Well, we say every day is a 'dig your  
dog' day!

Our Doodlebone® range of  
accessories is designed for every  
dog who just loves being a dog!

Durable, practical, comfortable

# ABOUT OUR CORE RANGE

We've combined a number of essentials into this funky and fabulous Core range.

Hard wearing and durable, practical and safe, a great fit that's comfortable and reliable, and an amazing array of mix and match colours and patterns!

## The perfect fit

In a huge makeover, our design team measured over 300 dogs of all shapes and sizes to allow us to create an even better sizing system. The result is a better fit and a size that will suit pretty much any type of dog; short, tall, long, big and small! See our size guide on page 44.

All products are approved by a canine physiotherapist.

## Strong, safe, and washable

Our products get lots of wear so it's not surprising that we see safety and ease of use as the number one priority when we design them. Nearly all our products are machine-washable at 30 degrees to keep them in good condition and ready for your next walkies.

## Constant improvement and great service!

We're always looking at how we can improve our products, so you might notice that we have made a few small changes to some of them to make them even better!

Our team are here to keep you updated on everything Doodlebone® and, don't forget, we back up our confidence in our products with our unique no quibble lifetime guarantee.

# DOODLEBONE® RANGE OF COLLARS

A good, strong, safe collar that fits comfortably is super-essential to make walkies a fun time for both owners and their dog.

We offer two collars in the Doodlebone® range: our Collar and our Padded Collar.

Both are fully adjustable, designed with tough Polyester webbing and reinforced stitching, the only differences being the Padded Collar has a soft Neoprene pad on the inner side to reduce rubbing against the dog's skin, reflective stab stitching and a metal buckle.

Our fab five patterns match up beautifully with our six nifty colours across the range, with three sizes to cater for all dogs, titchy to gigantic.

# DOODLEBONE® RANGE OF LEADS

All dogs are different! Some pull much more than others so we've tried to cater for all temperaments and tastes. In the Doodlebone® Core range we offer three types of lead.

First up is the Lead. This is designed to match our Collar range and uses the same durable Polyester webbing and reinforced stitching.

Then there's our Rambler Retractable. With its soft-grip handle and clever one-touch quick-stop braking button to reel the dog in quickly and comfortably without a fuss, this is great for giving the dog freedom to roam safely.

Our Slip Lead and Rope Lead are made with the same nylon outer around a terrifically tough inner core for strength. The Slip Lead is 150cm long and the Rope Lead 120cm long with a clip fastener.
