Our story

With a traditional merchant background in agriculture, and roots stemming back from 1962, our extensive knowledge and expertise combined with cutting-edge technology to create specially formulated mixes of seeds, maize, grains and oils. Providing a nourishing, well-balanced diet is essential in successful bird keeping. We truly understand the importance of this, and our products ensure your feathered companions live a life of optimum health, happiness and performance.

Our products

Carefully sourced from only natural ingredients, from the right climatic environments for your breed, our formulated blends are full of flavour and texture for your bird's enjoyment. On top of this, the wide variety available allows you to select a feed suited specifically for the individual conditions and nutritional requirements of your bird. Using our modern manufacturing process, we are able to maintain top levels of control from start to finish throughout production. This ensures the highest levels of cleanliness and quality in our mixes, guaranteeing excellence across all our products.

Breeding

'Here at Tumley Lofts we have been using Countrywide corn for many years and found this to be a good clean corn that our birds grow and fly well on. We have always received compliments of how our birds look and handle, and the most common complement we receive is "they look like the best in the show". We use Countrywide Ponderosa Special Breeder Mix and we are happy to say is that our birds are in the best condition we have ever had.'

– **James & Vicky Cook, Tumley Lofts Stud, Beaworthy, Devon**
