## SPRING | SUMMER

### 2022

**högl**

# contemporary ease

With a difficult few months behind us, we wanted our Spring/Summer 2022 collection to be calming yet playful. It's a stylish pause as we breathe a sigh of relief, followed by an upbeat look into the future. We are longing for a new beginning, for a life that's just easy.

The collection is characterized by new, innovative, easy silhouettes. Contemporary femininity, reduced design in new, soft and fresh colours - always paired with the highest standards of comfort.

Minimalist aesthetics, which impress with pureness and comfort, exude serenity. This is reflected in light, soft shades – we are carrying over the stripped-back colours of the Fall/Winter 2021 Collection. Enjoy neutrals like ecru or cream and soft pastel tones in fresh colours like “banana” and “lightjeans”. By combining natural materials with a handcrafted look, we've mastered the art of creating authentic-looking shoes that are in tune with the natural world. The warm, natural tones come together to give off a harmonised look. Then add in one of our unique and striking designs to really watch them bloom. Intense colours, complex floral prints, tie-dyes and expressive materials spread the joy of fashion.

The material used for most of the collection is a high-quality, super soft nappa leather that holds LWG Gold certification for its sustainable processing. We are continuing to use eco-friendly materials seen in previous seasons such as regenerated nylon (ECONYL®) or Oeko-Tex cotton. Organic nappa is being added as innovative, sustainable upper material. Thanks to its 100 percent pollutant-free production, it is the perfect choice to play opposite the Leather Working Group certified leather. What unites these materials is their luxurious feel, allowing us to create comfortable, high-quality shoes that turn into long-living companions.

Sustainability starts with quality. That is why we do not strive to develop more and more models, but rather to make every single shoe better and better.

Reduced & concentrated, modern, easy & harmonious:

The ESSENTIALS section of our collection reimagines casual heels and loafers. Opt for a tonal colour scheme, square toe or covered heels in new shapes to give your feet an innovative yet casual makeover. Sandals and flats with soft, padded straps put the tubular look front and centre. Meanwhile, choose between a woven look, twists or delicate gathering to bring a more handmade aesthetic to your footwear.

The WEEKEND section explores a more sporty attitude, giving off a relaxed and easy-going vibe. Chunky soles are a major focus in the Spring/Summer 2022 Collection, especially when it comes to our sporty sandals and comfort slides. Soft volume is still the star in this line-up. This is where voluminous quilted materials and padded textures meet minimalist aesthetics, turning comfort into a fashion icon in its own right. Our sneakers are also getting a glow-up with a range of new colour combinations. Pick from pure white, white and pastel tones broken up with bursts of colour, or classic colour blocking.

## ESSENTIALS

A collection of timeless, modern styles complete with an immaculate, handcrafted finish. Discover everyday, casual styles that offer maximum comfort or check out our selection of reworked classics, with designs featuring stylish detailing and a sophisticated finish. This part of the collection embraces neutral tones and soft pastels, and with high-quality, super soft nappa leather, they're made to last.

### BUSINESS CASUAL

We've updated our year-round classics with a fresh new look that hits on the latest trends. Our new heels and ballerinas have been upgraded with a modern and equally reduced design that's guaranteed to survive the ebb and flow of fashion.

### SOFT AND EASY LOAFER

Classic turned trend: our loafers are back in the limelight in a new, casual design. These comfortable high-fronted heels and flats take fashion to a whole new level, thanks to their ensemble of slightly rounded square toes, new heel shapes and super soft nubuck leather. Easy going at its best.

#### SUMMER COMFORTS

Round off your summer wardrobe with these eye-catching flat sandals, perfect for everyday wear and, thanks to their distinctive square toe, the ideal way to add an edgy, modern flair to your outfits. From the colours to the designs, everything about this collection is delicate and super soft. There is a quiet sense of restraint about these sandals and their understated straps, which are also available as padded tube straps that follow the latest trend. Most importantly, this is where comfort meets modern femininity.

#### CONTEMPORARY WEDGES

You can never go wrong with summery platforms in fresh colours, the ultimate fashion essentials for any wardrobe.

## WEEKEND

Smart at ease: Weekend means relaxed volume, soft silhouettes and maximum comfort. This part of the collection focuses on sporty styles and casual, simple designs that embody a laid-back attitude towards life. Authentically strong: the charm of these sandals and sneakers lies in their unusual, distinctive soles. Mostly associated with minimalist comfort slides, the Weekend collection stands for comfort and ease.

### SPORTY SANDALS

This Spring/Summer, say goodbye to heavy combat boots from the winter season and hello to sandals with new, chunky soles. With their rugged look, these chunky and sporty sandals make for an aesthetic, stylish contrast to airy summer clothes and classic outfits, placing them squarely in statement piece territory.

### COMFORT SLIDES

Chic meets wearability: there's a good reason we gave our mules this title. Not only do these comfort slides exude comfort with every step, they could win awards for their versatility. Meanwhile, the deep footbed perfectly fulfils our criteria for comfortable fashion mixed with aesthetic design. Subtle sense of style is evident in the monochrome design by matching the colour of the soles to the upper material.

#### SNEAKERS

Sneakers will also be huge this season, injecting a hint of the casual into classic business chic. Live life in full colour with our Spring/Summer sneakers. We're moving away from pure white in favour of splashes of colour, metallic accents and all-over-pastel. With their expressive colours and bold colour blocking, these sneakers are not afraid to draw attention to themselves. A chunky sole is also a key feature in our new sneaker concepts, such as the New Performance Runner, which, thanks to the use of ultra lightweight material, still feels light as a feather.

#### ESPADRILLES

Espadrilles are what happens when you combine creativity and artisanship. Whether you opt for sandals, wedges or slide sandals, this shoe radiates casual chic. Fall in love with sophisticated details that add a touch of extravagance, such as our chunky and yet lightweight EVA soles with braided raffia edging, a confident floral print, or warm natural tones like summery reed green and almond. As almost all of our materials are 100% natural, our espadrilles are remarkably light and airy.
