

## TREVI LED GROW LIGHT

Designed for easy installation in vertical farms, racks, benches and under shelving. Trevi's lightweight design incorporates an integrated heatsink for optimal thermal management. Additionally, the built-in driver allows connection straight to mains. The spectral output from the Trevi is broad spectrum, exposing plants to multiple wavelengths. With a built-in lens providing 120 degree coverage, large areas can be illuminated with a single light. Trevi is an ideal replacement for traditional T5/T8 lamps.

IHS LED grow lights offer superior quality at competitive prices

Broad spectrum light to improve overall plant growth

Integrated power supply

IP65 protection

3 year warranty

Easy installation

Supplied with mounting brackets, mains cable and terminating cap

# TREVI-15W-SINGLE-UK

Power	15W
System efficacy	2.3 $\mu\text{mol}/\text{J}$ @ 220Vac
Input voltage	100-240V, 50-60Hz
Power factor	>0.90
Dimensions	625 (592 end cap to end cap) x 32 x 36mm
Weight	0.3kg
Operating temperature	0°C to 40°C
PPF output	35 $\mu\text{mol}/\text{s}$
