

WIRE GARDEN CENTRE TROLLEYS

BARROW STYLE (STNGCBARROW)

Introducing the Barrow Style Trolley, a classic design perfect for garden centres. Crafted from highly durable wire, this trolley is ideal for heavy-duty tasks like transporting compost. Its tall handle enhances manoeuvrability, ensuring ease of movement. Equipped with two sturdy wheels and four stable stands, it remains upright and secure even when not in hand. Additionally, this model is available with an optional second basket and four wheels, catering to various needs and preferences.

Dimensions

Height from floor to handle – 85 cm
Length from handle to front of basket – 128 cm
Length of basket – 93 cm
Width of basket – 68 cm

SINGLE BASKET (STNGCSINGLE)

This is a traditional style trolley for garden centres. The basket is made from extremely strong wire which is perfect for heavy duty use such as carrying compost.

The handle stands tall which helps with the movability of the trolley. It has two fixed wheels and four stands so that the trolley does not fall when the customer lets go of the handle. We also have this style trolley available with a second basket and four wheels.

Dimensions

Height from floor to handle – 93 cm
Length from handle to front of basket – 143 cm
Length of basket – 98 cm
Width of basket – 58 cm

DOUBLE BASKET (STNGCDOUBLE)

Garden centre trolleys are often difficult to move as they have to be lifted off their stands and pushed at the same time. This can make it a challenge to steer and can be too heavy for some customers. By adding two extra steering swivel wheels we have designed this trolley to be much easier to push and manoeuvre when loaded.

As there was space we also added a second basket so that smaller delicate items such as plants or fancy goods can sit in it and not be damaged by the heavier items in the larger main basket. This trolley is made with thick wire so is very strong and will have a good longevity. We do have this available with just one basket and one set of fixed wheels, if preferred.

Dimensions

Height from floor to handle – 93 cm
Length from handle to front of basket – 143 cm
Bottom Basket - Length of basket – 98 cm
Width of basket – 58 cm
Top Basket - Length of basket – 36 cm
Width of basket – 56 cm
