## luxurious scents, crafted to delight

CANDLES

Candles made from a blend of coconut and rapeseed wax, designed and crafted to ensure a clean, full, long-lasting burn that is both eco-friendly and sustainable.

Choose from 20 fragrances. High-quality oils fill any space with a rich and consistent scent.

Free from paraffin, soy, and palm oil, and come in recyclable packaging, making them a responsible choice for environmentally conscious consumers.

MELTS

Our fragrance melts are pretty pastilles of loveliness. Made from coconut and rapeseed wax with each one weighing approx. 12g (hand poured it's difficult to be exact) lasting up to 15 hours, decorated with botanicals, some locally foraged and dried myself.

They are packed in a biodegradable, compostable bag or grouped in kraft boxes, FSC-certified.

DIFFUSERS

Our reed diffusers are made from a 100% vegan base infused with premium fragrance oils. They are poured into a pretty round bottle sealed with a natural cork and come with 8 natural rattan reeds. They should give you at least 4 months of beautiful fragrance depending on the room temperature and how often you turn the reeds but they can last up to 8 months!

luxurious scents, crafted to delight

BODYCARE

Extend your home fragrance collection and a touch of luxury to your hand and body care with our selection of high quality scented hand and body washes and lotions.

Vegan + Paraben free

MISTS

Our room/linen sprays are great for that instant, lingering freshen up.

Developed with Cyclomethicone as a cosmetic-grade silicone base, we have 8 fragrances to counteract different smells.

GIFT SETS

Gifting is a delight in itself. Here we have curated attractive combinations of home fragrance to blend with any home.

I LOVE how natural and fresh this candle smells, it's literally my favourite scent. It doesn't smell artificial at all, when I walk in the room it genuinely smells like a flower shop – I am in love.

I added this scent to my recent order and it's gorgeous. It's so fresh smelling and the mint works perfectly with the rhubarb. As with the ginger and lemongrass candle (highly recommend this scent too!), the throw is incredible and makes my whole downstairs smell delicious! My only regret is I only bought one!

## candle making workshops

Thinking of workshops? Here's a great experience to offer your customers. There's a growing trend among those from all walks of life to embrace the fun, joy and social side in creating something of interest and value.

We can discuss your thoughts and design workshops to work in your premises. Make them a regular item, get other artisans on board to build a calendar of customer experiences!

# hello!

SÒLAS means light, brightness and enlightenment in Scottish Gaelic - born and raised in Aberdeen, my Scottish heritage is important to me and this simple, pure word fitted perfectly with what I was trying to achieve - the cleanest burning candles on the market.

I've lived in Southam, England since 1995, my candle making set out as a hobby early 2020. The intention is always to make great candles that burn beautifully, filling rooms with wonderful fragrances and work with materials that are entirely sustainable.

That's why we have chosen to use coconut and rapeseed wax; blended in Europe and made from rapeseed oil and coconut oil ... no soy, no paraffin, no additives, just eco. Learning how this wax works when combined with quality fragrance oils has been a labour of love and innumerable hours of

testing to provide quality, long burning candles and melts.

Our endeavour to offer best value fragrances for the home grew to include long lasting reed diffusers, mist sprays, body wash and body lotion. Each and every item to please our customers and be kind to the planet.

DoDo Pratt | founder | SÒLAS Home
