. Being a PEFC certified company is important to Zest as it shows commitment to the environment and to responsible sourcing.

With its main supply partners in Eastern Europe, Zest is dedicated to re-planting and nurturing woodland habitat and is collaborating on planting schemes and supporting the nurture of wildlife habitat in Europe, as well as the UK.

Zest products are featuring in a wide selection of lifestyle magazines in print and digital formats. The aim is to increase brand awareness and drive consumers to Zest stockists and online retailers. Adverts, competitions to win a Zest product and advertorials are written by the editors.

## Zest Marketing Support

All Zest customers can benefit from an extensive range of marketing support materials, including product and lifestyle imagery, PoS, assembly videos and modular merchandising units.

## Augmented Reality

A range of Zest products can be seen by the customer using the latest Augmented Reality (AR) technology.

Augmented Reality is an immersive technology that overlays digital/virtual objects into the real world through a smart phone, enhancing the user's experience of Zest products. By seeing the product in their own outdoor place, AR increases customer engagement with Zest products.

## Kiln dried products are available for in-store display purposes.

In-Store display products include the Garden Bar & 2 Stool Set and Garden Pizza Oven Table.

For further details, contact your Zest Account Manager or enquire at [sales@zestoutdoorliving.co.uk](mailto:sales@zestoutdoorliving.co.uk)

## Association Memberships

Zest is proud to be a member of the Industry Trade Associations

# The Ultimate Choice For Garden Retailers

Zest is a fifth generation manufacturer and has a deep understanding of the needs and aspiration of today's consumer and the renewed importance of outdoor space for relaxation, entertaining and nurturing food and flowers.

Zest aims to be a supplier of choice and customer service is an absolute priority. The company strives to ensure that its systems work around the needs of your business, whether you are ordering a single product, listing products on a website or placing a bulk order.

With a dedicated sales team of professionals covering the UK and Ireland to support stockists, Zest offers complete flexibility with delivery options to suit each retailer. For even bigger savings, factory direct is available.

## Zest design products to enhance outdoor living

We are consistently reviewing our existing range to redesign and improve every aspect, from functionality and packaging to aesthetics and comfort.

“Our passion is to support our retail customers with the very latest products in the category. The design.shed provides an environment to inspire creativity, innovation and collaboration. Zest is committed to be the consumer's first choice in timber garden products.”

**Steve Morgan**

Managing Director of Zest

## New for 2024

Zest always focuses on the needs of the consumers and the Zest philosophy when it comes to product development is to spend time listening to today's garden enthusiasts through market research and focus groups. This is User Centred Design at its best and your customers will love the results.

The outdoor living experience is at the heart of our design of the Terraza Outdoor Kitchen and great consideration has been given to a covered seating dining space resulting in the new Stirling Arbour. Market demand for Grow Your Own products, has led to us developing the small footprints of the Tall Botanical Greenhouse and the Compact Botanical Greenhouse.

Complementing the range is the new Eco Hive Composter, which supports the environmental trend for composting with a product that's both functional and an attractive feature in the garden. Everyone needs a potting bench and Zest's comes with a removal shelf for easy access.

All Zest timber products are pressure treated and most are delivered flat packed with assembly instructions. Animated Assembly Videos are available online, visit the website for further details. Zest furniture & decorative products, as well as selected lines, are guaranteed against rot for 10 years. The key will indicate what special features a product has:

**Pressure Treated & Guaranteed**  
Made with quality Pressure Treated timber & backed by a 10 Year Guarantee Against Rot

## Terraza Outdoor Kitchen Set

Absolutely on trend for outdoor entertaining, Zest is launching a stunning collection which provides a sustainable route to alfresco cooking, and one which will blend into the garden beautifully. Made from PEFC (PEFC/16-37-1490), sustainable slow grown soft wood from responsibly managed forests and with a 10 year guarantee against rot, all products in the Terraza Outdoor Kitchen range can be purchased individually or as a set comprising two double units and a display corner unit. There is also an optional side table to extend the serving space.

The double kitchen unit offers ample storage for tools and cooking equipment. The additional open sided top shelf is ideal

for serving utensils. It comes with a stainless steel top which is perfect for food preparation. The corner unit provides masses of storage and is also perfect for setting up a pizza oven and is the standard working height you would find in an indoor kitchen. Delivered flat packed, the Terraza Outdoor Kitchen can be easily assembled on a firm solid ground to give years of outdoor enjoyment.

All items coordinate with existing Zest outdoor entertaining products including the Zest Garden Bar and Two Stool Set and the Zest Garden Pizza Oven Table to create the perfect natural outdoor kitchen and entertaining area.

2x Double Units

# Stirling Arbour

A sanctuary in which to enjoy the garden, this covered seating arbour offers ample space for four people to sit and enjoy dining, relaxation, or coffee and conversation. Including a spacious fitted table, delightful trellis panels and comfortable angled seats, the Zest Stirling Arbour is suitable for any occasion.

Expertly designed using DFMA (Designed for Manufacture and Assembly) principles, the Stirling Arbour is designed to be packed efficiently for more sustainable transportation. A family favourite at a competitive price point which will fit into any garden.

The Stirling Arbour is made from PEFC (PEFC/16-37-1490), sustainable slow grown softwood from responsibly managed forests and comes with a 10 year guarantee against rot.

**Product Code: 36094**  
**Size: W x D x H**  
**2.12m x 1.44m x 2.10m**

## Aria Modular Seating Range

Double Seat

Product Code: 36097  
Size: W x D x H

Corner Seat

Product Code: 36100  
Size: W x D x H  
0.69m x 0.69m x 0.74m

Single Seat

Product Code: 36098  
Size: W x D x H  
0.60m x 0.69m x 0.74m

Table

Product Code: 36099  
Size: W x D x H  
0.60m x 0.60m x 0.38m

Modular Design

“ The Aria Modular Seating Range brings a versatile design to the Zest Range. The chunky construction maximises the natural woods appeal, which is perfectly contrasted with the contemporary slate grey cushions. We created this range to be configurable to all needs and it can be expanded with additional compatible pieces to create a custom layout to provide relaxation in any outdoor space. ”

New Product Development Team  
Zest

# Aria Modular Seating Set

1x Double Seat 1x Corner Seat

1x Single Seat 1x Table

**Product Code: 38341**

Outdoor entertaining is massively on trend and, to maximise the potential of spending relaxation time outdoors and close to nature, the perfect seating solution is not only comfortable and stylish, but modular to make the most of the available space. Zest's new Aria Modular Seating Set is an ideal product which provides mix and match configurations comprising a double seat, a single seat, a corner seat and a table, which doubles as a foot stool, all with deep and chunky contemporary grey cushions included. Each item can be purchased separately or as an addition to the standard set.

With a sturdy and sustainable frame, made from PEFC (PEFC/16-37-1490), sustainable slow grown softwood from responsibly managed forests, Aria Modular Seating offers generous space and angled back support for optimal comfort in a low lounging seat design. The Aria Modular Seating comes with a 10 year guarantee against rot.

The easy build construction and angular form offers a modern twist on traditional materials. Developed to offer a unique alternative aesthetic to the eco-conscious user in a rattan saturated sector.

# Tall Botanical Greenhouse

Zest's new space saving Tall Botanical Greenhouse combines stunning looks with all the functionality of a greenhouse. It is made from PEFC (PEFC/16-37-1490), sustainable slow grown softwood from responsibly managed forests and designed to blend perfectly with the natural world. Most suited for positioning against the wall of the house or outbuilding. Fully glazed with quality Perspex to allow light through both roof and sides, the Zest Tall Botanical Greenhouse boasts two fully adjustable roof panels with securing latches for confidence and safety allowing for optimal temperature control for all types of plants.

It has removable shelves which can also be reconfigured to a half width to allow for taller plants as required and its classic greenhouse look combined with its superb practicality makes it an outstanding winner for a GYO enthusiast.

**Product Code: 37678**  
**Size: W x D x H**  
**1.56m x 0.67m x 1.99m**

“ We set out to make a beautiful product that would enhance the growing experience in smaller outdoor areas. We selected materials with quality craftsmanship to work in harmony to bring years of joy to new and experienced growers alike. ”

New Product Development Team  
Zest

# Compact Botanical Greenhouse

Outdoor living expert Zest is launching the Compact Botanical Greenhouse, a high quality Perspex glazed, small space greenhouse, ideal for nurturing young plants. It has a sustainable, sturdy wooden frame made from PEFC (PEFC/16-37-1490), sustainable slow grown softwood from responsibly managed forests and has hinged doors and an opening roof with dual height stays for optimum ventilation. It comes complete with door catches and strategically placed drainage holes in the roof frame. Ideal for those with a balcony, patio or small city garden.

With two large shelves, which are removable to accommodate taller plants, this product is perfect for aspirational and convenience gardeners who have limited space in which to enjoy growing flowers, fruit and vegetables.

**Product Code: 36108**  
**Size: W x D x H**  
**0.85m x 0.40m x 1.23m**

# Potting Bench

The perfect multipurpose Potting Bench and garden work table, this is the ideal product for starting seedlings and potting plants at a comfortable working height. With a wide edging and cross brace support, this is a practical, sturdy garden essential. And with a shelf to allow for extra storage space, it keeps the work top free for potting and planting.

An added benefit is that the shelf is removable not only allowing for the storage of larger items below, but also enabling the bench to be made accessible for wheelchair access or seating. It is made from PEFC (PEFC/16-37-1490), sustainable slow grown softwood from responsibly managed forests and comes with a 10 year guarantee against rot.

**Product Code: 36105**

**Size: W x D x H**

**0.89m x 0.48m x 0.93m**

# Eco Hive Composter

Making your own compost at home is now a massive and environmentally beneficial garden trend, but compost bins can be unattractive even if useful and desirable. Zest's new Eco Hive Composter not only has some super functional advantages, but it is also an attractive addition to any garden. Shaped like a traditional beehive and made from PEFC (PEFC/16-37-1490), sustainable slow grown softwood from responsibly managed forests, this product is a winner from the start.

Add to that a large 405 litre capacity and an open base that helps to produce internal heat which makes compost faster, ensuring this is a really practical purchase. The lid opens either side and folds back on itself for ease of removal in order to churn the compost and gardeners can easily harvest the compost from the lower hatch. Narrow gaps in the side panels allows air to circulate in the composter whilst keeping the rain out. The angled 'cant cut' timber boards keeps the waste inside hidden and out of sight as well as having a more modern aesthetic and aids ventilation.

The timber lid and side panels help to manage the temperature and moisture content, retaining the heat and ventilating the compost - which is needed in order to speed up decomposition. The open base allows micro-organisms, worms and slugs from the ground to get into the waste heap and help to break it down into top quality compost.

**Product Code: 36096**  
**Size: W x D x H**  
**0.75m x 0.82m x 0.96m**
