## ABOUT US

✗ Jasimpex is a family owned company established in 1992 in a small city in Northern Serbia. What has started as a small textile production company with only five to six second-hand sewing machines; today, we can proudly say that we own more than 1500 m2 of facilities and over 20 modern machines including automatic machines, professional software for cutting and so on.

The company's main activity is the production of adult garments including cotton T-shirts, polo shirts, hoodies and polyester vests which we complete with a print or embroidery. We offer embroidery, screen and transfer printing for which we use durable and resistant paints and threads.

Our main competence is on time delivery and having variety of fabrics' colors on stock as well as high level of flexibility in product production e.g. different collar color from the polo shirt, different width or color of rib etc.

✗

We are constantly enhancing our production by investing into new technologies. Our commitment to keep delivering high quality goods at the affordable price is still among our main aims for our clients.
