In 2017, with both our children grown up, we found time to ask the question, 'What next?'

We have always had a passion for gardening and a love of the outdoors, often digging in the flower beds or walking our Labradors Evie and Minnie in the beautiful Herefordshire countryside, that is now our home.....

With our children grown up and off having adventures, in 2017 we decided to start one of our own.

We were determined to design and manufacture all of our own products in an ethical and sustainable way, and not buy 'off the shelf'. We also wanted to give something back, and the business actively supports causes that are close to our hearts.

So, using our twenty-five years of large corporate business experience, we launched a company that offered gift-oriented home and garden products for people that enjoyed a similar lifestyle and ethos.

Our focus was and still is, to offer our customers innovative and stylish new designs for practical products, packaged in a sustainable and giftable way. Therefore, every Jardinopia product can be a gift for a friend or loved one, or even for yourself!

This 'USP' has also ensured that our products are not only kept safe and undamaged in transit, but are also instantly attractive on the retail shelf.

Our first custom-designed range of plant pot feet, called 'Potty Feet', was an instant success, grabbing multiple awards. We then set about launching sister products 'Cane Companions', 'Feeder Friends', and 'Pot Buddies' - all of which similarly won awards. In 2022 we launched our Garden Wear & Tool Range, as well as Eco-Pots, Diffuser Décor and Daisy 'n' Jack ranges.

Crucially, we also took a huge step and opened our office in Jodhpur, India, to enable us to keep a firm hold on quality, to innovate more easily, and rapidly grow our 'White Label' business. We now work with over 100+ factories, and design, source and manufacture for many large companies here in the UK and abroad.

Jardinopia now sell their products to many of the world's biggest companies in over 80 countries, as well as to catalogues, online retailers, garden centres, gift shops, and high street/mall retailers.

We continue to innovate every day, regularly launching new designs and product ranges and we try to source, package and protect our environment in a responsible and sustainable way at all times.

Need to source a product?
We have over 100+ factories
Talk to us - we'll find it.

Give your pots a little lift

Our uniquely designed, and award winning, Potty Feet are perfect for raising your plant pots off the ground.

Presented in sets of 3 and boxed neatly within a recycled kraft card gift package, our Potty Feet make an ideal present for any gardener, or any indoor plant enthusiast.

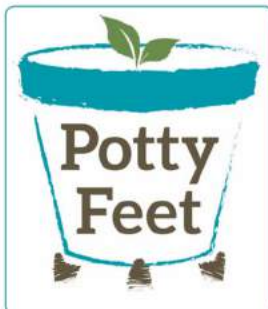

Made from a unique formula of crushed stone and poly-resin, our Potty Feet are designed to take any weight of pot and are frost proof, making them suitable for indoors or outside, all year around. Our Potty Feet are handmade and hand-painted using a lead free and UVA light resistant product, ensuring longevity of colour.

They also make the perfect gift for any occasion, creating an all year round sales opportunity.

So why give your pots a 'little lift'?

Our Potty Feet will help to:

- Improve air circulation for healthy root growth
- Prevent water-logging
- Reduce frost damage to your pots by improving drainage
- Prevent unsightly decking or patio rings
- Prevent staining to your carpet, wooden or tiled floor
- Deter unwanted pests from setting up camp under your pots

Handmade fairtrade Tealights

Made from 100% reclaimed metal, our **Indian Recycled Iron Wildlife Range** has been skilfully crafted by artisans in Rajasthan, in a fairtrade environment.

Designed by Jardinopia, our Wildlife Range is a beautifully unique and ecologically sensitive alternative to plastic décor and will add colour and interest to a garden at any time of year.

The Range offers a selection of **Garden Décor**, (feet can be easily pinned to the ground, or placed on a patio or shingle areas), **Hanging Tea lights** (which can be hung by its chain, or placed on a tabletop supported by its fins/feet, and features a little door to insert a candle) and our **Unique planters**.

As the products are all handmade, they will arrive as shown in the images, but colours may vary.

To protect from the elements in the UK, a lacquer coating finish has been carefully applied to the outside of every product in the Range.

Hanging Tea Lights - perfect for the pergola

MH-7568

Size: 39x10x30cm - Minimum order: 2
Recycled iron tealight fish. Comes with sturdy hook and chain, with an aperture which opens to place candle inside. Can stand upright on fins.

*Everyone needs
a buddy.....*

Our Pot Buddies are made from a unique crushed stone and poly-resin formula, making them frost proof, and, like our Potty Feet, ideal for inside or outdoors.

Handmade and hand-painted using a lead-free UVA light resistant product, Pot Buddies are ideal for adding a touch of glamour to your pot, vase, planter or any ridged surface they can cling to.

All of our Pot Buddies come singly (apart from our dinosaur combination packs) and packaged in boxes made from recycled kraft card, making them the perfect gift for loved ones and friends.

Cane Companions

Protect your vision whilst looking great

Handmade with identical materials to our Potty Feet, Pot Buddies and Feeder Friends, our Cane Companions are a fantastic way of protecting your eyes, and from snagging your clothes on canes or other garden stakes. Each Companion comes with a specially designed cone-shaped silicone insert, to ensure they fit most cane/stake sizes, and stay firmly attached to the cane/stake in high wind. Boxed singly.

"Don't worry, my friend will look after it"

Disguise ugly plastic plant feeder bottles in your lovely pots with our Feeder Friends.

Feeder Friends, like our Potty Feet and Pot Buddies, are made from a unique crushed stone and poly-resin formula, making them frost proof and ready for indoors or out, and hand-painted using a lead-free UVA light resistant product.

All of our Feeder Friends come gift packaged in recycled kraft card, accompanied by 2 general plant Feeder Bottles.

Replacement Feeder bottles are also available in replenishment sets of 3.

The plant food bottles fit all designs of Feeder Friends.

A few years ago, we decided to decorate our stand at RHS Chelsea Flower Show in a way that reflected our quirky and gift-oriented business. We made a "shop dressing" of miniature tools on a jute string and hung it across the stand.....

One customer, after the other, asked to buy it.

Our Tool Garlands were born.... They are made from 100% FSC approved mango wood and recycled metal, and feature five 'tools' on a 5 feet long jute string. All Garlands are gift boxed.

Introducing Munja.....

Our Fairtrade Indian Munja and reclaimed Sari fabric range is artfully crafted by combining a colourful thread, spun from factory fabric offcuts, and a tough, sustainably sourced, waterproof Munja.

Munja is a tough Asiatic grass (*saccharum munja*) whose tenacious culms are used for ropes, twine, and baskets, with great natural water repellent abilities - just like the reeds used in roof thatching in the UK.

- Our Munja is sustainably sourced from across India.
- Fairtrade guaranteed producers, with SEDEX certification.
- Produced by artisans who are paid a fair wage and treated well
- Robust, waterproof and strong products that will last the test of time

The Production Process

- Sustainably grow Munja grass on flood plains and tertiary land across India
- Harvest the grass two or three times a year
- Separate and dry the stalks
- Create the Munja threads for weaving
- Source reclaimed and surplus off cut sari fabric that would otherwise have gone into landfill
- Wash and separate the material into usable strands
- Supply artisans with the raw materials
- Watch decades of experience at work creating unique and unusual products
- The creation of environmentally sensitive products in a fair and transparent way

Why choose Plastic, when there's a better sustainable, and more ecologically sensitive option.

Our uniquely designed Eco-Pot brand has made it easier than ever to be kind to the environment whilst gardening.....

Our Eco Pots use two sets of materials - Bamboo, which is fully sustainable and recyclable, and recycled plastic bottles.

Our **Bamboo** Eco-Pots are made from sustainable, bamboo fibres and resin that comes from naturally occurring organic compounds. They are free from petroleum-based plastics and BPA's and utilize eco-decals, adding that little bit of glamour to your herbs, vegetables or flowers. When you need to dispose of them, they can be shredded or crushed and put on the compost heap, where they will naturally decompose.

Our **fabric based** Eco-Pots are made from 100% reclaimed plastic bottles, making use of the millions of reclaimed plastic bottles littering our streets, oceans and countryside.

Our fabric pots are also breathable, and feature grommets on the bottom to allow drainage. They are also lightweight, and once easily washed out, can be folded and stored easily.

ECO-POTS

Our beautiful hand embroidered & sustainably manufactured cushion range.

Designed for both looks and comfort and to complement our antique Indian furniture ranges, Jardinopia's innovative designs add glamour and sophistication to any room.

Made by hand, by skilled craftswomen (who have been taught embroidery by generations in the tribal regions of Kashmir, using 100% sustainably sourced cotton and repurposed fashion offcuts, our fairtrade cushions are sustainably manufactured to the highest quality.

Each cushion comes with poly fibre filling.

Our wonderful handmade acacia wood range, is crafted by skilled artisans, using FSC approved timber within a fairtrade environment.

Designed for Jardinopia, our acacia wood range offers a carefully curated collection of vases and shelves, all created by skilled artisans in Northern India. The acacia wood is finished with a protective lacquer coating to bring out the beauty and patina of the wood.

Acacia Wood Tower Vases

Our beautiful vases are made by placing blocks of acacia together into a 'tower' shape. Once formed, the vase is hand sanded to achieve each individual shape, and finished in a protective lacquer coating. Felt pads are added to the base to protect delicate surfaces. Our vases are ideal for holding dried or silk flowers, or as a statement piece for any room in the house. Each vase comes individually boxed.

They're ROARSOME!

New for 2024, our exciting new dinoplanters!

Our handmade and handpainted dinoplanters have been custom designed and produced by Jardinopia.

Made from resin and crushed stone, our dinoplanters are perfectly designed to make a feature of a beside cabinet, desk or window ledge and add a bit of fun to indoor plants.

Each cavity is deep enough to comfortably houses cactus, succulents, herbs, aloe and other smaller indoor plants.

Our dinoplanters are a fantastic alternative to dull ceramic or plastic pots, making a wonderful gift for children or adults alike.
