

INNISIBLE®

CREATIONS

by PROCare

Your space, your way

Explore our new range of accessible garden planters, pots and lights doubling up as grab rails.

About us

Invisible Creations was born out of a desire to make our homes and gardens both beautiful and accessible. Inspired by our founder's grandmother, who resisted installing traditional, clinical-looking grab rails, we have developed a range of products that seamlessly blend functionality with design.

Our new garden planters, pots, and lights are not just practical safety features - they are statement pieces that enhance the beauty of outdoor spaces.

Inclusive gardens

“Gardens are our sanctuaries, and our enjoyment shouldn't be limited or defined by circumstances outside of our control.”

- Director, Laura Wood

Gardens are more than just outdoor spaces; they're where we connect with nature, relax, and find solace. Gardening boosts physical strength, cognitive function, and social interaction. However, traditional safety features often detract from the beauty of these spaces, discouraging people from fully enjoying their gardens due to concerns about falls.

Invisible Creations is changing the narrative by offering practical, stylish solutions that ensure everyone can enjoy their gardens without compromise.

A unique range of dual-purpose garden products

The plant pot holder

A beautiful feature that cleverly disguises a built-in grab rail.

Codes:

97-20020 Polished steel

97-00012 Anthracite

The planter

A versatile addition to a garden, offering stability and style.

Code: **97-30002**

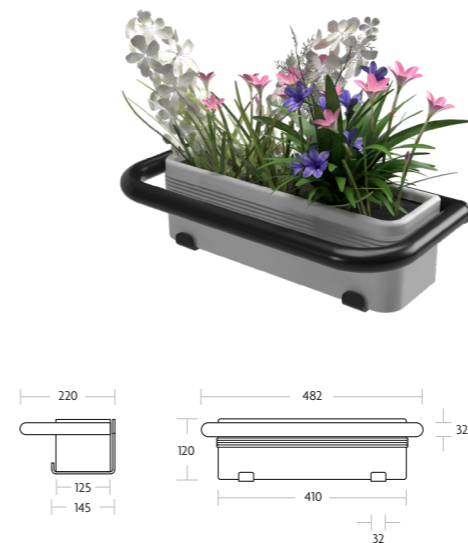

Our innovative garden planters, pots, and path lights are designed to discreetly double up as grab rails. These products provide essential support in areas with uneven, wet, or cluttered pathways, blending seamlessly into garden decor.

The wall planter

Adding charm to the home with built-in support.

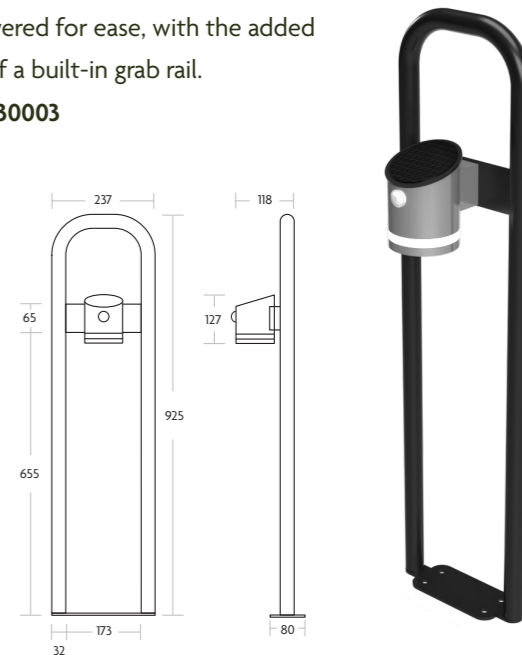

Code: **97-30001**

The path light

Solar-powered for ease, with the added stability of a built-in grab rail.

Code: **97-30003**

Mark Lane
Landscape Gardener & TV Presenter

“I’m proud to support a product that will make such a positive impact.”

A new era for gardens; why choose Invisible Creations?

The garden industry is evolving, with increasing demand for accessible and stylish products. Invisible Creations offers a unique opportunity to meet this demand with our innovative grab rails, designed in collaboration with end users and developed with the Design Age Institute at The Royal College of Art.

These dual-purpose grab rails seamlessly combine safety and elegance, eliminating the stigma of traditional mobility aids. By choosing this range, you can revolutionise gardening for older adults and those with access challenges, positioning your business as a leader in inclusive, accessible garden solutions.

The full accessible home and garden solution

Invisible Creations also offer a versatile indoor range of dual-purpose grab rails that combine elegance with practicality.

We are a brand of PROCare Shower and Bathroom Centre, a leading company in bathroom and kitchen adaptations.

Together, we bring experience and innovation to create adaptable products for both inside and outside the home.

With a shared mission to make life easier, we strive to blend style with functionality, ensuring that every home and garden is both beautiful and accessible.
