We also have an extensive range of reservoirs, pumps, and water feature accessories.

# 45cm Wall Art

Our design team are consistently working hard to create new and interesting designs. Our metal wall art is laser cut from steel and then powder coated to prevent rust – allowing the metal art to be hung outside year-round. All of our wall art is 2mm in thickness and has a wall hanging at the back.

# Bird Feeder Hangers

Our bird feeder hangers are simple and stylish and allow you to place your bird feeder wherever you feel suitable; the screw on the end allows you to fixate the hanger almost anywhere! These hangers are suitable for those who do not have a tree in their garden as they can screw into a shed, wooden fence panels or even the side of your home if you create a pilot hole and wall plug.

A very popular gift which encourages wild birds to your garden.

# New Columns Range

Our design team have worked hard to create these modern cube columns. Each design comes in a set of 3, measuring at 20cm x 20cm x 70cm, 23cm x 23cm x 80cm and 25cm x 25cm x 80cm High. The set of three allows you to create distinctive design ideas in your garden, whether it is all three as a showstopper in the centre of the garden, or whether they are used to guide you to an entrance. We will be supplying waterproof lights to light up the columns at night - which we believe will be simply beautiful. (The light will be an additional cost.)
