Razorsharp® Ratchet Action Telescopic Tree Pruner

A new addition to the best-selling Spear & Jackson Razorsharp® range of performance cutting tools is the Ratchet Action Telescopic Tree Pruner. Using a pulley system the ratchet action mechanism and extendable pole of this tree pruner combine to give the ideal solution for cutting overhead branches that are too challenging to handle for other pruners.

Razorsharp® Ratchet Action Telescopic Tree Pruner

- High Carbon Steel Blades for strength and lasting sharpness
- PTFE coated for a smoother cut and increased rust resistance
- 315mm (12.5 ") Saw Blade for cutting thicker branches
- Ratchet action allows easy pruning in 4 short steps
- Telescopic Aluminium Handle extends 2980mm (9.75 ft)
- 10 year performance guarantee

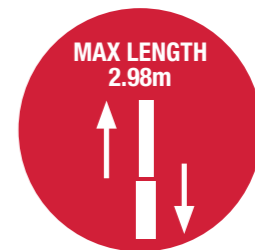

Shown with saw blade attached.

The extending pole may be twisted and locked in position to suit the height that you wish to reach. The branch is positioned between the jaws of the pruner and the cord is pulled down to make the cut. When you feel the resistance of the cutting action on the branch release the cord slightly and the ratchet mechanism will click on to the next notch. The cut is completed in four easy stages with minimal effort.

A saw blade is included for any larger branches that are too big to fit between the jaws of the pruner.

Traditional Stainless Mini Border Rake

The latest addition to the popular range of Traditional Stainless hand tools. Compact in size for easy removal of leaves and debris from smaller spaces between shrubs and plants, tubs, borders, in flower beds and veg patches.

- Mirror-polished Stainless-steel tines and ferrule for easy cleaning and enhanced resistance to rust
- A fan of nine, flat, stainless-steel tines created to prevent leaves and debris from getting caught on sharp edges clogging up the rake
- Contoured, weatherproofed, durable hard wood shaft with burnt-in branding for comfortable handling
- Handy leather cord for hanging in the tool shed
- Lightweight and easy to use
- Guaranteed for 10 years

For maximum impact and ease of display at point of sale the new Kew Woodland collection is presented in a floor standing display unit which holds 20 pairs of Secateurs and 10 pairs each of the Hedge Shears and Loppers

Kew Gardens Collection Eco-Kind Gloves

Introducing the new Kew Gardens Eco-Kind Gloves manufactured using recycled Polyester, these new gloves support our ongoing efforts to deliver more sustainably made products.

25% of the composition of each pair of gloves is recycled, this equates to one 500ml recycled plastic bottle per pair! The production process used to make these gloves conserves 8-16ml of oil and 14-28g of CO2 versus standard glove production. Moreover, when these gloves reach the end of their working life, they will biodegrade up to 40 times faster than typical landfill.

MADE FROM RECYCLED BOTTLES

- Recycled Polyester backs with a water-resistant coating, effective for up to five washes at 30°C
- Diamond-embossed nitrile palms provide a secure grip in both wet and dry conditions
- Available in three sizes: small, medium, and large, for a flexible and comfortable fit
- Ideal for lighter duty tasks around the garden

For maximum impact and ease of display at point of sale the new Kew Eco-Kind Gloves are presented in a counter-top display unit which holds 40 pairs of gloves, 10 small, 20 medium and 10 large pairs.

Kew Gardens Collection Dutch Style Trowel

A unique midi length trowel with a heart-shaped head featuring a pointed tip for creating a planting hole or shallow furrow in the soil. Ideal for planting out seedlings, small plants, or bulbs.

- A heart-shaped head made from easy clean, rust resistant, mirror-polished stainless steel
- A pointed tip is used to easily break the ground and chamfered edges help to cut through the soil and slice through thin roots
- Sustainably sourced weatherproofed, durable FSC® wooden handle
- Midi length handle makes it easier to reach into beds and borders and is ideal if working from a seated position
- Overall length: 475mm
- Weight: 0.33Kg
- Guaranteed for 10 years

Razorsharp® Advance Compound Action Bypass Secateurs

Ideal for pruning thicker, harder stems up to 15mm in diameter the Compound Action cutting mechanism of these secateurs gives added cutting power without the need for extra effort so there is less strain on the hands when pruning for extended periods of time.

- Hardened Carbon Steel blades stay sharper for longer
- The upper blade has a non-stick PTFE coating for a smooth cut and increased resistance to rust
- Cast alloy body for enhanced strength and lasting durability
- An ergonomically shaped handle with a soft feel grip sits comfortably in the hand
- The ambidextrous locking catch ensures the blades stay closed for safe carrying and storage
- Overall length: 200mm
- Weight: 0.24Kg
- Guaranteed for 10 years

Razorsharp® Easy Reach Pruner

The latest addition to the Spear & Jackson Razorsharp® range of cutting tools the Telescopic Easy Reach Pruner is lightweight and easy to use and ideally suited to light pruning work in hard-to-reach places. Its Carbon Steel bypass action blade mechanism is best suited for delivering a clean cut on live, green stems up to 7.5mm in diameter.

- The upper blade has a non-stick PTFE coating for a smooth cut and increased resistance to rust
- The lightweight but strong tubular Aluminium shaft is telescopic and may be adjusted from 1250mm when closed to 2000mm when fully extended.
- The adjustable handle grip may be positioned and fixed at any point along the shaft for comfortable use and it folds down for easy storage
- The body and cutting head rotate for ease of use and to give the optimum cutting angle
- A cut and hold mechanism is ideal for cutting and holding fruit and flowers
- Length when closed: 1255mm
- Weight: 0.71Kg
- Guaranteed for 10 years
