

Flat Pack Sheds *Guide Book*

**BUILT TO LAST: 15 YEAR GUARANTEE
YOUR SHED FOR LIFE**

*Hi there! Welcome to the
ultimate guide to our awesome sheds!*

In this ebook, we will show you all the amazing features that make our sheds the best in the market. From the modular design to the quality timber used, we have thought of everything to make sure you get the best shed possible!

Modular Design

Our sheds are designed to be modular, which means that the design can be customised to suit your preferences. This means that you have more choice when it comes to where you want to put the building in your garden. You can even choose which side the doors and windows are on!

Quality FSC Swedish Red Wood Timber

At our company, we only use FSC Swedish Red Wood Timber, which is a special kind of wood that is sourced in an eco-friendly way. This type of wood is better than UK timber because it grows in a cold environment, which means the tree grows slower and has fewer knots in the wood. Red wood is also better than white wood because any knots are smaller and tighter.

Pressure Tanalised Treated Throughout

We make sure our timber is protected by pressure treating it in a vacuum tank, which injects the treatment into the timber. This is better than dip treatment, which only treats the outside of the wood.

Kiln Dried Timber

We also kiln dry our timber down to 12% moisture, which makes it stronger and less likely to rot due to damp. Then we pressure treat it to protect it from future moisture ingress.

Ready to Build Shed

Flat Pack Sheds *Guide Book*

**BUILT TO LAST: 15 YEAR GUARANTEE
YOUR SHED FOR LIFE**

Robust 38x50 PAR Eased Edge Framing

Discover the strength and longevity of our sheds featuring the resilient 38x50 PAR eased edge framing. Crafted with exceptional durability, these sheds are designed to withstand the test of time and remain sturdy for years to come. Invest in the reliability of our robust 38x50 PAR eased edge framing and enjoy peace of mind knowing that your shed is built to last.

Tongue & Groove 12mm Shiplap Cladding

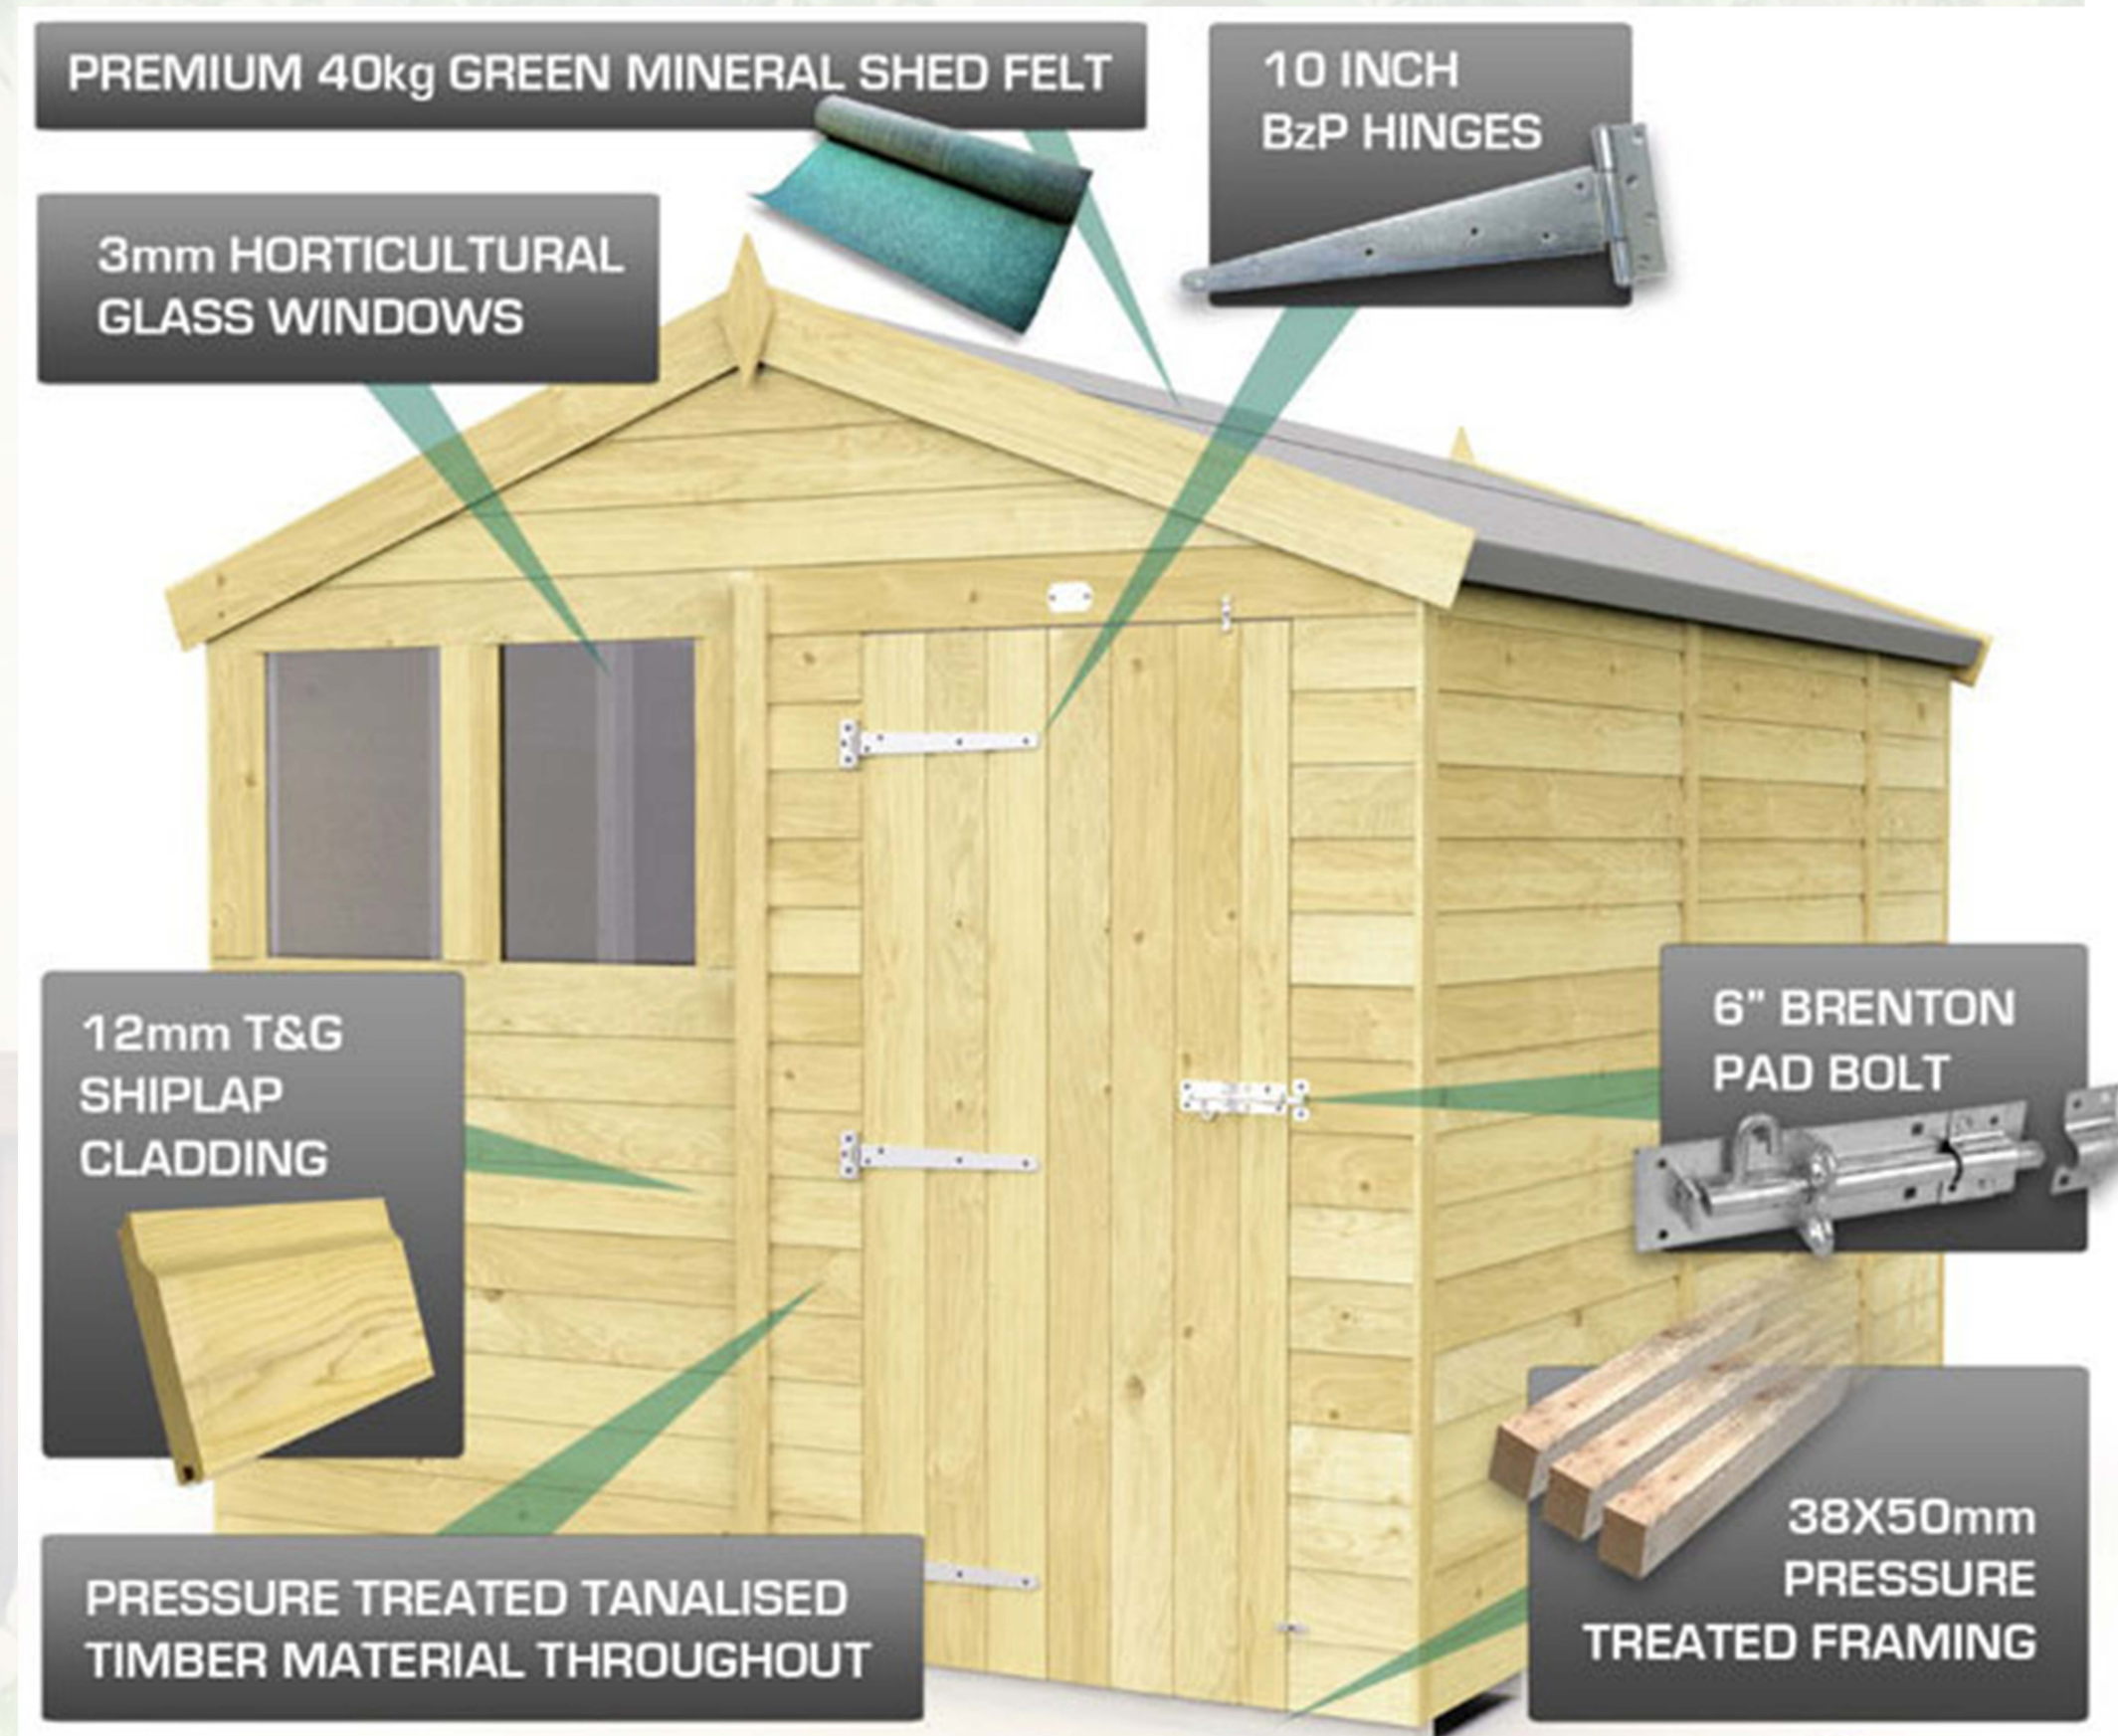

Our sheds have super strong walls with tongue and groove 12 mm shiplap cladding, which means they won't bend or warp over time, keeping your belongings safe and secure. Get ready for a durable and cool space to store all your awesome stuff. Choose our sheds with tongue and groove 12 mm shiplap cladding for an epic storage solution that will last for years of adventure!

18mm Flooring with 38x50 Bearers

Our sheds boast top-of-the-line features, including the impressive 18mm flooring supported by robust 38x50 Bearers. This means the floor is built to perfection, ensuring exceptional strength and preventing any sagging or flexing over time, giving you a reliable and durable space for all your storage needs and activities.

40kg Superior Quality Felt

Invest in a shed that will endure the test of time. With our 49Kg superior quality felt, you can trust that your shed's roof will remain intact and resilient for years to come. **Enjoy peace of mind, knowing that your belongings are protected by a roofing material of exceptional quality!**

**BUILT TO LAST: 15 YEAR GUARANTEE
YOUR SHED FOR LIFE**

Super Fast Delivery

We offer super fast delivery within 1-2 days! No other shed company in the UK can provide this!

Easy Returns Policy

If you're not happy with your shed, you can return it to us within 30 days for a full refund.

**15-year guarantee against
insect attack, rot, and decay,
which means that your
shed is protected
for a long time.**

**You must carry out yearly maintenance
as outlined in your instruction manual.*

Super Easy to Follow In-Depth Instruction Manuals

Our sheds come with super easy to follow instruction manuals in full color. No other shed company has gone to this in-depth level of detail, making the build process as easy and user-friendly as possible.

Superior Quality Timber Used

We use only graded timber that is thicker and of better quality than any other sheds in our price range.

All Fixture and Fittings Supplied

No need to spend extra money on any other fixtures or fittings as everything is already supplied.

No Inferior Sheet Materials Used

We don't use OSB or other cheap sheet materials, which will disintegrate over time if in contact with water or moisture. Our timber won't!

We hope you enjoyed reading about all the amazing features of our sheds! From the quality timber to the easy-to-follow instruction manuals, we strive to make the best sheds possible. If you have any questions or would like to place an order, please visit our website or contact us.

Thank you for choosing our sheds!
