

...Because
We Love
Dogs

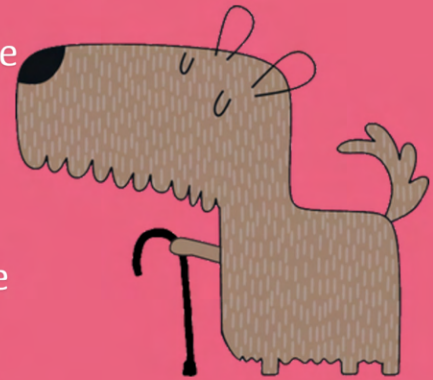

NO BATHS, NO MESS, NO PROBLEMS

WHO ARE NILAQUA PETS?

The team at Nilaqua are fanatical about pets and each have their very own four legged friend.

We love dogs so much and want them to be happy and healthy, acting like themselves and being free to enjoy the wonders of the world - without restriction. However we appreciate as a pet owner it can be frustrating when they traipse mud through the house or roll in poo which may result in them getting a hosing down before entering the home (sigh) who's got time for that!

Nilaqua Pets enables our four legged friends to roam free enjoying life to the full and when these little accidents do occur, we provide the best solution! Nilaqua has proven results in minimising stress to you AND your dog.

So we designed and made a range of safe, easy to use products that genuinely resolve issues for the pet and pet owner - in the most ethical way possible.

Nilaqua Pets is part of the Waterless Limited family business, manufacturing all our products ethically with a strong stance on sustainable results.

We love to give back and strive to make animal welfare a priority. Our charity partners are Greyhound Rescue Wales.

ECO PLEDGE

Every day we see the effects of climate change, from longer droughts to polluted seas and beaches. So what are we going to do about it? Well... lets innovate and change what we can.

We won't bore you with how much we have looked into various materials, where they are made, working conditions, energy it takes to make etc. Our conclusions are to work with UK manufacturers for raw materials, using as much recycled plastic as possible, which is further recyclable.

We work hard to improve our products constantly looking for new innovative Net Zero materials. We've invested into a new premises set up with fully renewable energy with the facility being powered by highly efficient solar panels.

Nil aqua Pets has committed to:

- 100% Recycled labels
- 100% Renewable energy
- A minimum of 100% PCR bottles
- FSC accredited cardboard and wipes
- Organised environmental events
- Ethical Awards by The Good Shopping Guide
- Cruelty Free and Vegan friendly
- ISO documented environmental policies
- Made in the UK, reducing carbon footprint

WHO IS IT FOR?

Water is the most precious commodity on the planet, why are we using so much? Pets are not meant to be constantly washed but we understand there are situations where this is essential.

We've developed a range to suit everyone's needs, whether it's a puppy shampoo or something for the more senior dog.

We even have shampoos for specific situations: poop masters or a surfer dog that loves the sand and salt water!

HOW DOES THE NO WATER SHAMPOO WORK

We are the original inventor of “Towel Off” pet shampoo, through years of experience and working with vets. We believe our specialist formulas provide the ultimate clean. We find foams and sprays sit on the fur. Nilaqua is not just a refresh but a deep cleansing wash that leaves no residue and is crafted to resolve your problems.

This is how to use the shampoo in 3 easy steps
