AWARD WINNING
SUPPLIER

ABOUT US

Tailored over the duration of 25 years, Meadow View Stone continues to both innovate and lead the market of decorative aggregates, paving and horticultural products within the Garden Centre Sector.

Having earned the GIMA GCA supplier of the year accolade for two consecutive years, our award-winning customer service team, combine 185 years of experience with expertise to develop and advance your business. Our sales team is committed to guiding customers and maximising sales, directing the most effective lines to stock, creative ways to merchandise and unique ways to promote.

MEMBERSHIPS

We are proud collaborators with the industry's leading charity Greenfingers, synergizing our individual expertise and business connections to raise money for this great cause, whilst also donating complementary products. Our commitment to such a great cause is evident through our Brand Managers role as a Greenfingers Ambassador, along with the company's silver supporter status, pledging to raise £10,000.00 by the end of 2025.

We are also prominent members of GIMA and GCA.

SUITABILITY ICONS

EXCEPTIONAL SERVICE & ADVICE - With over 185 years of industry expertise our in-house sales team offer a wealth of stocking and product advice backed up by a team of highly experienced sales agents.

5 DAY DELIVERY

Our delivery times from receipt of order are **5 working days.**

HOME DELIVERY

Home delivery is available see page 58 for full details.

OUR SITES

The four established production sites in Derbyshire, Shropshire, Liverpool and East Sussex, facilitated by additional dockside storage locations in Guiness, Rosyth, Rye and Garston, provide the company with increased stock holding, extensive production capacity and key logistical advantages.

ROSYTH

Our Scottish dockside storage facilities and 6 storage bays holds in excess of 20,000 tonnes of stock.

GUNNESS

Our North East dockside storage facilities and 10 storage bays holds in excess of 25,000 tonnes of stock.

DERBYSHIRE (Head Office)

Our Head Office site hosts 3 Bulk Bag and 6 pre-packed production lines. This 16 acre freehold site produces 200,000 tonnes annually. It also has 2 washing plants and a tumbler.

GARSTON

Our newest production site with dockside storage facilities and 21 storage bays holds in excess of 50,000 tonnes of stock, with a state of the art washing plant and 4 fully robotic packing lines.

PREES

Our West Midlands production site hosts 3 pre-packed and 2 Bulk bag production lines. This 6 acre site produces 100,000 tonnes annually.

RYE

Our largest production site with dockside storage facilities and 52 storage bays holds in excess of 30,000 tonnes of stock, with extensive washing facilities and 4 fully robotic packing lines.

MOEL TRYFAN

Our Moel Tryfan Quarry is located on the eastern slopes of a small mountain range, approx. 1,100 feet (340m) high, in northern Gwynedd. This 15-hectare quarry is now in full production with significant infrastructure in place to produce large volumes of the 20mm & 40mm Plum Slate chippings and rockery stone. Securing supply of these bestselling product lines for the next 25 years.

OUR STOCK HOLDING

Our multi-site operation and vast stock holding, provide the highest standards of product quality and competitive pricing, whilst making on-time in-full deliveries achievable to our expanding customer base, with:

- 65 acres of stock holding capacity
- Over 125,000 tonnes of storage
- Over £8 million stock holding
- Over 50 annual shipments
- 4 washing plants

QUALITY PRODUCTS

Meadow View Stone prides itself on supplying the cleanest and highest quality collection of aggregates and paving within our sector. This is achieved by our multiple washing and processing facilities and our vigorous quality control procedures.

FOUR WASHING PLANTS

Being the only supplier in our sector to have multiple washing facilities means our Premium collection of products are supplied cleaner and more accurately sized than all our competitors. The exceptional quality achieved by rinsing these products make them incomparable.

UNWASHED WASHED

Scan the QR code to see a video of our latest washing facilities at Garston. (Photo above)

WASHED

UNWASHED

SEE THE DIFFERENCE

Unwashed - See the large amounts of fine particles and silt coating the gravel which clearly obscures the colours.

Washed - See the contrasting clean washed gravel, with the layer of grime removed to showcase the colour and appearance of the gravel.

POS ICON

Endorsing the benefits of these premium quality washed products, this icon is displayed on all the relevant products Point of Sale.

SUPERIOR BAG QUALITY

Clear, transparent film showcases the products cleanliness, allowing customers to clearly distinguish the products unique aesthetic. Bold, modern fonts, work with vivid, impactful bag designs to establish each product, its size, coverage and suitability.

All our bags and plastic packaging contain a minimum of 30% recycled content, with the majority being fully recyclable.

All prepack bags are identified with the industry recognised LDPE4 recycling logo to promote and make customers aware that bags can be recycled at specialist centres/supermarkets. To find the nearest recycling locations for our bags, scan the QR code below:

OUR ENVIRONMENTAL POLICY

Our environmental policy dictates that we only supply ethically sourced materials from sustainable deposits, being operated within current legislative and ecological parameters.

We also undertake to source recycled products or industrial bi-products for relevant applications where possible. Our plastic, paper, cardboard and polypropylene bags from our processes throughout all our sites are recycled by a registered Waste Carrier company.

GIMA PLASTIC PLEDGE

By 2025 we will achieve...

- Elimination of unnecessary plastic packaging
- 100% plastic packaging reusable, recyclable or compostable
- 70% of plastic packaging to be recycled or composted
- 30% average recycled content across all plastic packaging

PLANET MARK

We are delighted to announce that we have committed to achieving Planet Mark Business Certification.

NEW POINT OF SALE

Recognising that Point of Sale has played a pivotal role in achieving the companies' unprecedented growth since its 2017 inception, Meadow View Stone have been analysing ways to improve and refresh merchandising. New design for 2025 season below:

AUGMENTED REALITY – REVOLUTIONISING THE WAY WE VISUALISE PRODUCTS

It's Easy, Adaptable And Dynamic

SCAN THE QR CODE: Use your mobile camera to scan the QR Code at the product's Point of Sale in store and give our visualiser access to your camera.

LOAD UP: The visualiser will promptly load onto your mobile device.

SCAN YOUR SPACE: Use your phone's camera to scan the area where you'd like to place the product. Our AR will map your surroundings for an accurate display.

PREVIEW THE PRODUCT: A virtual 2m x 2m sample of the product will appear, allowing you to visualise how it transforms larger spaces.

TOGGLE VIEWS: Effortlessly switch between wet and dry images to see the product in different conditions.

EXPLORE SIZES: Choose to view alternative sizes of the product, if they're available.

TRY AT HOME: Snap a photo of the QR code or keep in your browser to enjoy the visualiser at home or any location.

SAMPLE DISPLAY TRAYS - TOUCH, VISUALISE, PROMOTE

Steel sample trays are available subject to account size, to enable customers to see a true representation of each product. Manufactured from galvanised steel this sample tray offers:

- A robust, reusable solution that is built to last.
- Easy to attach for quick product refill.
- Angled design for allows visibility from distance.
- Reduces the risk of split bags.

WHAT'S NEW? HORTICULTURAL POUCH RANGE

Recognising a lack of “how-to” horticultural advice, we have collaborated with Chris Jesson (Groovy Gardener), a professional horticulturist and avid podcaster with a large social media presence.

Chris' expert horticultural knowledge will direct end-users on which products to use in specific applications.

- Resealable, pouch bags
- Graphic how-to-guides
- QR codes linking to video support
- Handy pouch bags offer a smaller scale purchase for customers
- Position next to larger bags or crated collection for linked sales

NEW RANGE

*Eden
collection*

A collection of horticultural grits, sands and gravel, this collection comes **#Groovygardeningapproved.**

Proven to aid drainage, and improve soil conditions these versatile products can be used for a multitude of tasks.

WHAT'S NEW? NEW AGGREGATES AND BLENDS

Persian Pink - A 20mm warm pastel pink chipping that adds a soft, contemporary touch to any outdoor space. Perfect for creating tranquil, on-trend designs.

Eco Sparkle – A 20mm blend that combines crisp white chippings with a silver recycled bi-product. This eco-friendly option enhances your garden's aesthetic and supports sustainable practices by re-purposing waste materials.

WHAT'S NEW? EDGING

Sales of concrete edging have decreased due to breakages, handleability and the expertise required for installation. Flexi-fix offers a single-solution with its integrated spikes and interlocking assembly.

Our range is available in three finishes: corten steel and powder coated steel in anthracite or black. Available in 100mm sizes for all finishes, or 150mm in Corten Steel. Engineered to last, this edging provides ultimate flexibility to create curves and corners whilst defining beds, pathways and lawns.

SLATE RANGE

Each year we supply over 50,000 tonnes of premium slate into the UK decorative aggregate sector. A significant proportion of this will now be supplied from our own quarry at Moel Tryfan.

- Multiple colours, sizes and complementing products
- Plum Slate 40mm still remains the highest volume selling prepack in the range.
- Multiple shipments to our production sites, provides significant stock holding of this range.

IMPROVED CRATES

As part of our efforts to make our products more user friendly we have switched our Rockery and Boulders collections to a new recycled “low profile” wooden crate design.

The robust, wooden, low-profile display crate is supplied pre-filled with stock and greatly improves the presentation and shop-ability of the rockery and boulders collection.

Retail friendly, stackable crate.

PREMIUM STEPPING STONES

Premium Natural Stone stepping stones are available in two random designs and two colours, Black Limestone and Fossil Buff.

A range of large impactful Oriental stepping stones are available in Olive, Ash and Sienna to provide a distinct point of difference.

The Bronte Stepping Stones are the finishing touch to the Bronte family of paving products. They are ideal to stock alongside the ever popular Bronte Slabs, but they also drive sales when stocked alone as the premium stepping stone pick-up line.

NOVELTY STEPPING STONES AND SLEEPERS

Our utility Sheldon Circular Stepping Stones in Buff and Charcoal provide a more cost effective option.

Novelty Stepping Stones also provide a quirky twist to any garden setting.

Our authentic wood effect Sleepers are ideal for creating pathways within a garden or landscaping area. The realistic wood effect creates a dramatic statement piece and will not degrade or flake like natural wood. Available in four size options and two colour choices of Cindered Ash or Aged Oak.

OUR RESULTS

Inspirational product displays are one of the winning attributes of our offering and these are available in a multitude of styles, varieties and themes which have proven to significantly increase sales and cross selling opportunities in store.

“The switch to Meadow View Stone this year has not only been great for sales but made a massive improvement to the look of our landscape area, inspiring our customers with their merchandising concepts. Backed up by outstanding service with probably the quickest turnaround for deliveries I have ever experienced ”
Stuart, Manager

**SALES
UP**

60%

“Clearly the right product lines were used, providing customers with a vision, ideas and inspiration for how their garden could look - the displays were the driving force for the sales increases we have witnessed.”

Tomas, Manager

**SALES
UP**

204%

“The transformation in our garden centre has been phenomenal. The display gardens built have not only attracted more customers but also inspired them to buy more. The sales figures speak for themselves!”
Bill, Manager

**SALES
UP**

94.5%

ST PETERS

St. Peter's Garden Centre, upon joining the Prosper group, switched to Meadow View Stone. A selection of inspirational display gardens were strategically positioned to captivate customers and stimulate cross selling opportunities.

POPLARS

Following a review, Poplars were keen to explore how they could continue to grow sales of this category. Three large themed display gardens provided an impactful focus. Results show they are delivering strong sales too!

SMITHS ORCHARD

Smiths Orchard has been Meadow View Stone stockist for many years and were looking to enhance their product presentation to boost sales and attract more customers. Two large display gardens were introduced and the retail space was transformed as were sales. This was thanks to effective merchandising of products within this category.

BROOKFIELDS GARDEN CENTRE

The Planters Group have been Meadow View Stone stockists for many years at their Tamworth, the Meadow View Stone team were tasked with installing a new hard landscaping area. With over 40 pallets of stock to be merchandised and a sequence of display gardens to build and theme.

“ I never thought of using stepping stones to create a pathway, I am definitely going to recreate that in the spring! ”

ORDERING

DECORATIVE AGGREGATE COLLECTIONS

Each pre-pack pallet or bulk bag equates to one full pallet with a minimum order requirement of 5 pallets, e.g. 2 x rockery and 2 x pallets of slate and 1 x bulk bag of decorative chippings would meet the 5 tonne requirement.

PAVING COLLECTION

Most products are packed at 500kg per pallet, therefore 2 pallets of paving equate to 1 pallet of aggregates, e.g. 10 pallets of paving make up the 5 tonne pallet requirement. A mix of any of the above, e.g. 3 pallets of aggregates and 4 pallets of paving make up the 5 tonne minimum pallet requirement. For customers who are not able to reach the above minimum order requirements we can despatch on a palletised carrier network, for which a small additional surcharge for delivery will be applied.

HOME DELIVERY

VEHICLES SIZE AND ACCESS

Please check that your customer has sufficient access to accommodate this size of vehicle (18 Tonnes) at their chosen point of delivery. The vehicle will require a minimum opening width of 3m to access the chosen delivery address. If your access cannot accommodate vehicles of this size it may result in failure to deliver, or the goods will then be delivered to the nearest kerbside at the discretion of the driver. Smaller vehicles are of limited availability and requests for these may delay delivery by up to two working days.

ROUTE TO YOUR CUSTOMERS PROPERTY

Please make sure that the route to the chosen delivery address is free from low hanging branches or obstacles, including cars, which may cause damage or obstruct delivery.

OFFLOADING

The driver will unload using a tail-lift and manual pump truck which can only be used on:

- Solid Hard Surfaces
- Surfaces Free From Gravel or Grass
- Flat & Level Ground With NO Inclines/Declines

RECEIPT OF GOODS

Please make sure that your customer is available to receive the order and sign for the material, or has made prior arrangements for a third party to do so on their behalf.

The following delivery criteria, needs to be assessed and agreed with your customer to ensure a smooth delivery is achieved. Failure to comply with these factors may delay receipt of the order, and may incur additional costs for failed or re-deliveries.

We can accommodate some customer's specific delivery restrictions and would be happy to discuss these to try and accommodate delivery – please discuss with a member of our sales team.

NOT A HIAB

Please note that the delivery will not be on a Hiab vehicle, so the goods will not be craned off.

PRODUCTS

We practise a policy of continuous improvement across our entire product range and material sourcing activity. While the product details contained within this guide were accurate at the time of print, we reserve the right to alter specifications or withdraw products from sale, without prior notice.

All products shown in this sales brochure are supplied subject to Meadow View Stone's terms and conditions of sale. All our aggregate products are naturally sourced and maybe subject to changes in their appearance, colour and size. Colour swatches are for reference only. We recommend viewing samples to ensure a fair representation of your chosen products. The company cannot be held liable for product batch changes in colour, particle size or shape due to processing variants or changes in appearance of these natural materials.

Many of our aggregate products have been mechanically screened through meshes to define the material size specified. While screening offers a more consistent sized product, it cannot eradicate material particles that exceed the defined size(s) in one dimension. All material grading sizes and size ranges are for guidance only.

Boulder & Rockery products purchased from our sources are based on an overall crate weight. Despite close attention to this within our quality systems, piece sizes and numbers per crates can vary. Quantities quoted should be considered as an average across a number of packs and pieces. All quarried materials can be subject to varying contaminants. Every effort is made to minimise this with suppliers. Naturally occurring Iron Oxide/Silicate and other metallic elements are impossible to eradicate fully. Such contaminants can result in staining. Meadow View Stone cannot be held liable for this natural occurrence either pre or post installation.

PACKAGING

BULK BAG

For larger requirements a selection of our products can be supplied in bulk bags, either via our home delivery service or for supply ex store.

PRE-PACK

Our range of decorative aggregates are supplied in premium quality, bright and attractive pre-pack bags, with clearly legible fonts in a highly transparent film which gives product clarity and showcases the cleanliness of our products. All prepack bags are supplied black wrapped to prolong the shelf life of the products, with each pallet clearly labelled for ease of locating in store.

No charge is levied for the Garden Centre Brochure and according to the company, it's employees and authorised agents can accept no liability whatsoever, either directly or indirectly arising from the use of its products in connection with any information or advice contained within. We can accommodate some customer's specific delivery restrictions and would be happy to discuss these to try and accommodate delivery – please discuss with a member of our sales team.

PAVING

All our Paving products are UK sourced and maybe subject to minor colour variations due to batch variations. Product pictures have been supplied for reference only. We recommend viewing samples to ensure a fair representation of your chosen products. All concrete paving products can be subject to a visual change of appearance once installed. Many concerns simply weather away in the early life of the paving/product. If issues are prolonged please don't hesitate to contact our customer service team on 01948 841 607. All paving and garden areas should be subjected to periodic cleaning and maintenance. The frequency of this will depend upon the environment. Meadow View Stone cannot be held liable for the effect of detritus upon any installed area.

PRODUCT APPEARANCE

All images displayed in this catalogue are from naturally sourced products that may be subject to changes in appearance, colour and size. Product and lifestyle photography depicts the products as accurately as printing process allows.

DELIVERY HANDLING AND STORAGE

Whilst every care is taken with your order, please check that it is in a satisfactory condition upon arrival. In the unlikely event of any concerns, please contact our customer service team immediately on 01948 841 607. The responsibility of the product and packaging transfers to the customer once it is removed from the delivery vehicle and has been signed for. For all product handling and storage we recommend that a comprehensive risk assessment and method statements are produced to ensure safe, sustainable and legal working practises at all times. This should include a full assessment of the ground conditions for safe stacking.

QUALITY POLICY

We have been accredited with ISO 9001: 2015 certification for the processing and supply of decorative aggregates.

PRODUCT APPLICATION

Products identified in this document are primarily designed for domestic garden applications. Guidance has been given on all products suitability of application via a series of icons. If you or your customer are unsure about any products suitability, please contact our customer service team on 01948 841 607.
