About

Annie is a jewellery maker based in Bristol in the Southwest of England. Her unique style is contemporary yet classic, sophisticated yet timeless.

Annie's designs are inspired by geometric shapes found in the natural world and Annie is very passionate about creating eco-friendly and sustainable jewellery.

Annie's designs are such that they can worn with either everyday attire or with formal wear - they have a considerable versatility.

Environmental Impact

Annie Bennett Jewellery is made from 100% recycled sterling silver, which is equal in quality to unrecycled precious metals. It is made from silver entirely recycled from giftware, jewellery and electronics. This makes Annie's jewellery more environmentally friendly as precious metal waste is reduced and she creates no further need for explorative resource extractions.

All the packaging Annie uses is made from recycled card and is recyclable.

Every step of the process is ethical and sustainable so why not make ethical sourcing a key part of your jewellery making story knowing that all of Annie's jewellery is eco-friendly?
